(*h*) the amount of wages due to any seaman who enters Her Majesty's service during the voyage : Wages of men entering Navy.

(*i*) the wages due to any seaman or apprentice who dies during the voyage, and the gross amount of all deductions to be made therefrom : Wages of deceased seamen or apprentices.

(*j*) the sale of the effects of any seaman or apprentice who dies during the voyage, including a statement of each article sold and of the sum received for it : *and* Sale of deceased men's effects.

(*k*) every collision with any other ship, and the circumstances under which the same occurred. Collisions.

Entries in official log when to be made.

167. (*1*) Every entry in such official log shall be made as soon as possible after the *event* to which it relates, and no entry in respect of an *event occurring* previously to the arrival of the ship at her final port of discharge shall be made more than twenty-four hours after such arrival.

(*2*) If any entry *is made after the day* on which the *event* to which it relates *occurred,* the *dates* both of the event and of making the entry shall be shown therein.

Entries in official log how to be signed.

168. *Every* entry in such official log shall be signed as follows, that is to say :—

(*a*) every entry shall be signed by the master ;

(*b*) every entry of illness or injury shall be also signed—

(*i*) by the *medical officer of the ship or, if there is no such medical officer, by some other* surgeon or medical practitioner (*if any*) on board, and

(*ii*) by the mate or some other member of the crew ;

(*c*) every entry of wages due to, or of the sale of the effects of, any seaman or

The Indian Merchant Shipping Bill, 1892.
(Part III.—Masters, Seamen and Apprentices.—Chapter XIX.—The Official Log.—Sections 169-172. Chapter XX.—Recovery of Fines imposed abroad.—Section 173). Part IV.—Safety and Prevention of Accidents.—Chapter XXI.—Life-saving Appliances.—Sections 174-175).

by the mate and by some other member of the crew;

(*d*) every entry of wages due to any seaman who enters Her Majesty's service shall be also signed—

(*iii*) *by the mate or some other member of the crew, and*

(*iv*) by the seaman or the officer authorised to receive the seaman into such service; and

(*e*) every entry not specified in clause (*b*), clause (*c*) or clause (*d*) shall be also signed by the mate or some other member of the crew.

169. (*1*) If in any case an official log is not kept *as* required *by this chapter*, or if any entry *required by this Act* to be made *by the master or by his direction* in such log is not made *as required by this* Act, *or if any entry is not signed by the master as required by this Act*, the master shall, if no other penalty is provided by this Act, be punished with fine which may extend to fifty rupees.

Penalties in respect of official logs.

(*2*) Every person who makes or procures to be made or assists in making any entry in an official log kept under this chapter, in respect of any *event occurring* previously to the arrival of the ship at her final port of discharge, more than twenty-four hours after such arrival, shall be punished with fine which may extend to three hundred rupees.

(*3*) Every person who wilfully destroys, mutilates or renders illegible any entry in, or wilfully makes or procures to be made or assists in making any false or fraudulent entry or omission in, any such official log, shall be punished with imprisonment for a term which may extend to one year.

170. All entries made in any such official log *in pursuance of this Act or any other law shall if signed as thereby required*, be admissible in evidence.

Entries in official log to be admissible in evidence.

171. (*1*) The master of every foreign-going British ship, *whether registered in British India or not*, shall, within forty-eight hours after the ship's arrival at her final port of destination in British India, or upon the discharge of the crew, whichever first happens, deliver to the *Superintendent of a Mercantile Marine Office* before whom the crew is discharged the official log of the voyage.

Delivery of official log to Superintendent periodically.

(*2*) The master or owner of every home-trade British ship, *whether registered in British India or not, which is required by section 31, sub-section (3), to have a certificated master* shall, within twenty-one days after the thirtieth day of June and the thirty-first day of December in every year, transmit or deliver to some *Superintendent of a Mercantile Marine Office* in British India the official log for the preceding half-year.

(*3*) Every master or owner who refuses or neglects to deliver *or transmit* an official log as required *by this section* shall be punished with

172. (*1*) If any British ship *registered in British India* ceases, by reason of transfer of ownership or change of employment, to fall within the operation of section 165, the master or owner thereof shall, if the ship is then at any port in British India, within one month, and, if she is elsewhere, within six months, deliver or transmit to the *Superintendent of the Mercantile Marine Office* at the port to which the ship belonged the official log duly made out to the time at which she ceased to be within such operation, and in default shall be punished with fine which may extend to one hundred rupees.

Delivery of official log to Superintendent in case of transfer, loss or abandonment.

(*2*) If any British ship *registered in British India* is lost or abandoned, the master or owner thereof shall, if practicable, and as soon as possible, deliver or transmit to the *Superintendent of the Mercantile Marine Office* at the port to which the ship belonged the official log (if any) duly made out to the time of such loss or abandonment, and in default shall be punished with fine which may extend to one hundred rupees.

CHAPTER XX.

RECOVERY OF FINES IMPOSED ABROAD.

173. Where any person, being the *owner or* master *or a member of the crew* of a British ship, is tried under *this Part* at any place *in Her Majesty's dominions* beyond British India for an offence for which a fine is imposable, any fine imposed shall be recoverable in the currency of such place.

Recovery, in local currency, of fines imposed abroad.

PART IV.

SAFETY AND PREVENTION OF ACCIDENTS.

CHAPTER XXI.

LIFE-SAVING APPLIANCES.

174. *Nothing in this chapter shall apply to—*

Exemption of certain ships.

(*a*) *any ship which is duly provided with appliances for saving life at sea in accordance with rules made by the Board of Trade under the Merchant Shipping (Life-saving Appliances) Act, 1888, and for the time being in force,*

(*b*) *any ship which is duly provided with boats and other appliances for saving life in accordance with rules made by the Governor General in Council under section 324 and for the time being in force, or*

(*c*) *native craft not square-rigged.*

175. *It shall be the duty of the owner and master of every British ship to see that his ship is provided, in accordance with rules made under this chapter, with such boats, life-jackets and other appliances for saving life at sea as, having regard to the nature of*

Duty to carry life-saving appliances.

[Act 1854; Bill s. 2; 1888; Cf. 287 s. 1] [Act 188] [51 c.]

The Indian Merchant Shipping Bill, 1892.
(Part IV.—Safety and Prevention of Accidents.—Chapter XXI.— Life-saving Appliances.—Sections 176-180. Chapter XXII.—Inspection of Ships with regard to Lights and Fog-signals.—Sections 181-182.)

the avoidance of undue encumbrance of the ship's deck, are best adapted for securing the safety of her crew and passengers.

Power to make rules.

176. *The Local Government may make rules with respect to all or any of the following matters, namely:—*

(*a*) *the arranging of British ships into classes, having regard to the services in which they are employed, to the nature and duration of the voyage, and to the number of persons carried ;*

(*b*) *the number and description of the boats, life-boats, life-rafts, life-jackets and life-buoys to be carried by British ships, according to the class in which they are arranged, and the mode of their construction ; also the equipments to be carried by the boats and rafts, and the methods (which may include oil for use in stormy weather) to be provided to get the boats and other life-saving appliances into the water ;*

(*c*) *the quantity, quality and description of buoyant apparatus to be carried on board British ships carrying passengers, either in addition to or in substitution for boats, life-boats, life-rafts, life-jackets and life-bouys.*

Penalty for breach of rules.

177. *If any British ship required by rules made under section 176 to be provided with appliances for saving life at sea proceeds on any voyage or excursion without being so provided, in accordance with the rules applicable to the ship, then, if the owner appears to be in fault, he shall be punished with fine which may extend to one thousand rupees, and, if the master appears to be in fault, he shall be punished with fine which may extend to five hundred rupees.*

Appointment and powers of inspectors.

178. *(1) The Local Government may appoint persons to inspect British ships in any port, for the purpose of seeing that such ships are properly provided with appliances for saving life at sea in pursuance of the rules made under section 176.*

(2) Every person so appointed shall, in the port for which he is appointed, have, for the purposes of such inspection, the following powers (that is to say)—

(*a*) *he may go on board any British ship and may inspect the same or any part thereof, or any of the boats, equipments or articles on board thereof, not unnecessarily detaining or delaying her from proceeding on any voyage ;*

(*b*) *he may, by summons under his hand, require the attendance of all such persons as he may think fit to call before him, may examine such persons, and may, by a like summons, require returns in writing to any enquiries which he may think fit to make ; and*

(*c*) *he may administer oaths, or may, instead of administering an oath, require any person examined by him to make and subscribe a declaration of the truth of the statements made by him in his examination.*

Notice of deficiency to be given to master or owner by such inspectors.

179. *If any person so appointed finds that any British ship is not so provided, he shall give to the master or owner notice in writing pointing out the deficiency, and also what is, in his opinion, requisite in order to remedy the same.* Cf.

Port-clearance not to be granted till inspector certifies that ship is properly provided with life-saving appliances.

180. *Every notice so given shall be communicated, in such manner as the Local Government may direct, to the Customs-collector at any port from which such ship may seek to clear ; and no officer authorised to grant a port-clearance from such port shall grant the same without a certificate under the hand of some person appointed as aforesaid, to the effect that the said ship is proprely provided with appliances for saving life at sea in pursuance of the said rules.* Cf.

CHAPTER XXII.

INSPECTION OF SHIPS WITH REGARD TO LIGHTS AND FOG-SIGNALS.

Appointment and powers of inspectors of lights and fog-signals.

181. (*1*) The Local Government may appoint persons to inspect, in any port, ships, whether British or foreign, to which the regulations for preventing collisions at sea, issued under the Merchant Shipping Act Amendment Act, 1862, or any other similar law for the time being in force, may apply, for the purpose of seeing that such ships are properly provided with lights and with the means of making fog-signals, in pursuance of such regulations or law. [A[illegible] 18[illegible] Cf. ss. 25 c.[illegible]

(*2*) Every person so appointed shall, in the port for which he is appointed, have, for the purposes of such inspection, the following powers (that is to say)—

(*a*) he may go on board any ship and may inspect the same or any part thereof, or any of the equipments or articles on board thereof, not unnecessarily detaining or delaying her from proceeding on any voyage ;

(*b*) he may, by summons under his hand, require the attendance of all such persons as he may think fit to call before him, may examine such persons, and may, by a like summons, require returns in writing to any enquiries which he may think fit to make ; and

(*c*) he may administer oaths, or may, instead of administering an oath, require any person examined by him to make and subscribe a declaration of the truth of the statements made by him in his examination.

Notice of deficiency to be given to master or owner by such inspectors.

182. If any person so appointed finds that any ship is not so provided, he shall give to the master or owner notice in writing pointing out the deficiency, and also what is, in his opinion, requisite in order to remedy the same.

The Indian Merchant Shipping Bill, 1892.
(Part IV.—Safety and Prevention of Accidents.—Chapter XXII.—Inspection of Ships with regard to Lights and Fog-signals.—Section 183. Chapter XXIII.—Survey of Steam-ships.—Sections 183-194.)

Port-clearance not to be granted till inspector certifies that ship is properly provided with lights and fog-signals.

183. Every notice so given shall be communicated, in such manner as the Local Government may direct, to the Customs-collector at any port from which such ship may seek to clear; and no *officer authorised to grant a port-clearance from such port* shall grant the same without a certificate under the hand of some person appointed as aforesaid, to the effect that the said ship is properly provided with lights and with the means of making fog-signals in pursuance of the said regulations or law.

CHAPTER XXIII.

SURVEY OF STEAM-SHIPS.

Certain steam-ships carrying passengers to have certificate of survey.

184. (*1*) A British or foreign steam-ship shall not carry more than twelve passengers between *ports* in British India, and

a British steam-ship shall not carry more than twelve passengers to or from any *port* in British India from or to any place out of British India,

unless she has a certificate of survey under this chapter in force and applicable to the voyage on which she is about to proceed, or the service on which she is about to be employed.

(*2*) Nothing in sub-section (*1*) shall apply to—

(*a*) any steam-ship having a certificate of survey granted by the Board of Trade or any British Colonial Government, unless it appears from the certificate that it is inapplicable to the voyage on which the steam-ship is about to proceed, or the service on which she is about to be employed, or unless there is reason to believe that the steam-ship has, since the grant of the certificate, sustained injury or damage, or been found unseaworthy or otherwise inefficient; or

(*b*) any steam-ship having a certificate of survey granted under Part X in force and applicable to the voyage on which the steam-ship is about to proceed, or the service on which she is to about to be employed; or

(*c*) any steam-ship carrying passengers during the interval between the time at which her certificate of survey under this chapter expires and the time at which it is first practicable to have the certificate renewed.

Power for Local Government to except certain steam-ships.

185. The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare that all or any of the provisions of this chapter shall not apply in the case of any specified class of steam-ships or shall apply to them with such modifications as the Local Government may prescribe.

Penalty for carrying passengers without certificate of survey.

186. (*1*) If any steam-ship carries or attempts to carry passengers in contravention of section 184, the owner and master of the steam-ship shall each be *punished with* fine which may extend to one thousand rupees.

(*2*) If the master or any other officer of any steam-ship which carries or attempts to carry passengers in contravention of section 184 is a licensed pilot, he shall be liable to have his license as a pilot suspended for any period, or cancelled, by the Local Government, as the Local Government may see fit to order.

No port-clearance until certificate of survey produced.

187. No port-clearance shall be granted, nor shall any pilot be assigned, to any steam-ship for which a certificate of survey is required by section 184, until after the production by the owner or master thereof of a certificate under this chapter in force and applicable to the voyage on which she is about to proceed and the service on which she is about to be employed.

Power to detain steam ship not having certificate of survey.

188. If any steam-ship for which a certificate of survey is required by section 184 leaves or attempts to leave any port of survey without a certificate, *the Local Government* or any pilot on board the steam-ship may detain her until she obtains a certificate.

Appointment of surveyors and ports of survey.

189. The Local Government may appoint so many persons as it may think fit to be surveyors for the purposes of this chapter at such ports within the territories under its administration as it may appoint to be ports of survey.

Powers of surveyors.

190. (*1*) For the purposes of a survey under this chapter, any surveyor appointed under this chapter may, at any reasonable time, go on board any steam-ship, and may inspect the same or any part thereof, or the machinery, equipments or articles on board thereof:

Provided that he does not unnecessarily hinder the loading or unloading of the steam-ship, or unnecessarily detain or delay her from proceeding on any voyage.

(*2*) The owner, master and officers of the steam-ship shall afford to the surveyor all reasonable facilities for a survey, and all such information respecting the steam-ship, and her machinery and equipments, or any part thereof, respectively, as he may reasonably require.

Fees in respect of surveys.

191. Before a survey under this chapter is commenced, the owner or master of the steam-ship to be surveyed shall pay to such officer as the Local Government may appoint in this behalf—

(*a*) a fee calculated on the tonnage of the steam-ship according to the rates in Schedule V, or according to any other prescribed rates; and

(*b*) when the survey is to be made in any port of survey other than Calcutta, Madras, Bombay or Rangoon, such additional fee, in respect of the expense (if any) of the journey of the surveyor, to the port as the Local Government may, by notification in the official Gazette, direct.

Declaration of surveyor.

192. When a survey under this chapter is completed, the surveyor making it shall forthwith, if satisfied that he can with propriety do so, give to the

The Indian Merchant Shipping Bill, 1892.

(*Part IV.—Safety and Prevention of Accidents.—Chapter XXIII.—Survey of Steam-ships.—Sections 193-197.*)

owner or master of the steam-ship surveyed a declaration in the prescribed form containing the following particulars, namely:—

(*a*) that the hull and machinery of the steam-ship are sufficient for the service intended and in good condition;

(*b*) that the equipments of the steam-ship and the certificates of the master, mate or mates, and engineer or engineers or engine-driver, are such and in such condition as are required by any law for the time being in force and applicable to the steam-ship;

(*c*) the time (if less than one year) for which the hull, machinery and equipments of the steam-ship will be sufficient;

(*d*) the limit (if any) beyond which, as regards the hull, machinery or equipments, the steam-ship is, in the surveyor's judgment, not fit to ply;

(*e*) the number of passengers which the steam-ship is, in the judgment of the surveyor, fit to carry, distinguishing, if necessary, between the respective numbers to be carried on the deck and in the cabins and in different parts of the deck and cabins; the number to be subject to such conditions and variations, according to the time of year the nature of the voyage, the cargo carried, or other circumstances, as the case may require; and

(*f*) any other prescribed particulars.

[Act VII of 1884, s. 12 (rep. in part by Act III of 1890, s. 16).] Cf. 1854, s. 310.

Sending of declaration by owner or master to Local Government.

193. (*1*) The owner or master to whom a declaration is given under section 192 shall, within fourteen days after the date of the receipt thereof, send the declaration to such officer as the Local Government may appoint in this behalf.

(*2*) If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day during which the sending of the declaration is delayed.

(*3*) The owner or master shall pay the sum so forfeited on the delivery of the certificate of survey.

[Act VII of 1884, s. 13 (am. by Act III of 1890, s. 17).] Cf. 1854, ss. 312, 313.

Grant of certificate of survey.

194. (*1*) Upon receipt of a declaration by the officer appointed in that behalf under section 193, the Local Government shall, if satisfied that the provisions of this chapter have been complied with, cause a certificate in duplicate to be prepared and delivered, through such officer at the port at which the steam-ship was surveyed as the Local Government may appoint in this behalf, to the owner or master of the steam-ship surveyed, on his applying and paying the sum (if any) mentioned in *section 193, sub-section (3)*, as payable on delivery of a certificate.

(*2*) A certificate granted under this section shall be in *the prescribed* form; shall contain a statement to the effect that the provisions of this chapter with respect to the survey of the steam-ship and the transmission of the declaration in respect thereof have been complied with; and shall set forth—

(*a*) the particulars concerning the steam-ship which clauses (*c*), (*d*) and (*e*) of section 192 require the declaration by the surveyor to contain; and

(*b*) any other prescribed particulars.

(*3*) When a certificate is ready for delivery under this section, the Local Government shall cause notice thereof to be given by post or otherwise to the owner or master of the steam-ship to which the certificate relates.

(*4*) The Local Government may delegate,—

(*c*) with the previous sanction of the Governor General in Council, to any person, by name or as holding an office, the function, assigned to the Local Government by sub-section (*1*), of granting a certificate of survey under that sub-section;

(*d*) of its own authority, to any person, by name or as holding an office, the function, assigned to the Local Government by sub-section (*3*), of causing notice to be given of a certificate of survey being ready for delivery:

Provided, with respect to clause (*c*) of this sub-section, that no delegation of the function mentioned in that clause shall be construed to authorise the grant of a certificate of survey by the surveyor who gave the declaration of survey under section 192.

Certificate of survey to be affixed on conspicuous part of steam-ship.

[Act VII of 1884, s. 15. Cf. 1854, 317.]

195. (*1*) The owner or master of every steam-ship for which a certificate of survey has been granted under this chapter shall forthwith, on the receipt of the certificate, cause one of the duplicates thereof to be affixed, and kept affixed so long as the certificate remains in force and the steam-ship is in use, on some conspicuous part of the steam-ship where it may be easily read by all persons on board thereof.

(*2*) If the certificate is not so kept affixed, the owner and master of the steam-ship shall each be *punished with* fine which may extend to one hundred rupees.

Term of certificate of survey.

[Act VII of 1884, s. 16. Cf. 1854, 315; 1866, 34.]

196. A certificate of survey granted under this chapter shall not be in force—

(*a*) after the expiration of one year from the date thereof; or

(*b*) after the expiration of the period, if less than one year, for which the hull, boilers, engines or any of the equipments have been stated in the certificate to be sufficient; or

(*c*) after notice has been given by the Local Government, to the owner or master of the steam-ship to which the certificate relates, that the Local Government has suspended or cancelled it.

Suspension or cancellation of certificate of survey by Local Government.

[Act VII of 1884, s. 17. Cf. 1854, 316.]

197. Any certificate of survey granted under this chapter may be suspended or cancelled by a Local Government if it has reason to believe—

(*a*) that the declaration by the surveyor of the sufficiency and good condition of the hull, boilers, engines or any of the equipments of the steam-ship has been fraudulently or erroneously made; or

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter XXIII.—Survey of Steam-ships.—Sections 198-204. Chapter XXIV.—Unsafe Ships.—Section 205.)

(*b*) that the certificate has otherwise been granted upon false or erroneous information; or

(*c*) that, since the making of the declaration, the hull, boilers, engines or any of the equipments of the steam-ship have sustained any injury, or have otherwise become insufficient.

[Act VII of 1884, s. 18.] Cf. 1854, s. 15.

Power to require delivery of expired, suspended or cancelled certificate of survey.

198. (*1*) The Local Government may require any certificate of survey granted under this chapter which has expired or has been suspended or cancelled to be delivered up to such person as it may direct.

(*2*) If the owner or master of any steam-ship without reasonable cause, neglects or refuses to deliver up a certificate when required under sub-section (*1*) so to do, he shall be punished with fine which may extend to one hundred rupees.

[Act VII of 1884, s. 19 (am. by Act III of 1890, s. 19).]

Report of suspension or cancellation of certain certificates.

199. If the Local Government which suspends, or cancels a certificate of survey granted under this chapter is not the Local Government which or whose delegate granted the certificate, the Local Government suspending or cancelling the certificate shall report the fact of suspension or cancellation, together with the reasons therefor, to the Local Government which or whose delegate granted the certificate.

[Act VII of 1884, s. 20.] Cf. 1854, s. 309.

Power for Local Government to direct that two surveyors be employed.

200. A survey under this chapter shall ordinarily be made by one surveyor, but two surveyors may be employed if the Local Government, by order in writing, shall so direct, either generally in the case of all steam-ships at any port of survey, or specially in the case of any particular steam-ship or class of steam-ships at any such port.

[Act VII of 1884, s. 21 (am. by Act III of 1890, s. 20).]

Power for Local Government to order a second survey.

201. (*1*) If the surveyor or surveyors making a survey under this chapter refuses or refuse to give a declaration under section 192 with regard to any steam-ship, or gives or give a declaration with which the owner or master of the steam-ship surveyed is dissatisfied, the Local Government may, on the application of the owner or master and the payment by him of such fee, not exceeding twice the amount of the fee for the previous survey, as the Local Government may require, direct two other surveyors appointed under this chapter to survey the steam-ship.

(*2*) The surveyors so directed shall forthwith survey the steam-ship, and may, after the survey, either refuse to give a declaration or give such declaration as may under the circumstances seem to them proper; and their decision shall be final.

[Act VII of 1884, s. 22.]

Division of duties when two surveyors employed.

202. When a survey is made under section 200 or section 201 by two surveyors, each of the surveyors making the survey shall perform a prescribed portion of the duties assigned by this chapter or the rules made under this chapter to a surveyor making a survey.

[Act VII of 1884, s. 23. Cf. 1876, s. 19.]

Power to dispense with survey of foreign steam-ship surveyed abroad.

203. When a foreign steam-ship requires to be furnished with a certificate of survey under this chapter, and the Local Government is satisfied, by the production of a certificate of survey attested by a British Consular Officer at the port of survey, that the ship has been officially surveyed at a foreign port, and that the requirements of this chapter are proved by that survey to have been substantially complied with, the Local Government may, if it thinks fit, dispense with any further survey of the ship in respect of the requirements so complied with, and give a certificate which shall have the same effect as a certificate given after survey under this chapter:

Provided that this section shall not apply in the case of an official survey at any foreign port with respect to which Her Majesty has by Order in Council directed that section 19 of the Merchant Shipping Act, 1876, shall not apply.

39 & 40 Vict., c. 80.

[Act VII of 1884, s. 24 (am. by Act III of 1890, s. 21).] Cf. 1854, ss. 307, 309, 311, 314; 1862, s. 34; 1872, s. 8, first para., s. 13.

Power to make rules.

204. (*1*) The Local Government may make rules to regulate the making of surveys under this chapter.

(*2*) Rules under this section may, among other matters,—

(*a*) declare the times and places at which, and the manner in which, surveys are to be made;

(*b*) regulate the duties of the surveyor making a survey, and, where two surveyors are employed, assign the respective duties of each of the surveyors employed;

(*c*) declare the form in which the declarations of surveyors and certificates of survey under this chapter are to be framed, and the nature of the particulars which are to be stated therein, respectively; and

(*d*) fix the rates according to which the fees payable in respect of surveys are to be calculated in the case of all or any of the ports of survey within the territories under its administration.

CHAPTER XXIV.

UNSAFE SHIPS.

Preliminary.

[Act VII of 1880, ss. 3, 43 (am. by Act XVII of 1891, ss. 2, 4).] Cf. 1876, ss. 26, 27, 44.

Exception of certain ships.

205 (*1*) Nothing in this chapter shall apply to—

(*a*) any *home-trade* ship of a *burden* of less than one hundred and fifty tons, or

(*b*) any ship of a like *burden* employed solely in fishing, or

(*c*) any pleasure-yacht.

(*2*) The provisions of this chapter as to load-lines shall not apply to—

(*d*) ships coming from ports in the United Kingdom and having such lines fixed, marked and certified in accordance with the provisions of the law for the time being there in force, or

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter XXIV.—Unsafe Ships.—Sections 206-212.)

(*e*) ships registered in a British Possession and having such lines fixed, marked and certified in accordance with the provisions of an enactment passed by the Legislature of that Possession, with respect to which enactment such a declaration as is mentioned in section 3 of the Merchant Shipping Act, 1890, has been made by an Order of Her Majesty in Council and is for the time being in force.

53 Vict., c. 9.

(*3*) The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, exclude from, or bring again within, the operation of *any of the provisions of this chapter as to load-lines,* subject to such modifications thereof (if any) as may be specified in the notification, any native craft not square-rigged.

[Act VII of 1880, s. 2, s. 4 (am. by Act XVII of 1891, s. 3).] Cf. 1876, s. 6, first para.; 1890, s. 5; 1892, s. 1.

Definitions.

206. (*1*) In any provision of *this chapter,* "port" includes also any part of a river or channel leading to a port which for the purposes of such provision the Local Government may, by notification in the official Gazette, declare to be included in such port.

(*2*) A ship is "unsafe" within the meaning of this chapter when by reason of the defective condition of her hull, equipments or machinery, or by reason of overloading or improper loading, she is unfit to proceed to sea without serious danger to human life, having regard to the nature of the service for which she is intended, *and*

every ship so loaded as to submerge in perfectly smooth salt water the centre of the disc placed thereon in pursuance of this chapter or the Merchant Shipping Acts, 1876 to 1892, and the rules and regulations made thereunder, shall be deemed to be "unsafe" within the meaning of this chapter, and every such submersion shall be reasonable and probable cause for the detention of the ship.

39 & 40 Vict., c. 80, &c.

(*3*) In this chapter, "amidships" means the middle of the length of the load water-line as measured from the fore-side of the stem to the aft-side of the stern-post.

Detention of Unsafe Ships.

[Act VII of 1880, s. 7.] Cf. 1876, s. 6 (*1*), (*2*).

Power of Local Government to provisionally detain unsafe ship.

207. (*1*) The Local Government, if it has reason to believe, on complaint or otherwise, that a British ship in any port to which it may specially extend this section is unsafe, may provisionally order the detention of the ship for the purpose of being surveyed.

(*2*) A written statement of the grounds of such detention shall be forthwith served on the master of the ship.

[Act VII of 1880, ss. 8, 10.] Cf. 1876, s. 6 (*2*), (*3*), (*6*).

Power of Local Government to release or finally detain ship, or refer the matter to a Court of Survey.

208. When the Local Government provisionally orders the detention of a British ship, it shall forthwith appoint some competent person to survey the ship and report thereon, and, on receiving his report, may, *subject to the provisions of section 210,* either order the ship to be released or, if in its opinion the ship is unsafe, order her to be finally detained:

Provided that the Local Government may, at any time after a ship has been provisionally detained, refer the matter to the Court of Survey (hereinafter mentioned) for the port where the ship is detained.

[Act VII 1880, s. 9.] Cf. 1876, s. 6 (*3*), (*4*).

Terms of order for final detention, and appeal to Court of Survey.

209. An order under section 208 for the final detention of a British ship may be either absolute or until the performance of such conditions with respect to the execution of repairs or alterations or the unloading or reloading of cargo as the Local Government may think necessary for the protection of human life; and the Local Government may vary or add to any such order:

Provided that, before an order for final detention is so made, a copy of the report shall be served upon the master of the ship, and within seven days after such service the owner or master may appeal against the report, in the manner prescribed, to the Court of Survey (hereinafter mentioned) for the port where the ship is detained.

[Act VII 1880, s. 9.] Cf. 1876, s. 6 (*5*).

Option to owner or master of appointing assessor to accompany surveyor, and appeal to Court of Survey.

210. Where a British ship has been provisionally detained and a person has been appointed under section 208 to survey the ship, the owner or master of the ship, at any time before such person makes the survey, may require that he shall take with him as assessor such person as the owner or master may select, being a person named in the list of assessors prepared under section 216, sub-section (*4*), or, if there is no such list, or if it is impracticable to procure the attendance of any person named in such list, a person of nautical, engineering or other special skill and experience; and

in such case, if the surveyor and assessor agree that the ship should be detained or released, the Local Government shall cause the ship to be detained or released accordingly, and the owner or master shall have no appeal;

but, if the surveyor and assessor differ in their report, the Local Government may act as if the requisition had not been made, and the owner or master shall have such appeal touching the report of the surveyor as is provided in section 209.

[Act VII 1880, s. 11.] Cf. 1876, s. 15, para. 1.

Power to appoint referee to hear appeal.

211. If the Local Government is of opinion that an appeal under *section 209 or section 210* involves a question of construction or design, or of scientific difficulty or important principle, it may refer the matter to such one or more out of a list of scientific referees, to be prepared by the Local Government, as may appear to possess the special qualifications necessary for the particular case, and may be selected by agreement between the Port-officer and the appellant, or, in default of any such agreement, by the Local Government; and thereupon the appeal shall be determined by the referee or referees instead of by the Court of Survey.

[Act VII 1880, s. 11.] Cf. 1876, s. 15, para.

Option to appellant to require referee to be appointed.

212. The Local Government, if the appellant in any such appeal so requires and gives security to its satisfaction to pay the

6

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter XXIV.—Unsafe Ships.—Sections 213-224.)

costs of and incidental to the reference, shall refer such appeal to a referee or referees selected as aforesaid.

[VII of ... s. 26,] [76, para. 3.] Referee to have powers of Court of Survey.

213. The referee or referees to whom an appeal is referred under section 211 or section 212 shall have the same powers as a Judge of the Court of Survey.

[VII of ... ss. 11, ... 854, s. ... 876, s. ... (9), (10), (1), (4).] Detaining-officers.

214. (1) For the better execution of this chapter, the Local Government may appoint a sufficient number of fit persons as its officers.

(2) Every officer so appointed (hereinafter referred to as a detaining-officer) shall have, for the purpose of his duties under this chapter, the following powers (that is to say):—

(a) he may go on board any British ship and may inspect the same or any part thereof, or any of the machinery, equipments and cargo on board thereof, and may require the unloading or removal of any cargo, ballast or tackle, not unnecessarily detaining or delaying the ship from discharging, unloading or proceeding on any voyage;

(b) he may, by summons under his hand, require the attendance of all such persons as he may think fit to call before him, may examine such persons, and may, by a like summons, require returns in writing to any enquiries which he may think fit to make;

(c) he may require and enforce the production of all books, papers or documents which he considers important; and

(d) he may administer oaths, or may, instead of administering an oath, require *any* person examined by him to make and subscribe a declaration of the truth of the statements made by him in his examination.

(3) Every detaining-officer shall, in addition to the powers conferred by sub-section (2), have the same power as the Local Government has under sections 207 and 208, respectively, of provisionally ordering the detention of a British ship for the purpose of being surveyed, and of appointing a person to survey her; and, if he thinks that a ship so detained by him is not unsafe, may order her to be released.

(4) Every detaining-officer shall forthwith report to the Local Government any order made by him for the detention or release of a ship.

[VII of ... s. 49.] [76, (4).] Powers of person authorised to survey ship.

215. For the purposes of the survey of a British ship under this chapter, any person authorised to make the same may go on board the ship and may inspect the same or any part thereof, or the machinery, equipments or cargo on board thereof, and may require the unloading or removal of any cargo, ballast or tackle.

[VII ... s. 15.] [ss. 4.] Constitution of Court of Survey.

216. (1) A Court of Survey for a port shall consist of a Judge sitting with two assessors.

(2) The Judge shall be a District Judge, Judge of a Court of Small Causes, Presidency Magistrate, Magistrate of the first class or other fit person appointed in this behalf by the Local Government either generally or for any specified case.

(3) The assessors shall be persons of nautical, engineering or other special skill and experience.

(4) One of the assessors shall be appointed by the Local Government either generally or in each case, and the other shall be summoned by the Judge, in the manner prescribed, out of a list of persons prepared for the purpose and published by the Local Government in the official Gazette, or, if there is no such list or if it is impracticable to procure the attendance of any person named in such list, shall be appointed by the Judge.

Judge to summon assessors. [Act VII of 1880, s. 16.] [Cf. 1876, s. 7, para. 4.]

217. The Judge shall, on receiving notice of an appeal *under section 209 or section 210* or a reference *under section 208*, immediately summon the assessors, in the manner prescribed, to meet forthwith.

Case to be heard in open Court. [Act VII of 1880, s. 17.] [Cf. 1876, s 8 (1).]

218. Every such appeal and reference shall be heard in open Court.

Powers of Judge and assessors. [Act VII of 1880, s. 18.] [Cf. 1876, s. 8 (2).]

219. The Judge and each assessor shall, for the purposes of this chapter, have the same powers as are by section 214, sub-section (2), conferred on a detaining-officer.

Power of Judge to appoint surveyor. [Act VII of 1880, s. 19.] [Cf. 1876, s. 8 (3).]

220. The Judge may appoint any competent person to survey the ship and report thereon to the Court.

Owner or master may attend at inspection or survey. [Act VII of 1880, s. 20.] [Cf. 1876, s. 8 (5).]

221. The owner and master of the ship and any person appointed by the owner or master, and also any person appointed by the Local Government, may attend at any inspection or survey made in exercise or pursuance of the powers conferred by section 219 or section 220.

Power of Judge to release or finally detain ship. [Act VII of 1880, s. 21.] [Cf. 1876, s. 8 (4).]

222. The Judge shall have the same power as the Local Government has to order the ship to be released or finally detained; but, unless one of the assessors concurs in an order for the detention of the ship, the ship shall be released.

Report to Local Government by Court. [Act VII of 1880, s. 22.] [Cf. 1876, s. 8 (6).]

223. The Judge shall report the proceedings of the Court in each case to the Local Government in the manner prescribed, and each assessor shall either sign such report or report to the Local Government the reasons for his dissent.

Power to make rules with respect to Court of Survey. [Act VII of 1880, s. 23.] [Cf. 1876, s. 9.]

224. The Local Government may make rules to carry into effect the provisions of this chapter with respect to a Court of Survey, and in particular with respect to—

(a) the procedure before the Court;

(b) the requiring, on an appeal, of security for costs and damages;

(c) the amount and application of fees; and

(d) the ascertainment, in case of dispute, of the proper amount of costs under this chapter.

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter. XXIV.—Unsafe Ships.—Sections 225-236.)

[Act VII of 1880, s. 27.] Cf. 1876, s. 10, para. 1.

Liability of Government for costs and damages when ship wrongly detained.

225. If it appears that there was not reasonable and probable cause, by reason of the condition of the ship or the act or default of the owner, for the provisional detention of a ship, the Government shall be liable to pay to the owner of the ship his costs of and incidental to the detention and survey of the ship, and also compensation for any loss or damage sustained by him by reason of the detention or survey.

[Act VII of 1880, s. 28.] Cf. 1876, s. 10, para. 2.

Liability of owner for costs when ship rightly detained.

226. If a British ship is finally detained under this chapter, or if it appears that a British ship provisionally detained was at the time of such detention unsafe, the owner of the ship shall be liable to pay to the Government its costs of and incidental to the detention and survey of the ship; and such costs shall, without prejudice to any other remedy, be recoverable as salvage is recoverable.

[Act VII of 1880, s. 29.] Cf. 1876, s. 10, para. 3.

What included in costs of detention and survey.

227. For the purposes of this chapter, the costs of and incidental to any proceeding before a Court of Survey, and a reasonable amount in respect of the remuneration of the surveyor or officer of the Local Government, shall be deemed to be part of the costs of the detention and survey of the ship.

[Act VII of 1880, s. 30.] Cf. 1876, s. 11, paras. 1 and 2.

Power to require from complainant security for costs, &c.

228. When a complaint is made to the Local Government or a detaining-officer that a British ship is unsafe, it shall be in the discretion of such Government or officer (as the case may be) to require the complainant to give security to the satisfaction of such Government or officer for the costs and compensation which such complainant may become liable to pay under the provisions of section 229:

Provided that where the complaint is made by one-fourth, being not less than three, of the seamen belonging to the ship, and is not in the opinion of such Government or officer frivolous or vexatious, such security shall not be required; and such Government or officer shall, if the complaint is made in sufficient time before the sailing of the ship, take proper steps to ascertain whether the ship ought to be detained under this chapter.

[Act VII of 1880, s. 31.] Cf. 1876, s. 11, para. 3.

Costs, &c., payable by Government recoverable from complainant.

229. Where a British ship is detained in consequence of any complaint, and the circumstances are such that the Government is liable under this chapter to pay to the owner of the ship any costs or compensation, the complainant shall be liable to pay to the Government all such costs and compensation as the Government incurs, or is liable to pay, in respect of the detention and survey of the ship.

[Act VII of 1880, s. 45.] Cf. 1876, s. 14, para. 1.

Who may enforce detention of ship.

230. When under this chapter a British ship is authorised or ordered to be detained, any commissioned officer on full pay in the naval or military service of Her Majesty, any commander or first *grade* officer of any of Her Majesty's Indian Government ships, or any port-officer, harbour-master, conservator of a port or officer of customs may detain the ship.

[Act VII of 1880, s. 46.] Cf. 1876, ss. 12 (2) and 34, para. 1.

Penalty for proceeding to sea after detention.

231. If any British ship after such detention, or after service on the master of any notice of or order for such detention, proceeds to sea before she is released by competent authority, the master of the ship shall be punished with fine which may extend to one thousand rupees.

[Act VII of 1880, s. 47.] Cf. 1876, s. 34, para. 2.

Penalty for carrying to sea officer in execution of his duty.

232. (*1*) If a British ship so proceeding to sea takes to sea, when on board thereof in the execution of his duty, any person authorised under this chapter to detain or survey the ship, the owner and master of the ship shall each be liable to pay all expenses of, and incidental to, such person being so taken to sea, and shall also each be punished with fine which may extend to one thousand rupees.

(*2*) When any owner or master is convicted of an offence against this section, the convicting Magistrate may enquire into and determine the amount payable on account of expenses by such owner or master under this section, and may direct that the same shall be recovered from him in manner provided *by law* for the recovery of fines.

[Act VII of 1880, s. 48.] Cf. 1876, s. 12 (3).

Detained ship not to be released because British registry closed.

233. When a British ship has been detained under this chapter, she shall not be released by reason of her British or British Indian register being subsequently closed.

[Act VII of 1880, s. 44.] Cf. 1876, s. 6 (7).

Release of ship at any time by Local Government.

234. The Local Government may at any time, if satisfied that a British ship detained under this chapter is not unsafe, order her to be released either upon or without any conditions.

[Act VII of 1880, ss. 51, 52.] Cf. 1876, s. 35, paras 1 and 2.

Service of order, &c.

235. (*1*) Where any order, notice, statement or document is required for the purpose of any provision of this chapter to be served on the master of a British ship, the same shall be served, where there is no master, on the owner of the ship, if he resides in the port where the ship is detained, or, if there is no owner residing there, on some agent of the owner residing there; or, where such owner or agent is unknown or cannot be found, a copy of such order, notice, statement or document shall be affixed to the mast of the ship, and shall thereupon be deemed to be duly served.

(*2*) Any such order, notice, statement or document may be served by delivering a copy thereof personally to the person to be served, or by leaving the same at his last place of abode, or, in the case of a master, by leaving it for him on board the ship with the person being or appearing to be in command or charge of the ship.

[Act VII 1880, s. 8 (added by Act XVII 1891, s. 5). Cf. 1876, s. 13; 1890 4.

Application to foreign ships of provisions respecting detention.

236. Where a foreign ship *has taken on board all or any part of her cargo* at a port in British India, *and is while at that port unsafe by reason of* overloading or improper loading, *all* the *foregoing* provisions of this chapter *with respect to the detention of British ships* shall apply to that foreign ship as if she were a British ship, unless such foreign ship, if in a port of the United Kingdom, would be entitled to the benefit of an

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter XXIV.—Unsafe Ships.—Sections 213-224.)

costs of and incidental to the reference, shall refer such appeal to a referee or referees selected as aforesaid.

Referee to have powers of Court of Survey.

213. The referee or referees to whom an appeal is referred under section 211 or section 212 shall have the same powers as a Judge of the Court of Survey.

Detaining-officers.

214. (*1*) For the better execution of this chapter, the Local Government may appoint a sufficient number of fit persons as its officers.

(*2*) Every officer so appointed (hereinafter referred to as a detaining-officer) shall have, for the purpose of his duties under this chapter, the following powers (that is to say):—

(*a*) he may go on board any British ship and may inspect the same or any part thereof, or any of the machinery, equipments and cargo on board thereof, and may require the unloading or removal of any cargo, ballast or tackle, not unnecessarily detaining or delaying the ship from discharging, unloading or proceeding on any voyage;

(*b*) he may, by summons under his hand, require the attendance of all such persons as he may think fit to call before him, may examine such persons, and may, by a like summons, require returns in writing to any enquiries which he may think fit to make;

(*c*) he may require and enforce the production of all books, papers or documents which he considers important; and

(*d*) he may administer oaths, or may, instead of administering an oath, require *any* person examined by him to make and subscribe a declaration of the truth of the statements made by him in his examination.

(*3*) Every detaining-officer shall, in addition to the powers conferred by sub-section (*2*), have the same power as the Local Government has under sections 207 and 208, respectively, of provisionally ordering the detention of a British ship for the purpose of being surveyed, and of appointing a person to survey her; and, if he thinks that a ship so detained by him is not unsafe, may order her to be released.

(*4*) Every detaining-officer shall forthwith report to the Local Government any order made by him for the detention or release of a ship.

Powers of person authorised to survey ship.

215. For the purposes of the survey of a British ship under this chapter, any person authorised to make the same may go on board the ship and may inspect the same or any part thereof, or the machinery, equipments or cargo on board thereof, and may require the unloading or removal of any cargo, ballast or tackle.

Constitution of Court of Survey.

216. (*1*) A Court of Survey for a port shall consist of a Judge sitting with two assessors.

(*2*) The Judge shall be a District Judge, Judge of a Court of Small Causes, Presidency Magistrate, Magistrate of the first class or other fit person appointed in this behalf by the Local Government either generally or for any specified case.

(*3*) The assessors shall be persons of nautical, engineering or other special skill and experience.

(*4*) One of the assessors shall be appointed by the Local Government either generally or in each case, and the other shall be summoned by the Judge, in the manner prescribed, out of a list of persons prepared for the purpose and published by the Local Government in the official Gazette, or, if there is no such list or if it is impracticable to procure the attendance of any person named in such list, shall be appointed by the Judge.

Judge to summon assessors.

217. The Judge shall, on receiving notice of an appeal *under section 209 or section 210* or a reference *under section 208*, immediately summon the assessors, in the manner prescribed, to meet forthwith.

[Act VII of 1880, s. 16.] Cf. 1876, s. 7, para. 4

Case to be heard in open Court.

218. Every such appeal and reference shall be heard in open Court.

[Act VII of 1880, s. 17.] Cf. 1876, s 8 (*1*).

Powers of Judge and assessors.

219. The Judge and each assessor shall, for the purposes of this chapter, have the same powers as are by section 214, sub-section (*2*), conferred on a detaining-officer.

[Act VII of 1880, s. 18.] Cf. 1876, s. 8 (*2*).

Power of Judge to appoint surveyor.

220. The Judge may appoint any competent person to survey the ship and report thereon to the Court.

[Act VII of 1880, s. 19.] Cf. 1876, s. 8 (*3*).

Owner or master may attend at inspection or survey.

221. The owner and master of the ship and any person appointed by the owner or master, and also any person appointed by the Local Government, may attend at any inspection or survey made in exercise or pursuance of the powers conferred by section 219 or section 220.

[Act VII of 1880, s. 20.] Cf. 1876, s. 8 (*5*).

Power of Judge to release or finally detain ship.

222. The Judge shall have the same power as the Local Government has to order the ship to be released or finally detained; but, unless one of the assessors concurs in an order for the detention of the ship, the ship shall be released.

[Act VII of 1880, s. 21.] Cf. 1876, s. 8 (*4*).

Report to Local Government by Court.

223. The Judge shall report the proceedings of the Court in each case to the Local Government in the manner prescribed, and each assessor shall either sign such report or report to the Local Government the reasons for his dissent.

[Act VII of 1880, s. 22.] Cf. 1876, s. 8 (*6*).

Power to make rules with respect to Court of Survey.

224. The Local Government may make rules to carry into effect the provisions of this chapter with respect to a Court of Survey, and in particular with respect to—

[Act VII of 1880, s. 23.] Cf. 1876, s. 9.

(*a*) the procedure before the Court;

(*b*) the requiring, on an appeal, of security for costs and damages;

(*c*) the amount and application of fees; and

(*d*) the ascertainment, in case of dispute, of the proper amount of costs under this chapter.

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter. XXIV.—Unsafe Ships.—Sections 225-236.)

Liability of Government for costs and damages when ship wrongly detained.

225. If it appears that there was not reasonable and probable cause, by reason of the condition of the ship or the act or default of the owner, for the provisional detention of a ship, the Government shall be liable to pay to the owner of the ship his costs of and incidental to the detention and survey of the ship, and also compensation for any loss or damage sustained by him by reason of the detention or survey.

Liability of owner for costs when ship rightly detained.

226. If a British ship is finally detained under this chapter, or if it appears that a British ship provisionally detained was at the time of such detention unsafe, the owner of the ship shall be liable to pay to the Government its costs of and incidental to the detention and survey of the ship; and such costs shall, without prejudice to any other remedy, be recoverable as salvage is recoverable.

What included in costs of detention and survey.

227. For the purposes of this chapter, the costs of and incidental to any proceeding before a Court of Survey, and a reasonable amount in respect of the remuneration of the surveyor or officer of the Local Government, shall be deemed to be part of the costs of the detention and survey of the ship.

Power to require from complainant security for costs, &c.

228. When a complaint is made to the Local Government or a detaining-officer that a British ship is unsafe, it shall be in the discretion of such Government or officer (as the case may be) to require the complainant to give security to the satisfaction of such Government or officer for the costs and compensation which such complainant may become liable to pay under the provisions of section 229:

Provided that where the complaint is made by one-fourth, being not less than three, of the seamen belonging to the ship, and is not in the opinion of such Government or officer frivolous or vexatious, such security shall not be required; and such Government or officer shall, if the complaint is made in sufficient time before the sailing of the ship, take proper steps to ascertain whether the ship ought to be detained under this chapter.

Costs, &c., payable by Government recoverable from complainant.

229. Where a British ship is detained in consequence of any complaint, and the circumstances are such that the Government is liable under this chapter to pay to the owner of the ship any costs or compensation, the complainant shall be liable to pay to the Government all such costs and compensation as the Government incurs, or is liable to pay, in respect of the detention and survey of the ship.

Who may enforce detention of ship.

230. When under this chapter a British ship is authorised or ordered to be detained, any commissioned officer on full pay in the naval or military service of Her Majesty, any commander or first *grade* officer of any of Her Majesty's Indian Government ships, or any port-officer, harbour-master, conservator of a port or officer of customs may detain the ship.

Penalty for proceeding to sea after detention.

231. If any British ship after such detention, or after service on the master of any notice of or order for such detention, proceeds to sea before she is released by competent authority, the master of the ship shall be punished with fine which may extend to one thousand rupees.

Penalty for carrying to sea officer in execution of his duty.

232. (*1*) If a British ship so proceeding to sea takes to sea, when on board thereof in the execution of his duty, any person authorised under this chapter to detain or survey the ship, the owner and master of the ship shall each be liable to pay all expenses of, and incidental to, such person being so taken to sea, and shall also each be punished with fine which may extend to one thousand rupees.

(*2*) When any owner or master is convicted of an offence against this section, the convicting Magistrate may enquire into and determine the amount payable on account of expenses by such owner or master under this section, and may direct that the same shall be recovered from him in manner provided *by law* for the recovery of fines.

Detained ship not to be released because British registry closed.

233. When a British ship has been detained under this chapter, she shall not be released by reason of her British or British Indian register being subsequently closed.

Release of ship at any time by Local Government.

234. The Local Government may at any time, if satisfied that a British ship detained under this chapter is not unsafe, order her to be released either upon or without any conditions.

Service of order, &c.

235. (*1*) Where any order, notice, statement or document is required for the purpose of any provision of this chapter to be served on the master of a British ship, the same shall be served, where there is no master, on the owner of the ship, if he resides in the port where the ship is detained, or, if there is no owner residing there, on some agent of the owner residing there; or, where such owner or agent is unknown or cannot be found, a copy of such order, notice, statement or document shall be affixed to the mast of the ship, and shall thereupon be deemed to be duly served.

(*2*) Any such order, notice, statement or document may be served by delivering a copy thereof personally to the person to be served, or by leaving the same at his last place of abode, or, in the case of a master, by leaving it for him on board the ship with the person being or appearing to be in command or charge of the ship.

Application to foreign ships of provisions respecting detention.

236. Where a foreign ship *has taken on board all or any part of her cargo* at a port in British India, *and is while at that port unsafe by reason of* overloading or improper loading, *all* the *foregoing* provisions of this chapter *with respect to the detention of British ships* shall apply to that foreign ship as if she were a British ship, unless such foreign ship, if in a port of the United Kingdom, would be entitled to the benefit of an

The Indian Merchant Shipping Bill, 1892.

(Part IV.—Safety and Prevention of Accidents.—Chapter XXIV.—Unsafe Ships.—Sections 237-241.)

Order of Her Majesty in Council under section 4 of the Merchant Shipping Act, 1890.

Load-lines.

Marking of load-lines in case of ships which are not coasting-vessels.

237. (*1*) The master of every British ship, not being a coasting-vessel within the meaning of the Sea Customs Act, 1878, shall, before his ship is entered outwards from any port in British India upon any voyage, or, if that is not practicable, as soon after as may be, mark outside upon each of her sides amidships, or as near thereto as practicable, in white or yellow on a dark ground, or in black on a light ground, a circular disc twelve inches in diameter, with a horizontal line eighteen inches in length drawn through its centre.

(*2*) The centre of the disc shall be placed at such level below the deck-line marked under the provisions of the Indian Merchant Shipping Act, 1880, or of the Merchant Shipping Act, 1876, as may be approved by the Local Government, and shall indicate the maximum load-line in perfectly smooth salt-water to which it shall be lawful to load the ship.

(*3*) When a ship has been marked as by this section required, she shall be kept so marked until she next returns to a port of discharge in British India or arrives at a port in the United Kingdom.

Statement in application to Customs-collector for entry outwards of such ship as aforesaid.

238. (*1*) Every person applying for entry of any such ship outwards shall insert, in the form of application made to the Customs-collector, a statement in writing of the distance in feet and inches between the centre of such disc and the upper edge of each of the lines indicating the position of the ship's decks which is above such centre; and, if default be made in delivering such statement, the Customs-collector may refuse to enter the ship outwards.

(*2*) A copy of such statement shall be entered in the agreement with the crew before it is signed by any member of the crew, and no *Superintendent of a Mercantile Marine Office* shall proceed with the engagement of a crew for any such ship until such entry has been made.

(*3*) The master shall enter, *or cause to be entered*, a copy of the said statement in the official log (if any).

Marking of load-lines in case of coasting-vessels.

239. (*1*) The master of every British ship which is a coasting-vessel within the meaning of the Sea Customs Act, 1878, shall, before proceeding to sea from any port, mark outside upon each of her sides amidships, or as near thereto as practicable, in white or yellow on a dark ground, or in black on a light ground, a circular disc twelve inches in diameter, with a horizontal line eighteen inches in length drawn through its centre.

(*2*) The centre of the disc shall be placed at such level below the deck-line marked under the provisions of the Indian Merchant Shipping Act, 1880, or of the Merchant Shipping Act, 1876, as may be approved by the Local Government, and shall indicate the maximum load-line in perfectly smooth salt-water to which it shall be lawful to load the ship.

(*3*) When a ship has been marked as required by this section, she shall be kept so marked until notice has been given of an alteration.

Annual statement as to position of load-line on coasting-vessel.

240. (*1*) The master of every such ship shall also once in every twelve months, immediately before the ship proceeds to sea, send or deliver to the *Customs*-collector, or other principal officer of Customs of such port as the Local Government may appoint in this behalf, a statement in writing of the distance in feet and inches between the centre of the disc and the upper edge of each of the lines indicating the position of the ship's decks which is above that centre.

(*2*) The master, before the ship proceeds to sea after any renewal or alteration of the disc, shall send or deliver to the *Customs*-collector or other principal officer of Customs aforesaid notice in writing of such renewal or alteration, together with such statement in writing as before mentioned of the distance between the centre of the disc and the upper edge of each of the deck-lines.

(*3*) If default be made in sending or delivering any notice or statement required by this section to be sent or delivered, the master shall be punished with fine which may extend to one thousand rupees.

Position of disc and approval of and certificate as to position thereof.

241. (*1*) The position of the discs mentioned in sections 237 and 239, respectively, shall be fixed in accordance with the tables framed by the Load-line Committee appointed in the United Kingdom before the passing of the Merchant Shipping Act 1890, subject to such allowance as may be necessary in consequence of any difference between the position of the deck-line marked under the provisions of the Indian Merchant Shipping Act, 1880, or of the Merchant Shipping Act, 1876, and the position of the line from which free-board is measured under the said tables, and subject also to such modifications, if any, of the tables and the application thereof as may, with the previous approval of the Governor General in Council, be sanctioned by the Local Government.

(*2*) The Local Government shall appoint—

(*a*) a surveyor employed by Lloyd's or by any other society, corporation or association for the survey or registry of shipping approved by the Board of Trade under section 2 of the Merchant Shipping Act, 1890, and specially authorised in this behalf by Lloyd's or by such society, corporation or association, as the case may be, or

(*b*) an officer specially selected by the Local Government for the purpose,

to approve and certify on its behalf from time to time the position of any such disc as aforesaid, and any alteration thereof,

and, with the previous sanction of the Governor General in Council, may fix the fees to be taken in respect of any such approval or certificate.

The Indian Merchant Shipping Bill, 1892.
(Part IV.—Safety and Prevention of Accidents.—Chapter XXIV.—Unsafe Ships.—Sections 242-245. Chapter XXV.—Ship Surveyors.—Sections 246-248. Part V.—Wrecks, Casualties and Investigations.—Chapter XXVI.—Receivers of Wreck.—Section 249.)

Power to make rules.

242. (1) The Local Government may make rules—

(*a*) determining the lines or marks to be used in connection with any such disc as aforesaid, in order to indicate the maximum load-line under different circumstances and at different seasons, and declaring that the provisions of this chapter *with respect to load-lines* are to have effect as if any such *maximum load*-line were drawn through the centre of the disc;

(*b*) as to the mode in which the disc and the lines or marks to be used in connection therewith are to be marked or affixed on the ship, whether by painting, cutting or otherwise;

(*c*) as to the mode of application for, and form of, certificates under *section 241, sub-section (2)*; and

(*d*) as to the entry of such certificates, and any other prescribed particulars concerning the draught of water and free-board of the ship, in the official log (if any) of the ship, or other publication thereof on board the ship, and as to delivering copies of such entries.

(2) Rules under clause (*a*) of sub-section (1) may, with respect to any class or classes of ships,—

(*e*) declare what shall be deemed to be seasons of fair weather and seasons of foul weather, respectively, for any of the purposes of the rules, and

(*f*) modify the tables referred to in section 241, sub-section (1).

Penalty for neglecting to mark, or submerging, load-line.

243. Any master of a British ship who neglects to cause his ship to be marked as by this chapter required, or to keep her so marked, or who allows the ship to be so loaded that when in perfectly smooth salt-water the centre of the disc is submerged, and

any person who conceals, removes, alters, defaces or obliterates, or suffers any person under his control to conceal, remove, alter, deface or obliterate, any of the lines or marks prescribed by or under this chapter, except in the event of the particulars thereby denoted being lawfully altered, or for the purpose of escaping capture by an enemy,

shall be punished with fine which may extend to one thousand rupees.

Penalty on master for having misleading marks.

244. The master of any British ship on which any of the marks or lines prescribed by or under this chapter is inaccurately placed so as to be likely to mislead, who does not forthwith cause such inaccuracy to be corrected, shall be punished with fine which may extend to one thousand rupees.

Penalty for neglecting to comply with rules as to entry or publication of certificates or other particulars or as to delivery of copies of entries.

245. *If any person makes default in complying with any rule made under section 242, clause (d), he shall be punished with fine which may extend to one thousand rupees.*

CHAPTER XXV.

SHIP SURVEYORS.

Power to appoint examiners, and make rules as to qualifications, &c., of ship surveyors.

246. The Local Government may appoint competent persons for the purpose of examining the qualifications of persons desirous of practising the profession of a ship surveyor at any port in the territories administered by such Government, and may make rules—

(*a*) for the conduct of such examinations and the qualifications to be required,

(*b*) for the grant of certificates to qualified persons,

(*c*) for the fees to be paid for such examinations and certificates,

(*d*) for holding enquiries into charges of incompetency and misconduct on the part of holders of such certificates, and

(*e*) for the suspension and cancellation of such certificates.

No person to practise as ship surveyor unless qualified.

247. No person shall, in any port in which there is a person exercising the profession of a ship surveyor and holding a certificate granted under section 246, exercise such profession in such port unless he holds a certificate granted under that section:

Provided that nothing in this section shall—

(*a*) prevent any person employed by Lloyd's Register of British and Foreign Shipping or Bureau Veritas from discharging any of the duties of such employment, or

(*b*) apply to any person *who exercised the profession of a ship surveyor before the first day of June, 1880, and who is* specially exempted by the Local Government from the operation of this section.

Penalty for practising as ship surveyor without certificate.

248. Any person exercising the profession of a ship surveyor in contravention of the provisions of section 247 shall be punished with fine which may extend to one thousand rupees, and shall be incapable of maintaining any suit for any fee or reward for anything done by him in such exercise of such profession.

PART V.

WRECKS, CASUALTIES AND INVESTIGATIONS.

CHAPTER XXVI.

RECEIVERS OF WRECK.

Savings.

249. Nothing in this chapter shall—

(*a*) affect the declaration of the twenty-third day of October, 1889, in Schedule VI, between the Government of the United Kingdom of Great Britain and Ireland and the Government of the French Republic, with reference to the disposal of the proceeds of wrecks on

The Indian Merchant Shipping Bill, 1892.
(Part V.—Wrecks, Casualties and Investigations.—Chapter XXVI.—Receivers of Wreck.—Sections 250-257. Chapter XXVII.—Investigations into Casualties and Charges against Masters, Mates and Engineers.—Sections 258-259.)

their respective coasts, that declaration having been made applicable to India, or

(*b*) affect section 29 of the Indian Ports Act, 1889, or entitle any person to salvage in respect of any property recovered by creeping or sweeping in contravention of that section.

Definition of "wreck."

250. In this chapter, "wreck" includes the following when found in the sea or any tidal water or on the shores thereof, that is to say:—

goods which have been cast into the sea and then sink and remain under water;

goods which have been cast or fall into the sea and remain floating on the surface;

goods which are sunk in the sea, but are attached to a floating object in order that they may be found again;

goods which are thrown away or abandoned; and

a ship abandoned without hope or intention of recovery.

Appointment of Receivers.

251. (*1*) The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, appoint such person as it may think fit to receive and take possession of wreck and to perform such duties connected therewith as are hereinafter mentioned, within such local limits as it may direct.

(*2*) Persons so appointed shall be called Receivers of Wreck.

Procedure to be observed by person finding wreck.

252. Any person finding and taking possession of any wreck within any local limits for which a Receiver of Wreck has been so appointed, or bringing within such limits any wreck which has been found and taken possession of elsewhere, shall, as soon as practicable,—

(*a*) if he be the owner of such wreck, give the Receiver of Wreck notice in writing of the finding thereof and of the marks by which the same is distinguished;

(*b*) if he be not the owner of such wreck, deliver the same to the Receiver of Wreck.

Government or person finding wreck entitled to salvage.

253. (*1*) Whenever any wreck is found by the Receiver of Wreck or has been delivered to him in accordance with the provisions of section 252 by any person, not being the owner thereof, the Government or such other person so delivering such wreck, as the case may be, shall be entitled to receive a reasonable sum for salvage, having regard to all the circumstances of the case.

(*2*) Any dispute arising concerning the amount due under this section shall be determined by a Magistrate, upon application to him for that purpose by either of the disputing parties.

Notice to be given by Receiver.

254. The Receiver of Wreck shall, on taking possession of any wreck, publish a notification, in such manner and at such place as the Local Government may direct in this behalf, containing a description of the same and *a statement of* the time at which and the place where the same was found.

Wreck may in certain cases be sold.

255. If after the publication of such notification the wreck is unclaimed, or

if the person claiming the same fails to pay the amount due for salvage and for charges incurred by the Receiver of Wreck in respect thereof,

the Receiver of Wreck may sell such wreck by public auction, if of a perishable nature, forthwith, and, if not of a perishable nature, at any period not less than six months after such notification as aforesaid.

Proceeds how applied.

256. On the realisation of the proceeds of such sale, the amount due for salvage and charges as aforesaid, together with the expenses of the sale, shall be deducted therefrom, and the balance shall be paid to the owner of the wreck, or, if no such person appears and claims the same, shall be held in deposit for payment, without interest, to any person thereafter establishing his right to the same:

Provided that he makes his claim within one year from the date of the sale.

Penalty for failure to give notice of, or to deliver, wreck to the Receiver of Wreck.

257. Any person omitting to give notice of the finding of, or to deliver, any wreck to the Receiver of Wreck as required by section 252 shall be punished with fine which may extend to one thousand rupees, and, in the case of omission to deliver any wreck, shall, in addition to such fine, forfeit all claim to salvage, and pay to the owner of such wreck if the same is claimed, or, if the same is unclaimed, to the Government, a penalty not exceeding twice the value of such wreck.

CHAPTER XXVII.

INVESTIGATIONS INTO CASUALTIES AND CHARGES AGAINST MASTERS, MATES AND ENGINEERS.

Saving of powers for removal of master.

258. Nothing in this *chapter* shall affect the powers conferred by section 240 of the Merchant Shipping Act, 1854, or by section 127 of this Act on Courts *mentioned in those sections, respectively.*

Report of casualties to be made to Local Government.

259. (*1*) Whenever any Magistrate, or any officer appointed by the Local Government in this behalf, receives credible information that—

(*a*) any British or foreign ship has been lost, abandoned, stranded or materially damaged on or near the coasts of British India; or

(*b*) by reason of any casualty happening to, or on board of, any British or foreign ship on or near those coasts, loss of life has ensued; or

(*c*) any British or foreign ship has caused loss or material damage to any other ship on or near those coasts; or

(*d*) any such loss, abandonment, stranding,

The Indian Merchant Shipping Bill, 1892.
(Part V.—Wrecks, Casualties and Investigations.—Chapter XXVII.—Investigations into Casualties and Charges against Masters, Mates and Engineers.—Sections 260-263.)

where to, or on board of, any British ship, and any competent witnesses thereof have arrived or are to be found at any place in British India; or

(*e*) any British ship is supposed to have been lost, and any evidence can be obtained in British India as to the circumstances under which she proceeded to sea or was last heard of;

he shall forthwith report in writing the information to the Local Government.

(*2*) The word "coasts" in sub-section (*1*) includes the *banks* of creeks and tidal rivers.

(*3*) In the cases mentioned in clauses (*a*), (*b*) and (*c*) of sub-section (*1*), the master, pilot, harbour-master or other person in charge of the ship, or (where two ships are concerned) in charge of each ship, at the time of the loss, abandonment, stranding, damage or casualty, and

in cases under clause (*d*) of sub-section (*1*), where the master of the ship concerned, or (except in the case of a loss) where the ship concerned, proceeds to any place in British India from the place where the loss, abandonment, stranding, damage or casualty has occurred, the master of the ship,

shall, on arriving in British India, give immediate notice of the loss, abandonment, stranding, damage or casualty to the nearest Magistrate, or, when he arrives at a port in British India, to the officer appointed as aforesaid at that port.

(*4*) *In cases under clause (e) of sub-section (1), the managing owner of the ship, or, where there is no managing owner, the ship's husband, shall, as soon as conveniently may be, send to some officer appointed by the Local Government as aforesaid notice in writing of the loss.*

(*5*) Any person bound to give notice under this section and wilfully failing to give the same shall be punished with fine which may extend to five hundred rupees.

(*6*) The Magistrate or other officer whose duty it is under sub-section (*1*) to report to the Local Government such information as is referred to in that sub-section shall have, *for the purposes of such report*, the following powers (that is to say):—

(*f*) he may go on board any ship to which the provisions of this *chapter* apply, and may inspect the same or any part thereof, or any of the machinery, boats, equipments or articles on board thereof, not unnecessarily detaining or delaying the ship from proceeding on any voyage;

(*g*) he may enter and inspect any premises the entry or inspection of which appears to him to be requisite;

(*h*) he may, by summons under his hand, require the attendance of all such persons as he may think fit to call before him, may examine such persons, and may, by a like summons, require returns *in writing* to any inquiries which he may think fit to make;

(*i*) he may require and enforce the production of all books, papers or documents which he considers important; and

(*j*) he may administer oaths, or may, instead of requiring or administering an oath, require any person examined by him to make and subscribe a declaration of the truth of the statements made by him in his examination.

Power for Local Government to appoint special Court of Investigation.

260. (*1*) If the Local Government to which the report required by section 259 has been made or within whose territories any competent witnesses of any such loss, abandonment, stranding, damage or casualty as is described in clause (*a*), (*b*), (*c*) or (*d*) of sub-section (*1*) of the same section have arrived or are to be found, or any evidence of such supposed loss as is described in clause (*e*) of the same sub-section can be obtained, is of opinion that a formal investigation into the facts referred to in any of the said clauses is requisite or expedient, the Local Government may appoint a special Court, consisting of not less than two nor more than four persons, and direct the Court to make the investigation, and may fix the place for making the same.

(*2*) One of the members of the Court shall be a Magistrate acting in or near the place where the investigation is made; another shall be some person conversant with maritime affairs, and the other or others (if any) shall be conversant with either maritime or mercantile affairs.

Power for Admiralty and Criminal Courts to hold investigations into casualties when so directed.

261. Any *Colonial* Court *of* Admiralty in British India, and the principal Court of ordinary criminal jurisdiction at any port in British India where there is no *Colonial* Court *of* Admiralty, may, when so directed by the Local Government or by such officer as the Local Government has empowered in this behalf, make the investigation referred to in section 260.

Power for Courts of Investigation to inquire into charges against masters, mates and engineers.

262. (*1*) Any Court making an investigation referred to in section 260 may inquire into any charge of incompetency or misconduct arising in the course of the investigation against any master, mate or engineer, as well as into any charge of a wrongful act or default on his part causing any loss, abandonment, stranding, damage or casualty referred to in section 259.

(*2*) In every case in which any such charge, whether of incompetency or misconduct, or of a wrongful act or default as aforesaid, arises against any master, mate or engineer in the course of an investigation, the Court shall, before the commencement of the inquiry into the charge, cause to be furnished to him a copy of the report or statement of the case upon which the investigation has been directed.

Power for Local Government to direct independent investigation into charge of incompetency or misconduct.

263. (*1*) If the Local Government has reason to believe that there are grounds for charging any master, mate or engineer holding a *Board of Trade*, *Colonial or local* certificate with incompetency or misconduct, otherwise than in the course of an investigation referred

The Indian Merchant Shipping Bill, 1892.
(Part V.—Wrecks, Casualties and Investigations.—Chapter XXVII.—Investigations into Casualties and Charges against Masters, Mates and Engineers.—Sections 264-270.)

to in section 260, it may send a statement of the case to—

(*a*) any Court mentioned in section 261, *or*

(*b*) *the Court of any Presidency Magistrate or Magistrate of the first class,*

at or nearest to the place at which it may be convenient for the parties and witnesses to attend, and may direct the Court to make an investigation into the charge.

(*2*) Before commencing the investigation, the Court shall cause the master, mate or engineer so charged to be furnished with a copy of the statement sent by the Local Government.

Person accused to be heard.

264. For the purpose of an investigation under *the foregoing provisions of* this chapter into any charge against a master, mate, or engineer, the Court may summon him to appear, and shall give him full opportunity of making a defence, either in person or otherwise.

Assessors.

265. (*1*) When any investigation *under the foregoing provisions of this chapter* involves, or appears likely to involve, any question as to the suspension or cancellation of the certificate of a master, mate or engineer, the Court making the investigation shall constitute as its assessors, for the purposes of the investigation, two persons having experience in the merchant service; and in every other investigation *under the said provisions* the Court making it may, if it thinks fit, constitute as its assessor, for the purposes of the investigation, any person conversant with maritime affairs and willing to act as assessor.

(*2*) Every assessor shall attend during the investigation and deliver his opinion in writing, to be recorded on the proceedings. But the exercise of all powers conferred on the Court by this Act or any other enactment for the time being in force shall rest with the Court.

Powers of Court as to evidence and regulation of proceedings.

266. For the purposes of any investigation under *the foregoing provisions of* this chapter, the Court making the investigation, so far as relates to compelling the attendance and examination of witnesses and the production of documents and the regulation of the proceedings, shall have—

(*a*) if the Court is a special Court—the same powers as are exerciseable by the principal Court of ordinary criminal jurisdiction for the place at which the investigation is made;

(*b*) if the Court is a *Colonial* Court *of* Admiralty, or a principal Court of ordinary criminal jurisdiction, *or a Court of a Presidency Magistrate or a Magistrate of the first class*—the same powers as are exerciseable by that Court in the exercise of its admiralty or criminal jurisdiction (as the case may be).

Power to arrest witnesses and cause entry and detention of ships.

267. (*1*) If any Court making an investigation under *the foregoing provisions of* this chapter thinks it necessary for obtaining evidence that any person should be arrested, it may issue a warrant for his arrest, and may, for the purpose of effecting the arrest, authorise any officer (subject, nevertheless, to any general or special instructions from the Local Government) to enter any ship.

(*2*) Any officer so authorised may, for the purpose of enforcing the entry, call to his aid any officers of Police or Customs, or any other persons, and may seize and detain the ship for such time as is reasonably necessary to effect the arrest.

(*3*) No person shall be detained by virtue of this section for more than forty-eight hours.

Power to commit for trial and bind over witnesses.

268. (*1*) Whenever, in the course of any investigation *under the foregoing provisions of* this chapter, it appears that any person has committed, within the jurisdiction of any Court in British India, an offence punishable under any law in force in British India, the Court making the investigation may (subject to such rules consistent with this Act as the High Court may, from time to time, make) cause him to be arrested, or commit him or hold him to bail to take his trial before the proper Court; and may bind over any person to give evidence at the trial, and may, for the purposes of this section, exercise all the powers of a Magistrate of the first class or of a Presidency Magistrate.

(*2*) For the purposes of this section the Recorder of Rangoon shall, *throughout Lower Burma*, be deemed to be the High Court.

Report by Court to Local Government.

269. (*1*) The Court shall, in the case of every investigation under *the foregoing provisions of* this chapter, transmit to the Local Government a full report of the conclusions at which it has arrived, together with the evidence.

(*2*) In cases in which, under the Merchant Shipping Acts, 1854 to *1892*, the Court is required to send a report to the Board of Trade, the report shall be sent through the Local Government, and the transmission of the report to the Local Government shall be a sufficient compliance with this section.

Re-hearing.

270. (*1*) *Where an investigation into a shipping casualty, or into the conduct of a master, mate or engineer, has been held under this chapter, the Local Government may, in any case,*

and shall, if new and important evidence which could not be produced at the investigation has been discovered, or if for any other reason there has, in its opinion, been ground for suspecting a miscarriage of justice,

order that the case be re-heard, either generally or as to any part thereof.

(*2*) *Where a re-hearing is ordered on the ground that new and important evidence as aforesaid has been discovered, the case shall be re-heard by the Court by which it was heard in the first instance; and, where a re-hearing is ordered on any other ground, the case shall be re-heard by the Colonial Court of Admiralty.*

(*3*) ***The provisions of section 262, section 263, sub-section (2), and sections 264 to 269 (both inclusive) shall apply in the case of every re-hearing ordered under this section.***

The Indian Merchant Shipping Bill, 1892.
(Part V.—Wrecks, Casualties and Investigations.—Chapter XXVII.—Investigations into Casualties and Charges against Masters, Mates and Engineers.—Section 271. Part VI.—Chapter XXVIII.—Assistance to Passengers abroad.—Sections 272-275.)

Investigations into Explosions on Steam-ships.

[Act VII of 1884, s. 37 (1), (2).]

Power to investigate causes of explosions on board steam-ships.

271. (*1*) Whenever an explosion occurs on board any steam-ship, whether British or foreign, on or near the coasts of British India, the Local Government may, if it thinks fit, direct that an investigation into the cause of the explosion be made by such person or persons as it may think fit.

(*2*) The person or persons so directed may enter into and upon the steam-ship, with all necessary workmen and labourers, and remove any portion of the steam-ship or of the machinery thereof, for the purpose of the investigation, and shall report to the Local Government what, in his or their opinion, was the cause of the explosion.

PART VI.

CHAPTER XXVIII.

ASSISTANCE TO PASSENGERS ABROAD.

[Act XII of 1885, preamble; Bill of 1867, s. 285.] 18 & 19 Vict., c. 119.

Whereas by section 99 of an Act of the Imperial Parliament called the Passengers Act, 1855, it is enacted that "it shall be lawful for the Governor General of India in Council, from time to time, by any Act or Acts to be passed for that purpose, to declare that this Act or any part thereof shall apply to the carriage of passengers upon any voyage from any ports or places within the territories of British India, to be specified in such Act or Acts, to any other places whatsoever, to be also specified in such Act or Acts," and it is thereby also enacted that "on the passing of such Indian Act or Acts, and whilst the same shall remain in force, all such parts of this Act as shall be adopted therein shall apply to and extend to the carriage of passengers upon such voyages as in the said Indian Act or Acts shall be specified. The provisions of such Indian Act shall be enforced in all Her Majesty's Possessions in like manner as the provisions of this Act may be enforced;"

26 & 27 Vict., c. 51. 18 & 19 Vict., c. 119.

And whereas by an Act of the Imperial Parliament called the Passengers Act Amendment Act, 1863, certain parts of the Passengers Act, 1855, have been amended, and it is directed that the said Acts shall be construed together as one Act;

XII of 1885.

And whereas certain parts of the said Acts of Parliament *have, by an Act passed by the Governor General of India in Council, called the Indian Sea Passengers Act, 1885, been* made applicable to the carriage of passengers upon certain specified voyages;

And whereas it is expedient that the *said Indian Sea Passengers Act, 1885, should be re-enacted with the amendments hereinafter appearing;*

It is hereby enacted as follows:—

[Act XII of 1885, s. 3; Bill of 1867, s. 285.] Cf. 1855 (Passengers), s. 99; 1863, s. 3. 18 & 19 Vict., c. 119. 26 & 27 Vict.

Certain provisions of the Passengers Acts, 1855 and 1863, made applicable to specified voyages from British India.

272. The provisions in sections 273, 274 and 275, and Schedule VII (being parts of the Passengers Act, 1855, as amended by the Passengers Act Amendment Act, 1863), are declared applicable to the carriage of passengers, whether in British or foreign ships, upon the following voyages, namely:—

(*a*) voyages from the ports of Calcutta, Madras and Bombay to the British colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis and Fiji;

(*b*) voyages from the ports of Calcutta, Madras and Bombay to the French colonies of Réunion, Martinique, Guadeloupe and its dependencies, and Guiana;

(*c*) voyages from the ports of Calcutta, Madras and Bombay to the Netherlands colony of Dutch Guiana;

(*d*) voyages from the ports of Calcutta, Madras and Bombay to the Danish colony of St. Croix;

(*e*) voyages under Part VII from Calcutta, Madras, Bombay, Karachi, Rangoon and other ports in British India to the Straits Settlements, to the protected Native States adjoining the Straits Settlements, to Australia, and to ports in the Red Sea, Gulf of Aden or Persian Gulf and on the East Coast of Africa.

[Act XII of 1885, s. 4; Bill of 1867, s. 286.] Cf. 1855 (Passengers), s. 52.

Governors or Consuls may pay expenses of passengers taken off ship.

273. If the passengers or cabin-passengers upon any such voyage as is specified in section 272 are taken off from the ship carrying them or are picked up at sea from any boat, raft or otherwise, it shall be lawful, if the port or place to which they are conveyed is in any of Her Majesty's colonial possessions, for the Governor of such colony, or for any person authorised by him for the purpose, or, if in any foreign country, for Her Majesty's Consular Officer at such port or place therein, to defray all or any part of the expenses thereby incurred.

[Act XII of 1885, s. 5; Bill of 1867, s. 287.] Cf. 1863, s. 15.

Governors or Consuls may send on passengers, if the master of the ship fails to do so.

274. If any passenger or cabin-passenger of any such ship as aforesaid, without any neglect or default of his own, finds himself within any colonial or foreign port or place other than that for which the ship was originally bound, or at which he, or the Emigration Agent, or any public officer or other person on his behalf, has contracted that he should land,

it shall be lawful for the Governor of the colony, or for any person authorised by him for the purpose, or for Her Majesty's Consular Officer at the foreign port or place, as the case may be, to forward the passenger or cabin-passenger to his intended destination, unless the master of the ship, within forty-eight hours of the arrival of such passenger or cabin-passenger, gives to the Governor or Consular Officer, as the case may be, a written undertaking to forward or carry on within six weeks thereafter the passenger or cabin-passenger to his original destination, and unless the master accordingly forwards or carries him on within that period.

[Act XII of 1885, s. 6; Bill of 1867, s. 288.] Cf. 1863, s.

Expenses incurred under sections 273 and 274 to be a Crown debt.

275. (*1*) All expenses incurred under section 273 or section 274, by or by the authority of a Governor or Consular Officer, or other

The Indian Merchant Shipping Bill, 1892.
(Part VI.—Chapter XXVIII.—Assistance to Passengers abroad.—Section 276. Part VII.—Native Passenger-ships.—Chapter XXIX.—Preliminary.—Sections 277-279.)

person as therein respectively mentioned, including the cost of maintaining the passengers and cabin-passengers until forwarded to their destination, and of all necessary bedding, provisions and stores, shall become a debt to Her Majesty from the owner, charterer and master of the ship, and shall be recoverable from them, or from any one or more of them, at the suit and for the use of Her Majesty, in like manner as in the case of other Crown debts.

(2) A certificate in the form given in Schedule VII, or as near thereto as the circumstances of the case will admit, purporting to be under the hand of any such Governor or Consular Officer (as the case may be), stating the total amount of the expenses, shall, in any suit or other proceeding for the recovery of the debt, be received in evidence without proof of the handwriting or of the official character of the Governor or Consular Officer, and shall be deemed sufficient evidence of the amount of the expenses, and that the same were duly incurred;

nor shall it be necessary to adduce on behalf of Her Majesty any other evidence in support of the claim, but judgment shall pass for the Crown, with costs of suit, unless the defendant specially pleads and duly proves that the certificate is false or fraudulent, or specially pleads and duly proves any facts showing that the expenses were not duly incurred:

Provided, nevertheless, that in no case shall any larger sum be recovered on account of the expenses than a sum equal to twice the total amount of passage-money received or due to and recoverable by or on account of the owner, charterer or master of the ship or any of them from or on account of the whole number of passengers and cabin-passengers who may have embarked in the ship; which total amount of passage-money shall be proved by the defendant if he will have the advantage of this limitation of the debt;

but if any such passengers are forwarded or conveyed to their intended destination under the provisions of section 274, they shall not be entitled to the return of their passage-money, or to any compensation for loss of passage.

[Act XII of ... s. 7.] [... 1855 (Passengers).]

Insurance.

276. No policy of assurance effected in respect of any passages, or of any passage or compensation money, by any person by this chapter made liable in the events aforesaid to provide those passages or to pay that money, or in respect of any other risk under this chapter, shall be deemed invalid by reason of the nature of the risk or interest sought to be covered by the policy of assurance.

PART VII.

NATIVE PASSENGER-SHIPS.

CHAPTER XXIX.

PRELIMINARY.

[Act X of ... s. 2; ... of 1867, ...]

Application.

277. (1) This Part applies—

(a) to all subjects of Her Majesty within the dominions of Princes and States in India in alliance with Her Majesty;

(b) to all native Indian subjects of Her Majesty without and beyond British India; and,

(c) subject to the exceptions mentioned in section 5 and in sub-section (2) of this section, to ships, whether British or foreign, carrying as passengers more than thirty natives of Asia or Africa

(2) But it does not apply—

(d) to any steam-ship not carrying as passengers more than sixty natives of Asia or Africa, or

(e) to any ship not intended to carry natives of Asia or Africa as passengers to or from any port in British India.

(3) Notwithstanding anything in sub-sections (1) and (2), the Local Government, with the previous sanction of the Governor General in Council, may, *by notification in the local official Gazette*, declare all or any of the provisions of this Part to apply—

(f) to sailing-ships, or any class of sailing-ships, whether British or foreign, carrying as passengers more than fifteen natives of Asia or Africa, or

(g) to steam-ships, or any class of steam-ships, whether British or foreign, carrying as passengers more than thirty natives of Asia or Africa.

Power to exempt ships.

[Act X of 1887, s. 57.] [Cf. 1876, s. 20.]

278. (1) The Local Government, with the previous sanction of the Governor General in Council, may, subject to such conditions as it may think fit, exempt any ship or class of ships from any provision of this Part.

(2) In imposing a condition under this section the Local Government may direct that a breach of it shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing breach, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

Definitions.

[Act X of 1887, s. 5.]

279. In this Part, unless there is something repugnant in the subject or context,—

[Bill of 1867 s. 267 (2).] [Cf. ... 185... (Passengers), s. 3 ("statute adult").]

(1) "*native* passenger" means a passenger by a ship who is a native of Asia or Africa of the age of twelve years or upwards and is not on the agreement of the ship as one of the crew;

but does not include either a passenger in attendance on a person who is not a native of Asia or Africa, or a child under one year of age;

and, in the computation of *native* passengers for any of the purposes of this Part, two persons of the age of one year or upwards and under the age of twelve years shall be reckoned as one passenger;

(2) "long voyage" means, subject to the provisions of *section 280*,—

(a) any voyage to Aden from any other port in British India, whether the ship performing it proceeds to Aden direct or calls at one or more intermediate ports, or

(b) any voyage from or to a port in British India to or from a port in the Red

The Indian Merchant Shipping Bill, 1892.

(Part VII.—Native Passenger-ships.—Chapter XXIX.—Preliminary.—Section 280. Chapter XXX.—General Provisions as to Voyages.—Sections 281-284.)

Sea, whether the ship performing it proceeds to such port direct or calls at one or more intermediate ports, or

(*c*) any voyage *(not being a voyage referred to in clause (a) or clause (b))* during which the ship performing it will in ordinary circumstances be one hundred and twenty hours or upwards continuously out of port, *or*

(d) any voyage (not being a voyage referred to in clause (a) or clause (b)) during which the ship performing it will not in ordinary circumstances be one hundred and twenty hours continuously out of port, but during which the ship calls at one or more intermediate ports and has native passengers on board for two hundred and forty hours or upwards ;

(*3*) "short voyage" means, subject to the provisions of *section 280*,—

(*c*) any voyage (*not being a voyage referred to in clause (a) or clause (b), or a shelter-port voyage or an excursion voyage*) during which the ship performing it will not in ordinary circumstances be one hundred and twenty hours continuously out of port, *and*

(i) does not call at any intermediate port, or

(ii) calls at one or more intermediate ports and has native passengers on board for less than two hundred and forty hours.

(4) "shelter-port voyage" means, subject to the provisions of section 280,—

(j) in the case of a steam-ship having a certificate of survey, granted under Chapter XXIII or by the Board of Trade or by a British Colonial Government, in force and applicable to the voyage on which the ship is about to proceed or the service on which she is about to be employed—any voyage (not being an excursion voyage) during which the ship is at no time more than eight hours distant from a port of shelter, and

(f) in the case of any other ship—any voyage (not being an excursion voyage) during which the ship performing it is at no time more than six hours distant from a port of shelter ;

(*5*) *"excursion voyage" means, subject to the provisions of section 280, any voyage beginning and ending in a season of fair weather, during which the ship performing it is not out of port before sunrise or after sunset, and during which native passengers are not embarked before sunrise or kept on board after sunset ;*

(*6*) "voyage," when used without the prefix "long," "short", *"shelter-port" or "excursion,"* means the whole distance between the ship's port or place of departure and her final port or place of arrival ; and

(*7*) "Chief Customs-officer" means the chief executive officer of sea-customs in any port or place to which this Part applies.

Power to declare what shall be deemed "seasons of fair weather," and "seasons of foul weather," and to modify or supplement certain definitions in section 279.

280. (*1*) The Governor General in Council may, by notification in the Gazette of India, declare what shall be deemed to be, for the purposes of this Part, "seasons of fair weather" and "seasons of foul weather", and, for sailing-ships and steam-ships respectively, a "long voyage", a "short voyage," *a "shelter-port voyage" and an "excursion voyage."* [Act X 1887, s. ... Bill of ... s. 276.]

(2) The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare what ports shall, for the purposes of this Part, be deemed to be "ports of shelter."

CHAPTER XXX.

GENERAL PROVISIONS AS TO VOYAGES.

Ports for departure of ships or discharge or receiving of native passengers.

281. (*1*) A ship carrying *native* passengers shall not depart or proceed on a voyage from, or discharge *such* passengers at, any port or place in British India other than a port appointed in this behalf by the Local Government. [Act X of 1887, s. ... Bill of ... s. 263.]

(*2*) After a ship has departed or proceeded on a voyage from a port so appointed, a person shall not be received on board as a *native* passenger except at some other port so appointed.

Notice to be given of destination and time of sailing.

282. (*1*) The master, owner or agent of any ship so departing or proceeding shall give notice to an officer appointed in this behalf by the Local Government that the ship is to carry *native* passengers, and of her destination, and of the proposed time of sailing. [Act X of ... s. 7; Bill ... 1867, s. ...]

(*2*) The notice shall be given not less than twenty-four hours before that time.

Power to enter and inspect ship.

283. After receiving the notice, the officer aforesaid or any person authorised by him shall be at liberty at all times to enter on the ship and inspect her and her fittings and the provisions and stores in her. [Act X of 1887, s. 8 ... of 1867, ... 269. Cf. 1855 ... sengers) ss. 10, 3...]

Ship not to sail without certificate or certificates.

284. (*1*) A ship intended to carry *native* passengers shall not commence a voyage from a port appointed under section 281 unless the master holds a certificate (hereinafter called Certificate A) to the effect mentioned in sub-section (*2*), and, *in the case of a ship proceeding on a long voyage*, a certificate (hereinafter called Certificate B) to the effect mentioned in sub-section (*3*). [Act X ... 1887, ss. 10, 11; ... 1867, ss. 267 (*1*), Cf. 1855 (Passeng... ss. 11, 2...]

(*2*) "Certificate A" shall state—

(*a*) that the ship is seaworthy and properly equipped, fitted and ventilated, and

(*b*) *in the case of a ship proceeding on a long voyage*, the number of *native* passengers which she is capable of carrying, *or*

(c) in the case of a ship proceeding on a short voyage, a shelter-port voyage or an excursion voyage,—

(*i*) the *full* number of *native* passengers which the ship is capable of carrying

The Indian Merchant Shipping Bill, 1892.

(Part VI.—Native Passenger-ships.—Chapter XXX.—General Provisions as to Voyages.—Sections 285-290.)

during *a season of fair weather and a season of foul weather respectively, and on a short voyage, a shelter-port voyage and an excursion voyage respectively, when fully equipped and fitted in accordance with this Part and the rules thereunder,*

(*ii*) *the number of native passengers which the ship is capable of carrying on each division of a deck during a season of fair weather and a season of foul weather, respectively, and on a short voyage a shelter-port voyage and an excursion voyage, respectively, a plan of each such division being given on the certificate and the number of native passengers being stated on the plan, and*

(*iii*) if the ship is to carry upper-deck passengers during a season of *fair* weather, that she is furnished with substantial bulwarks and a double awning or with other sufficient protection against the weather; and

(*d*) in the case of a ship *referred to in section 291*, that she has on board a medical officer licensed in accordance with the rules under this Part.

(*3*) "Certificate B" shall state—

(*e*) the voyage which the ship is to make, and the intermediate ports, if any, at which she is to touch;

(*f*) that she has the proper complement of officers and seamen;

(*g*) that food, fuel, pure water *and medical stores and appliances*, over and above what is necessary for the crew, and the other things, if any, prescribed for the ship, have been placed on board, of the quality prescribed, properly packed, and sufficient to supply the *native* passengers on board during the voyage which the ship is to make (including such detention in quarantine as may be probable) according to the scale for the time being prescribed;

(*h*) that the master holds Certificate A;

(*j*) if the ship is to carry *native* passengers to any port in the Red Sea, that she is propelled principally by steam, and,

(*k*) such other particulars, if any, as may be prescribed.

[Act X of 1887, s. 9 (2); Bill of 1867, s. 4.] *Port-clearance not to be granted without certificate or certificates.*

285. No officer authorised to grant a port-clearance shall grant the same for a ship carrying *native* passengers unless the master holds a certificate or certificates granted in accordance with section 284.

[Act X of 1887, s. 12; Bill of 1867, s. 5.] *Grant of certificates.*

286. The person by whom Certificate A and Certificate B are to be granted shall be the officer appointed under section 282.

[Act X of 1887, s. 13.] [1876, s. 18.] *Production of certificate of survey containing particulars required for Certificate A.*

287. Where the master of a ship produces to that officer a certificate *of survey*, granted *under Chapter XXIII* or by the Board of Trade or by a British Colonial Government, in force and applicable to the voyage on which the ship is *about* to proceed or the service on which she is about to be employed, and *any of* the particulars required by section 284, sub-section (*2*), are certified thereby, the officer may take the certificate as evidence of those particulars, and *the same may thereupon be inserted in* Certificate A.

Survey of ship. [Act X of 1887, s. 14; Bill of 1867 ss. 264, 270. Cf. 1855 (Passengers), 19.]

288 (*1*) After receiving the notice required by section 282, the officer appointed under that section may, if he thinks fit, cause the ship to be surveyed at the expense of the master or owner by competent surveyors, who shall report to him whether the ship is, in their opinion, seaworthy and properly equipped, fitted and ventilated for the voyage which she is to make:

Provided that he shall not cause a ship having a certificate *of survey* mentioned in section 287 to be surveyed unless, by reason of the ship having met with damage or having undergone alterations, or on other reasonable ground, he considers it likely that she may be found unseaworthy or not properly equipped, fitted or ventilated for the voyage.

(*2*) If the officer causes a survey to be made of a ship holding a certificate *of survey* mentioned in section 287, and the surveyors report that the ship is seaworthy and properly equipped, fitted and ventilated for the voyage, and that there was no reasonable ground why the officer should have thought it likely that she would be found unseaworthy, or not properly equipped, fitted or ventilated for the voyage, the expense of the survey shall be paid by the Local Government.

(*3*) *If at the time of making a survey under this section all the prescribed equipments are not on board the ship, the officer granting Certificate A shall note the deficiency thereon; and the number of native passengers proportionate to such deficiency shall not be carried until the deficiency has been supplied and the fact endorsed on the certificate by the said officer.*

Discretion as to grant of certificate. [Act X of 1887, s. 15.]

289. (*1*) The officer authorised to grant a certificate under this Part in respect of a ship shall not grant it unless he is satisfied that she has not on board any cargo likely from its quality, quantity or mode of stowage to prejudice the health or safety of the passengers.

(*2*) But save as aforesaid, and subject to the provisions of sub-section (*3*), it shall be in the discretion of the officer to grant or withhold the certificate.

(*3*) In the exercise of that discretion that officer shall be subject to the control of the Local Government, and of any intermediate authority which that Government may appoint in this behalf.

Copy of certificate to be exhibited. [Act X of 1887, s. 16.]

290. The master or owner shall post up in a conspicuous part of the ship, so as to be visible to persons on board thereof, a copy of *the certificate or* each of the certificates granted under this Part in respect of the ship, and shall keep the copy or copies so posted up throughout the voyage.

The Indian Merchant Shipping Bill, 1892.
(Part VII.—Native Passenger-ships.—Chapter XXX.—General Provisions as to Voyages.—Sections 292-293. Chapter XXXI.—Special Provisions as to Long Voyages.—Sections 294-299.)

Certain ships to carry medical officer.

291. *Every ship carrying more than four hundred native passengers*

from or to any port on the Coromandel Coast to or from Rangoon, or

from or to Calcutta to or from Rangoon, or

from or to any port in the territories administered by the Governor of Bombay in Council to or from any port not in those territories, or

from or to Aden to or from any other port in the territories administered by the Governor of Bombay in Council, and

every ship carrying more than one hundred *native* passengers from or to any port in British India to or from any port in the Red Sea,

shall have on board a medical officer licensed in accordance with the rules under this Part.

Report of deaths.

292. (*1*) The master of every ship carrying *native* passengers shall notify the date and supposed cause of death of every *native* passenger dying on the voyage.

(*2*) Such notification shall be made at the *first port at which the ship calls after the occurrence of any such death*, and shall be made,—

(*a*) in the case of a long voyage, to a person lawfully exercising Consular authority on behalf of Her Majesty at such port, or to the Chief Customs-officer thereat, or to the officer (if any) appointed there under section 282, and

(*b*) in the case of a short voyage, *a shelter-port voyage or an excursion voyage*, to such officer as the Governor General in Council may appoint in this behalf.

Report as to animals carried.

293. *The master of every ship carrying native passengers and calling at any intermediate port in British India between the first port of departure and the final port of arrival shall at each such intermediate port report to the officer appointed under section 282 the number of cattle and other live animals on board which may be occupying space measured for native passengers.*

CHAPTER XXXI.

SPECIAL PROVISIONS AS TO LONG VOYAGES.

Space to be available for native passengers.

294. Every ship carrying *native* passengers and performing a long voyage shall, subject to the provisions of *section 326*, contain in the between-decks the spaces hereinafter respectively mentioned for each such passenger:

if the ship is propelled by sails, twelve superficial and seventy-two cubic feet;

if the ship is propelled by steam, or partly by steam and partly by sails, nine superficial and fifty-four cubic feet.

Statements concerning passengers.

295. The master of a ship departing or proceeding on a long voyage from any port in British India shall sign two statements, specifying the number and the respective sexes of all the *native* passengers, and the number of the crew, and shall deliver them to the officer appointed under section 282, who shall thereupon, after having first satisfied himself that the numbers are correct, countersign and return to the master one of the statements.

Ship taking additional passengers at intermediate place.

296. (*1*) In either of the following cases, namely,—

(*a*) if after the ship has departed or proceeded on a long voyage any additional *native* passengers are taken on board at a port in British India appointed under section 281 for the embarkation of *such* passengers, or

(*b*) if the ship upon her voyage touches or arrives at any such port, having previously received on board additional *native* passengers at any place beyond British India,

the master shall obtain a *new* certificate to the effect of Certificate B from the officer appointed at that port under section 282, and shall make additional statements specifying the number and the respective sexes of all the additional *native* passengers.

(*2*) All the foregoing provisions of this Part with respect to Certificate B and statements concerning *native* passengers shall be applicable to any certificate granted or statement made under this section.

Voyages between British India and the Red Sea.

Ships to be propelled principally by steam.

297. A ship carrying *native* passengers from or to any port in British India to or from any port in the Red Sea shall be propelled principally by steam.

Ships to touch at Aden and obtain bill of health.

298. (*1*) A ship carrying *native* passengers from or to any port in British India other than Aden to or from any port in the Red Sea shall touch at Aden, and shall not leave that port without having obtained from the proper authority a clean bill of health.

(*2*) The authority at Aden empowered to grant the bill of health shall refuse to grant it if the ship has on board a greater number of *native* passengers than the number allowed for the ship by or under this Part, and may refuse to grant it if the requirements of any rule under this Part are not complied with on board the ship.

Bond.

299. In the case of a ship carrying *native* passengers from any port in British India other than Aden to any port in the Red Sea, no officer authorised to grant a port-clearance for the ship shall grant the same unless and until the master, owner or agent of the ship and two sureties resident in British India have executed in favour of the Secretary of State for India in Council a joint and several bond, for the sum of five thousand rupees, conditioned—

(*a*) that the ship shall touch at Aden on the outward voyage and there obtain a

The Indian Merchant Shipping Bill, 1892.

(Part VII.—Native Passenger-ships. Special Provisions as to Long Voyages.—Section 300—Chapter XXXII.—Special Provisions as to Short, Shelter-port and Excursion Voyages.—Sections 301-303. Chapter XXXIII.—Penalties.—Section 304.)

clean bill of health, and shall do the same on the homeward voyage if the ship continues to carry more than sixty *native* passengers, and

(*b*) that the master and medical officer (if any) of the ship shall comply with, on the outward voyage, and also on the homeward voyage if the ship continues to carry more than sixty *native* passengers, the provisions of this Part and of such rules relating to ships carrying *native* passengers between ports in British India and ports in the Red Sea as the Governor General in Council may make under this Part.

Power to direct medical inspection of passengers.

300. (*1*) The Local Government may direct that no *native* passenger shall be received on board any ship or any ship of a specified class carrying *native* passengers from any port in British India to any port in the Red Sea unless and until the passenger has been inspected, at such time and place, and in such manner, as the Local Government may fix in this behalf, by a medical officer to be appointed by that Government for the purpose.

(*2*) If in the opinion of any officer making inspection under this section any *native* passenger is suffering from any dangerously infectious or contagious disease, *he shall prohibit* the embarkation of the passenger.

(*3*) *If any such officer has reason to believe that any native passenger, though not suffering from any dangerously infectious or contagious disease, is or has recently been in attendance upon, or otherwise in contact with, any person so suffering, he may prohibit the embarkation of the passenger for such period as he may think fit.*

CHAPTER XXXII.

SPECIAL PROVISIONS AS TO SHORT, SHELTER-PORT AND EXCURSION VOYAGES.

Space to be available for passengers.

301. (*1*) Every ship carrying *native* passengers and performing a short voyage, *a shelter-port voyage or an excursion voyage* shall, subject to the provisions of *section 326*, have the spaces hereinafter respectively mentioned for each such passenger :—

when performing a short voyage during a season of fair weather,	*nine superficial and fifty-four cubic feet*;
when performing a shelter-port voyage during a season of fair weather,	*seven superficial and forty-two cubic feet ;*

<table>
<tr><td rowspan="2">when performing a short voyage or a shelter-port voyage during a season of foul weather,</td><td>if the ship is propelled by sails, nine superficial and fifty-four cubic feet ;</td></tr>
<tr><td>if the ship is propelled by steam, or partly by steam and partly by sails, seven superficial and forty-two cubic feet ;</td></tr>
<tr><td>when performing an excursion voyage,</td><td>six superficial and thirty-six cubic feet :</td></tr>
</table>

Provided that, in the case of a ship performing a short voyage or a shelter-port voyage,—

(a) such space as aforesaid shall, in seasons of foul weather, be sheltered by a permanent iron or wooden deck-covering and by solid bulwarks,

(b) if native passengers are carried in any ship, whether during a season of fair weather or during a season of foul weather, in more than one deck below the main or tonnage deck, the ship shall have on each such additional deck fourteen superficial and eighty-four cubic feet of space for each such passenger.

Upper-deck passengers.

302. A ship performing a short voyage, *a shelter-port voyage or an excursion voyage* during a season of *fair* weather shall not carry upper-deck passengers unless she is furnished with substantial bulwarks and a double awning or with other sufficient protection against the weather.

Food, &c., to be carried, awnings to be spread and statement as to passengers to be furnished.

303. The master of every ship proceeding on a short voyage, *a shelter-port voyage or an excursion voyage shall be bound—*

(*a*) to carry food, fuel, pure water *and medical stores and appliances,* over and above what is necessary for the crew, and the other things, if any, prescribed for the ship, of the quality prescribed, properly packed and sufficient to supply the *native* passengers on board during the voyage which the ship is to make (including such detention in quarantine as may be probable) according to the scale for the time being prescribed ;

(b) to keep awnings spread over all exposed decks at sea at all times when the weather permits ;

(c) to furnish to the officer appointed under section 282 at every port in British India at which the ship touches a statement, in a form sanctioned by the Local Government, shewing the number of native passengers taken on board at the last port at which the ship touched, the number to be landed at the port at which the statement is furnished and the number to be conveyed to the next port ; and

(d) to certify to such officer at each port as aforesaid that the several articles mentioned or referred to in clause (a) have been placed on board *in accordance with that clause.*

CHAPTER XXXIII.

PENALTIES.

Penalty for ship unlawfully departing or receiving native passengers on board.

304. If any ship departs or proceeds on a voyage from, or discharges *native* passengers at, any port or place in British India in contravention of section 281, sub-section (*1*), or section 28[illegible] or

The Indian Merchant Shipping Bill, 1892.

(Part VII.—Native Passenger-ships.—Chapter XXXIII.—Penalties.—Sections 305-315.)

if any person is received as a *native* passenger on board a ship in contravention of section 281, sub-section (2), *or*

if any native passenger is carried on board a ship in contravention of section 288, sub-section (3),

the master or owner shall, for every *native* passenger carried in the ship, or for every *native* passenger so discharged, received *or carried* on board, be punished with fine which may extend to one hundred rupees, or with imprisonment for a term which may extend to one month, or with both, and

the ship, if found within two years in any port or place in British India, may be seized and detained by a Chief Customs-officer until the penalties incurred under this Part by her master or owner have been adjudicated, and the payment of the fines imposed on him under this Part, with all costs, has been enforced, under the provisions of this Part:

Provided that the aggregate term of imprisonment awarded under this section shall not exceed one year.

Penalty for opposing entry on or inspection of ship.

305. If any person impedes or refuses to allow any entry or inspection authorised by or under this Part, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for not exhibiting copy of certificates.

306. If any master or owner without reasonable excuse, the burden of proving which shall lie upon him, fails to comply with the requirements of section 290, with respect to the posting of copies of certificates, he shall be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to one month, or with both.

Penalty for sailing without medical officer.

307. If any ship *referred to in section 291* has not on board a medical officer as required by that section, the master shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for failing to notify death.

308. If any master without reasonable excuse, the burden of proving which shall lie upon him, fails to notify any death, as required by section 292, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for failing to make a report as to animals carried.

309. *If any master fails to make a report, as required by section 293, as to animals carried on board his ship and occupying space measured for native passengers, or wilfully makes any false statement in any such report, he shall be punished with fine which may extend to twenty rupees for every animal occupying such space and not duly reported.*

Penalty for not complying with requirements as to statements concerning passengers and certain other matters.

310. If any master fails to comply with any of the requirements of section 295, as to statements concerning *native* passengers, or wilfully makes any false entry or note in without reasonable excuse, the burden of proving which shall lie upon him, fails to obtain any such *new* certificate, or to make any such statement of the number of additional *native* passengers, as is mentioned in section 296,

he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for carrying native passengers to or from the Red Sea in ship not propelled by steam.

311. If any ship carrying *native* passengers from or to any port in British India to or from any port in the Red Sea is not propelled principally by steam as required by section 297, the master and owner shall each be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for not obtaining bill of health at Aden.

312. If, in the case of a ship to which section 298 applies, the master, without reasonable excuse, the burden of proving which shall lie upon him, fails to touch at Aden, or leaves that port without having obtained a bill of health under that section, he shall be punished with fine which may extend to two thousand rupees, or with imprisonment for a term which may extend to six months, or with both.

Penalty on master or medical officer of certain ships disobeying rules.

313. If, in the case of a ship to which section 298 applies, the master or the medical officer, if any, of the ship, without reasonable excuse, the burden of proving which shall lie upon him, breaks, or omits or neglects to obey, any rule under this Part applicable to the ship, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty on master receiving passenger in contravention of section 300.

314. If the master of any ship to which a direction under section 300 applies knowingly receives on board the ship any person in contravention of that section, *or of any prohibition made thereunder*, he shall be punished with fine which may extend to five hundred rupees for each person so received, or with imprisonment for a term which may extend to three months, or with both.

Penalty for contravention of section 303.

315. *(1) If any master fails to comply with any of the requirements of section 303, clause (a), as to the carrying of food, fuel, water, medical stores and appliances and other prescribed things, he shall be punished with fine which may extend to two hundred rupees.*

(2) If any master fails to comply with the requirement of section 303, clause (b), as to the spreading of awnings, he shall be punished with fine which may extend to two hundred rupees.

(3) If any master fails to comply with any of the requirements of section 303, clause (c), as to furnishing a statement concerning native passengers, or wilfully makes any false entry in any such statement, he shall be punished with fine which may extend to two

The Indian Merchant Shipping Bill, 1892.

(Part VII.—Native Passenger-ships.—Chapter XXXIII.—Penalties.—Sections 316-321. Chapter XXXIV.—Supplemental Provisions.—Sections 322-323.)

to grant a port-clearance for the ship shall grant the same unless and until the master has furnished a statement, or an amended statement, as the case may be, of the nature required by the said clause.

(4) If any master fails to give the certificate required by section 303, clause (d), or wilfully makes any false entry or note in or on any such certificate, he shall be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

Penalty for fraudulent alteration in ship after certificate obtained *or given.*

316. If any master, after having obtained any of the certificates mentioned in section 284 or section 296, *or after having given a certificate under section 303, clause (d),* fraudulently does or suffers to be done anything whereby the certificate becomes inapplicable to the altered state of the ship, her passengers or other matters to which the certificate relates, he shall be punished with fine which may extend to two thousand rupees, or with imprisonment for a term which may extend to six months, or with both.

Penalty for failing to supply native passengers with prescribed provisions.

317. If any master without reasonable excuse, the burden of proving which shall lie upon him, omits to supply to any *native* passenger the prescribed allowance of food, fuel and water, he shall be punished with fine which may extend to twenty rupees for every passenger who has sustained detriment by the omission.

Penalty for having excessive number of native passengers on board.

318. (1) If any ship carrying *native* passengers to or from any port in British India has on board a number of *native* passengers which is greater than the number allowed for the ship by or under this Part, the owner and master shall, for every *native* passenger over and above that number, be each punished with fine which may extend to twenty rupees, and the master shall further be liable to imprisonment for a term which may extend to one week in respect of each such passenger:

Provided that the aggregate term of imprisonment awarded under this section shall not exceed six months.

(2) Any officer authorised in this behalf by the Local Government may cause all *native* passengers over and above the number allowed by or under this Part to disembark, and may forward them to any port at which they may have contracted to land, and recover the cost of so forwarding them from the master or owner of the ship as if the cost were a fine imposed under this Part; and a certificate under the hand of that officer shall be conclusive proof of the amount of the cost aforesaid.

Penalty for bringing native passengers from foreign port in excess of authorised number.

319. If any ship carrying *native* passengers from any port or place beyond British India to any port in British India has on board a number of *native* passengers greater either than the number allowed if any, granted in respect of the ship at her port or place of departure, the master and owner shall, for every *native* passenger in excess of that number, be each punished with fine which may extend to twenty rupees.

Penalty for landing native passenger at a place other than that at which he has contracted to land.

320. If any master lands any *native* passenger at any port or place other than the port or place at which the passenger may have contracted to land, unless with his previous consent, or unless the landing is made necessary by perils of the sea or other unavoidable accident, the master shall for every *native passenger so landed* be punished with fine which may extend to two hundred rupees, or with imprisonment for a term which may extend to one month, or with both.

[Act X of 1887, s. 39; Bill of 1867, s. 283.] Cf. 1855 (Passengers), s. 56.

Penalty for making voyage in contravention of contract with passengers.

321. If any ship, otherwise than by reason of perils of the sea or other unavoidable accident, touches at any port or place in contravention of any express or implied contract or engagement with the *native* passengers with respect to the voyage which the ship was to make and the time which that voyage was to occupy, whether the contract or engagement was made by public advertisement or otherwise, the master and owner shall each be punished with fine which may extend to five hundred rupees, or with imprisonment for a term which may extend to three months, or with both.

[Act X of 1887, s. 40.]

CHAPTER XXXIV.

SUPPLEMENTAL PROVISIONS.

Information to be sent to ports of embarkation and discharge.

322 (1) The Chief Customs-officer, or other officer, if any, appointed by the Local Government in this behalf, at any port in British India at which a ship carrying *native* passengers touches or arrives, shall, with advertence to the provisions of this Part, send any particulars which he may deem important respecting the ship, and the *native* passengers carried therein, to the officer *appointed under section 282* at the port from which the ship commenced her voyage, and to the officer *appointed under the said section* at any other port in British India where the passengers or any of them embarked or are to be discharged.

[Act X of 1887, s. 51; Bill of 1867, s. 274.]

(2) The Chief Customs-officer, or other officer, if any, appointed by the Local Government in this behalf, at any port in British India at which a ship to which this Part applies touches or arrives, may enter on the ship and inspect her in order to ascertain whether the provisions of this Part as to the number of *native* passengers and other matters have been complied with.

Certain documents to be admissible in evidence.

323. In any proceeding for the adjudication of any penalty incurred under this Part, any document purporting to be a report of such particulars as are referred to in section 322, sub-section (1), or a copy of the proceedings

[Act X of 1887, s. 52; Bill of 1867, s. 275.]

The Indian Merchant Shipping Bill, 1892.
(Part VII.—Native Passenger-ships.—Chapter XXXIV.—Supplemental Provisions.—Sections 324-328. Part VIII.—Chapter XXXV.—Coast-light Dues.—Sections 329-330.)

made and signed by any person lawfully exercising consular authority on behalf of Her Majesty in any foreign port, shall be admissible in evidence, if it appears to have been officially transmitted to any officer at or near the place where the proceeding under this Part is had.

Power to make rules.

324. (1) The Governor General in Council may make rules to regulate, in the case of any ship or class of ships, all or any of the following matters :—

(a) the scale on which food, fuel and water are to be supplied to *native* passengers or to any class or classes of *native* passengers, and the quality of the food, fuel and water ;

(b) the medical stores and other appliances and fittings to be provided on board for maintaining health, cleanliness and decency ;

(c) the licensing and appointment of medical officers in cases where they are required by section 291 to be carried ;

(d) the anchors and cables to be provided on board ;

(e) the instruments for purposes of navigation to be supplied ;

(f) the apparatus *for ventilation and* for the purpose of extinguishing fires on board, and the precautions to be taken to prevent such fires ;

(g) the provision of boats and other appliances for saving life and of means for making signals of distress, and the supply of lights inextinguishable in water and fitted for attachment to life-buoys ;

(h) the area to be deducted from the space measured for native passengers when live animals are carried in such space ;

(i) the functions of the master, medical officer (if any) and other officers of the ship during the voyage ;

(j) the access of between-decks passengers to the upper deck ; and

(k) generally, to carry out the purposes of this Part.

(2) The Local Government may make rules to regulate, in the case of any ship or class of ships,—

(l) the local limits within which, and the time and mode at and in which, *native* passengers are to be embarked or discharged at any port appointed under *section 281* in that behalf ; and

(m) the time within which the ship or any ship of the class is to depart or proceed on her voyage after commencing to take *native* passengers on board.

(3) In making a rule under this section the authority making it may direct that a breach of it shall be punishable with fine which may extend to two hundred rupees, and, when the breach is a continuing breach, with a further fine which may extend to twenty rupees for every day after the first during which the breach continues.

Supply by passengers of their own food.

325. If any officer appointed in this behalf by the Local Government is satisfied that a *native* passenger has brought on board a ship for his own use food of the quality and in the quantity for the time being prescribed, the requirements of this Part respecting the supply of food for *native* passengers shall not apply so far as regards the supply of food for that passenger. [Act X of 1887, s. 17.]

Power to declare space to be available for native passengers.

326. The Governor General in Council may, by *notification in the Gazette of India,* declare in the case of any ship or class of ships and for all or any voyages the number of superficial *and* cubic feet of space to be available for *native* passengers ; and the order shall be alternative to, or override, as the Governor General in Council may direct, the provisions of sections 294 and 301 so far as they apply to that ship or class of ships. [Act X of 1887, s. 5.]

Appointment of officers.

327. The Local Government shall appoint such persons as it may think fit to exercise and perform the powers and duties which are conferred and imposed by this Part or may be conferred and imposed thereunder. [Act X of 1887, s. 54. Bill of 18 s. 265.]

Authority to institute proceedings for penalties.

328. The penalties to which masters and owners of ships are made liable by this Part shall be enforced only on information laid at the instance of officers appointed to grant certificates under this Part, or, at any port or place where there is no such officer, at the instance of the Chief Customs-officer. [Act X of 1887, s. 48. Bill of 18 s. 293.]

PART VIII.

CHAPTER XXXV.

COAST-LIGHT DUES.

Preliminary.

Definition of "voyage."

329. In this chapter, unless there is something repugnant in the subject or context, "voyage" means the whole distance between a ship's place of departure and her final place of arrival ; but the return of a ship from any place shall, notwithstanding the terms of any charter-party, be deemed a distinct voyage. [Act IX of 1879, s. 3.]

Levy and Recovery of Dues.

Dues chargeable.

330. For the purpose of establishing and maintaining coast-lights in the eastern part of the Bay of Bengal, a toll, hereinafter called "coast-light dues," shall be paid in respect of every ship, whether British or foreign, of the burden of fifty tons *or* upwards making any voyage mentioned in Schedule VIII, at the rate of one anna and six pies per ton of burden : [Act IX of 1879, ss. 4; Cf. 1854, s. 396, 397; 1855, s. 2; 1862, s. 47.]

Provided that such ship sails from, or enters during the course of, or at the termination of, such voyage, a port in British India, or takes in, or discharges, cargo off the coast of British India :

Provided further that the Governor General in Council may, by notification in the Gazette of India,—

(a) reduce, ***and again*** raise to an amount not exceeding one anna and six pies per

The Indian Merchant Shipping Bill, 1892.

(Part VIII.—Chapter XXXV.—Coast-light Dues.—Sections 331-338.)

ton of burden, the rate of coast-light dues *payable* in respect of all ships or any particular class of ships, *or*

(*b*) *abolish the coast-light dues payable in respect of all ships or any particular class of ships.*

Dues when payable.

331. Coast-light dues *chargeable under section 330* shall become due and payable—

(*a*) in the case of a ship clearing out of a port in British India upon any such voyage as aforesaid—previous to the grant of any port-clearance;

(*b*) in the case of a ship entering a port in British India in the course, or at the termination, of any such voyage as aforesaid—immediately upon her entering such port:

Provided that the said dues shall not be levied more than once on any ship in the course of the same voyage.

Collection of dues.

332. The Customs-collector shall collect the coast-light dues,

and shall grant to the person paying the same a voucher in writing under his hand, setting forth the name of his office, the port at which the coast-light dues are paid, the amount so paid, the name, tonnage and other proper description of the ship in respect of which such payment is made, and the voyage on which she is or has been bound.

Master to report arrival of ship.

333. Within twenty-four hours after the arrival within a port of any ship chargeable with coast-light dues, the master of the ship shall give notice of such arrival to the Customs-collector.

Ascertainment of tonnage of ship chargeable with dues.

334. In order to ascertain the tonnage of any ship chargeable with coast-light dues, the following rules shall be observed:—

(*1*) (*a*) If the ship is registered *in the United Kingdom or in British India or any other British Possession*, the Customs-collector may require the owner or master of the ship or any person having possession of her *certificate of registry* to produce *such certificate* for inspection.

(*b*) If the owner or master or such person as aforesaid neglects or refuses to produce *such certificate*, or otherwise to satisfy the Customs-collector as to what is the true tonnage of the ship in respect of which the coast light dues are payable, he shall be punished with fine which may extend to one hundred rupees, and the Customs-collector may cause the ship to be measured, and the tonnage thereof to be ascertained, *according to the mode of measurement for the time being prescribed by or under the Merchant Shipping Act, 1854, as amended by subsequent Acts, for ascertaining the tonnage of British ships*; and in such case the owner or master of the ship shall also be liable to pay the expenses of the measurement.

18 ... 104.

(*2*) If the ship is not registered *in the United Kingdom or in British India or some other British Possession*, and the owner or master thereof fails to satisfy the Customs-collector as to what is her true tonnage according to the mode of measurement for the time being prescribed *by or under the Merchant Shipping Act, 1854, as amended by subsequent Acts, for ascertaining the tonnage* of British ships, the Customs-collector shall cause the ship to be measured, and the tonnage thereof to be ascertained, according to the mode aforesaid; and in such case the owner or master of the ship shall be liable to pay the expenses of the measurement.

17 & 18 Vict., c. 104, &c.

(*3*) *If the ship is a ship of which the tonnage cannot be ascertained according to the mode of measurement mentioned in clauses (1) and (2), the tonnage of the ship shall be determined by the Customs-collector on such an estimate as may seem to him to be just.*

On refusal to pay dues or expenses, the Collector may distrain and sell.

[Act IX of 1879, s. 10.] Cf. 1854, s. 401; 1855, s. 4.

335. If the master of any ship refuses or neglects to pay to the Customs-collector on demand by him the amount of any dues or expenses payable in respect of the ship under this chapter, the Customs-collector may distrain or arrest the ship and the tackle, apparel and furniture belonging thereto, or any part thereof, and detain the same until the amount of such dues or expenses is paid;

and in case any part of such dues or expenses, or of the costs of the distress or arrest, or of the keeping of the same remains unpaid for the space of five days next after any such distress or arrest is so made, the Customs-collector may cause the ship or other thing so distrained or arrested to be sold, and with the proceeds of such sale may satisfy such dues, expenses and costs (including the costs of sale) remaining unpaid, and shall render the surplus (if any) to the master of the ship upon demand.

No port-clearance to be granted until dues, &c., are paid.

[Act IX of 1879, s. 11.] Cf. 1854, s. 400; 1855, s. 4.

336. No officer authorised to grant a port-clearance shall grant the same for a ship to which this chapter applies until her master or some other person has paid, or secured to the satisfaction of such officer, the amount of all dues, expenses and costs with which the ship is chargeable under this chapter, and of any fine to which any person is liable for anything done by him in contravention of this chapter.

Master to specify on demand voyage on which ship is bound.

[Act IX of 1879, s. 12.]

337. The master of any ship departing from or entering any port in British India upon, or in the course of, or at the termination of, any voyage, shall, upon the demand of the Customs-collector, specify upon what voyage she is or has been bound.

Penalty for evading payment of dues, &c.

[Act IX of 1879, s. 13.]

338. If the master of any ship evades, or attempts to evade, the payment of any coast-light dues, expenses or costs payable in respect of the ship under this chapter, he shall be punished with fine which may extend to two hundred rupees.

The Indian Merchant Shipping Bill, 1892.

(Part VIII.—Chapter XXXV.—Coast-light Dues.—Sections 339-340. Part IX.—Chapter XXXVI.—Miscellaneous.—Sections 341-346.)

[Act IX of 79, s. 14.]

Magistrate to decide disputes.

339. (*1*) If any dispute arises as to whether any ship is chargeable with any coast-light dues, expenses or costs under this chapter, or as to the amount of such dues, expenses or costs, such dispute shall, upon application made in that behalf by either of the disputing parties, be heard and determined in the towns of Calcutta, Madras and Bombay by a Presidency Magistrate, and elsewhere by any Magistrate exercising at the place where the dispute arises powers not less than those of a Magistrate of the second class.

(*2*) All decisions under this section shall be final.

Statement of Receipts and Expenditure.

[Act IX of 79, s. 16.] [1855, s. 8; 62, s. 47.]

Statement of receipts and expenditure to be published.

340. The Governor General in Council shall publish annually in the Gazette of India, *as soon after the first day of April as may be*, a statement showing the amount received on account of coast-light dues during the year ending on the thirty-first day of March last preceding, and the amount expended during the same period on the establishment and maintenance of coast-lights in the eastern part of the Bay of Bengal.

PART IX.

CHAPTER XXXVI.

MISCELLANEOUS.

[Act VII of 80, s. 50; Act V of 1883, 6 (4) (added Act VI of 91, s. 9), s. ; Act VII 1884, ss. 3), 37 (3)-]. 1876, ss. (5) and 35, ra. 3. XLV of 1860.]

Certain persons to be deemed "public servants."

341. (*1*) The following persons shall be deemed to be public servants within the meaning of the Indian Penal Code, namely:

(*a*) every surveyor appointed under section 189,

(*b*) every judge, assessor, officer or surveyor *acting* under Chapter XXIV,

(*c*) every person appointed under section 259, sub-section (*1*), to report information as to casualties,

(*d*) every officer authorised under section 267, sub-section (*1*), to enter a ship, and all persons whom he calls to his aid, and

(*e*) every person making an investigation under section 271.

[Act I of 1859, 3; Act VII 1880, s. 11, 39 (am. Act XVII 1891, s. 4,) 54, s. 81; Act VII of 84, s. 9 (2).] . 1888, s. 5.

Suspension and removal of officers.

342. Any officer or surveyor appointed under this Act may be suspended or removed by the authority which appointed him.

[Act VII of 80, s. 23, 40 (am. by Act XVII of 91, s. 4), s. , s. 68; Act I of 1884, s. ; Act X of 87, s. 53 (2); and see Act I of 1887, 5.]

Provisions with respect to rules.

343. (*1*) The power to make rules under *the foregoing provisions of this Act* is subject (except in the case of rules made under *section 30 or* section 268) to the condition of the rules being made after previous publication in such manner as the Governor General in Council may direct.

(*2*) A rule made by a Local Government under *the foregoing provisions of this Act* shall not take effect until it has been sanctioned by the Governor General in Council and published in the local official Gazette.

(*3*) A rule made by the Governor General in Council under *the foregoing provisions of this Act* shall not take effect until has been published in the Gazette of India.

(*4*) The publication in the Gazette of a rule purporting to be made under *the foregoing provisions of this Act* shall be conclusive proof that the rule has been duly made and sanctioned.

(*5*) Any rule under *the foregoing provisions of this Act* may be cancelled or varied by the authority by whom it was made.

Jurisdiction of Magistrates in respect of offences.

[Act I of 1859, s. 112, first paragraph; Act VII of 1880, s. 38; Act X of 1887, ss. 5 (7), 46 (1).]

344. (*1*) No Magistrate shall try any offence against *the foregoing provisions of this Act or any rule thereunder* unless he is a Presidency Magistrate or a Magistrate whose powers are not less than those of a Magistrate of the *first* class.

(*2*) *Any offence against the foregoing provisions of this Act which is triable in a summary way may be so tried by a Magistrate of the first class although he has not been specially empowered by the Local Government under section 260 of the Code of Criminal Procedure, 1882.* [X of 1882.]

Place of trial of offences.

[Act VII of 1880, s. 84; Act VII 1884, s. 39; Act X of 1887, s. 47; Bill of 1867, s. 292; Bill of 1882, s. 98.] Cf. 1854, s. 520.

345. Any person committing an offence against *the foregoing provisions of this Act or any rule thereunder* shall be triable for the offence in any place in which he may be or which the Local Government may, by notification in the official Gazette, direct in this behalf, or in any other place in which he might be tried under any other law for the time being in force.

Deposition of absent witness.

[Act I of 1859, s. 111; Act V of 1883, s. 16; Act X of 1887, s. 50; Bill of 1867, s. 289; Bill of 1882, s. 145, 154.] Cf. 1854, s. 270.

346. (*1*) Whenever, in the course of any legal proceeding *under the foregoing provisions of this Act* instituted at any place in British India before any *Court* or Magistrate or before any person authorised by law or by consent of parties to receive evidence, the testimony of any witness is required in relation to the subject-matter,

and the defendant or the person accused, as the case may be, after being allowed a reasonable opportunity for so doing, does not produce the witness before the Court or Magistrate,

any deposition previously made by the witness in relation to the same subject-matter before any *Court*, Justice or Magistrate in Her Majesty's dominions (including all parts of *British* India other than those subject to the same Local Government as the place where the proceeding is instituted), or before any British consular officer elsewhere, shall be admissible in evidence—

(*a*) if the deposition is authenticated by the signature of the presiding officer of the Court, or of the Justice, Magistrate or Consular officer before whom it was made, and

(*b*) if *the defendant or* the person accused had an apportunity, *by himself or his agent*, of cross-examining the witness, and

(*c*) if the proceeding be criminal, on proof that the deposition was made in the presence of the person accused:

The Indian Merchant Shipping Bill, 1892.

(Part IX.—Chapter XXXVI.—Miscellaneous.—Sections 347-349. Part X.—Inland Steam-ships.—Chapter XXXVII.—Preliminary.—Sections 350-353.)

Provided that, when such cross-examination has taken place, it shall be recorded as part of the deposition.

(2) It shall not be necessary in any case to prove the signature or official character of the person appearing to have signed any such deposition; and a certificate by such person that *the defendant or* the person accused had an opportunity of cross-examining the witness, and that the deposition, if made in a criminal proceeding, was made in the presence of the person accused, shall, unless the contrary be proved, be sufficient evidence that he had that opportunity and that it was so made.

[Act I of 1859, ss. 44, 56; Bill of 1867, ss. 155, 168; Bill of 1882, ss. 55, 68.]

Levy of wages, &c., by distress of moveable property.

347. When an order for the payment of any wages *or other money* is made by a Superintendent of a Mercantile Marine Office under section 87 or by a Magistrate under section 89, and the money is not paid at the time *or* in the manner directed, the sum mentioned in the order, with such further sum as may be thereby awarded for costs, shall be levied by distress and sale of the moveable property of the person directed to pay the same, under a warrant to be issued for that purpose by *a* Magistrate.

[Act I of 1859, s. 113; Act VII of 1884, s. 40; Act X of 1887, s. 46 (2); Bill of 1867, s. 291; Bill of 1882, s. 155.] Cf. 1854, s. 523.

Levy of wages, fines, &c., by distress of ship.

348. Where any Court or Magistrate has power to make an order *under the foregoing provisions of this Act* directing payment to be made of any seaman's wages, fine, or other sum of money, then, if the person so directed to pay the same is the master or owner of a ship, and the same is not paid at the time *or* in the manner directed by the order,

the Court or Magistrate may, in addition to any other power it or he may have for the purpose of compelling payment, by warrant direct the amount remaining unpaid to be levied by distress and sale of the ship, and the tackle, apparel and furniture thereof.

[Act X of 1887, s. 49; Bill of 1867, s. 264.]

Application of fines.

349. A Magistrate imposing a fine under *the foregoing provisions of this Act* may, if he thinks fit, direct the whole or any part thereof to be applied in compensating any person for any detriment which he may have sustained by the act or default in respect of which the fine is imposed, or in or towards payment of the expenses of the prosecution.

PART X.

Inland Steam-ships.

CHAPTER XXXVII.

PRELIMINARY.

[Act VI of 1884, s. 1.]

Extent.

350. (1) This Part extends in the first instance to the whole of British India (inclusive of Upper Burma, except the Shan States), other than the territories administered by the Governor of Fort St. George in Council.

(2) But the Governor of Fort St. George in Council may at any time, by notification in the official Gazette, extend this Part or any portion thereof to the whole or any part of the territories under his administration.

[Act VI of 1884, s. 2.]

Commencement.

351. (1) This Part shall come into force in the whole of British India, except the territories administered by the Governor of Fort St. George in Council, on the *first day of April, 1893*.

(2) If the Governor of Fort St. George in Council extends this Part or any portion thereof to the whole or any part of the territories under his administration, the same shall come into force in the local area to which it is so extended on such day as the Governor in Council may, by the notification extending the Part or portion, direct.

[Act VI of 1884, s. 5 (am. by Act III of 1890, s. 1).]

Definitions.

352. In this Part, unless there is something repugnant in the subject or context,—

(1) "steam-ship" means every description of vessel propelled wholly or in part by the agency of steam;

(2) "inland steam-ship" means a steam-ship which ordinarily plies on inland water;

(3) "inland water" means any canal, river, lake or navigable water in British India;

(4) *"Board of Trade certificate" means a certificate, either of competency or service, as master or engineer, as the case may be, granted by the Board of Trade under the Merchant Shipping Act, 1854, as amended by subsequent Acts:*

17 & 18 Vic. c. 104, &c.

(5) *"Colonial certificate" means a certificate of competency as master or engineer, as the case may be, granted—*

(a) *in British India, under Chapter IV of this Act, or*

(b) *in any other British Possession, under the authority of the Legislature of that Possession,*

and which has been declared by Order in Council under the Merchant Shipping (Colonial) Act, 1869, to be of the same force as if it had been granted under the Merchant Shipping Act, 1854, and the Acts amending the same;

32 & 33 Vic. c. 11.

(6) "local certificate" means—

(i) a certificate, either of competency or service, as master, or

(ii) a certificate of competency as engineer or engine-driver, as the case may be,

granted by a Local Government under Chapter IV of this Act, and which has not been declared as aforesaid;

(7) *"inland certificate" means a certificate, either of competency or service, as master, serang, engineer or engine-driver, as the case may be, granted by a Local Government under Chapter XXXVIII of this Act;*

(8) "voyage" includes also the plying of an inland steam-ship at or about any place;

(9) "passenger" includes any person carried in an inland steam-ship, other than the master and crew and the owner, his family and servants; and

(10) "prescribed" means prescribed by a rule made under this Part.

[Act VI of 1884, s. 65]

Power to define tidal water.

353. The Local Government may, by notification in the official Gazette, define how much of any **tidal water shall be deemed to be an inland water for the purposes of this Part.**

The Indian Merchant Shipping Bill, 1892.

(Part X.—Inland Steam-ships.—Chapter XXXVII.—Preliminary.—Sections 354-356. Chapter XXXVIII.—Examination of, and Grant of Inland Certificates to, Masters, Serangs, Engineers and Engine drivers.—Sections 357-362.)

. 1889, s. 5.

Application of Part to ships propelled by electricity, &c.

354. *This Part shall apply to ships propelled by electricity or other mechanical power, with such modifications as the Governor General in Council may, by notification in the Gazette of India, direct for purposes of adaptation.*

ct VI of 34, s. 67.]

Exemption of Government ships.

355. Nothing in this Part shall apply to any steam-ship belonging to, or in the service of, Her Majesty or the Government of India.

ct VI of 14, s. 64.]

Power to exempt certain ships from Chapters XXXVIII, XXXIX and XLI.

356. The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare that all or any of the provisions of Chapters XXXVIII, XXXIX and XLI shall not apply in the case of any specified class of inland steam-ships, or shall apply to them with such modifications as the Local Government may *direct*.

CHAPTER XXXVIII.

EXAMINATION OF, AND GRANT OF *INLAND* CERTIFICATES TO, MASTERS, SERANGS, ENGINEERS AND ENGINE-DRIVERS.

t VI of 1, s. 22 . by Act I of 1891, .] 1862, s. 6.

Appointment of examiners.

357. The Local Government may appoint persons for the purpose of examining the qualifications of persons desirous of obtaining—

(*a*) *inland* certificates of competency as masters or serangs of inland steam-ships, or

(*b*) *inland* certificates of competency as engineers or engine-drivers of inland steam-ships.

. VI of , ss. 23 24 (1), 25 by Act of 1891, .] 854, s. 1862, s.

Grant of inland certificates of competency as master, serang, engineer or engine-driver.

358. The Local Government shall grant—

(*a*) to every person who is reported by the examiners to possess the necessary qualifications *and to have given satisfactory evidence of his sobriety, experience, ability and general good conduct on boardship an inland* certificate of competency to the effect that he is competent to act as a first-class master, second-class master or serang, as the case may be, of an inland steam-ship, and

(*b*) to every person who is reported by the examiners to possess the necessary qualifications *and to have given satisfactory evidence of his sobriety, experience and ability an inland* certificate of competency to the effect that he is competent to act as an engineer, first-class engine-driver or second-class engine-driver, as the case may be, of an inland steam-ship :

Provided that the Local Government may, in any case in which it has reason to believe that the report has been unduly made, require, before granting a certificate, a re-examination of the applicant or a further inquiry into his testimonials and character.

[Act VI of 1884, s. 25A (am. by Act XIII of 1891, s. 1).] Cf. 1854, s. 135; 1862 (s. 92).

Grant of inland certificates of service.

359. (*1*) The Local Government may in its discretion grant without examination to any person who has served as a master, or as an engineer, of an inland steam-ship before the first day of April, 1890, *an inland* certificate of service to the effect that he may act as a first-class master, second-class master or serang, or as an engineer, first-class engine-driver or second-class engine-driver, as the case may be, of an inland steam-ship.

(*2*) A certificate of service so granted shall have the same effect as a certificate of competency granted under section 9.

[Act VI of 1884, ss. 2 (2), 24 (2), 2 (am. by Act XIII of 1891, s. 1).] Cf. 1854, s. 138; 1862, s. 10.

Certificates to be in prescribed form and to be made in duplicate.

360. Every certificate of competency or service granted under this chapter shall be in the prescribed form, *and* shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept *by the Local Government* and recorded in the prescribed manner.

[Act VI of 1884 s. 27 (am. by Act XIII of 1891, s. 1)] Cf. 1854, s. 139; 1862, s. 10.

Copy of certificate to be granted in certain cases.

361. Whenever a master or serang, or an engineer or engine-driver, proves, to the satisfaction of the Local Government which granted his certificate, that he has, without fault on his part, lost or been deprived of it, a copy of the certificate to which, by the record kept as provided by law, he appears to be entitled shall be granted to him, and shall have all the effect of the original.

[Act VI of 1884, s. 28 (am. by Act XIII of 1891, s. 1).] Cf. 1854, ss. 131 to 133, 1862, ss. 6, 7, 10 (and 1854, s. 138); 1887, s. 2.

Power to make rules as to grant of inland certificates of competency or service.

362. The *Governor General in Council* may make rules to regulate the granting of *inland* certificates of competency under this chapter, and may by such rules—

(*a*) provide for the conduct of the examination of persons desirous of obtaining *inland* certificates of competency as masters or serangs, or as engineers or engine-drivers;

(*b*) prescribe the qualifications to be respectively required of persons desirous of obtaining first-class masters' certificates, second class masters' certificates, serangs' certificates, engineers' certificates, first-class engine-drivers' certificates or second-class engine-drivers' certificates;

(*c*) fix the fees to be paid by all applicants for examination; and

(*d*) prescribe the form in which such certificates are to be framed, and the manner in which the copy of the certificate which is kept by the Local Government is to be recorded.

(*2*) The *Governor General in Council* may also make rules with respect to the grant of *inland* certificates of service under this chapter, and may by such rules—

(*e*) fix the fees to be paid for such certificates, and

(*f*) prescribe the form in which such certificates are to be framed, and the manner in which the copy of the certificate which is kept by the Local Government is to be recorded.

The Indian Merchant Shipping Bill, 1892.
(Part X.—Inland Steam-ships.—Chapter XXXIX.—Inland Steam-ships required to carry certificated Officers.—Sections 363-365. Chapter XL.—Suspension and Cancellation of Certificates of Masters, Serangs, Engineers and Engine-drivers, and Grant of New Certificates.—Section 366.)

CHAPTER XXXIX.

INLAND STEAM-SHIPS REQUIRED TO CARRY CERTIFICATED OFFICERS.

363. *(1) For the purposes of this chapter,—*

Meaning of "higher grade."

(a) each of the following certificates shall be deemed to be of a higher grade than those mentioned after it—

(i) Board of Trade, Colonial or local certificate as master,

(ii) inland certificate as first-class master,

(iii) inland certificate as second-class master,

(iv) inland certificate as serang; and

(b) each of the following certificates shall be deemed to be of a higher grade than those mentioned after it—

(i) Board of Trade, Colonial or local certificate as engineer;

(ii) inland certificate as engineer;

(iii) local certificate as engine-driver;

(iv) inland certificate as first-class engine-driver;

(v) inland certificate as second-class engine-driver.

[Act VI of 1884, s. 28 (am. by Act XIII of 1891, s. 1).] Cf. 1854, s. 136; 1862, s. 5 (1), (4).

364. (1) An inland steam-ship having engines of eighty nominal horse-power or upwards shall not proceed on any voyage unless she has,—

Nature of certificates necessary in case of different inland steam-ships.

(a) as her master, a person possessing *an inland* certificate as first-class master or a certificate *of the higher grade*; and

(b) as her engineer, a person possessing *an inland* certificate as engineer or a certificate *of the higher grade.*

(2) An inland steam-ship having engines of thirty nominal horse-power or upwards, but of less than eighty nominal horse-power, shall not proceed on any voyage unless she has,—

(a) as her master, a person possessing *an inland* certificate as second-class master or a certificate of *a higher grade*, and

(b) as her engineer, a person possessing *an inland* certificate as first-class engine-driver or a certificate *of a higher grade:*

Provided that an inland steam-ship shall be deemed to have complied with this sub-section if she has as her master and engineer a person possessing both *an inland* certificate as second-class master (or a certificate *of a higher grade*) and *an inland* certificate as first-class engine-driver (or a certificate *of a higher grade*).

(3) An inland steam-ship having engines of less than thirty nominal horse-power shall not proceed on any voyage unless she has,—

(a) as her master, a person possessing *an inland* certificate as serang or a certificate *of a higher grade*, and

(b) as her engineer, a person possessing *an inland* certificate as second-class engine-driver or a certificate *of a higher grade:*

Provided that an inland steam-ship shall be deemed to have complied with this sub-section if she has as her master and engineer a person possessing both *an inland* certificate as serang (or a certificate *of a higher grade*) and *an inland* certificate as second-class engine-driver (or a certificate *of a higher grade*).

(4) Notwithstanding anything in sub-section (1), sub-section (2) or sub-section (3), the Local Government may, by general or special order, direct that a person possessing—

(a) a *Board of Trade, Colonial or local certificate as* master, or

(b) a *Board of Trade, Colonial or local certificate as* engineer,

shall not act as master or engineer, as the case may be, of an inland steam-ship unless he also possesses, in the case of a master, such *an inland* certificate as master or serang as qualifies him under this section to act as master of the ship, or, in the case of an engineer, such *an inland* certificate as engineer or engine-driver as qualifies him under this section to act as engineer of the ship:

Provided that, for the purposes of this sub-section, the Local Government may, in its discretion, grant, without examination, *an inland* certificate of competency as master, serang, engineer or engine-driver, and that a certificate of competency so granted without examination shall have the same effect as a certificate of competency granted under *section 358* after examination.

[Act VI 1884, s. 55. Cf. 1854, 136; 1862, s. 5 (5).

365. (a) If any person who has been engaged to serve as master, *serang*, engineer or engine-driver of an inland steam-ship proceeds on any voyage in that steam-ship as master, *serang*, engineer or engine-driver, as the case may be, without being at the time entitled to, and possessed of, the certificate required *by section 364*, and

Penalty for serving, or engaging a person to serve, as master, engineer or engine-driver without a certificate.

(b) if any person employs any person as a master, *serang*, engineer or engine-driver of an inland steam-ship without ascertaining that he is at the time entitled to, and possessed of, the master's, *serang's*, engineer's or engine-driver's certificate, as the case may be, required *by section 364*,

he shall be punished with fine which may extend to five hundred rupees.

CHAPTER XL.

SUSPENSION AND CANCELLATION OF CERTIFICATES OF MASTERS, SERANGS, ENGINEERS AND ENGINE-DRIVERS, AND GRANT OF NEW CERTIFICATES.

[Act VI of 1884, s. 43 (am. by Act XIII of 189[illegible], s. 2).] Cf. 1854, s. 242; 18[illegible] s. 23, (2), ([illegible]

366. *An inland* certificate granted to a master, *serang*, engineer or engine-driver may be suspended or cancelled, either by the Local Government which granted the same or by any other Local Government, in *any of* the following cases, that is to say:—

Power for Local Government to suspend or cancel inland certificates.

(a) if, on any investigation made under *Chapter XLIII*, the Court reports that the wreck or abandonment of, or loss or damage to, any inland steam-ship, or loss of life, has been caused by his

The Indian Merchant Shipping Bill, 1892.
(Part X.—Inland Steam-ships.—Chapter XL.—Suspension and Cancellation of Certificates of Masters, Serangs, Engineers and Engine-drivers, and Grant of New Certificates.—Sections 367-369. Chapter XLI.—Survey of Inland Steam-ships.—Sections 370-374.)

incompetent, or has been guilty of any gross act of drunkenness, tyranny or other misconduct;

(*b*) if he is proved to have been convicted of any non-bailable offence;

(*c*) if, in the case of a second-class master, a serang, or an engine-driver, the master, serang, or engine-driver is or has become, in the opinion of the Local Government, unfit to act as a second-class master, serang or engine-driver, as the case may be:

Provided that, in any case in which an investigation has been made into a charge against any master, *serang*, engineer or engine-driver, a certificate shall not be suspended or cancelled under clause (*a*) of this section unless the Local Government is satisfied that the holder of the certificate has been furnished before the commencement of the investigation with the copy of the report or statement required by section 393 or section 394, as the case may be.

[Act VI of 1884, ss. 44, ... Cf. 1854, s. ...; 1862, s. 24.]

Obligation to deliver up certificate on suspension or cancellation.

367. Every master, *serang*, engineer or engine-driver whose certificate has been suspended or cancelled under section 366 shall deliver the certificate to such person as the Local Government which suspended or cancelled it may direct, and in default of so doing shall be punished with fine which may extend to five hundred rupees.

[Act VI of 1884, s. 45.]

Report to other Local Governments.

368. If the Local Government which suspends or cancels a certificate under section 366 is not the Local Government which granted the certificate, the Local Government so suspending or cancelling the certificate shall report the proceedings, and the fact of suspension or cancellation, to the Local Government which granted the certificate.

[Act VI of 1884, s. 46.] Cf. 1854, s. ...12; 1862, s. (4).

Power to revoke suspension or cancellation and to grant new inland certificate.

369. (*1*) Any Local Government may, at any time, revoke any order of suspension or cancellation which it may have made under section 366, or grant, without examination, to any person whose certificate it has so cancelled, a new *inland* certificate *of the same or of any lower grade.*

(*2*) A certificate so granted shall have the same effect as if it had been granted after examination.

CHAPTER XLI.

[Bill of 1867, ss. 235-250.]

SURVEY OF INLAND STEAM-SHIPS.

[Act VI of 1884, ss. 6, ...] Cf. 1854, ss. 315, 318.

Inland steam-ship not to proceed on voyage without a certificate of survey.

370. (*1*) An inland steam-ship shall not proceed on any voyage unless she has a certificate of survey under this chapter in force and applicable to the voyage on which she is about to proceed, or the service on which she is about to be employed.

(*2*) If any inland steam-ship proceeds on a voyage in contravention of sub-section (*1*), the owner and master of the steam-ship shall each be *punished with* fine which may extend to one thousand rupees.

(*3*) If the master or any other officer on board of an inland steam-ship which proceeds on a voyage in contravention of sub-section (*1*) is a licensed pilot, he shall be liable to have his license as a pilot suspended for any period, or cancelled, by the Local Government, as the Local Government may see fit to order.

(*4*) Nothing in this section shall apply to any inland steam-ship proceeding on a voyage during the interval between the time at which her certificate under this chapter expires and the time at which it is first practicable to have the certificate renewed.

Appointment of surveyors and places of survey.

371. (*1*) The Local Government may appoint so many persons as it may think fit to be surveyors for the purposes of this chapter at such places within the territories under its administration as it may appoint to be places of survey. [Act VI of 1884, s. 7 (2).] Cf. 1854, s. 305.

(*2*) Every surveyor appointed under this section may be suspended or removed by the Local Government which appointed him.

Powers of surveyors.

372. (*1*) For the purposes of a survey under this chapter, any surveyor appointed under this chapter may, at any reasonable time, go on board any inland steam-ship, and may inspect the same or any part thereof, or the machinery, equipments or articles on board thereof: [Act VI of 1884, s. 8.] Cf. 1854, ss. 306, 3..

Provided that he does not unnecessarily hinder the loading or unloading of the steam-ship, or unnecessarily detain or delay her from proceeding on any voyage.

(*2*) The owner, master and officers of the steam-ship shall afford to the surveyor all reasonable facilities for a survey, and all such information respecting the steam-ship, and her machinery and equipments, or any part thereof, respectively, as he may reasonably require.

Fees in respect of surveys.

373. Before a survey under this chapter is commenced, the owner or master of the steam-ship to be surveyed shall pay to such officer as the Local Government may appoint in this behalf— [Act VI of 1884, s. 8A (inserted by Act III of 1890, s. 2).] Cf. 1854, ss. 307, 314; 1872, s. 8.

(*a*) a fee calculated on the tonnage of the steam-ship according to the rates in Schedule IX, or according to any other prescribed rates; and

(*b*) when the survey is to be made in any place of survey other than Calcutta, Madras, Bombay or Rangoon, such additional fee in respect of the expense (if any) of the journey of the surveyor to the place as the Local Government may, by notification in the official Gazette, direct.

Declaration of surveyor.

374. When a survey under this chapter is completed, the surveyor making it shall forthwith, if satisfied that he can with propriety do so, give to the owner or master of the steam-ship surveyed a declaration in the prescribed form containing the following particulars, namely:— [Act VI of 1884, s. 9.] Cf. 1854, s. 309; 1862, s. 12.

(*a*) that the hull and machinery of the steam-ship are sufficient for the service intended and in good condition

The Indian Merchant Shipping Bill, 1892.

(Part X.—Inland Steam-ships.—Chapter XLI.—Survey of Inland Steam-ships.—Sections 375-379.)

(*b*) that the equipments of the steam-ship and the certificates of the master *or serang* and engineer or engine-driver are such and in such condition as are required by any law for the time being in force and applicable to the steam-ship;

(*c*) the time (if less than one year) for which the hull, machinery and equipments of the steam-ship will be sufficient;

(*d*) the limit (if any) beyond which, as regards the hull, machinery or equipments, the steam-ship is, in the surveyor's judgment, not fit to ply;

(*e*) the number of passengers (if any) which the steam-ship is, in the judgment of the surveyor, fit to carry, distinguishing, if necessary, between the respective numbers to be carried on the deck and in the cabins and in different parts of the deck and cabins; the number to be subject to such conditions and variations, according to the time of year, the nature of the voyage, the cargo carried, or other circumstances, as the case may require; and

(*f*) any other prescribed particulars.

VI of s. 10 n part by III of s. 3.] 154, s.

Sending of declaration by owner or master to Local Government.

375. (*1*) The owner or master to whom a declaration is given under section 374 shall, within fourteen days after the date of the receipt thereof, send the declaration to such officer as the Local Government may appoint in this behalf.

(*2*) If he fails to do so, he shall forfeit a sum not exceeding five rupees for every day during which the sending of the declaration is delayed.

(*3*) The owner or master shall pay the sum so forfeited on the delivery of the certificate of survey.

I of s. 11 by Act 1890, 154, ss. 13.

Grant of certificate of survey.

376. (*1*) Upon receipt of a declaration by the officer appointed in this behalf under section 375, the Local Government shall, if satisfied that the provisions of this chapter have been complied with, cause a certificate in duplicate to be prepared and delivered, through such officer at the place at which the steam-ship was surveyed as the Local Government may appoint in this behalf, to the owner or master of the steam-ship surveyed, on his applying and paying the *sum* (if any) mentioned in *section 375, sub-section (3)*, as payable on delivery of a certificate.

(*2*) A certificate granted under this section shall be in *the prescribed* form; shall contain a statement to the effect that the provisions of this chapter with respect to the survey of the steam-ship and the transmission of the declaration in respect thereof have been complied with; and shall set forth—

(*a*) the particulars concerning the steam-ship which clauses (*c*), (*d*) and (*e*) of section 374 require the declaration by the surveyor to contain, and

(*b*) any other prescribed particulars.

(*3*) When a certificate is ready for delivery under this section, the Local Government shall cause notice thereof to be given by post or otherwise to the owner or master of the steam-ship to which the certificate relates.

(*4*) The Local Government may delegate,—

(*c*) with the previous sanction of the Governor General in Council, to any person, by name or as holding an office, the function, assigned to the Local Government by sub-section (*1*), of granting a certificate of survey under that sub-section;

(*d*) of its own authority, to any person, by name or as holding an office, the function, assigned to the Local Government by sub-section (*3*), of causing notice to be given of a certificate of survey being ready for delivery:

Provided, with respect to clause (*c*) of this sub-section, that no delegation of the function mentioned in that clause shall be construed to authorise the grant of a certificate of survey by the surveyor who gave the declaration of survey under section 374.

Certificate of survey to be affixed on conspicuous part of steam-ship.

377. (*1*) The owner or master of every steam-ship for which a certificate of survey has been granted under this chapter shall forthwith, on the receipt of the certificate, cause one of the duplicates thereof to be affixed, and kept affixed so long as the certificate remains in force and the steam-ship is in use, on some conspicuous part of the steam-ship where it may be easily read by all persons on board thereof.

[Act VI of 1884, ss. 13, 53.] Cf. 1854, s. 317.

(*2*) If the certificate is not so kept affixed, the owner and master of the steam-ship shall each be *punished with* fine which may extend to one hundred rupees.

Term of certificate of survey.

378. A certificate of survey granted under this chapter shall not be in force—

[Act VI of 1884, s. 14.] Cf. 1854, s. 315; 1862, s. 34.

(*a*) after the expiration of one year from the date thereof; or

(*b*) after the expiration of the period, if less than one year, for which the hull, boilers, engines or any of the equipments have been stated in the certificate to be sufficient; or

(*c*) after notice has been given by the Local Government, to the owner or master of the steam-ship to which the certificate relates, that the Local Government has suspended or cancelled it.

Suspension or cancellation of certificate of survey by Local Government.

379. Any certificate of survey granted under this chapter may be suspended or cancelled by a Local Government if it has reason to believe—

[Act VI of 1884, s. 15.] Cf. 1854, s. 316.

(*a*) that the declaration by the surveyor of the sufficiency and good condition of the hull, boilers, engines or any of the equipments of the steam-ship has been fraudulently or erroneously made; or

(*b*) that the certificate has otherwise been granted upon false or erroneous information; or

(*c*) that, since the making of the declaration, the hull, boilers, engines or any of the equipments of the steam-ship have

The Indian Merchant Shipping Bill, 1892,
(Part X.—Inland Steam-ships.—Chapter XLI.—Survey of Inland Steam-ships.—Sections 380-385. Chapter XLII.—Protection of Inland Steam-ships from Danger by Fire.—Sections 386-388.)

sustained any injury, or have otherwise become insufficient.

Power to require delivery of expired, suspended or cancelled certificate of survey.

380. (*1*) The Local Government may require any certificate of survey granted under this chapter which has expired or has been suspended or cancelled to be delivered up to such person as it may direct.

(*2*) If the owner or master of an inland steam-ship, without reasonable cause, neglects or refuses to deliver up a certificate when required under sub-section (*1*) so to do, he shall be punished with fine which may extend to one hundred rupees.

Report of suspension or cancellation of certain certificates.

381. If the Local Government which suspends or cancels a certificate of survey granted under this chapter is not the Local Government which or whose delegate granted the certificate, the Local Government suspending or cancelling the certificate shall report the fact of suspension or cancellation, together with the reasons therefor, to the Local Government which or whose delegate granted the certificate.

Power for Local Government to direct that two surveyors be employed.

382. A survey under this chapter shall ordinarily be made by one surveyor, but two surveyors may be employed if the Local Government, by order in writing, shall so direct, either generally in the case of all steam-ships at any place of survey, or specially in the case of any particular steam-ship or class of steam-ships at any such place.

Power for Local Government to order a second survey.

383. (*1*) If the surveyor or surveyors making a survey under this chapter refuses or refuse to give a declaration under section 374 with regard to any steam-ship, or gives or give a declaration with which the owner or master of the steam-ship surveyed is dissatisfied, the Local Government may, on the application of the owner or master and the payment by him of such fee, not exceeding twice the amount of the fee for the previous survey, as the Local Government may require, direct two other surveyors appointed under this chapter to survey the steam-ship.

(*2*) The surveyors so directed shall forthwith survey the steam-ship, and may, after the survey, either refuse to give a declaration or give such declaration as may under the circumstances seem to them proper; and their decision shall be final.

Division of duties when two surveyors employed.

384. When a survey is made under section 382 or section 383 by two surveyors, each of the surveyors making the survey shall perform a prescribed portion of the duties assigned by this chapter or the rules made under this chapter to a surveyor making a survey.

Power to make rules.

385. (*1*) The Local Government may make rules to regulate the making of surveys under this chapter.

(*2*) Rules under this section may, among other matters,—

(*a*) declare the times and places at which, and the manner in which, surveys are to be made;

(*b*) regulate the duties of the surveyor making a survey, and, where two surveyors are employed, assign the respective duties of each of the surveyors employed;

(*c*) declare the form in which the declarations of surveyors and certificates of survey under this chapter are to be framed, and the nature of the particulars which are to be stated therein, respectively;

(*d*) fix the rates according to which the fees payable in respect of surveys are to be calculated in the case of all or any of the places of survey within the territories under its administration; and

(*e*) define the cases in, and the extent to, which under ordinary circumstances a survey may be dispensed with before the grant of a new certificate.

CHAPTER XLII.

PROTECTION OF INLAND STEAM-SHIPS FROM DANGER BY FIRE.

Power to declare dangerous goods.

386. The Governor General in Council may, by notification in the Gazette of India, declare what shall be deemed to be, for the purposes of this chapter, dangerous goods.

[Act VI of 1884, s. 47.] Cf. 73, s. 23.

Carriage of dangerous goods.

387. (*1*) No person shall take with him on board an inland steam-ship, or deliver or tender for carriage on an inland steam-ship, any dangerous goods without giving notice of their nature to the owner or master of the steam-ship, or, in the case of goods delivered or tendered for carriage, without distinctly marking their nature on the outside of the package containing the goods.

[Act VI of 1884, ss. 48, 58; Bill of 1867, s. 254, Cf. 1873, ss. 23, 25, 27.]

(*2*) If any person, in contravention of sub-section (*1*), takes with him on board any inland steam-ship any dangerous goods, or delivers or tenders any such goods for the purpose of being carried on any inland steam-ship, he shall be punished with fine which may extend to two hundred rupees, and the goods shall be forfeited to Her Majesty.

(*3*) The owner or master of *any* inland steam-ship may refuse to carry *thereon* any luggage or parcel which he suspects to contain dangerous goods, and may require the luggage or parcel to be opened to ascertain the fact previously to carrying the same; and, in case any such luggage or parcel is received for the purpose of being carried in any inland steam-ship, the owner or master of the steam-ship may stop the transit thereof until he is satisfied as to the nature of its contents.

Power to throw overboard dangerous goods.

388. Where any dangerous goods have been sent or brought on board any inland steam-ship in contravention of section 387, the owner or master of the steam-ship may, if he thinks fit, cause the goods,

[Act VI of 1884, s. 49.] Cf. 1873, s. 26.

The Indian Merchant Shipping Bill, 1892.
(Part X.—Inland Steam-ships.—Chapter XLII.—Protection of Inland Steam-ships from Danger by Fire.—Section 389. Chapter XLIII.—Investigations into Casualties and Charges against Masters, Serangs, Engineers and Engine-drivers.—Sections 390-396.)

to be thrown overboard, together with any package or receptacle in which they are contained; and neither the owner nor the master shall, in respect of his having so thrown the goods overboard, be subject to any liability, civil or criminal, in any Court.

Power to make rules for protection of inland steam-ships from danger by explosion or fire.

389. (*1*) The Local Government may make rules for the protection of inland steam-ships from danger by explosion or fire.

(*2*) Rules under this section may provide for the following among other matters, that is to say:—

(*a*) the conditions on, and subject to, which dangerous goods may be carried on board inland steam-ships;

(*b*) the precautions to be taken to prevent explosions or fires on board inland steam-ships; and

(*c*) the apparatus for the purpose of extinguishing fires which is to be kept on board inland steam-ships.

(*3*) Rules under this section may contain a provision that any person committing a breach of any such rule shall be punished with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

CHAPTER XLIII.

INVESTIGATIONS INTO CASUALTIES AND CHARGES AGAINST MASTERS, *SERANGS*, ENGINEERS AND *ENGINE-DRIVERS*.

Report of casualties to be made to Local Government.

390. (*1*) Whenever—

(*a*) any inland steam-ship has been wrecked, abandoned or materially damaged, or

(*b*) by reason of any casualty happening to, or on board of, any inland steam-ship, loss of life has ensued, or

(*c*) any inland steam-ship has caused loss or material damage to any other ship,

the master *or serang* of the steam-ship shall forthwith give notice of the wreck, abandonment, damage, casualty or loss to the officer in charge of the nearest police-station.

(*2*) If any master *or serang* wilfully fails to give such notice, he shall be punished with fine which may extend to five hundred rupees.

Power for Local Government to appoint special Court of Investigation.

391. (*1*) If in any case a formal investigation into the facts referred to in section 390 appears to the Local Government to be requisite or expedient, the Local Government may appoint a special Court, consisting of not less than two nor more than four persons, and direct the Court to make the investigation, and may fix the place for making the same.

(*2*) One of the members of the Court shall be a Magistrate; another shall be some person conversant with maritime affairs or the navigation of inland steam-ships; and the other or others (if any) shall be conversant with either

Power for Criminal Courts to hold investigations into casualties when so directed.

392. Any principal Court of ordinary criminal jurisdiction, *or* the Court of any District Magistrate, may, when so directed by the Local Government, make the investigation referred to in section 391.

Power for Court of Investigation to inquire into charges against masters, serangs, engineers and engine-drivers.

393. (*1*) Any Court making an investigation referred to in section 391 may inquire into any charge of incompetency or misconduct arising in the course of the investigation against any master, *serang*, engineer or engine-driver, as well as into any charge of a wrongful act or default on his part causing any wreck, abandonment, damage, casualty or loss referred to in section 390.

(*2*) In every case in which any such charge, whether of incompetency or misconduct, or of a wrongful act or default as aforesaid, arises against any master, *serang*, engineer or engine-driver in the course of an investigation, the Court shall, before the commencement of the inquiry into the charge, cause to be furnished to him a copy of the report or statement of the case upon which the investigation has been directed.

Power for Local Government to direct independent investigation into charge of incompetency or misconduct.

394. (*1*) If the Local Government has reason to believe that there are grounds for charging any master, *serang*, engineer or engine-driver of an inland steam-ship with incompetency or misconduct, otherwise than in the course of an investigation referred to in section 391, it may send a statement of the case to—

(*a*) any Court mentioned in section 392, *or*

(*b*) *the Court of any Presidency Magistrate or Magistrate of the first class,*

at or nearest to the place at which it may be convenient for the parties and witnesses to attend, and may direct the Court to make an investigation into the charge.

(*2*) Before commencing the investigation, the Court shall cause the master, *serang*, engineer or engine-driver so charged to be furnished with a copy of the statement sent by the Local Government.

Person accused to be heard.

395. For the purpose of an investigation under *the foregoing provisions of* this chapter into any charge against a master, *serang*, engineer or engine-driver, the Court may summon him to appear, and shall give him full opportunity of making a defence, either in person or otherwise.

Assessors.

396. (*1*) When any investigation ***under the foregoing provisions of this chapter*** involves, or appears likely to involve, any question as to the suspension or cancellation of the certificate of a master, *serang*, engineer or engine-driver, the Court making the investigation shall constitute as its assessors, for the purposes of the investigation, two persons having experience in the merchant service or in the navigation of inland steam-ships; and in every other investigation *under*

The Indian Merchant Shipping Bill, 1892.
(Part X.—Inland Steam-ships.—Chapter XLIII.—Investigations into Casualties and Charges against Masters, Serangs, Engineers and Engine-drivers.—Sections 397-402. Chapter XLIV.—Carriage of Passengers.—Sections 403-404.)

purposes of the investigation, any person conversant with maritime affairs or the navigation of inland steam-ships and willing to act as assessor.

(2) Every assessor shall attend during the investigation and deliver his opinion in writing, to be recorded on the proceedings. But the exercise of all powers conferred on the Court by this Act shall rest with the Court.

Powers of Court as to evidence and regulation of proceedings.

397. For the purposes of any investigation under *the foregoing provisions of* this chapter, the Court making the investigation, so far as relates to compelling the attendance and examination of witnesses and the production of documents and the regulation of the proceedings, shall have—

(*a*) if the Court is a special Court—the same powers as are exercisable by the principal Court of ordinary criminal jurisdiction for the place at which the investigation is made;

(*b*) if the Court is a principal Court of ordinary criminal jurisdiction, or a Court of a District Magistrate, *Presidency Magistrate or Magistrate of the first class*—the same powers as are exercisable respectively by that Court in the exercise of its criminal jurisdiction.

Power to arrest witnesses and cause entry and detention of ships.

398. (*1*) If any Court making an investigation under *the foregoing provisions of* this chapter thinks it necessary for obtaining evidence that any person should be arrested, it may issue a warrant for his arrest, and may, for the purpose of effecting the arrest, authorise any officer (subject, nevertheless, to any general or special instructions from the Local Government) to enter any ship.

(2) Any officer so authorised may, for the purpose of enforcing the entry, call to his aid any officers of Police or Customs, or any other persons, and may seize and detain the ship for such time as is reasonably necessary to effect the arrest.

(3) No person shall be detained by virtue of this section for more than forty-eight hours.

Power to commit for trial and bind over witnesses.

399. (*1*) Whenever, in the course of any investigation *under the foregoing provisions of this chapter,* it appears that any person has committed, within the jurisdiction of any Court in British India, an offence punishable under any law in force in British India, the Court making the investigation may (subject to such rules consistent with this Part as the High Court may, from time to time, make) cause him to be arrested, or commit him or hold him to bail to take his trial before the proper Court; and may bind over any person to give evidence at the trial, and may, for the purposes of this section, exercise all the powers of a Magistrate of the first class or of a Presidency Magistrate.

[illegible] of this section [illegible] Re- [illegible]

Report by Court to Local Government.

400. The Court shall, in the case of every investigation under *the foregoing provisions of* this chapter, transmit to the Local Government a full report of the conclusions at which it has arrived, together with the evidence.

Re-hearing.

401. (*1*) *Where an investigation into a casualty, or into the conduct of a master, serang, engineer or engine-driver, has been held under this chapter, the Local Government may, in any case,*

and shall, if new and important evidence which could not be produced at the investigation has been discovered, or if for any other reason there has, in its opinion, been ground for suspecting a miscarriage of justice,

order that the case be re-heard, either generally or as to any part thereof.

(*2*) *Where a re-hearing is ordered on the ground that new and important evidence as aforesaid has been discovered, the case shall be re-heard by the Court by which it was heard in the first instance; and, where a re-hearing is ordered on any other ground, the case shall be re-heard by a principal Court of ordinary criminal jurisdiction.*

(*3*) *The provisions of section 393, section 394, sub-section (2), and sections 395 to 400 (both inclusive) shall apply in the case of every re-hearing ordered under this section.*

Investigations into Explosions on Inland Steam-ships.

Power to investigate causes of explosions on board inland steam-ships.

402. (*1*) Whenever any explosion occurs on board any inland steam-ship, the Local Government may, if it thinks fit, direct that an investigation into the cause of the explosion be made by such person or persons as it may think fit.

(2) The person or persons so directed may enter into and upon the steam-ship, with all necessary workmen and labourers, and remove any portion of the steam-ship or of the machinery thereof, for the purpose of the investigation, and shall report to the Local Government what, in his or their opinion, was the cause of the explosion.

CHAPTER XLIV.

CARRIAGE OF PASSENGERS.

Penalty for having excessive number of passengers on board.

403. If any inland steam-ship has on board thereof, or on or in any part thereof, a number of passengers which is greater than the number of passengers set forth in the certificate of survey as the number which the steam-ship or the part thereof is, in the judgment of the surveyor, fit to carry, the owner and master shall, for every passenger over and above that number, be each *punished with* fine which may extend to ten rupees.

Power to make rules to regulate the carriage of passengers.

404. (*1*) The Local Government may make rules to regulate the carriage of passengers in inland steam-ships.

The Indian Merchant Shipping Bill, 1892.

(Part X.—Inland Steam-ships.—Chapter XLIV.—Carriage of Passengers.—Section 405. Chapter XLV.—Miscellaneous.—Sections 406-411.)

(2) Rules under this section may provide for the following among other matters, that is to say:—

(a) the cases in which passengers may be refused admission to, or may be required to leave, inland steam-ships;

(b) the payment of fares and the exhibition of tickets or receipts (if any) showing the payment of their fares by passengers in inland steam-ships; and

(c) the regulation generally of the conduct of passengers in inland steam-ships.

(3) Rules under this section may contain a provision that any person committing a breach of any such rule shall be punished with fine which may extend to twenty rupees.

(4) The master *or serang* or any other officer of an inland steam-ship, and any person called by him to his assistance, may arrest any person who has committed a breach of any rule made under this section, and whose name and address are unknown to the master *or serang* or other officer.

(5) The procedure prescribed by section 59 of the Code of Criminal Procedure, 1882, in the case of arrest by private persons shall apply to every arrest under this section.

Power to make rules for protection of passengers.

405. (1) The Local Government may also make rules for the protection of passengers in inland steam-ships and may by such rules require, among other matters—

(a) that a sufficient quantity of fresh water be provided free of charge in such steam-ships for the use of passengers, and

(b) that the prices of passenger-tickets be printed or otherwise denoted on such tickets.

(2) Rules under this section may contain a provision that any owner, master *or serang* or passenger committing a breach of any such rule shall be punished with fine which may extend to fifty rupees.

CHAPTER XLV.

MISCELLANEOUS.

Penalty for misconduct endangering inland steam-ship, life or limb.

406. If any person employed or engaged in any capacity on board an inland steam-ship, by wilful breach of duty, or by neglect of duty, or by reason of drunkenness,—

(a) does any act tending to the immediate wreck, destruction or material damage of the ship, or tending immediately to endanger the life or limb of any person belonging to, or on board, the ship, or

(b) refuses or omits to do any lawful act proper and requisite to be done by him for preserving the ship from immediate wreck, destruction or material damage, or for preserving any person belonging to, or on board of, the ship from immediate danger to life or limb,

he shall be punished with fine which may extend to one thousand rupees, or with imprisonment for a term which may extend to two years, or with both.

Certificated masters of inland steam-ships to be deemed pilots under Ports Act.

[Act VI of 1884, s. 68.]

407. (1) Every master of an inland steam-ship who possesses *an inland* certificate as master duly granted and then in force shall, in ports to which section 31 of the Indian Ports Act, 1889, has been extended, be deemed, for the purposes of that section, to be the pilot of the steam-ship of which he is in charge.

X of 1889.

(2) Nothing in this section shall be deemed to affect the provisions of Bombay Act I of 1863 which require persons in charge of vessels passing through any of the channels or tidal channels at the mouths of the river Indus to pay fees for pilotage.

Certain persons to be deemed "public servants."

[Act VI of 1884, ss. 7 (3) 38, 42, (s. 3).] XLV of 1860.

408. The following persons shall be deemed to be public servants within the meaning of the Indian Penal Code, namely:—

(a) every surveyor appointed under section 371,

(b) every officer authorised under section 398, sub-section (1), to enter a ship, and all persons whom he calls to his aid, and

(c) every person making an investigation under section 402.

Provisions with respect to rules.

[Act VI of 1884, s. 69 and see Act of 1887, s. 6.]

409. (1) The power to make rules under this Part is subject (*except in the case of rules made under section 362*) to the condition of the rules being made after previous publication in such manner as the Governor General in Council may *direct*.

(2) A rule made by a Local Government under this Part shall not take effect until it has been sanctioned by the Governor General in Council and published in the local official Gazette.

(3) *A rule made by the Governor General in Council under this Part shall not take effect until it has been published in the Gazette of India.*

(4) The publication in the Gazette of a rule purporting to be made under this Part shall be conclusive *proof* that the rule has been duly made and sanctioned.

(5) *Any rule under this Part may be cancelled or varied by the authority by whom it was made.*

Jurisdiction of Magistrates.

[Act VI of 1884, s. 61.]

410. Except in the case of offences against rules made under section 404, no Magistrate shall try any offence against this Part or any rule thereunder unless he is a Presidency Magistrate or a Magistrate whose powers are not less than those of a Magistrate of the first class.

Place of trial.

[Act VI of 1884, s. 62. Cf. 1854, s. 520.]

411. Any person committing an offence against this Part or any rule thereunder shall be triable for the offence in any place in which he may be or which the Local Government may, by notification in the official Gazette, direct in this behalf, or in any other place in which he might be tried under any other law for the time being in force.

The Indian Merchant Shipping Bill, 1892.

(Part X.—Inland Steam-ships.—Chapter XLV.—Miscellaneous.—Sections 412-415. Schedule I.—Enactments repealed.)

412. (*1*) Whenever, in the course of any trial referred to in section 399, the testimony of any witness is required in relation to the subject-matter,

Deposition of absent witness.

and the person accused, after being allowed a reasonable opportunity for so doing, does not produce the witness before the Court,

any deposition previously made by the witness in relation to the same subject-matter before any Court making an investigation under Chapter XLIII shall be admissible in evidence—

(*a*) if the deposition is authenticated by the signature of the Magistrate, or of the presiding officer of the Court, before whom it was made, and

(*b*) on proof that it was made in the presence of the person accused, and that he had an opportunity, *by himself or his agent,* of cross-examining the witness:

Provided that, where such cross-examination has taken place, it shall be recorded as part of the deposition.

(*2*) A certificate by the Magistrate or presiding Judge that the deposition was made in the presence of the accused, and that he had an opportunity of cross-examining the witness, shall, unless the contrary be proved, be sufficient evidence that it was so made and that he had that opportunity.

413. Where the owner or master of an inland steam-ship is convicted of an offence against this Part or the rules thereunder committed on board of, or in relation to, that steam-ship, and sentenced to pay a fine,

Distress o inland steam-ship.

[Act VI of 1884, s. 60

the Magistrate may, in addition to any other power he may have for the purpose of compelling payment of the fine, *by warrant* direct the amount *remaining unpaid* to be levied by distress and sale of the ship, and the tackle, apparel and furniture thereof.

414. All fees payable under this Part may be recovered as fines under this Part.

Fees recoverable as fines.

[Act VI of 1884, s. 66

415. *A Magistrate imposing a fine under this Part may, if he thinks fit, direct the whole or any part thereof to be applied in compensating any person for any detriment which he may have sustained by the act or default in respect of which the fine is imposed, or in or towards payment of the expenses of the prosecution.*

Application of fines.

[Act X of 1887, s. . Bill of 1 s. 294.]

SCHEDULE VI.

DECLARATION BETWEEN THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND AND THE GOVERNMENT OF THE FRENCH REPUBLIC, WITH REFERENCE TO THE DISPOSAL OF THE PROCEEDS OF WRECKS ON THEIR RESPECTIVE COASTS.

[Act VII of 1880, Sch. (added by Act VI of 1891, s. 8).]

(*See section 249.*)

The Government of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and the Government of the French Republic, desiring to regulate by a new Agreement questions relative to the disposal of the proceeds of wrecks on the coasts of the two States, have agreed to replace the Declaration signed at London on the 16th June, 1879, by the following arrangements:—

ARTICLE I.

When any ship belonging to the subjects of one of the two Contracting States is wrecked or stranded on the coast of the other, the competent local authorities shall, with as little delay as possible, bring the fact to the knowledge of the Consul General, Consul, Vice-Consul or Consular Agent nearest to the spot where the wreck or stranding has taken place.

The Indian Merchant Shipping Bill, 1892.
(Schedule VI.—Declaration between the Government of the United Kingdom of Great Britain and Ireland and the Government of the French Republic, with reference to the disposal of the proceeds of Wrecks on their respective Coasts. Schedule VII.—Form of Governor's or Consul's Certificate of Expenditure in the case of Passengers shipwrecked, &c.)

ARTICLE II.

All operations relative to the salvage of British ships which may be wrecked or stranded on the coasts of France shall be directed by the Consuls General, Consuls, Vice-Consuls or Consular Agents of Great Britain, and reciprocally the French Consuls General, Consuls, Vice-Consuls and Consular Agents shall direct all operations relative to the salvage of ships of their nation wrecked or stranded on the coasts of Great Britain.

ARTICLE III.

If the owners of the ship and cargo, or their duly authorized representatives, shall be present and shall claim it, the Consuls General, Consuls, Vice-Consuls and Consular Agents shall hand over to them the conduct of the salvage operations after requiring the deposit of the ship's papers, as well as the re-imbursement of the expenses already defrayed, and a sufficient guarantee for those incurred before the operations were handed over, and which may not have been already settled.

ARTICLE IV.

The intervention of the local authorities shall only take place in the two countries for the purpose of assisting the Consular authority, of maintaining order, of securing the interests of the salvors if they are strangers to the shipwrecked crews, and of assuring the due execution of the arrangements to be carried out for the entry and departure of the merchandise saved.

In the absence, and until the arrival, of the Consuls General, Consuls, Vice-Consuls or Consular Agents, the local authorities shall, moreover, take all necessary measures for the protection of the persons and for the preservation of the articles which shall have been saved from the wreck.

This intervention shall not give rise to any charges, with the exception of those which the salvage operations and the protection of the articles saved shall have rendered necessary, and those to which national ships would, under similar circumstances, be liable. These charges shall be paid according to the circumstances of the case, either by the Agents of the Consular service, or by their owners or their proxies.

In case absence, sicknesss or any other cause should prevent the Agents of the Consular service from seeing to the operations and the management of the salvage, the local authorities who may be charged with the operations and management in question shall be bound to remit to the aforesaid Agents the ship's papers and the net proceeds of the ship and the cargo.

ARTICLE V.

The merchandise and articles saved shall not be liable to any customs-duties, unless they are intended for home consumption, in which case they shall pay the same duties as they would have had to pay if they had been imported in national vessels.

ARTICLE VI.

The stipulations of the present Declaration shall be applicable to all the Colonies and foreign possessions of Her Britannic Majesty, excepting to those hereinafter named, that is to say, except to—

India.	New South Wales.
The Dominion of Canada	Victoria.
Newfoundland.	Queensland.
The Cape.	Tasmania.
Natal.	South Australia.
	Western Australia.

New Zealand.

Provided always that the stipulations of the present Declaration shall be made applicable to any of the above-named Colonies or foreign possessions on whose behalf notice to that effect shall have been given by Her Britannic Majesty's Representative to the French Republic within one year from the date of the signature of the present Declaration.

The stipulations of the present Declaration shall be applicable to all the Colonies and foreign possessions of France.

ARTICLE VII.

The present Declaration shall come into operation three months after the date of its signature, and shall remain in force until the expiration of one year from the day on which either party may give notice of its intention to terminate it.

In witness whereof, the undersigned plenipotentiaries, His Excellency the Earl of Lytton, Ambassador of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and His Excellency M. Eugene Spuller, Minister for Foreign Affairs, have signed the present Declaration, and have affixed thereto their seals.

Done at Paris, this twenty-third day of October, 1889.

(LS.) LYTTON.
(LS.) E. SPULLER.

SCHEDULE VII.

FORM OF GOVERNOR'S OR CONSUL'S CERTIFICATE OF EXPENDITURE IN THE CASE OF PASSENGERS SHIPWRECKED, &C.

[Act XII 1885, Sch. Cf. 1863, Sch. A.

(See section 275.)

I hereby certify that, acting under, and in conformity with, the provisions of Part VI of the Indian Merchant Shipping Act, 1892, I have defrayed the expenses incurred in rescuing, maintaining, supplying with necessary

The Indian Merchant Shipping Bill, 1892.

(Schedule VIII.—Voyages in respect of which Coast-light Dues are payable. Schedule IX.—Rates of Fees payable in respect of Survey of Inland Steam-ships.)

bedding, provisions and stores,* and in forwarding to their destination passengers [including cabin passengers †], who were proceeding from to in the ship which was wrecked at sea, &c. ‡

And I further certify, for the purposes of section 275 of the said Indian Merchant Shipping Act, 1892, that the total amount of such expenses is , and that such expenses were duly incurred by me under Part VI of the said Act.

Given under my hand this day of 189 .

{ *Governor of, &c.* (or as the case may be)
{ *Her Britannic Majesty's Consul at* .

*N.B.—1. If more passengers were rescued than forwarded, or if bedding, &c., was not supplied, after the certificate to suit the facts of the case.

† N.B.—2. Omit words in brackets when necessary.

‡ N.B.—3. State generally the nature of the disaster and where it occurred. But if the passengers were only left behind, without any default of their own, state the fact accordingly.

SCHEDULE VIII.

VOYAGES IN RESPECT OF WHICH COAST-LIGHT DUES ARE PAYABLE.

(*See section 330.*)

1. A voyage to or from Chittagong or any place west of the longitude of Chittagong—

(a) from or to any port in Burma ; or

(b) from or to any port in the Andaman and Nicobar Islands or any place east of the longitude of Mergui, by a course passing between the northern extremity of the Andaman Islands and the coast of Burma.

2. A voyage to or from any port in Burma—

from or to any other port in Burma,

except voyages *between* Maulmain *and* Tavoy, *between Maulmain and* Mergui, or *between* Tavoy *and* Mergui.

3. A voyage to or from Rangoon *or* any port in Burma west of the longitude of Rangoon—

from or to any place east of the longitude of Mergui.

4. A voyage to or from any port in Burma, other than Tavoy and Mergui,—

from or to any port in the Andaman and Nicobar Islands.

SCHEDULE IX.

RATES OF FEES PAYABLE IN RESPECT OF SURVEY OF INLAND STEAM-SHIPS.

[Act VI of 1884, Sch. I (am. by Act III of 1890, s. 14).] Cf. 1854, Table T; 1872, s. 8.

INDEX TO PARTS I TO IX.*

* Part X is not included in this Index, as it was inserted in the Bill merely for temporary convenience. It is intended hereafter to remove the Part from the Bill and pass it as a separate Act.

6 v

Subject.	Section.
GOVERNOR GENERAL IN COUNCIL—*contd.*	
sanction of, required to—	
fixing, abolition or suspension of fees for engagement or discharge of seamen	22 (*1*)
notification fixing sums which may be deducted from wages in reimbursement of such fees	22 (*3*)
power of, to make rules as to grant of certificates of competency or service ...	30
sanction of, required to —	
order as to exemption of foreign steam-ship from carrying British certificated officer	33
form of agreement with seamen	50 (*1*)
scale of provisions for native seamen to be fixed by, ...	50 (*f*)
sanction of, required to—	
regulations inserted in seaman's agreement as to punishment ...	50 (*g*)
form of time-agreements for home-trade ships	54, *prov.* (*ii*)
form of statement for reporting changes in crew of foreign-going ship ...	59 (*1*)
power of—	
to declare rate of exchange for payments to seamen and apprentices ...	86 (*2*)
to fix scale of medicines, &c., for ships	111 (*1*)
control of, as to—	
appointment of Local Authority for relief of distressed seamen and apprentices	153
destination of distressed foreign seamen and apprentices shipped from British India	155
power of—	
to appoint rate of payment for passage of distressed seamen and apprentices	158 (*1*)
to make rules as to distressed seamen and apprentices	162
to authorise persons to recover wages of, and expenses incurred in respect of, distressed seamen and apprentices	164
sanction of, required to—	
form of official log	165
notification exempting steam-ship from survey	185
delegation of Local Government's function of granting certificate of survey	194 (*c*)
exception of native craft from operation of provisions as to load-lines ...	205 (*3*)
approval of, required to modification of load-line tables	241 (*1*)
sanction of, required to—	
fees for approval of, or certificate as to, position of load-line disc ...	241 (*2*)
appointment of Receivers of Wreck	251

power of, to board ship and muster seamen	56, 65
alterations in seaman's agreement to be attested by, ...	57 (2)
changes in crew of foreign-going ship to be reported to, ...	59
running agreement for foreign-going ship—	
discharge or engagement of seamen during pendency of, ...	60
to be delivered to, and endorsed by, ...	60
powers of, as to renewal of, ...	61
bond to be given to, by master of foreign ship engaging native seamen ...	63 (4)
certificates of officers and agreements with seamen to be produced to, ...	67, 68, 69
advance-notes when to be given in presence of, ...	70 (2)
powers and duties of, in respect of allotment-notes	73
discharge and payment of seamen before, ...	79
account of wages and deductions when to be delivered to, ...	80
to sign and retain release executed on settlement of seaman's claims ...	82 (1)
to give copy of such release on requisition	82 (3)
settlement of seaman's wages by, ...	83
to give to master on requisition a statement of payments made to seamen ...	84
arbitration by, between master or owner and seamen or apprentice ...	87
production of evidence in proceeding before, as to wages, discharge or claims ...	88

STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to consolidate the Indian Statute law relating to merchant shipping and the carriage of passengers by sea. The necessity for such consolidation has long been felt, and two attempts in this direction were made in the years 1867 and 1882. The Bill prepared in 1882 was merely a measure of partial consolidation, but the Bill of 1867 was designed to consolidate the whole Statute law. The last mentioned Bill was abandoned pending the consolidation by Parliament of the English Statutes relating to merchant shipping, many of the provisions of which apply to India in common with the rest of Her Majesty's dominions. Legislation in England is, however, still delayed, and under the circumstances it is desirable to defer no longer the re-enactment in a single Act of the various Acts of the Indian Legislature.

2. The present Bill embodies many provisions of the English Merchant Shipping Acts, 1854 to 1892, which have not hitherto been dealt with by Indian legislation, which can be so dealt with, and which it appears desirable to repeal or re-enact in a Bill, like the present, for consolidating and bringing up to date the Indian Statute law. But, on the other hand, it necessarily leaves outstanding many provisions of those Acts which apply to India and which it is beyond the power of the Indian Legislature to repeal or re-enact. It is intended, when the present Bill has been passed, to publish a new edition of Mr. Pearson's Digest of the Merchant Shipping Law applicable to India, in which all the English Statute law excluded from the Bill will be arranged in a convenient form side by side with the cognate clauses of the Bill.

3. The opportunity afforded by the present Bill has been taken to make various amendments in the Indian law which have been suggested by experience. These are, as far as possible, printed in italics, and a few of the more important of them are noticed in the following paragraphs. Statements are annexed, showing corresponding clauses of the existing Acts (Indian and English) and the Bill in parallel columns, and explaining the abbreviated references in the margin of the Bill to the Bills of 1867 and 1882 and the Statutes.

4. The subject of registration is one of the most important and difficult of the subjects dealt with by the Bill, and it is desirable to explain the position in some detail.

5. The Statute 3 & 4 Vict., c. 56, sections 3 and 4, conferred the following powers on the Governor General of India in Council:—

(*a*) power to declare that ships built within the limits of the Charter of the East India Company, being owned by Her Majesty's subjects for whom the Governor General in Council has power to legislate, and belonging to British Indian ports, shall be deemed to be British ships for all purposes of trade within the said limits, including the Cape of Good Hope and the territories and dependencies thereof;

(*b*) power, upon such declaration being made, to make regulations—

(*i*) concerning the registering, licensing and ascertaining the ad-measurement of the tonnage and burden, of such ships, and

(*ii*) generally for the trading of such ships within the limits aforesaid; and

(*c*) power to make regulations for admitting to all or any of the privileges and advantages of British ships for the purposes of trade within the limits aforesaid any ships—

(*iii*) belonging to Native Princes or States in subordinate alliance with, or having subsidiary treaties with, the East India Company, or

(*iv*) owned by subjects of any such Prince or State;

such regulations to provide for the granting to such ships of licenses or passes, and generally, for the trading of such ships within the limits aforesaid.

6. The power mentioned in clause (*a*) of paragraph 5 was exercised by the Proclamation appended to Act X of 1841; the powers mentioned in clause (*b*) were exercised by Act X of 1841, sections 1 to 23 and 25 to 27, and Act XI of 1850, sections 3 and 4; and the powers mentioned in clause (*c*) were exercised by Act X of 1841, sections 24, 25 and 27, and Act XI of 1850, sections 2 and 3, it being provided that ships of Native States, to obtain passes, should be commanded by a British subject for whom the Governor General in Council has power to legislate.

Sections 3 and 4 of the Statute 3 & 4 Vict., c. 56, were repealed by the Statute Law Revision Act, 1874, No. 2 (37 & 38 Vict., c. 96), but the savings contained in section 1 of that Act operate to continue the Indian Acts in force, and consequently the registration of ships under the Indian Acts of 1841 and 1850 continues to be lawful; but the power to re-enact the provisions of those Acts, supposing the Acts themselves to be now repealed, would appear to have been taken away.

7. Registration under Acts X of 1841 and XI of 1850 is optional, and confers the privileges of a British ship within certain limits only, *viz.*, those mentioned in paragraph 5. Consequently, certain classes of ships (namely, those of European build,) have long been registered in British India under the Merchant Shipping Act, 1854; so that registration in this country is carried on, in different cases, under both English and Indian Acts. In addition to Acts X of 1841 and XI of 1850, there is a local Act on the Indian Statute-book dealing with the registration of ships, *viz*, Act XIX of 1838, which makes compulsory the registration under it of "vessels belonging to any of Her Majesty's subjects residing within the Presidency of Bombay, and employed on the coasts of the territories subject to the Government of Bombay, or in trading coastwise," and "fishing vessels and harbour craft belonging to any of Her Majesty's subjects." Act XIX of 1838 does not prescribe any system for the measurement of tonnage, but it is believed that measurement is made under rules similar to those prescribed under Act XI of 1850.

8. We thus have for the registration of ships in British India (excluding Bombay Act I of 1863, as to registry of ships on the river Indus)—

(1) the English Merchant Shipping Acts,

(2) Act XIX of 1838 (Bombay Coasting Ships), and

(3) Act X of 1841, as amended by Act XI of 1850, Act V of 1883, section 38, and Act VII of 1891.

9. In consolidating the law of Merchant Shipping the important subject of registration cannot be ignored, and, indeed, the opportunity ought to be taken to secure, as far as possible, that all registration be made under one and the same law. Under these circumstances, it is desirable to repeal Act XIX of 1838 and so much of Acts X of 1841 and XI of 1850 as deals with the registration of ships, and to leave all registration in British India for the future to be conducted under the English Merchant Shipping Act, 1854, as amended by subsequent Acts, subject to certain necessary qualifications as to the measurement of native craft engaged in the coasting trade, and such special provisions as are needed for Indian requirements. The only way in which, as the law now stands, it appears possible to maintain the qualifications required for India is to proceed under the power conferred by section 547 of the Merchant Shipping Act, 1854, and this course has been adopted in Chapter II of the present Bill.

10. While, however, repealing those portions of Acts X of 1841 and XI of 1850 which relate to registration, the portions [*viz.*, section 24 and part of sections 25 and 27 of Act X of 1841, and section 2 and part of section 3 of Act XI of 1850] relating to the grant of passes to ships belonging to Native Princes or States or their subjects have been left untouched, as it is desirable to maintain these provisions of the law.

11. The provisions of the English Acts on the subjects of measurement, marking and registration are contained in the following Merchant Shipping Acts, namely:

17 & 18 Vict., c. 104, Part II;
18 & 19 Vict., c. 91, sections 9, 11, 12, 14 and 15;
25 & 26 Vict., c. 63, sections 3, 4 and (re-measurement of foreign ships) 60 to 64;
30 & 31 Vict., c. 124, section 9, clauses (3), (4), (5) and (7);
31 & 32 Vict., c. 129;
32 Vict, c. 11, section 6;
34 & 35 Vict., c. 110, sections 5 and 6;
35 & 36 Vict., c. 73, sections 3, 4, 13 and 15;
36 & 37 Vict., c. 85. sections 3 to 6 and 30;
39 & 40 Vict., c. 80, sections 23, 24 and 44;
43 & 44 Vict., c. 18;
45 & 46 Vict., c. 55, section 4;
50 & 51 Vict., c. 62, section 3;
52 & 53 Vict., c. 43, sections 1 to 5 and (re-measurement of foreign ships) 6; and
52 & 53 Vict., c. 73.

The amendments effected by the later Statutes may be said not to modify in any important degree the principles embodied in Part II of the Merchant Shipping Act, 1854; and an examination of that Part will bring out any difficulties that may arise if the English law is applied to all ships in British India.

12. Part II of the Act applies to the whole of Her Majesty's Dominions (see section 17). As stated in paragraph 7 above, certain classes of ships are already registered in British India under the English law, and, if the provisions of the Indian Acts relating to registration are repealed, all ships in British India owned by British subjects or certain classes of bodies corporate (see section 18) will come under the operation of Part II.

13. *Sections 18 and 19 of the Merchant Shipping Act, 1854.*—There appears to be nothing in section 18, which treats of the "Description and ownership of British ships," which would be inapplicable to the circumstances of British India.

Section 19 lays down in effect that all British ships exceeding fifteen tons burden must be registered. In Bombay registration is already compulsory, under Act XIX of 1838. Acts X of 1841 and XI of 1850 do not compel a ship to be registered, but she must be registered to obtain the privileges of a British ship, and in practice most sea-going ships exceeding fifteen tons burden are registered. In this respect there is no necessity for any modification of the English law.

, *section 10.*

It is, however, unnecessary that the registration of any inland ships, whether exceeding fifteen tons burden or not, should be required, and a modification of section 19, clause (2), of the Merchant Shipping Act, 1854, is therefore desirable. The required provisions have been inserted in section 10 of the Bill.

; *section 11.*

In regard to ships, whether sea-going or inland, of fifteen tons burden or less, the power conferred by section 6, clause (*k*), of the Indian Ports Act (X of 1889), to license and regulate boats plying in Indian ports, appears to be sufficient to secure such registration as is necessary.

14. *Sections 20 to 29 of the Merchant Shipping Act, 1854.*—Under the existing Indian law all ships (other than coasters) registered under Act X of 1841 are now (see Act X of 1841, sections 9 and 10) measured under the English rules. It is understood that coasters are sometimes measured under those rules, but that generally the special rules made under Act XI of 1850 are applied to them. These special rules are similar to the rules which were in force in Europe before the Merchant Shipping Act, 1854, was passed. They have the merit of simplicity, and they are much more suited to native coasting craft not square-rigged than are the English rules, and for these reasons they are preferred by practically all the authorities which have to administer the Merchant Shipping Acts in connection with the registration of this class of ships. The great majority of these coasters are of less than one hundred tons burden, and they seldom, if ever, exceed three hundred tons. As the old system of measurement is preferred for these ships, it is desirable that the power of applying it should be retained. It will be sufficient to confine the operation of the special rules to Native sailing craft not square-rigged, engaged in the coasting trade. The existing special rules are not applicable to steamers, and it appears to be advisable to continue measuring square-rigged ships under the English rules. The reasons which make it desirable to apply the English rules to foreign-going ships registered in British India have hardly any force in the case of native coasters. The necessary provisions have been made in section 11 of the Bill, which leaves it to the option of owners of native coasting craft to have measurement made either under the special rules or under the English rules.

Ill, section 9.

If Act XIX of 1838 and those portions of Acts X of 1841 and XI of 1850 which relate to registration are repealed, such matters as registration *de novo* in case of alterations in ships (Act X of 1841, section 21), fraudulent use of certificate of registry (*ib.*, section 15), endorsement on certificate of registry of change of master (*ib.*, section 16), must be provided for. To leave the Acts on the Statute-book for such purposes as these would be *pro tanto* to keep up the separate system of registry which it is proposed to abolish. It is therefore proposed by section 9 of the Bill to require ships registered under the Indian Acts to be re-registered under the English Acts, without payment of fees, and to repeal antagonistic provisions in the Merchant Shipping Act, 1854 (*viz.*, section 27 and part of section 19). When these ships are so re-registered the names of any of them can, if desired, be changed under the procedure provided by section 6 of 34 & 35 Vict., c. 110, and this will meet a difficulty which has been felt under Act X of 1841.

15. There is nothing in any of the remaining sections of Part II of the Merchant Shipping Act, 1854, or of the Acts by which it has been amended, which may not, by slight and for the most part merely verbal alterations, be made applicable to Indian ships. These alterations are proposed in the Bill. The more important of them are as follow:

(1) The Local Government has, with certain exceptions, been substituted for the Board of Trade. *Bill, section 12.*

(2) Section 13 of the Merchant Shipping Act, 1872, and part of section 29 of the Merchant Shipping Act, 1854, are repealed, the first mentioned provision as being inapplicable to British India, and the second as having been superseded by section 3 of 50 & 51 Vict., c. 62.

(3) Clause (5) of section 30 of the Merchant Shipping Act, 1854, as to registrars, is now out of date. The registrar at the principal ports in India should ordinarily be the Port Officer, but power should be given to the Local Government at its discretion to appoint any other person whom it may select. At the smaller ports the registrar should be any person whom the Local Government may think fit to appoint. The necessary provisions have been inserted in section 15 of the Bill. The enactment of this section renders unnecessary the retention of section 6 of 32 Vict., c. 11, which it is accordingly proposed to repeal. *Bill, section 15.*

(4) While allowing the English law on the subjects of transfers, transmissions, mortgages and sale to apply in the case of Indian ships generally, it is desirable to except native coasting-ships, not square-rigged, from the operation of sections 55, 57 and 66 to 83, and this has been done by section 16 of the Bill. Owners of this class of ships are not accustomed to the rules laid down in these sections. The rules, therefore, if applied to such ships, would probably be overlooked, and hardship would then follow from the action of the Courts. *Bill, section 16.*

(5) The fees chargeable for measurement of tonnage under the English Acts are fixed, under section 30 of 36 & 37 Vict., c. 85, in sterling, and are, under present practice, converted into Indian money at the current rate of exchange. The continuance of this practice is undesirable, particularly with reference to native coasting-ships, for which fixed fees have hitherto been prescribed under Act X of 1841, s. 25, and Act XI of 1850, s. 4. Other fees connected with registration are also fixed, by or under the English Acts, in sterling. It is desirable that in all these cases fees should be stated in Indian money; and provisions with this object have been inserted in section 14 of the Bill. *Bill, section 14.*

(6) There is a custom in the Bombay Presidency of increasing the burden of a ship by means of temporary structures after the tonnage has been registered, the object being to evade payment of port-dues. To meet this evasion it is proposed by section 17 of the Bill to repeal a few words in sections 23 and 44 of 39 & 40 Vict., c. 80. Section 23 of this Statute does not, however, deal with uncovered spaces on ships which have no deck, and therefore does not sufficiently provide for the case of temporary structures erected on undecked native ships. It was principally with the object of requiring the re-measurement of ships of this class when temporary additions to their carrying capacity are made that the Government of Bombay recently proposed legislation. Clauses giving the necessary powers have been inserted in section 11 of the Bill. *Bill, section 17.* *Bill, section 11.*

(7) Section 13 of the Bill re-enacts the clauses of 30 & 31 Vict., c. 124, section 9, as to deductions from tonnage, with the object of giving complete effect to section 113 of the Bill. It is proposed by the latter section to assimilate the Indian law with the English law, so far as crew spaces for Europeans are concerned; but the English law has nothing corresponding with the Indian law on the subject of crew spaces for lascars. It is understood that, in the case of ships already registered in British India under the English law, deductions for crew space are made under the rules prescribed by that law, *i.e.*, on the scale for Europeans. Lascars are, however, carried on these ships, and it is desirable that the provisions of section 113 of the Bill as to them should be distinctly recognised in making deductions from tonnage on account of crew space. In applying the English law to the measurement of ships registered under Act X of 1841, the corresponding provisions of the existing Indian law (Act I of 1859, section 70,) were expressly saved—see Act X of 1841, sections 9 and 10, as substituted by Act VII of 1891, section 3. *Bill, section 13.*

16. It might be urged against the scheme of Chapter II of the Bill that the provisions of English Statute law on the subjects of measurement, marking and registration, and the orders of the Board of Trade under them, are so scattered that it will be difficult for registrars at Indian ports to ascertain what their duties will be. This inconvenience exists at present in cases where ships are already registered in British India under the English law, although it is to some extent minimised by the periodical publication of the rules and orders of the Board of Trade in pamphlet form; and care will be taken further to reduce it as far as possible when a new edition of Mr. Pearson's Digest is taken in hand.

17. It would be preferable, if it were possible, to enact a simple law for the registration of native coasting craft not square-rigged; but the Government of India is not free to pass such a law, and must wait until Parliament consolidates the Merchant Shipping Acts with such amendments as are needed for giving it the necessary powers.

18. Throughout the Bill "Shipping Office" has been changed to "Mercantile Marine Office," and "Shipping Master" to "Superintendent of a Mercantile Marine Office." These changes follow those made in the United Kingdom by section 15 of 25 & 26 Vict., c. 63.

19. *Section 31.*—Important alterations have been made in this section. They have been made in order to assimilate the Indian law with the English law, as explained in the Board of Trade's "Instructions to Superintendents," No. 359*a*, dated March, 1889.

(1) All foreign-going ships are at present required to have a certificated mate. The Bill dispenses with this requirement as regards ships of less than one hundred tons burden, and provides that if a ship of one hundred tons burden or upwards has two mates each must be certificated.

(2) Home-trade ships of three hundred tons burden or less are not at present required to have a certificated master or a certificated mate. The Bill reduces this limit to one hundred tons in the case of both masters and mates where a ship does not carry passengers, and withdraws it altogether in the case of masters of ships carrying passengers. The reduction of the limit in the case of masters was urged in a recent communication from the Government of Bombay.

(3) The exemption of ships manned exclusively by Asiatic masters and seamen from the requirements of the law as to carrying certificated masters and mates, which was enacted in its existing form by Act V of 1883, section 37, has been limited to the case of ships not carrying passengers. And, as it stands in Bill [section 31, sub-section (5)], it will apply to such ships when engaged in the "home trade," as defined in section 3, clause (3), and not when "trading between ports in India and the coasts of Arabia."

20. Chapters VII to XV relate to engagements, service and discharge of seamen, and the accommodation and provision to be made for them, and contain a number of provisions for the better protection of seamen.

The amendments are mainly directed to the following objects:

(1) To extend to seamen engaged for service in foreign ships the provisions now affecting seamen in British ships.

(2) To assimilate the law as to "running agreements" and the return of sailors to their homes with the corresponding law under the English Merchant Shipping Acts.

(3) To extend the protection of British law to natives of India, and to Arabs, Africans and Asiatics not being natives of India, who are, it appears, engaged at Aden in large numbers for service in foreign ships.

(4) To extend to India various amendments made in the English law since the passing of the Merchant Shipping Act, 1854.

(5) To provide for the proper inspection of provisions and water for the use of the crews, both European and Asiatic, of ships, both home-trade and foreign-going.

(6) To protect seamen and apprentices from imposition.

(7) It is a common practice among lascars to carry with them sea-chests of a size much greater than would be required for their personal effects, the object being to bring back on the return voyage goods for traffic. These chests block up the spaces provided for the accommodation of the crew, and prevent ventilation. Section 114 has been inserted in the Bill with a view to limiting the size of these chests. The policy of the section is open to question, and it will be reconsidered before the Bill is further proceeded with.

21. Chapters XVI to XXVII deal with discipline, the protection of seamen or apprentices when left in British India, the official log, life-saving appliances, lights and fog-signals, survey of steam-ships, unsafe ships, and ship surveyors. So far as they are not a mere reproduction of existing law, they consist, with few exceptions, of amendments intended to adapt the English law to the circumstances of India.

The only alteration of substance not based upon this principle is that the power of the Local Government to exempt ship surveyors from the operation of section 69 of Act VII of 1880 [=section 247 of the Bill] has been restricted by Chapter XXV to the case of persons who exercised their profession before the date on which that Act came into force. It is, however, open to question whether the chapter ought to be continued on the Statute-book at all. Its provisions appear to be without precedent elsewhere, and they tend to interfere with the ordinary course of shipping and insurance business.

22. Part VII contains the law applicable to native passenger-ships.

A Commission was appointed in 1890 to enquire into the administration of the Native Passenger-ships Act (X of 1887). Part VII of the Bill has been framed so as—

(a) to give effect to such of the recommendations of the Commission necessitating an amendment of the Act as have been accepted by the Government of India, and

(b) to make certain amendments in the Act with a view to securing a better control over the pilgrim traffic to the Red Sea.

The principal amendments are noticed in the following paragraphs.

23. *Section 279.*—Every voyage—

(1) to Aden, from any other port in British India,

(2) from or to British India, to or from the Red Sea, or

(3) during which the ship calls at one or more intermediate ports and has native passengers on board for two hundred and forty hours or upwards,

is declared to be a "long voyage," whether the ship is or not one hundred and twenty hours continuously out of port.

Certain classes of voyages have been defined as "shelter-port" voyages and "excursion" voyages.

24. Separate sets of regulations have been made for—

(a) voyages in general,

(b) long voyages, and

(c) short voyages, shelter-port voyages and excursion voyages, respectively.

25. *Section 291.*—The requirement in Act X of 1887, section 26, as to carrying a medical officer on certain voyages is extended to ships carrying more than four hundred passengers—

(1) between the Coromandel Coast and Rangoon;

(2) between Calcutta and Rangoon;

(3) between any port in the Bombay Presidency and any port not in that Presidency; or

(4) between Aden and any other port in the Bombay Presidency.

26. Part VIII deals with coast-light dues. In section 330 power has been taken to abolish coast-light dues either entirely or in respect of any class of ships. It is expedient that the Government should possess this power, to be exercised when it is found that ships are made to pay dues which derive no benefit from the lights, or when the receipts are much in excess of the expenditure.

27. Part IX contains certain miscellaneous clauses usual in Bills of this nature, mainly consisting of ancillary provisions as to rule-making, evidence, and the like. There are no alterations of the law of sufficient importance to call for separate notice.

28. Part X is a consolidation of the Indian Statute law, contained in Acts VI of 1884, III of 1890 and XIII of 1891, relating to inland steam-ships. It is considered desirable to keep the provisions as to inland steam-ships in a separate Act, rather than to embody them in an Act dealing with merchant shipping, because the law on the latter subject is liable to be affected by legislation in England, while the regulation of inland steam-ships is a matter solely within the scope of Indian legislation. But there are practical difficulties connected with procedure which have prevented this scheme from being carried out. Accordingly the law dealing with Inland steam-ships has been included in the present Bill, but it has been kept in a distinct part, so arranged that it can without difficulty, if desired, be separated from the rest of the Bill, and passed by itself as a different Act.

29. The Inland Steam-vessels Act, 1884, and the Indian Steam-ships Act, 1884, were companion measures, and ran generally on similar lines; and in the present Part alterations and additions corresponding with those made in the earlier Parts of the Merchant Shipping Bill have been made with the object of maintaining this similarity. The arrangement of clauses has also been assimilated throughout.

30. *Section 352, clauses (4) to (7)*.—The definitions of "Board of Trade certificate," "Colonial certificate," "local certificate" and "inland certificate" have been inserted to simplify the wording of Chapters XXXVIII to XL of the Bill. The first three definitions are a repetition of those contained in section 3, clauses (*6*) to (*8*), of the Bill.

31. *Section 363*.—This section is new. It has been inserted as a means of avoiding complicated clauses in section 364 of the Bill (=section 28 of Act VI of 1884).

32. *Section 394*.—Courts of Presidency Magistrates and Magistrates of the first class have been added, as in section 263 of the Bill.

33. The other alterations of the law continued in this Part follow generally those inserted in the earlier Parts of the Bill, and have been retained in order to facilitate the division of the Bill into two, should that ultimately be decided upon. If not, they can be removed before the Bill is passed.

The 20th October, 1892. ALEX. EDW. MILLER.

Statement shewing where Enactments proposed for repeal are dealt with in the Bill.

Act XIX of 1838.	Bill.	REMARKS.
1	... ...	Repealed by Act XIV of 1870.
2 to 8 ...	... ...	Superseded by Chapter II of Bill.
9	... ...	Repealed by Act XII of 1876.
10 to 14 ...	... ...	Superseded by Chapter II of Bill.
15	... ...	Repealed by Act XII of 1876.
Schedule ...	... ...	Superseded by Chapter II of Bill.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE DACCA DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS—No. 3420.

Calcutta, the 29th November 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Dacca Division for the year 1891-92.

This concise Report is submitted by the Officiating Commissioner, Mr. Cooke, whose administration of the Division dates from the 22nd June 1892. The late Mr. Boxwell and the late Mr. Worsley were among his predecessors who held charge of the division at different times during the year, and the Lieutenant-Governor has already recorded the loss of those able officers, whose valuable services to the State will not soon be forgotten.

Tours.

2. The Commissioner's tour covered a period of 133 days, of which Mr. Boxwell completed 19 days, Mr. Forbes 76 days, and Mr. Worsley 38 days. The Collectors

of Faridpur and Mymensingh were on tour for the full period prescribed by Government for their districts. The tour of the Collector of Dacca fell short of the standard by two days, and that of the Collector of Backergunge by 15 days. In the latter case, however, Mr. Savage explains that he was unable to finish his tour owing to an attack of inflammation of the eyes due to exposure in February while inspecting the several khas mahal improvement works. The Lieutenant-Governor is surprised to read that an officer of Mr. Hare's energy and ability should protest against the length of tour required from him, and that the Commissioner should be inclined to support him. His Honour believes that, if a Collector of Dacca distributes his tour throughout the year, he will not find that it interferes with his work at the Sadar or with his duties as a volunteer officer, but at least the manner in which that work, and those duties differ from the calls on the time of Collectors of other important districts should have been fully stated before the orders of Government were impugned, and in future, if the period of tour falls short of that prescribed, a full explanation should be submitted. All the Sub-divisional Officers in the Division observed the orders of Government. The Sub-divisional Officer of Manikganj, Mr. Palit, was out for as many as 141 days, and the Lieutenant-Governor trusts that his work at head-quarters was not neglected for the duties on which he was engaged during that time.

The orders regarding inspections of offices were generally carried out. The only sub-division not inspected by the Commissioner was Tangail, where the state of the office was said to render inspection useless, presumably on account of its excellence: but a perusal of His Honour's Inspection Note, dated the 11th August 1892, will show that the office is still far short of this ideal perfection. Moreover, there is an important question outstanding for decision, viz., whether the municipality should continue to exist. All sub-divisions and sub-treasuries were inspected by Collectors, but Goalundo in Faridpur, and the three sub-divisions of Backergunge were only inspected once.

Weather and crops and public health.

3. During the year under report the rainfall in every district of the Division was deficient or unevenly distributed, and the *bhadoi*, the winter rice, and the *rabi* crops all suffered in consequence. In Netrokona the outturn was below the average in consequence of unusually heavy rain during the sowing season. The effect was equally marked in the case of jute and pulses, so that the year was locally regarded as one of indifferent harvests. The unhealthiness prevalent in this division as throughout Bengal would seem to be traceable to the absence of rain and consequent deterioration of the drinking water. Fever proved by far the most fatal form of disease, and the number of deaths from this cause increased from 142,420 in 1890-91 to 160,302 in 1891-92. The total number of deaths from cholera decreased from 38,458 to 28,858, but the improvement was confined to the districts of Dacca and Faridpur. In Backergunge and Mymensingh the mortality from this cause was greater than in the previous year, and Mr. Savage's description of the epidemic in his district merits quotation:—

"The outbreak was remarkable for the sudden and unexpected manner in which it occurred in villages in all parts of the district. The first report from any one village would show perhaps five or six or more persons attacked and all dead, and by the time medical aid could reach the village, the disease would have disappeared, to break out as suddenly and severely elsewhere. The severity of the outbreak in March was most probably enhanced by the extraordinary inrush of salt water into all the khals and rivers from south to north of the district in that month. The rivers as a result of the continued drought were exceptionally low during March; and some disturbance in the Bay just about the time of the spring-tide drove salt water far inland. At Barisal the river water was simply undrinkable (a circumstance which is unprecedented during living memory); and in April (this year) when I was on tour in Mendiganj thána in the north of the district, I saw the whole of the land over which the tide had flowed was encrusted with salt; a sight I have never before seen even in the extreme south of the district. In spite of all that has been done in recent years to provide good tanks in many parts of the district, the great bulk of the population is still dependent on river water for drinking purposes, and those who were forced to drink the saline water during March would no doubt suffer from diarrhœa and be exceptionally susceptible to the attacks of cholera."

The total number of deaths recorded in each district for this and the past two years is given in the following table:—

District.			1889-90.	1890-91.	1891-92.
Dacca	...	...	42,695	50,236	54,338
Faridpur	...	...	34,192	44,428	42,811
Backergunge	...	...	56,748	62,859	69,234
Mymensingh	...	...	59,219	66,870	67,774
	Total	...	192,854	224,393	234,157

The Commissioner gives the death-rate for the past two years for each district as follows:—

District.				1890-91.	1891-92.
Dacca ...	...	...	...	20·7	22·4
Faridpur ...	...	...	...	24·7	23·8
Backergunge	...	...	...	29·1	32·1
Mymensingh	...	...	...	19·2	19·4

It is evident that the returns must be very imperfect, especially in Mymensingh. Registration is best in Backergunge, but in the other districts there is great room for improvement.

Material condition of the people.

4. A gradual amelioration would seem to be taking place in the material condition of the peasantry of Eastern Bengal, which has not been appreciably affected by the events of the year. The Commissioner writes that the standard of comfort has distinctly risen during the last decade, chiefly owing to the construction of the Dacca-Mymensingh Railway. The prevailing prosperity extends to the artisans, except the weavers and potters, but not to the poorer members of the middle class, who have nothing to compensate them for the high prices of food and other necessaries. Weavers are said to be taking to cultivation and potters to be badly off, because everywhere earthen vessels are being replaced by brass. On the other hand, as an indication of the general well-being, the condition of jewellers is said to be improving.

Manufactures, Trade and Commerce.

5. The only important manufactory in the Division is the steam oil-mill at Jhalukati in Backergunge, which produced 18,000 maunds of oil and 33,000 maunds of oilcake, against 17,000 maunds and 28,000 maunds, respectively, in 1890-91. The Commissioner reports that, since the close of the year, a steam oil and flour mill has been opened at Dacca by a joint-stock company promoted by some of the wealthiest native firms of Dacca. The manufacture of Dacca muslins continues, but in a declining state.

Trade suffered from the bad harvests and other untoward events of the year. The Commissioner writes as follows regarding the statistics of trade passing into and out of the Naraingan j port:—

"The total trade of the Naraingan j port has further decreased from Rs. 96,02,874 in 1890-91, to Rs. 73,00,346 during the year under report. The falling off was both under imports and exports, which show a decrease of Rs. 1,07,857 and Rs. 21,94,671, respectively. The decrease in imports was in articles both of Indian and of foreign produce, and in exports was confined to articles of Indian produce only. In imports, the falling off was principally in cotton, jute, kerosine-oil and timber, while in exports it was chiefly in jute, which alone is responsible for a decrease of Rs. 23,12,193. The decrease is attributed partly to the bad harvest of the year, the result of drought and low rise of rivers, and partly to the conflagration which took place in the godowns of Messrs. Ralli Brothers, which prevented that firm from exporting jute to Chittagong for some time. The trade of the port declined under all heads, excepting hides and skins, wood, treasure, grain and pulse, metals, oils and tobacco."

If statistics were available elsewhere, they would probably show the same diminution in the volume of trade. The chief rice-exporting district of the Division is Backergunge, and the Collector estimates that about 38 lakhs of maunds were exported as against 47 lakhs in 1890-91.

Statistics.

6. The statement given by the Commissioner in paragraph 62 of his report, showing the extent to which births and deaths are registered in certain municipal areas, is a sufficient proof of the necessity of the step taken when this important work was transferred to the police. The Commissioner writes:—

"Dacca, Narainganj, Faridpur and Barisal present some improvement, and as the Magistrates remark, the work there appears to have been better attended to than in the preceding year. In the remaining municipalities of the Division the registration of births and deaths would seem to have been left to take care of itself."

The Lieutenant-Governor hopes with the Commissioner that more reliable statistics will be furnished next year.

Civil Courts.

7. The following statement shows the civil work of the Division during the year:—

District.	Sub-division or chauki.	Description of Court.	Number of officers.	Number of original cases disposed of. Ordinary.	Number of original cases disposed of. Small Cause Court.	Details of cases in columns 5A and 5B. Money.	Details of cases in columns 5A and 5B. Rent.	Details of cases in columns 5A and 5B. Title.	Number of witnesses attended.	Ratio of witnesses detained over two days, per cent. of witnesses examined.	Ratio of cases pending at end of year, per cent. of cases disposed of.	Number of unit cases disposed of per Munsif.

	Pingna ...	Do. ...	1	1,037	1,101	1,869	100	169	8,100	2[illegible]	31	1,749
		Total ...	64½	67,980	45,074	69,215	36,489	8,030	3,26,109	11	27	1,921

The unit of cases given in column 12 of the statement is obtained by treating each title suit as equal to three ordinary suits, and each Small Cause Court suit as one-third of an ordinary suit. On this basis the average number of cases disposed of by each Munsif was 1,921. The highest figure was reached at Iswarganj, where three different Munsifs in a period of 8 months and 10 days disposed of work at a rate which brings out the immense total of 4,084 for a whole year. After them came the Munsifs of Madaripur, Bhanga, and Netrokona, who decided respectively 2,639, 2,412 and 2,438 cases apiece. All these figures seem to indicate undue pressure, and suggest the necessity of strengthening the judicial staff at these places. The least work was done by the Munsif of Narainganj, and the averages were generally lower in the Dacca district than elsewhere. The Munsifs of Kishoreganj in Mymensingh detained 42 per cent. of their witnesses over two days, and in the courts there the ratio of cases pending at the close of the year to cases disposed of was also 42 per cent. The ratio of witnesses detained over two days to witnesses examined exceeded 10 per cent. in the Courts of the Munsifs of Dacca, Munshiganj, Kaliganj Pirojpur, Patuakhali, Bhola, Mymensingh, Jamalpur, Sherpur, and Pingna. The Munsifs of the Faridpur district are the best in this respect. After Kishoreganj and Jamalpur (43 per cent.), the highest ratio of cases pending to cases disposed of occurred in the Munsifis of Bhanga, Mymensingh, Jamalpur, Netrokona, Bajitpur, Atia, and Pingna, in all of which the ratio was 30 per cent. or more; the lowest ratio is shown by the Munsifs of Patuakhali. The ratio of cases modified or reversed on appeal to cases confirmed ranges from 53 per cent. in Faridpur to 40 per cent. in Dacca.

Crime, Police and Criminal Justice.

8. The number of cognizable cases reported increased from 13,250 cases in 1890, to 15,828 cases in 1891. The number of non-cognizable cases decreased from 17,786 cases in 1890 to 17,441 in 1891. The increase in the number of cognizable cases extends to all the districts of the division, and to all

the six classes of crime. The number of rioting cases increased from 478 in 1890 to 518 in 1891, and the Commissioner writes—

"The increase is considerable, but it is worthy of note that most of these cases were neither serious nor important. The cases in Backergunge were chiefly the result of disputes about lands, which Mr. Savage thinks that 'no repressive measures will put a stop to, unless and until the whole district be brought under settlement.' The improvement noticed in last year's report in the district of Mymensingh has not been maintained, while Dacca and Faridpur have pretty nearly recovered lost ground."

There was also an unsatisfactory increase in the number of cases of dacoity and burglary, and the Lieutenant-Governor hopes that an earnest endeavour will be made in the present year to put down this class of crime.

The Commissioner's remarks regarding the working of the police may be quoted *in extenso*:—

"The improvement noticed in last year's report in the working of the police in Backergunge has not been maintained, and the Magistrate reports that there is but little that can be said in praise of their conduct. It is stated that the Inspectors worked well, but, from Sub-Inspectors downwards, the main object of the force seems to have been to do as little work and to deceive the superior officers as much as possible, and that for every one man who has deserved credit for an attempt to do his duty honestly, there have been twenty whose shifty and unsatisfactory conduct has been the subject of comment. Uneducated and badly paid, they prove indolent and untrustworthy and perform no part of their duty except under the compulsion of frequent punishments.

"In the other districts of the Division, however, their conduct is stated to have been, on the whole, fairly good. The Magistrates of Dacca and Faridpur remark with satisfaction that there have been but few accusations of malpractices against them, and none which may be regarded as seriously affecting the general character of the force.

"The working of the Town Police also was, on the whole, satisfactory, considering the harassing duties which they have to perform. The town work is very much disliked; and in Dacca, out of 53 resignations tendered during the year in the entire district, as many as 52 were from the Town Police."

Town Police.

As regards chaukidars, the Commissioner says:—

"The chaukidars of Backergunge are reported to have worked fairly well, and those in Mymensingh to have much improved in their attendance. In Dacca and Faridpur, however, they are not favourably reported on. The Magistrate of Dacca reports that the chaukidars of his district are remiss in attendance and dilatory in reporting crime, and in Faridpur they are stated to be backward and to need careful watching.

"In every district, especially in Backergunge, the men are now paid their wages more regularly than before, but there is still considerable room for improvement in this respect. The new Bill, when passed into law, will, it may be hoped, remedy the evil."

Criminal Courts.

9. The following table shows the work of the criminal courts in the Division by districts:—

District.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio per cent. of witnesses detained over two days to total number attended.	Ratio per cent. of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases disposed of per officer.	Average number of witnesses attended per case disposed of.	Ratio per cent. of column 12 to column 11.

		Honorary Bench	1	245	250	52	932	2	34	......	...	243	8	...
Total		Stipendiary	39¼	16,247	24,013	65	84,186	6·5	33	3,979	508	413	5·18	12
		Honorary Bench	20¾	4,269	4,835	46	16,397	9·6	39	74	10	205	3·54	13

Taking Stipendiary Magistrates first, 39¼ officers disposed of 16,247 cases, the average number of cases disposed of by each being 413. The Deputy Magistrate of Pirojpur in Backergunge disposed of the enormous number of 1,097 cases. Next come the Deputy Magistrates of Patuakhali in Backergunge and of Manikganj in Dacca, who disposed of 790 and 761 cases respectively. The Sub-divisional Officers of Goalundo and Naraingani disposed of over 600 cases each. Some provision must be made for additional help to these officers, who are evidently overworked. The Magistrates at the sadar stations of Faridpur and Mymensingh disposed of considerably less than the average number of cases. The average number of witnesses per case was 5·18. The average reached 10 in the Court of the Stipendiary Magistrate of Netrokona, 9 in the Court at Kishoreganj, 8 in the Court at Madaripur, 7 in the Courts at the sadar station of Backergunge, and 6 in those at the sadar station of Mymensingh. The ratio of witnesses detained over two days is generally small, but over 10 per cent. were so detained in the courts of the Stipendiary Magistrates at the head-quarters station of Mymensingh. The number of police cases disposed of was 3,979, of which 508 were remanded six times or more. Ten per cent. or more of the police cases tried were so remanded in all the sadar courts of the Division, and in the Sub-divisional Courts of Munshiganj, Narainganj, Jamalpur and Kishoreganj. At Mymensingh Sadar the ratio was 29 per cent. and at Kishoreganj 22 per cent. The percentage of persons convicted to persons acquitted ranges from 81 per cent. at Dacca to 52 per cent. at Mymensingh, the average for the Division being 65 per cent. At Madaripur the ratio of cases modified or reversed on appeal, to the number appealed, was as high as 57, at Faridpur it was 54, at Dacca and Manickganj 51, and at Munshiganj 50 per cent.

Honorary Magistrates.

10. Much assistance was given in the disposal of petty cases by the Honorary Magistrates, who tried as many as 4,269 cases in the course of the year, with an average of 3·54 witnesses to each case. The Commissioner remarks that their work is as yet crude and requires much supervision, but the relief given to Stipendiary Magistrates is undeniable. The following table shows the attendance of Honorary Magistrates during 1891:—

District.	Number of times asked to attend.	Number of times actually attended.	Number of times absent.		
			With leave or notice.	Without leave or notice.	Total.
1	2	3	4	5	6
Dacca ...	2,117	1,828	210	79	289
Faridpur ...	2,015	1,157	114	752	866
Backergunge ...	305	250	51	6	57
Mymensingh ...	2,064	1,319	119	626	745

The attendance is worst in Faridpur and Mymensingh and best in Dacca. In Backergunge the number of Honorary Magistrates is few. Honorary Magistrates who persistently refuse to attend should be called upon to resign, and the necessary action has been taken in some cases.

Sessions Trials.

11. The following statement shows, by districts, the work of the Sessions Courts:—

	District.				
	Dacca.	Faridpur.	Backergunge.	Mymensingh.	Total.
1	2	3	4	5	6
Number committed during the year	59	60	66	98	283
Number disposed of	46	52	62	100*	260
Number in which conviction obtained	33	33	44	59	169
Number of above in which sentence modified or reversed by High Court.	2	22	17	6	47
Number of cases acquitted by Sessions Judge	13	17	18	41	89

* Includes cases pending from last year.

The lowest percentage of convictions was in Mymensingh, and the highest in Dacca and Backergunge, both of which were above 70 per cent.

Collection of Fines.

12. The following table shows the impositions, realizations, and collections of fines during the year:—

	District.				
	Dacca.	Faridpur.	Backergunge.	Mymensingh.	Total.
1	2	3	4	5	6
	Rs. A. P.	Rs. A. P.	Rs.	Rs.	Rs. A. P.
Amount due at commencement of the year.	13,333 14 5½	8,085 12 5	4,881	8,231	34,531 10 10½
Amount imposed during the year ...	33,159 10 3	27,307 8 0	19,530	69,165	1,49,162 2 2
Amount collected during the year ...	28,195 6 6	23,400 8 6	17,577	43,704*	1,12,876 15 0
Amount pending at end of year	10,197 10 5½	10,000 11 11	5,[illegible]83	13,692	39,383 6 4½

* Includes remission.

The outstanding balances of fines have increased in all the districts of the Division, except Dacca.

Registration.

13. The following statement shows the work done by the registration offices:—

District.	Class of Registration office.	Number of offices.	Number of documents registered.	Average per office.
1	2	3	4	5
Dacca ...	Special	1	5,083	2,640
	Rural	10	23,960	
Faridpur ...	Special	1	3,497	3,416
	Rural	10	34,076	
Backergunge ...	Special	1	5,874	4,885
	Rural	13	62,514	
Mymensingh ...	Special	1	6,156	3,251
	Rural	11	32,859	

The largest number of documents was registered in Backergunge, and it would perhaps add to the convenience of the people if the number of offices in that district were increased.

Collection of Government dues.

14. The following statement shows the demand, collections and balances of revenue, cesses and zamindari dâk, district by district, the three classes of estates against land revenue being—

I. Permanently-settled estates.
II. Temporarily-settled estates.
III. Estates held direct by Government.

District.	Class of demand.	Class of estates.	Number of estates.	Demand.		Collections of 1891-92.		Balance on 1st April 1892.

		III ...	69	17,261	9,226	14,014	3,748	3,247	5,478
	Road Cess and Public Works Cess.	......	7,786	3,37,9[illegible]6	37,731	3,05,990	36,104	24,690	1,627
	Zamindári Dák Cess.	......	2,005	19,852	1,114	19,023	1,024	829	90
	Total ...	......	......	12,13,449	1,01,031	11,63,104	82,157	43,078	18,874
	Grand Total ...	......	......	43,91,991	4,52,555	41,01,742	3,75,038	2,52,154	86,955
				48,44,546		44,76,780		3,39,109	

The total collections of land revenue amounted to 94·4 per cent. on the total demand, Rs. 34,95,801 having been collected out of a total demand of Rs. 37,01,596. Rupees 8,143 were remitted, leaving a balance of Rs. 1,97,652. This result is satisfactory as showing an improvement on that of the previous year, when only 92·9 per cent. of the total land revenue demand was collected; but the collections do not, in all instances, come up to the standard prescribed by Government. It is evident also from the table above that attempts are being made to reduce the amount of cesses outstanding at the end of the year. The largest proportion of land revenue was collected in Mymensingh, while the demand is largest in the district of Backergunge, where there are special difficulties to contend with. The Lieutenant-Governor is inclined to approve of the action which Mr. Savage proposes to take in respect to estates farmed out, and if farmers deliberately refrain from paying their dues, their leases must be cancelled and the estates sold or managed khas, but the subject should be separately submitted through the Board of Revenue.

Certificate work.

15. The following statement shows the number of certificates filed during the year, and how they were disposed of :—

District.	Department.	Number pending at beginning of year.	Number filed during year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.
1	2	3	4	5	6	7	8	9
					Rs.		Rs.	
Dacca	Road and Public Work Cesses. Other cesses	661	3,049	3,710	54,482	2,200	37,807	1,510
Faridpur	Only one register was kept for all departments.	1,166	2,469	3,635	1,19,206	2,425	76,759	1,210
Backergunge ..	Ditto	1,120	2,791	3,911	2,23,888	3,012	1,66,539	899
Mymensingh ...	Ditto	1,236	2,648	3,884	1,38,235	2,536	76,718	1,348
	Total ...	4,183	10,957	15,140	5,35,811	10,173	3,57,907	4,967

There were thus 15,140 cases for disposal, of which 10,173 cases were disposed of, leaving a balance of 4,967 cases pending at the close of the year. In all cases except Backergunge the number pending increased during the year. The Commissioner says :—

"The disposals were satisfactory in Backergunge, where they considerably exceeded the number instituted during the year. In Faridpur and Mymensingh they kept pace with the institutions, while in Dacca they very much lagged behind, as shown in columns 3, 8, and 10 of the Appendix XVIII. The short outturn of work in Dacca appears, however, to have been unavoidable, as a very large number of certificates (1,442) were instituted during the last quarter of the year, against only 543 during the corresponding quarter of the preceding year. It was not possible to dispose of these within the official year."

16. The following table shows the state of partition work during the year :—

Partition work.

	Dacca.	Faridpur.	Backergunge.	Mymensingh.	Total.
1	2	3	4	5	6
Number of cases pending at the beginning of the year.	149	2	6	295	452
Number of cases instituted	55	3	1	77	136
Total number of cases for disposal ...	204	5	7	372	588
Number of cases disposed of	42	1	4	78	125
Number of cases pending at end of year ...	162	4	3	294	463
Number of cases pending over six months	141	3	3	256	403

The number of cases pending in Dacca and Mymensingh leaves much room for improvement, and the Collectors of those districts will be directed to use their best endeavours to reduce the arrears.

17. The more important excise statistics are shown in the following statement :—

Excise.

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.
1	2	3	4	5	6	7	8	9	10	11	12	13
		Rs.		Rs.		Rs.	Mds. s.	Rs.		Rs.	Mds. s.	Rs.
Dacca	63	26,747	15,770	78,937	78	87,911	277 27	1,46,603	33	4,821	22 14	24,264
Faridpur	40	4,733	5,654	20,581	63	25,591	76 10	42,070	20	2,982	6 21	8,135
Backergunge ...	39	11,668	7,479	33,936	75	30,662	80 12	49,273	46	11,842	27 38	33,922
Mymensingh ...	67	33,907	13,298	71,718	133	1,11,077	404 19	1,95,786	68	16,865	38 7	53,595

	Revenue from all sources.	Rate per head of population.		
	Rs.	Rs.	A.	P.
Dacca	2,72,839	0	1	9
Faridpur	77,891	0	0	8
Backergunge	1,22,904	0	0	10
Mymensingh	3,44,052	0	1	7

The Commissioner remarks that the total revenue derived from this source has increased, while consumption has diminished. The consumption of country spirits is largest in Dacca, and of gánja and opium in Mymensingh. Though still the largest, the consumption of gánja in Mymensingh has diminished owing, it is said, to losses caused by the failure of the jute crop.

18. The educational statistics show a total gain of 1,524 schools and 29,846 pupils, the ground lost in 1890-91 having been more than recovered as regards the number of schools, though the number of pupils is still less than it was in 1889-90. The improvement extends to all the districts of the division, and to all classes of institutions except the high English and middle vernacular schools. The figures show a considerable advance of primary education, the ratio of the total number

Education.

of pupils to the boys of school-going age being highest in Dacca and Backergunge and lowest in Mymensingh. The following table brings together the main facts concerning education:—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost. Provincial.	District Board.	Municipality.	Fees.	Other.	Total.	Cost per head of pupils.	Population.	Number of boys of school-going age.	Percentage of pupils on rolls to boys of school-going age.
1	2	3	4	5	6	7	8	9	10	11	12	13	14

	Miscellaneous	17	993	14,088	1,327	...	19,972	158	35,545	35 12			
	GRAND TOTAL	7,876	208,309	67,384	1,14,306	6,887	4,47,770	1,66,814	8,63,256	3 12	9,844,127	748,008	31

The number of girls under instruction increased from 14,507 in 1890-91 to 17,961 in 1891-92, and the number of Muhammadan pupils from 112,804 in 1890-91 to 130,530 in 1891-92. The attention of the Mymensingh District Board should be called to the lowness of the position of that district in column 14 as compared with the rest of the districts in the Division.

Dispensaries.

19. The following table gives statistics concerning the dispensaries of the Division:—

District.	Number of dispensaries.	Income from— Government.	District Board.	Municipality.	Subscriptions.	Total.	Daily average patients. In patients.	Out patients.	Ratio per cent. of out-door patients to total population.
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Dacca	10	106	......	10,037	17,210	27,[illegible]53	126	319·5[illegible]	2·3
Faridpur	4	178	280	1,641	3,155	5,254	16·21	76·69	1
Backergunge	4	164	2,079	1,217	2,639	6,089	18·38	120	1·1
Mymensingh	15	435	871	3,372	14,311	18,089	42·60	418·06	1·8
Total ...	33	883	3,230	16,267	37,315	57,695	50·79	233·31	1·6

The ratio of out-door patients to total population is smallest in Faridpur and Backergunge, and is low in all district contrary to the ordinary rule in this Province. The number of pupils at the schools exceeds the number of out-patients at the dispensaries in every district except Mymensingh.

Local Self-Government institutions.

20. Regarding District Boards, the Commissioner says that, as in previous years, they have worked well and satisfactorily. The Commissioner insists on the necessity for the existence of a supply of good drinking water in every village, and the Lieutenant-Governor trusts that all District Boards will recognize that it is an important part of their duty to make provision in some way or other for this crying want. The attendance of members at District and

Local Board meetings was generally fair, with some exceptions in the case of Local Boards. As regards municipalities, the Commissioner writes:—

"As reported last year, the Municipal Commissioners have, on the whole, worked smoothly and satisfactorily; there has been very little or no friction, and the interests of the public have been generally well attended to. Most of the municipalities, however, are poor bodies covering large areas, and have consequently little power to effect real improvements. In Dacca, the largest of all the municipalities in the Division, the drainage and the conservancy arrangements are defective, and the Chairman has been requested to increase the rate of assessment from 8 to 10 per cent., to employ a larger staff of mehters, and to prepare a well-considered scheme for the better drainage of the town. I trust these matters will receive due attention during the current year."

The diminution in the receipts from pounds both under District Boards and Municipalities is considerable, but the Commissioner explains that it is due to the fact that, in the two preceding years, many of the farmers sustained loss by the heavy rainfall and inundation, and did not therefore bid high at the auctions in 1891-92.

Conduct of Zamindars.

21. The Lieutenant-Governor has again noticed with great pleasure the favourable mention by the Commissioner of the names of Nawab Sir Abdul Ghani, K.C.S.I., and the Hon'ble Nawab Ahsanullah Bahadur, C.I.E., so well known throughout Bengal as liberal and enlightened landlords. Raja Rajendra Narayan Ray of Bhawal and Raja Srinath Ray of Bhagyakul in Dacca are well spoken of in the Commissioner's Report, as also Raja Sir Surendro Mohan Tagore and Babu Kali Kisson Tagore in Backergunge, and, among others, Babu Jogendra Kishore in Mymensingh, who has given a liberal donation of Rs. 30,000 towards the cost of the construction of a bridge over the Brahmaputra river at Nasirabad. But while there are many good zamindars, the relations between landlord and tenant in several districts of the Division afford sufficient cause for anxiety, and threaten to retard the development of this populous tract, rich in natural advantages of river and fertile plain, and capable of an immense extension of agricultural and commercial wealth. Backergunge in particular has long been notorious for its agrarian disturbances, which have now reached a new stage in their development. Originally the outcome of quarrels between rival zamindars, they are now due to disputes between the landlords and their raiyats, the latter having formed conspiracies to withhold payment of rent. Mr. Savage, the Collector, is reported to say of his district:—"Every one is too much engaged in watching his own familiar enemy to have time to waste on any public subject," and again he states—

"There is an indication that the general danger arising from combination among tenants against payment of rent may lead to the one good result of compelling the zamindars to unite for self-protection and cease from their hitherto interminable disputes. These combinations (*jots*) of raiyats are a Frankenstein created by the zamindars themselves. In their fights one with another they used, and accustomed the tenants to the use of, the *jot* as a powerful engine against their enemies, and now the tenants are using the engine on their own account to the dismay of the zamindars, of whom few are rich enough to carry through a long warfare in the Civil Courts as at present administered."

In another part of the Commissioner's Report, instances of such combinations on the part of the raiyats are given, and the Collector is again quoted as saying—

"The question as to how these combinations have to be dealt with is becoming a serious one. The case of Ulania has shown that the ordinary Civil Court procedure is insufficient, and numerous other instances could be cited to prove that no combination has ever been broken down by zamindars themselves, except by the use of force or bribes; and it looks as if in the course of a few years either there must be a change in the law, or the greater part of the district will have to be brought under the management of the Court of Wards under section 95 of the Tenancy Act. The present state of affairs has led many zamindars to look anxiously for some help from the law, and many are watching closely the proceedings for survey and settlement in Dakhin Shabazpur estate and in the Ulania taluks."

"In the latter case especially is the result a subject of keen interest, as it will show whether a survey and settlement without management by the Court of Wards will give landlords the power, with the law as it stands at present, to realize rents really due. The position of the great majority of zamindars in this district is such that they would be well content if they could be certain of realizing fair rents; and I have good reason for believing that if the hope held out by the Lieutenant-Governor in a recent speech, that there will be brought into force some summary procedure for realization of rent in estates in which survey and record of rights have been completed under the Tenancy Act, is realized, application for survey and record of rights in a great part of this district will at once be made."

In Dacca the relations between landlord and raiyat are better, but in Faridpur and Mymensingh they are again far from reassuring. Though these districts are now in a state of apparent tranquillity, the entire absence of cordiality between the owners and cultivators of the soil may lead to difficulties in the future. The Commissioner writes of Faridpur:—

"In Faridpur the relations have not been strained during the year under report, though they can hardly be said to be satisfactory when most of the big zamindars are non-resident and leave the management of their estates to ill-paid and unscrupulous amla, whose object is seldom to secure the interest of their employers or of the raiyats. The Collector writes that it is only when a chance of obtaining possession of a new char presents itself that the relations are in any way cordial, and this state of things lasts just as long as the one can be useful to the other."

And again of Mymensingh:—

"In Mymensingh the relations are, with few exceptions, neither good nor cordial, but quiet. The Collector states that 'there has been no general combination of raiyats, nor any serious manifestation of ill-feeling. But from what I have heard and seen I should not be surprised to see such manifestation at any moment. Education is extremely backward, and the raiyats have not yet arrived at the stage of combination. One or two village Hampdens have been warred down at enormous cost, and as a consequence the rest are quiet. But it is not the quiet of contentment; it rather resembles the stillness before a storm. I have during the cold weather seen indications that the Muhammadan cultivators will turn on their oppressors if pushed too far. There have been many forcible and illegal attempts to get enhanced rent, and there have been numerous illegal evictions. The way it is done is generally to lease a part of the old tenant's homestead to a new tenant, who goes and erects a house thereon. Sometimes the means are more daring, and a raiyat's house is visited at night by a band of lathials with a view to intimidate him and compel him to abandon his holding.'"

22. The Lieutenant-Governor has much pleasure in recognizing the activity displayed by Mr. Forbes during the seven months that he held charge of the division, and the good work done by Messrs. Hare, Jenkins, Savage, and Phillips in their respective districts. The remarks of the Commissioner will be forwarded to the Appointment Department as usual, and extracts will be furnished, according to standing orders, to all officers whose work has been the subject of unfavourable comment.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

WORKS OF PUBLIC UTILITY CONSTRUCTED DURING THE YEAR 1891.

No. 5950M.P.I.

GOVERNMENT OF BENGAL,—PUBLIC WORKS DEPARTMENT.

Mis. Pub. Improvements.

Dated Calcutta, the 25th November 1892.

RESOLUTION.

READ—

Statement of works of public utility constructed by private individuals in the several districts of Bengal during the year 1891.

Read again—

Statement of similar works constructed during 1890, and the Resolution thereon.

REMARKS.—The following works of public utility were constructed by private individuals during the year 1891:—

	Number of works.	Amount.
		Rs.

4. The following works are specially noted:—

Public buildings.—Srimati Bindubashini Chaudhurani contributed Rs. 13,000 for a charitable dispensary building at Tangail; Indra Narayan Singh gave Rs. 4,000 for a dharmsala or staging bungalow at Husna, in the Gaya district; and Babu Gopi Nath Duar gave Rs. 3,000 for an alms-house at Shibganj, in the Malda district.

Roads.—The contributions, amounting to Rs. 8,986, under this head show a considerable increase when compared with the figures of last year. Of this sum, Raja Ramchandra Bhouj, of Mohurbhunj, contributed Rs. 2,000 for a road from Deuli to Topegoria, in the Midnapore district; Babu Mohini Mohan Roy, of Bhawanipur, contributed Rs. 2,363 for roads (with masonry culverts) in Sundarban lots Nos. 45, 46 and 47 in the Sadar subdivision, 24-Parganas district; Babu Damodeb Naraen contributed Rs. 2,000 for a road in Kusail, in the Mazaffarpur district; and John Barclay, Esq., contributed Rs. 1,000 for a road in Motipur, also in the Mazaffarpur district.

Bridges.—The total of Rs. 1,250 is made up mostly of small amounts, the largest being Rs. 500 given by Babu Raghunath Prasad for a bridge in Chintamanpur, in the Muzaffarpur district.

Embankments or bunds.—Of the sum of Rs. 5,769 contributed, Rs. 1,500 were given by Babu Kasi Nath Sing Deo, of Harbhanga, in the Singhbhum district, and Rs. 2,000 by E. Solano, Esq., of Gaya; the remainder consisted of small contributions.

Tanks.—The expenditure on these works amounted to Rs. 1,41,060. The following large sums were given:—Babu Pran Krishna Banerjee, Burdwan district, Rs. 2,500; Babu Gonesh Chandra Ganguli, Nadia district, Rs. 2,000; Babu Haris Chandra Chowdhury, Pabna district, Rs. 2,000; Sheik Amiruddin Mandal, Bogra district, Rs. 3,120; Babu Jagannath Sahai, Gaya district, Rs. 2,000; and Babu Soondernarayan Pari, Balasore district, Rs. 2,500.

Wells.—Eighty-two wells were constructed at a cost of Rs. 28,579: Rs. 3,500 were contributed in the Rajshahi district for six wells, Rs. 1,500 in the Bogra district for one well, Rs. 4,300 in the Rangpur district for four wells, Rs. 675 in the Mymensingh district for two wells, Rs. 200 in the Patna district for one well, Rs. 730 in the Gaya district for three wells, Rs. 4,370 in the

Shahabad district for 15 wells, Rs. 1,650 in the Muzaffarpur district for seven wells, Rs. 400 in the Saran district for two wells, Rs. 1,075 in the Champaran district for five wells, Rs. 6,925 in the Monghyr district for twenty-eight wells, Rs. 550 in the Bhagalpur district for two wells, Rs. 600 in the Purnea district for two wells, Rs. 1,500 in the Sonthal Parganas district for one well, Rs. 200 in the Cuttack district for one well, Rs. 204 in the Puri district for one well, Rs. 200 in the Manbhum district for one well.

Ghâts.—Babu Kanti Charan Gossye, of Bally, contributed Rs. 5,000 for a masonry ghât with masonry roof on the bank of the river Hooghly at Bally, and Babu Purnananda Babajee, of Chinsurah, spent Rs. 2,000 for a masonry ghát on the river bank at Bhatpara.

Irrigation channels.—There was but one irrigation channel constructed during the year at a cost of Rs. 401.

Other works.—The sum of Rs. 14,125, contributed under this head, was spent chiefly on repairs and improvements. Mr. C. R. Orr, Manager of the Gouripore Jute Mill, in the Baraset subdivision of the 24-Parganas, gave Rs. 7,000 towards a filtered water-supply in the mill compound, and Shaik Wazir Ali contributed Rs. 5,000 towards the repairs of a bund, over four miles in length, in the Darbhanga district.

RESOLUTION.—The amount contributed for the construction of works of utility during the year 1891 was less than that given in 1890 and much less than the figure of 1889. The Lieutenant-Governor trusts that this downward tendency will not continue. His Honour desires that the thanks of the Government may be conveyed to those who have contributed in the past year for their public spirit and liberality.

Letters of acknowledgment will be forwarded by the Government to those who have constructed works costing above Rs. 500. The rest will receive the usual acknowledgment from the Commissioner or Magistrate of the Division.

ORDER.—Ordered that a copy of this Resolution and of the statement be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions; to the Commissioner of Chota Nagpur; to all Superintending Engineers of Public Works Circles in Bengal; and to the Inspector of Works, Eastern Circle, and Bihár Division, for information.

Ordered also that a copy of this Resolution and of the statement be forwarded to the Revenue and Judicial Departments of this Government for information.

Ordered also that this Resolution and the statement be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary to the Government of Bengal.

Statement of works of public utility constructed by private individuals during the year 1891.

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF 1892-93.

No. 910B, dated Calcutta, the 16th November 1892.

From—T. Inglis, Esq., Secretary to the Board of Revenue, L.P.,

To—The Secretary to the Government of Bengal, Financial Department.

Salt.

D. R. Lyall, Esq., C.S.I.

I am directed by the Board of Revenue to submit the following report on the state of the salt market for the 2nd quarter of 1892-93, comprising the months of July August and September 1892.

2. The quantity of salt of every description cleared during the quarter under report amounted to 26,38,321 maunds, against 25,26,086 maunds in the previous quarter, and 27,39,377 maunds in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 61,91,983, against Rs. 59,46,708 in the previous quarter, and Rs. 63,81,532 in the corresponding quarter of the previous year. In all cases fractions are omitted.

3. The quantity of excise salt removed from the golas in Orissa during the quarter under review, and the quantity which remained in store at the close of the quarter, are shown in table I:—

Table I.

	Cuttack.	Puri.	Balasore.
		Mds. s.	Mds. s.
Balance at close of the last quarter	......	58,995 10	4,100 0
Manufactured or added during the quarter	......	24,162 0	......
Total ...	......	83,157 10	4,100 0
Sales during the quarter	......	25,178 0	2,556 0
Wastage	......	544 0	......
Total ...	......	25,722 0	2,556 0
Balance at close of the quarter	......	57,435 10	1,544 0

4. The total sale of excise salt during the quarter under review amounted to 27,734 maunds, against 17,566 maunds in the previous quarter, and 3,349 maunds in the corresponding quarter of the previous year. The total amount of excise salt on which duty was paid during the quarter, was 32,999 maunds.

5. The subjoined table shows the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter under review

compared with the figures of the corresponding quarters of the previous two years :—

The total fall from 1st January to 26th November 1892	46·67
The average fall of the corresponding period for 24 years, S.-G.'s Office ..	65 15

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

, dew.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
...idity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
... the normal mean, are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station
... i.e. from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 26th of November 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1892. Mean for district.	Normal mean.	Variation.	District.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 26th of November 1892.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 20th.	Monday, 21st.	Tuesday, 22nd.	Wednesday, 23rd.	Thursday, 24th.	Friday, 25th.	Saturday, 26th.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th October 1892.	Average rainfall from 16th October to date.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are [illegible], the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 26TH OF NOVEMBER 1892.

THE changes of meteorological conditions during the past week call for little comment. For the previous two weeks the north-east moonsoon or cold season conditions which have prevailed over the province have been decidedly more pronounced than is usual so early in the season, and for the greater part of the present week similar conditions have obtained, while the changes from day to day have on the whole been rather small.

On the 20th, or the first day of the present week, a slight fall of pressure took place, which was largest in the north and east of the province, and pressure became generally slightly in defect of the normal. A steady northerly and north-westerly air current also prevailed over the whole province. The alterations of temperature since the previous day were small and rather variable, and while the night temperatures recorded were on the whole a little lower than usual, on the other hand the day or maximum temperatures were in slight excess, so that the mean temperature was nearly normal for the day. On the 21st a further rather more decided fall of pressure took place, and it became very distinctly in defect of the normal, while the temperature changes were very variable On the 22nd the fall of pressure had continued, and pressure became below the normal by amounts ranging generally up to about a tenth of an inch, and in the north of the province to 0·13". A steady north-westerly wind continued, however, to blow at almost all stations, and temperature on this day began to fall distinctly, and minimum temperatures were again in considerable defect at many stations. On the 23rd the barometer had commenced to rise slowly, but it was still largely in defect, and the fall of temperature continued at the great majority of stations, while the minimum temperatures at such stations as Saugor Island, Calcutta, Cuttack, False Point, &c., were from 5° to 6° below the normal of the day. Winds were also a little more variable than they had been, and in many cases they were very light. On the 24th the increase of pressure which had commenced on the previous day continued more rapidly, the increase at some stations exceeding 0 08", and the distribution of pressure became decidedly more normal than it had been. Temperature, on the other hand, rose rather rapidly in most districts, and became above the normal over the western half of the province, though it was still below it over the eastern half. Winds also became more normal and steadier than they were on the previous day. On the 25th the increase of pressure continued by small amounts, though pressure was still in defect by amounts averaging about 0·03". The excess in the mean temperature in the western districts had to a considerable extent disappeared, and the general temperature of the province was in slight defect of the normal. A further slight increase of pressure was registered on the 26th, but still a slight defect existed over the province, and the excess temperature at the western stations had practically entirely disappeared, and temperature was about 2° to 3° in defect of the normal. Steady north-westerly winds also continued to blow over the province at this time. Fine clear weather, moderately low temperature and humidity, and a complete absence of rain have therefore prevailed throughout the whole week.

Pressure.—The mean pressure for the week has been in defect of the normal in all districts. The defect has been generally largest in the north of the province, where it has equalled from 0·05" to 0 06", and smallest in Orissa, where it has been about 0·02 "

Temperature.—The mean temperature of the province for the week has been 0·8° in defect of the normal, but the distribution has been unequal, and while Orissa and South-West Bengal shew defects of about 2°, temperature, on the other hand, has been fairly normal in Bihar and North Bengal. The distribution of temperature in the province for the week and its variation from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with their normal values for the same period. From the figures in the table it will be seen that the principal variations have been in the night or minimum temperatures and in the south-western districts, where in such cases as Cuttack and Calcutta the minimum has been nearly five degrees below the normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 26th November 1892.

	Normal mean maximum temperature for the week ending 26th November.	Actual mean maximum temperature for the week ending 26th November 1892.	Variation of actual mean from the normal. NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 211.

[First Publication.]

INDIA, WEST—BOMBAY COAST.

Lights on North Channel beacon.

THE British Admiralty has given notice (No. 474 of 1892) that on 1st October 1892 a *fixed red* light above a *fixed green* light, 2 feet apart, would be shown from North Channel beacon while the dock gates are open, to assist vessels in navigating the dock channels. These lights are visible in all directions except where obscured by Cross island.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under Secretary, Marine Department.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 212.

[First Publication.]

TASMANIA, WEST COAST—MACQUARIE HARBOUR.

Entrance islet light-house—Sector of red light.

WITH reference to Notice to Mariners No. 115, dated 4th July 1892, issued by this office, the British Admiralty has given further notice (No. 475 of 1892) that on 1st October 1892, a sector of *red* light would be shown from Entrance Islet light-house, Macquarie harbour entrance, through an arc of 35°, or from the bearing of S. 16° E. to S. 51° E.

NOTE.—A wire hawser to facilitate communication has been stretched from Bushy (Cap and Bonnet) islet to the mainland; there is therefore no channel for vessels south-west of it.

(*Variation 8° Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

[First Publication.]

AUSTRALIA, EAST COAST—MORETON BAY.

Alterations in certain leading lights—Howe or North channel.

THE British Admiralty has given notice (No. 476 of 1892) that on 18th September 1892 Tangaluma light would be moved 466 yards N. ½ E. from its previous position, and would then be elevated 277 feet above high water.

Approximate position, lat. 27° 11′ 30″ S., long. 153° 23′ 20″ E.

The southern limit of the sector of *white* light shown from Yellow Patch light-house has been altered to bear E. by S. instead of E. ¾ S., as formerly.

NOTE.—Vessels entering Howe or North channel should proceed as usual until Tangaluma and Cowan Cowan lights are in line bearing S. 17° E., and should keep them so, till the southern limit of the sector of *white* light shown from Yellow Patch light-house is reached, when the course should be altered to the eastward to bring Tangaluma light open eastward of Cowan Cowan light the difference in their heights, and then proceed with them in that position. By following this course, a depth of not less than 21 feet at low water spring-tides will be carried.

EASTERN ARCHIPELAGO—JAVA, NORTH COAST.

Sunken wreck north-west of Berebes point.

THE British Admiralty has given notice (No. 477 of 1892) that the Netherlands barque *Salimoerachman* lies sunk with Berebes point bearing S.-S.-E. ¾ E., distant about 8 miles. The wreck, head about south, has topgallant masts struck and topmasts showing above water at an angle of about 25.° The least depth found on the wreck was 8 fathoms.

Approximate position, lat. 6° 40½′ S., long. 108° 57′ E.

CHINA SEA—STRAIT OF MAKASSAR.

Non-existence of Komba island and certain islets.

THE British Admiralty has given notice (No. 478 of 1892) that the Commander of the Netherlands steam-vessel *Sperwer* reports that Komba (Noesa Komba) island, charted as lying in approximately lat. 5° 15′ S., long. 117° 3½′ E., does not exist.

Information has also been received from the Government of Batavia that the three islets (Triangles) charted as lying in approximately lat. 3° 1′ to 3° 5′ S., long. 117° 50′ E., and the three islets (P.D.) in lat. 2° 41′ S., long. 117° 56′ E., do not exist.

Komba island and the above-mentioned islets have therefore been removed from the Admiralty Charts.

JAPAN, SOUTH COAST—GULF OF TOKYO OR YEDO.

Provisional light-vessel in Uraga channel.

The British Admiralty has given notice (No. 479 of 1892) that a provisional light-vessel has been placed to mark the position of a fort in course of construction in the north entrance to Uraga channel pending the establishment of a light buoy.

The provisional light-vessel, from which is exhibited a *fixed red* light, elevated 25 feet above the sea, and visible in clear weather from a distance of 4 miles, has two masts, is painted black, and carries a red flag as a day mark. The vessel is moored with Kannon saki light-house bearing S. 10° E., distant 1$\frac{8}{10}$ miles.

Approximate position, lat. 35° 17′ 10″ N., long. 139° 43′ 40″ E.

[First Publication.]

AUSTRALIA, EAST COAST—INNER ROUTE.

Amended positions of certain dangers recently surveyed.

NOTICE to Mariners No. 480 of 1892 issued by the British Admiralty is republished.

The undermentioned dangers having been recently surveyed, their amended positions are made known :—

(1) *Particulars of Heath rocks.*

Information has been received that Heath rocks which dry at low water extend about 100 yards north, 200 yards east, and 30 yards south, of the beacon erected on them in approximately lat. 13° 28′ 15″ S., long. 143° 39′ 50″ E.

(2) *Particulars of Khandalla shoal.*

Also, with reference to Notice to Mariners, No. 601 of 1891, (No. 10 of 1892 issued by this office) that Khandalla shoal, with 18 feet on it at low water, is of small extent, and cannot usually be seen, even from the masthead.

Approximate position, lat. 13° 26′ S., long. 143° 40′ 40″ E.

(3) *Ellis island—position of beacon.*

Also, that the square black beacon on Ellis island (No. VII) is situated on the centre of the Sand islet at its north-west end.

Approximate position, lat. 13° 22′ 15″ S., long. 143° 40′ 50″ E.

[First Publication.]

SOUTH PACIFIC OCEAN—TONGA OR FRIENDLY ISLAND.

Falcon island decreasing in height.

The British Admiralty has given notice (No. 481 of 1892) that Falcon island (volcanic), which in 1889 was 153 feet high, is now only 25 feet high.

In all probability this indicates that the island is also much reduced in size as it was rapidly washing away in 1889.

Approximate position, lat. 20° 19′ S., long. 175° 25′ W.

[First Publication.]

JAPAN, SOUTH COAST—OWARI BAY ENTRANCE.

Shoals in Toba entrance.

THE British Admiralty has given notice (No. 485 of 1892) of the existence of the three undermentioned rocky shoals, each about one cable in extent and with 2¾ fathoms water on them, lying near the fairway of Toba anchorage, south-west side of Owari bay entrance:—

1. The north-eastern shoal lies with Cone (355 feet) on Tafushi (Momotori) sima, bearing N.-W. by N., distant 4½ cables.

Approximate position, lat. 34° 30′ 50″ N., long. 136° 53′ 30″ E.

2. The southern shoal lies with Cone bearing N. by W. ½ W., distant 6¼ cables, and S.-S.-W. 2 cables from shoal 1.

3. The western shoal lies with Cone bearing N. ½ W., distant 4½ cables, and W. by S. ½ S. 2 cables from shoal 1.

RED SEA—WESTERN SHORE—MASSAWA HARBOUR ENTRANCE.

Alterations in lights.

THE British Admiralty has given notice (No. 470 of 1892) that in the month of October 1892, the light-vessel on the south side of entrance to Massawa harbour will be replaced by a light buoy, from which will be exhibited a *fixed red* light. The buoy will be moored with Mudur fort flagstaff, bearing approximately S.-S.-W., distant 2¾ cables.

Also that the *fixed white* light of the light-vessel will be exhibited on Ras Mudur.

Further notice concerning the abovementioned alterations will be given in due course.

LAKES ALBERT AND ALEXANDRINA AND THE RIVER MURRAY.

The practice of fixing poles or stakes for fishing purposes prohibited.

THE following Notice to Mariners (No. 9 of 1892), issued by the Secretary to the Marine Board, port Adelaide, is republished :—

It having been reported to the Marine Board that in lakes Albert and Alexandrina, and the river Murray, a dangerous practice by fishermen exists, namely, that of fixing poles or stakes for fishing purposes, to the danger of other vessels navigating the lakes and river, notice is hereby given that no piles, poles, or stakes shall be erected, fixed, or driven within the navigable waters of lakes Albert and Alexandrina, and river Murray, and that all such piles, poles, or stakes at present erected, fixed, or driven shall be removed forthwith.

Attention is called to "The Marine Board and Navigation Act," part 10, section 395, which, among other things, provides that, if any person shall erect, drive, or fix any such pile, pole or stake within the jurisdiction of the Board without permission in writing from the Board, shall, on conviction, be liable to forfeit and pay a penalty not exceeding fifty pounds ; and any such person who neglects or fails to remove any such pile, &c., so placed after notice to remove the same, he shall for every such offence be liable to forfeit and pay a further penalty not exceeding five pounds for every day that he fails or neglects to remove such pile, pole, or stake.

N. B.—The Board will offer no objection to anchors or sinkers, with small buoys attached, being used in place of the abovementioned poles, &c.

The 25th November 1892.—*No.* 10773*G.*—The following is published :—

The undermentioned officer has been granted by Her Majesty's Secretary of State for India permission to return to duty, as advised in list dated the 28th October 1892 :—

Name.	Appointment.	Date on which permitted to return.
Mr. L. St. J. Brodrick ...	Assistant Superintendent of Police, Assam.	Within period of leave.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT—(FORESTS).

NOTIFICATION.—No. 4212 For.

The 5th December, 1892 —Consequent on the return of Mr. H. H. Davis, Deputy Conservator of Forests, 1st grade, from the leave granted to him in the Notification, dated 4th June, 1891, the following reversions are ordered in the Upper Controlling Staff of the Bengal Forest Department, with effect from the 3rd November, 1892 :—

Mr. E. G. Chester, Officiating Deputy Conservator of Forests, 1st grade, to revert to Deputy Conservator of Forests, 2nd grade.

Mr. C. G. D. Fordyce, Officiating Deputy Conservator of Forests, 2nd grade, to revert to Deputy Conservator of Forests, 3rd grade.

Mr. G. A. Richardson, Officiating Deputy Conservator of Forests, 2nd grade, to revert to Deputy Conservator of Forests, 3rd grade.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4218 For.

The 5th December, 1892.—The Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is hereby pleased to declare, under the provisions of section 26 of the Indian Forest Act (VII of 1878), that the area specified below, which, in the Notification, dated the 23rd January, 1879, was declared Reserved Forest under section 34 of that Act, ceased to be Reserved Forest with effect from the 1st April, 1892 :—

Name of the Reserve or portion of Reserve disforested.	District.	Pargana.	Mauza.	Area in acres.
A portion of the Manjha Forests.	Darjeeling ...	Hill territory ...	......	68·7

Boundaries.—A demarcated line separating the location from the Chenga block of the Manjha Reserve Forests of the Kurseong Forest Division.

Brief description.—The land is situated on the top of the Chenga Hill adjoining the land excluded in the Notifications, dated the 6th June, 1885, and the 7th December, 1888.

Reasons for disforestation.—The land will be made over to the Civil Authorities to be leased to the New Terai Tea Association as a location for coolies employed on their gardens.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 4219 For.

The 5th December, 1892.—The Lieutenant-Governor hereby notifies, under section 4 of the Indian Forest Act (VII of 1878), that it is proposed to constitute the land within the boundaries described below reserved forests under the provisions of the said Act :—

District.	Pargana or other sub-division.	Name of Forest.	BOUNDARIES.
Darjeeling ...	......	Addition to the Balasan block of the Balasan Forest Reserve.	*North.*—Fallodhi Tea Estate. *East.*—Marianbari Tea Estate. *South.*—Marianbari Tea Estate. *West.*—Government Forest Reserve.

The Lieutenant-Governor is pleased to appoint the Deputy Commissioner of Darjeeling to be the Forest Settlement Officer, who will, under the provisions of Chapter II of the Indian Forest Act, determine the boundaries to be finally laid down, and enquire into and determine the existence, nature, and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above, or in or over any forest produce to be found therein, in cases where claims to such rights are preferred by any individual or community under section 6 of the said Act, and will also himself ascertain as far as possible and enquire into the existence of any rights mentioned in sections 4 and 5 of the said Act within the said boundaries which are not claimed under section 6, so far as the same may be ascertainable from the records of Government and the evidence of any persons likely to be acquainted with the same, and will otherwise perform the duties of Forest Settlement Officer under that Chapter.

The Lieutenant-Governor is also pleased, under section 16 of the Indian Forest Act, to appoint the Commissioner of the Rajshahi Division to hear appeals from the decisions of the Forest Settlement Officer as above appointed.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—(OPIUM.)

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

Notice.

THE Syndicate of the Calcutta University having published a regulation to the effect that "no private candidate will be admitted to a test examination unless accompanied for the purpose of identification by some person known to the officer conducting the examination," it is hereby notified that the test examination of private candidates, which was to have been held on the 1st and 2nd December 1892, has been postponed, and will be held on the 13th and 14th December 1892. A candidate, who has already paid the fee for the test examination, will now be required to fulfil the condition above laid down, failing which he will not be admitted to the examination.

RADHIKA PRASANNA MUKERJI,
Inspector of Schools, Presidency Circle.

4, DALHOUSIE SQUARE; CALCUTTA, *the 1st December* 1892.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

The second part of Ascham's "Schole-Master" has been omitted from the Honour Course in English for the B. A. Examination of 1894 and 1895.

W. GRIFFITHS, Offg. Registrar.

SENATE HOUSE, the 2nd December 1892.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 9th and 10th January 1893.

Candidates must apply in writing to the Principal not later than the 31st December 1892 for permission to appear at the examination, enclosing a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 15 and 17 years.

The subjects of examination are—

Arithmetic	...	...	... The whole
Algebra	...	...	... To Simple Equations.
Euclid	...	...	... Books I and II.
English Grammar and composition.			

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted, and his examination fee will be returned.

There will be one vacancy on the free list for Christian apprentices in February next, and sixteen on the reduced* fee list.

* Rs. 5 per mensem.

For Natives there will be at least eighteen vacancies, possibly more, on the reduced† fee list. These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but Forms to be filled in for the consideration of the Board can be had on application to the Principal.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the 18th November* 1892.

NOTIFICATION.

BURDWAN DIVISION.

Entrance Examination.

PRIVATE students from the Burdwan Division who intend to go in for the ensuing Entrance Examination are required to appear at the test examination of one of the undermentioned schools. Only those candidates who have not read in any institution from the 1st September 1892 will be recognised as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the las school where they read, or from other respectable and well-known gentlemen. Candida tes who have been transferred since the 1st of September next preceding the examination without the consent of the Inspector to the school in which they are reading will also be regarded as private students. " Private students" includes schoolmasters :—

Name of school.	First day of test examination.
Midnapore Collegiate School	5th December 1892.
Utterpara ditto	7th „ „
Birbhum Government School	5th „ „
Bankura ditto	5th „ „
Howrah Municipal School	5th „ „
Burdwan ditto	7th „ „
Ghatal ditto	7th „ „
Bali Rivers Thompson School	7th „ „

Each candidate will be admitted to the test examination on his handing over to the head-master of the school where he will be examined a receipt showing the previous payment by him of Rs. 2 into any Government treasury. Should the head-master certify that there is, in his opinion, a reasonable probability of his passing the Entrance Examination, the application of the candidate for admission to the examination, signed by him in the presence of the head-master, should be forwarded to this office for countersignature, and it will be returned to the candidate, who will have to send it along with the entrance fee to the Registrar of the University.

Rules for appearing at the F.A. and B.A. Examinations for candidates, from the Burdwan Division who are not students of an affiliated institution.

DEPUTY INSPECTORS of Schools, Sub-Inspectors of Schools, and Schoolmasters of two years' standing or of six months' standing in the case of those who were admitted to a former examination of the same class will be admitted to the abovementioned examinations. The applications of schoolmasters should be accompanied by a certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 15th December 1892. The application of a schoolmaster should be signed by him in the *presence* of the Secretary or a member of the school in which he is employed, and it will be returned to him (the candidate) for transmission along with the examination fee to the Registrar of the University *direct.* Schoolmasters are not required to pay any fee for getting their application for permission to appear at either of the abovementioned examinations countersigned by this office.

Candidates for the B.A. Examination who are schoolmasters must also send in the Registrar's certificate, showing that they have passed the F.A. Examination.

Candidates should read carefully the form of certificate which this office is required to sign, and should be careful also to supply all information and documents required, including the Registrar's receipt in the case of those schoolmasters who were admitted to a former examination of the same class, without which the Inspector will decline to sign the certificate.

BENI MADHAV DE,
Offg. Inspr. of Schools, Western Circle.

TREASURY NOTICES.

DACCA COMMR.'S OFFICE, *the 28th November* 1892.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

It is hereby notified, under the provisions of section 3, Act XI of 1859, that the Board of Revenue have determined that in the district of Jalpaiguri, excluding the permanently-settled estates, all arrears of revenue or rents and all demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue shall be paid up on the following dates:—

15th February. | 31st October.

All revenue or rents and demands as above specified falling due between the 1st November and the 15th February, inclusive, shall be paid on the 15th February, and all revenue or rents and demands falling due at any time between the 16th February and the 31st October, inclusive, will be payable on the 31st October.

This order will take effect from the 1st April 1893.

This notification does not apply to the permanently-settled estates within the district of Jalpaiguri, for which the existing latest days will remain in force.

C. W. BOLTON, *Secretary.*

BOARD OF REVENUE, L.P., *the 3rd December* 1892.

No. 1914B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 4th January 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.
Opium manufactured at the Patna Factory	... ...	1,927
Do. ditto at the Ghazeepore Factory	... ...	1,715
Total	...	3,642

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1892, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1893, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th January 1893, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 19th January 1893.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December 1893 about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

Reserve of 1890-91 ...	7,714	
Supply from 1891-92 ...	12,833	
Supply from 1892-93 ...	33	
		20,580
Total ...		43,704

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazeepore Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2611, dated 24th June 1892, 1,927 chests of Patna and 1,715 chests of Benares opium will be sold monthly from January to December 1893 :—

DATES.	Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazeepore Factory.	Total chests.
On or about Wednesday 4th January 1893 ...	1,927	1,715	3,642
On or about ditto 1st February ,, ...	1,927	1,715	3,642

On or about Friday 1st September ,, ...	1,927	1,715	3,642
On or about Thursday 5th October ,, ...	1,927	1,715	3,642
On or about Wednesday 1st November ,, ...	1,927	1,715	3,642
On or about Friday 1st December ,, ...	1,927	1,715	3,642
Total ...	23,124	20,580	43,704

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

> DEPOSIT.
> When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
> On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
> On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
> And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1891-92, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,
T. INGLIS, *Secretary*.

MY LORD MARQUIS,

Monthly payment of absentee allowances and pensions of Civil, Military, and other officers.

It was recently decided that the practice of making monthly, instead of quarterly, payments of the furlough pay and pensions of Civil and Military officers, and members of the Ecclesiastical, Marine, and Pilot establishments, should be adopted generally at the Home Treasury; and arrangements have now been made to carry out that decision.

2. I enclose a memorandum* by the Accountant-General at this Office, showing the details of the arrangements in question; and I request that you will take the necessary measures for making the change of system generally known.

* Dated 22nd September 1892.

I have the honour to be,
MY LORD MARQUIS,
Your Lordship's most obedient, humble servant,
KIMBERLEY.

Memorandum by the Accountant-General, India Office, dated 22nd September 1892.

I HAVE to request that you will be good enough to inform the authorities in India that the furlough pay and pensions of all Civil and Military officers, and of members of the Ecclesiastical, Marine, and Pilot establishments, will henceforth be issued at the Home Treasury, monthly in arrear.

The quarterly dates to which Military (including that of military officers in civil employ), Medical (including annuities), Ecclesiastical, and Marine pay, pension, etc., will be made up, will, for the future, be 15th February, 15th May, 15th August, and 15th November; whilst the quarterly dates to which civil pay, annuities, and pensions will be made up will be 15th January, 15th April, 15th July, and 15th October, respectively. Payment will in each case be made on or after the day following.

Advances (omitting shillings and pence) of one-third, approximately of the net quarterly amount will be payable on the 16th of the 1st and second month of each quarter, and the balance of the three months, less income-tax and other deductions (if any) on the quarterly dates on which the pay will in future be payable as specified above.

THOS. W. KEITH,
Accountant-General.

STEPHEN JACOB,
Offg. Secy. to the Govt. of India.

The following orders, issued by the Government of India, in the Military Department, are republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

Fort William, the 2nd December 1892.

VOLUNTEER CORPS.

Mymensingh Collectorate, the 7th November 1892.

KAILAS GOVINDA DAS, for Collector.

APPENDIX XXIV.

SEE CHAPTER II, PART 3, RULE 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot. Reasons for exclusion.		Commencement and termination of plots.	Boundary of lot.

Dacca Collectorate, the 18th November 1892.

T. L. JENKINS, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Midnapore will be put up for sale at the Collector's Office of that district on Saturday, the 31st December 1892, corresponding 17th Pous 1299 (B.S.) and 18th Pous 1300 W.S., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for each share, and the other share or shares in the estate are excluded from the sale :—

Monghyr Collectorate, the 21st November 1892.

DHANESH CHUNDER ROY, for Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 8 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.

Parts I A, IB, II, III, IV, V, and VI as also important rules and extracts, 1 anna for 4 sheets or under, with an additional charge of 1 anna for every 4 sheets in excess of 4.

Postage one anna.

For Calcutta.

The same rates as those for the Mofussil, with the exception of the charge for postage.

*Containing the Acts and Bills of the Legislative Councils of India and Bengal.

NOTE.—Rate for advertisements in the *Calcutta Gazette*—

Full page, per issue	Rs.	20
Half " "	"	10

Casual advertisements, 4 annas per line.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1893 is received before the 31st December 1892, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1893.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. J. McINTOSH,

CONTENTS.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1891-92.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 6th December 1892.

RESOLUTION No. 3262L.S.G.

READ—

The reports from the several Commissioners of Divisions on the working of District Boards in Bengal during the year 1891-92.

Read also—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during 1890-91.

The date fixed for the submission to Government of the District Board Reports is the 31st July. All the reports were received on or about the prescribed date, with the exception of that from the Patna Division, which did not reach the Lieutenant-Governor till the 3rd September 1892. Supplementary reports were subsequently received from the Commissioners of Patna and Burdwan. It is understood that some delay was caused by the issue, so late as the 5th of May, of Government orders giving additional instructions for the preparation of the district reports, some of which were then in an advanced stage. The Lieutenant-Governor will therefore only say that he expects next year to receive all reports without exception by the due date.

2. The year under review was the sixth in which the Bengal Local Self-Government Act III of 1885 was in operation. There was no change in the constitution of District or Local Boards. As in previous years, there were 38 District and 106 Local Boards, the area under their jurisdiction being

	Local Boards ...	19	24·3	31	39·7	17	21·7	......	......	2	2·5	4	5·1	5	6·4	7[illegible]
GRAND TOTAL ...	District Boards ...	249	31·5	229	28·9	179	22·6	70	8·8	4	·5	15	1·9	44	5·5	790
	Local Boards ...	155	12·5	596	47·7	299	23·8	52	4·1	4	·3	18	1·5	124	9·9	1,248

Of the entire number of members (790) in District Boards, 31·5 per cent. were Government servants; 28·9 were zamindars and talukdars; 22·6 were pleaders and mukhtears. Of the total number of members (1,248) of Local Boards, 47·7 were zamindars, talukdars, or zamindars' servants, 23·8 were pleaders and mukhtears, and 12·5 Government servants. In the District Boards Government servants furnish the largest proportion owing greatly to the number of official Chairmen. In the Local Boards the landed interest is most largely represented, and the percentage of Government servants is very small. The proportions in each case are virtually the same as in 1890-91.

9. *Powers of Local Boards.*—There has been little change in the powers delegated to Local Boards, but these powers vary a good deal in different districts. They continue in almost every district to administer the grants for village roads and to control pounds; in seventeen districts they are invested with powers over primary education, and in twelve with the control of ferries: in eight districts they undertake the maintenance of unmetalled minor district roads, and in five their connection with education is extended to middle schools. In Bhagalpur all the dispensaries are under their charge, while in Jessore, Backergunge, Purnea and Balasore, this control is only partial. In Pabna, Faridpur, Mymensingh, Monghyr, and Cuttack, the construction and maintenance of tanks and wells is part of the duties of the Local Boards, and in Faridpur, Patna, and Shahabad their powers extend to the control of sanitation and the relief of the sick.

10. With regard to the powers which are or should be given to Local Boards, and the manner in which they exercise them, the following remarks are of interest. In Burdwan, the Commissioner's general conclusion is that "Local Boards, when entrusted with work in which the members take an interest, and where they have an executive in good order, as in educational matters, show creditable results, but they fail when given anything to do requiring organisation and supervision."

Mr. Beames, Commissioner of the Presidency Division, makes the following remarks:—

"The local officers are not generally satisfied with the manner in which the Local Boards have worked. They all think, with the exception of the Magistrate of Khulna, that the Local Boards take very little interest in the duties entrusted to them, that they lack method and business habits, and that they require constant and close supervision. To remedy these defects, the Magistrates of the 24-Parganas, Nadia and Jessore recommend official Chairmen in all cases. The Magistrate of Murshidabad thinks that the Boards are of little practical use, while the Magistrate of Khulna is of opinion that they have no comprehensive knowledge of the entire area placed under their charge. Probably the petty nature of the charge devolving upon Local Boards has a good deal to do with their want of zeal: much is also due to their want of experience. It seems also that Local Boards have been too freely created: it would be better if they were only constituted in those places where there was a real necessity

for their existence. In small districts the whole of the work could be perfectly well done by the District Board, and there is no necessity for having Local Boards at all. It is only introducing an elaborate machinery for doing that which could be better done without it."

In Mymensingh the Chairman would only leave to Local Boards the control of education, water-supply, and village roads.

Mr. Forbes, the Commissioner of the Patna Division, writes:—

"As regards the question of distribution of works between District and Local Boards, I think that the tendency in some places has been to push the principle of decentralization much too far. The functions of Local Boards should properly be regarded as consultative rather than executive. The local members are not as a rule persons of business habits, or possessed of sufficient technical experience in matters of education for example, or of engineering, sanitation, and so on, to be usefully entrusted with administrative duties other than those of the most simple kind. Local Boards can, if they choose, be most useful in bringing to the notice of the District Board different matters requiring attention, and in advising them on many subjects both of general and especially of local importance or interest; but to this, as a general rule, their functions should be limited. The actual carrying out of works and the administration of the funds must remain in the hands of the District Board, who have the advantage of having an efficient engineering staff and a trained accounts establishment at their disposal, besides that of being assisted by selected sub-committees in special charge of the different departments under the Board's control. I think that it is quite sufficient, as a general rule, that Local Boards should be entrusted with the charge of village roads, and, where the services of a properly qualified overseer can be placed at their disposal, with a responsible *official* Chairman to look after him, with that of a few other of the less important unmetalled roads, and with the management of pounds. Even in these minor matters their administration is often uneven, feeble, and wasteful."

Mr. Quinn, Commissioner of the Bhagalpur Division, is not in favour of the administration of primary education by Local Boards. In his opinion, the interest of the members is confined to English education, and "elementary education should be under the control of the District Board, the Local Boards being treated as consultative and not administrative bodies in this respect."

Mr Allen, Chairman of the Puri District Board, makes the following remarks:—

"I remarked last year that Local Boards should meet more frequently in order to discuss local requirements and prepare schemes for the consideration of the District Board, instead of leaving the whole initiative with the Chairman of the District Board; but I regret to say my remarks have been unheeded. The Sadar Local Board has done nothing in this direction. After the cyclone in November, which caused great damage to trees and houses, and to the crops adjacent to the estuary of the Devi river, cries of distress arose from all parts of the Sadar sub-division, but it never occurred to the Local Board that it was their duty to do or suggest anything in this crisis. As it was in the days before Local Boards had been created, all the information was collected by officials, and the Collector was left to visit the tracts alleged to be affected; and to decide when, where and how relief was to be afforded, unaided by the members of the Local Board individually or collectively."

11. The circumstances of the various districts in the Lower Provinces differ so greatly that the Lieutenant-Governor is not disposed to lay down any definite rule: it will be sufficient to say that only those duties should be entrusted to Local Boards which they can discharge with greater efficiency than the District Board at head-quarters. The maintenance of village roads falls within this category if the Local Board has a competent overseer or sub-overseer; so also does the control of pounds; but it appears from the Report on Public Instruction for the year just past that in the Director's opinion the educational duties of Local Boards have been discharged with varying success. The administration of primary education and the control of ferries and dispensaries are matters of too great importance to be exposed, save in exceptional cases, to the risk of uneven handling, while to entrust Local Boards with the maintenance of district roads seems to invite all the disadvantages of a dual control. Whatever may be said of primary education, the Lieutenant-Governor feels no doubt that Local Boards should have no concern with secondary education. Sir Charles Elliott will be glad if the District Boards will consider carefully the foregoing observations, and revise, if necessary, the powers given to Local Boards.

12. *Financial results.*—The following table compares the income and expenditure of the District Boards in Bengal for 1890-91 and 1891-92:—

INCOME.	1890-91.	1891-92.
	Rs.	Rs.
I.—Land revenue	33,837	33,829
VI.—Provincial rates	33,38,524	35,10,235
XII.—Interest	569	453
XVII.—Police (including pounds) ...	4,43,775	4,72,187
XIX.—Education	33,496	37,803
XX.—Medical	7,035	10,006
XXI.—Scientific and other Minor Departments	1,425	3,123
XXX.—Miscellaneous	1,31,538	1,55,633
XXX.—Irrigation—Minor works and navigation	Nil	410
XXXII.—Civil works (including ferries) ...	3,73,379	4,18,759
Contributions	8,13,129	8,01,509
Debt	6,91,111	7,69,377
Total ...	58,67,818	62,13,324

EXPENDITURE.		
1. Refunds	4,936	93
18. Administration	2,65,885	2,82,895
20. Police pounds	29,618	33,874
22. Education	10,01,855	11,05,375
24. Medical	58,519	76,323
26. Scientific and other Minor Departments	3,665	8,016
29. Superannuation allowances and pensions	23,828	3,459
30. Stationery and printing	46,446	48,527
32. Miscellaneous	46,686	40,890
33. Famine relief	1,21,034	12,675
41. Railways	171	Nil.
43. Minor works and navigation ...	7,763	13,181
45. Civil works	39,37,161	40,43,238
Contributions	6,145	5,130
Debt	5,75,891	6,12,636
Interest on debt	Nil	5,345
Total ...	61,29,603	62,91,657

The year 1891-92 opened with a balance of Rs. 16,71,495, and the total amount available for expenditure was Rs. 78,84,819 against Rs. 78,01,109 in the previous year. The closing balance was Rs. 15,93,162.

INCOME.

13. *Land Revenue.*—The income under this head remained nearly unchanged as compared with that of the previous year. Of the total income Rs. 12,444 represent canal tolls in Chittagong, and Rs. 8,290 the sale proceeds of trees and grass, &c. The fees received for collecting road cess arrears were Rs. 12,551, and other fees, fines, and forfeitures amounted to Rs. 544.

14. *Provincial rates.*—The receipts under this head increased from Rs. 33,38,524 to Rs. 35,10,235, chiefly owing to the better collection of road cess during the year under report: it appears from the Resolution on the Board's Cess Report that the percentage of the current demand collected in 1891-92 was 83·3 as against 81·8 in 1890-91. The increase is noticeable in every division, with the exception of Burdwan, where there was a decrease of Rs. 10,907. The increase was highest in the Patna Division (Rs. 1,01,844), and is attributed to improved collections generally and to the complete revaluation in Muzaffarpur. Dacca comes next with an increase of Rs. 29,506, followed by the Presidency and Bhagalpur Divisions with about Rs. 14,000 each, while Rajshahi and Orissa contribute about Rs. 10,000 each, and Chittagong a little over Rs. 3,000.

15. *Pounds.*—The receipts under this head amounted to Rs. 4,72,187 against Rs. 4,43,775 in the previous year, showing a net increase of Rs. 28,412. The increase was distributed among the divisions named in the margin, Dacca alone showing a decrease amounting to Rs. 3,461. The Commissioner of that Division explains the decrease as being due to the losses of farmers in previous years and to more strict supervision.

	Rs.
Rajshahi ...	9,863
Bhagalpur ...	9,267
Presidency ...	4,942
Burdwan ...	3,588
Orissa ...	2,557
Patna ...	1,457
Chittagong ...	199
	31,873

16. A prominent feature of the year's administration has been the appointment or retention in nine districts of Inspectors of pounds, sometimes for this duty alone, and sometimes for the inspection of ferries also. This measure was adopted simultaneously in districts so widely differing as Tippera and Champaran, Rajshahi and Cuttack, and since the close of the year it is believed to have been extended to Jessore, Dinajpur, Shahabad and Saran.

17. The acquisition of sites for pounds is a question which has come into prominence during the year. So long as pounds were managed by the police, they were situate on ground the property of Government in close proximity to police-stations and outposts, but now that this tie has been severed, and the farming system considerably developed, the difficulty of obtaining sites is often a real one, and the farmer has sometimes, after taking the lease of the pound, to pay heavily for a place to establish it. It may be necessary in future for the District Board to acquire sites for pounds, and perhaps to erect and maintain the buildings themselves.

18. The Government of India having suggested that the system of farming out cattle-pounds was in some respects open to objection, the question of the continuance of this practice was carefully considered in consultation with district and divisional officers, who reported on the matter at great length. The Lieutenant-Governor's conclusion, in reviewing the whole subject, was that the increase in the number of pounds effected in recent years had been very advantageous to the people; that such increase was only possible under the farming system; that the system of direct management could only be properly worked at thánas, sub-divisional head-quarters, &c., under the eye of officials, and could not properly be applied to outlying villages, where constant supervision over the pound-keeper is impracticable; that there is no reason to insist upon direct management being introduced even at head-quarters of thánas, inasmuch as all the charges brought against the farming system are equally applicable to the direct system so long as it is possible for the paid pound-keeper to embezzle the receipts and not to enter them in his books; and that the attempt now to go back to the system of direct management would inflict on the revenues of the District Boards a heavy loss. These views having been laid before the Government of India, they have agreed to leave the matter to the discretion of the Lieutenant-Governor, who is about to issue orders providing for the better inspection of pounds, and for the introduction of revised forms and registers, measures which will, it is hoped, while interfering as little as possible with the farmers, provide effectually against the abuses alleged to be inherent in the farming system.

19. *Education.*—The total income from this source was Rs. 37,803 against Rs. 33,496 in 1890-91. The increase occurred in all the Divisions except those of the Presidency and Orissa. The increase was highest in the Rajshahi Division, being Rs. 1,950, of which the district of Rangpur alone contributed Rs. 1,107, representing donations from Raja Gobinda Lal Rai Bahadur towards the maintenance of the technical school throughout the year, as well as schooling fees realised from the students of the same school. In the Orissa Division the decrease in the district of Cuttack is attributed to the cyclone of November last, which led to the closing for some time of several schools managed by the Board.

20. *Medical.*—The receipts under this head were Rs. 10,006 as compared with Rs. 7,035 in 1891-92, showing an advance of Rs. 2,971 chiefly due to an increase in private contributions (Rs. 2,661) during the year.

21. *Scientific and other Minor Departments.*—The receipts under this head, which increased from Rs. 1,425 to Rs. 3,123, have not been noticed in their reports by any of the Commissioners except the Commissioner of Dacca. In Dacca the sum of Rs. 470 represents the amount realized from the zamindars of the Kartick Baroni Fair on account of conservancy arrangements.

22. *Miscellaneous.*—The receipts were Rs. 1,55,633 against Rs. 1,31,538 in the previous year. The slight falling off in the receipts from "Staging bungalow" and "Serai" fees was, especially in districts where revaluation proceedings were in progress, more than covered by a considerable increase under "Miscellaneous," including fees, fines, and forfeitures. There was also an increase on account of sale proceeds of old stores and materials, and a considerable sum was realised in Cuttack by the sale of trees uprooted by the cyclone of November 1891.

23. *Civil Works.*—The total receipts were Rs. 4,18,759 against Rs. 3,73,379. The receipts from tolls and ferries, which are the main source of income under this head, were Rs. 3,75,664 as compared with Rs. 3,38,558, showing an increase of Rs. 37,106. The increase was shared by all the Divisions: and was highest in the marginally noted districts. In Jalpaiguri the large increase is attributed to the adjustment of outstanding balances of deposits received from the ferry farmers. In Burdwan, Champaran and Howrah the advance is due to better collections of the gross demand, while a better settlement accounts for the increase in Monghyr and Malda. In Patna, Mymensingh and Tippera there was an increase in the number of public ferries. In Cuttack the advance is attributed to a contribution received on account of municipal ferries.

		Rs
Jalpaiguri	...	10,941
Burdwan	...	4,707
Monghyr	...	4,679
Patna	...	4,480
Mymensingh	...	4,376
Darbhanga	...	3,066
Champaran	...	1,650
Howrah	...	1,466
Cuttack	...	1,334
Malda	...	1,220
Tippera	...	1,211
Murshidabad	...	1,188

24. Since the year when the ferries were divided between Government and the District Boards, the revenue credited to Local Funds has risen from Rs. 2,96,076 to Rs. 3,75,664, thus fully justifying the assertion so often made by Government, that the ferry revenue was an improveable one. But the Lieutenant-Governor is not yet satisfied that it has been developed to its furthest extent; he inclines to the belief that in some districts there still remain ferries which it would be to the public advantage for the District Boards to administer, and it is notorious that in many districts the collection of rents from the farmers is a matter of great difficulty and delay. It should everywhere be considered whether the conditions of the lease should not provide for the payment of a quarter's rent in advance, as well as the deposit of an equal amount as security, and also whether leases for a longer period than one year should not be given to farmers of proved solvency. Lastly, defaulters should not be treated with unnecessary leniency, as appears to have been the case in the 24-Parganas.

25. *Contributions.*—The income from this source was Rs. 8,01,509 against Rs. 8,13,129, being a decrease of Rs. 11,620.

26. *Debt.*—The total receipts under this head, which includes deposits made by farmers of pounds and ferries, and contractors, and the recovery of advances, rose from Rs. 6,91,111 to Rs. 7,69,377 in 1891-92.

27. *Loans.*—Only one new loan was granted, and the disbursement of two loans previously sanctioned were completed during the year. The Dinajpur District Board drew the second instalment, Rs. 40,000, of the loan of two lakhs referred to in the Resolution for 1890-91. The Patna District Board also drew the second or last instalment of the loan of Rs. 80,000 for the construction of bridges on the roads between Bakhtiarpur and Bihár, and between Masourhi and Pabhera. A loan of Rs. 50,000 was granted to the District Board of Saran to enable them to meet the heavy and unexpected expenditure which they were obliged to incur in consequence of the damage done to the roads of the district by the floods of August 1890.

EXPENDITURE.

28. *Administration.*—The expenditure under this head amounted to Rs. 2,82,895 against Rs. 2,65,885 in 1890-91, showing an advance of Rs. 17,010, and a ratio of 5·2 per cent. on the ordinary income of the Boards. Excepting the Presidency and Orissa Divisions, all the Divisions show an increase, which was greatest in Patna and Chittagong. In the Patna Division the advance is attributed chiefly to the annual increments granted to District Boards' employés, to an increase in the cost of audit and treasury establishments, to heavier charges for the travelling expenses of members of District Boards, and in Darbhanga to an increase of Rs. 100 per mensem in the pay of the Secretary, and Rs. 300 granted as arrear pay for part of the previous year. The increase in Chittagong is due to a large sum advanced for law charges in a suit brought against the District Board by the contractor for the construction of their office building: the case is still pending. The increase in the other Divisions calls for no remarks, being mainly due to the increased pay of office establishment.

29. *Pension and Provident Fund Rules.*—The establishment of Provident Funds, which was recommended to District Boards by the orders of Government, dated the 12th January 1891, has been very generally carried out

during the year, though the Lieutenant-Governor would have liked to see even greater progress. During 1890-91, three District Boards, viz., those of Patna, Muzaffarpur and Monghyr, adopted the Provident Fund scheme, and secured the approval of Government to their rules. Their example was followed during 1891-92 by the Boards of Burdwan, Howrah, Nadia, Murshidabad, 24-Parganas, Dacca, Faridpur, Backergunge, Gya, Shahabad, Darbhanga, Saran and Purnea. In several other districts the rules have been sanctioned since the close of the year, and in others matters are in train for the adoption of the system. Provident funds have been actually established and are in working order only in Patna, Muzaffarpur, Monghyr, Purnea and Malda. The adoption of Pension Rules has been delayed in a still greater degree, only ten districts having accepted them up to the 31st March 1892. The Lieutenant-Governor hopes that before the close of the current year, Pension and Provident Funds may be established in all districts where it has been decided to introduce them, and that those Boards which at present stand aloof may see their way to following the general lead.

30. *Pounds.*—The charges under this head amounted to Rs. 33,874 as compared with Rs. 29,618 in the previous year. The small increase (Rs. 4,256) is mainly due to the construction of new pound buildings in certain districts and to the appointment of pound inspectors.

31. *Education.*—The total expenditure incurred by the District Boards on education was Rs. 11,05,375 against Rs. 10,01,855 in 1890-91, showing an increase of Rs. 1,03,520. The following table shows, in a comprehensive form, for each District Board in Bengal, its total ordinary income during 1891-92, the actual expenditure, *first*, on primary education only, and *secondly*, on education generally, and the ratio per cent. which each bears to the income of the Board. The ordinary income has been calculated by deducting from the total income as shown in column 73 of Form No. II, all contributions from Government for special purposes, all contributions from other District Boards, and the figures under Debt in column 72 of the Form, the remainder being taken as the regular ordinary income of each District Board for the year :—

DISTRICT.	Ordinary income in 1891-92.	EXPENDITURE ON—		PERCENTAGE ON ORDINARY INCOME OF EXPENDITURE ON—	
		Primary education.	All education.	Primary education.	All education.
1	2	3	4	5	6
	Rs.	Rs.	Rs.

Total ...	53,71,101	5,32,168	11,05,375	9·9	20·5

32. Taking the province as a whole, it appears that one-fifth of the Board's income was expended on education, and that about half of this amount was devoted to primary schools, but the correctness of the latter figure is open to much doubt, as some of the expenditure on these schools has evidently been shown under "Grants-in-aid." It is impossible therefore to say with certainty how much has been expended in each district on primary education. But the figures given in paragraph 17 of the Resolution on the Education Report for 1891-92, show sufficiently how the case stands. While throughout the province 30 per cent. of the boys of a school-going age are being taught at primary schools, this ratio is exceeded in the Presidency, Burdwan, Dacca, Chittagong and Orissa Divisions, while the rest of the Province falls below it, the Patna and Bhagalpur Divisions, with ratios of 13 and 13·5 per cent., being the lowest of all. The Shahabad, Darbhanga, Muzaffarpur, and Purnea districts have actually less than 10 per cent. of these boys at primary schools. The Lieutenant-Governor desires that a sharp remonstrance be sent by Commissioners to these District Boards, pointing out the necessity of doing more for the spread of education among the people.

33. The general average expenditure on education which is 20·5 per cent. on ordinary income would have been very much higher but for the small figures of the districts in the Patna and Bhagalpur Divisions: for, with the exception of the 24-Parganas, Jalpaiguri, Mymensingh, and Chittagong, every district outside the two divisions named exceeded the provincial average, the highest figures being so large as 42·4 in Balasore, 35·8 in Pabna, 35·5 in Howrah, 34·4 in Bankura, and 34·1 in Dacca, while Midnapore, Hooghly, Khulna, Nadia, Jessore and Cuttack all have percentages of 30 or more. On the other hand, the districts of Gaya, Shahabad, Darbhanga, Muzaffarpur, and Jalpaiguri have spent less than 10 per cent. of their ordinary income on education. Sir Charles Elliott trusts that the report for next year will show a more liberal expenditure on this object, and a larger sense of what the District Boards are bound to do for the intellectual improvement of the population.

34. Action was taken for the first time under section 64 of the Bengal Local Self-Government Act III of 1885, providing for the transfer of high English schools under public management to local bodies. By a notification, dated the 13th November 1891, the maintenance and management of the high English school at Monghyr were entrusted to a joint-committee, consisting of ten members, five delegated by the District Board of Monghyr, and five by the Commissioners of the Municipality. The cost of maintenance is to be paid by the Municipal Commissioners and the District Board, respectively, in the proportion of four to five.

35. *Technical or Industrial Schools.*—In Midnapore the Mysadal Raja's technical school was transferred to the management of the District Board during the year. The Board contributed Rs. 50 towards its maintenance, in addition to the monthly grant of Rs. 50 from Government. A passed student of the Sibpur Engineering College is the head-master of the institution, and the number of students on the roll increased from 21 to 49 under the Board's management. Towards the close of the year the Howrah District Board founded two scholarships of Rs. 8 a month each, tenable for two years, at the Sibpur Engineering College. The sum of Rs. 16 only was paid during the year. On the 31st March 1892 the number of students in the technical school at Rangpur was 60 against 71 in the previous year, but the average monthly attendance was 69 against 67 in 1890-91. Nine students passed last year, all of whom obtained employment as sub-overseers, draftsmen, or surveyors under District Boards and zamindars. The total value of the articles made by the students during 1891-92 amounted to about Rs. 1,600, and the net profit derived from the workshops was Rs. 104. The expenditure for the school during the year was Rs. 5,512 against Rs. 2,368 in the preceding year, the increase being principally due to the entertainment of a Superintendent at Rs. 150 a month, as well as to the purchase of some valuable tools for the workshops. The increased expenditure did not, however, burden the District Fund, as the Board received from Government a contribution of Rs. 1,000 for the purchase of tools and plant, and Rs. 80 a month towards the pay of the Superintendent. A technical school was established in Purnea in January last: it is attended by 15 boys, under the instruction of a teacher in carpentry, who received a salary of Rs. 25 a month:

an allowance of Rs. 4 a month was also paid to each of these boys. At Comilla, the Artizan Workshop has been at work since December 1890, teaching carpentry and blacksmith's work. On the 31st March 1892 there were 18 boys on the roll of the school, 7 in the smiths' and the rest in the carpentry class. Twelve scholarships of Rs. 4 each have been awarded to the boys of the workshop. The District Board continued to award two scholarships of Rs. 15 each, tenable at the Sibpur Engineering College, for natives of the district of Tippera. A scholarship of Rs. 10 a month, tenable at the Sibpur Engineering College for five years, was created by the Noakhali District Board in 1890, and was awarded to a native of the district who had passed the F.A. examination.

36. *Female Medical Education.*—This cause has been furthered by the District Boards during 1891-92 in two ways—either by grants to local hospitals and dispensaries towards the training of midwives entertained by them, or by the offer of scholarships. In regard to the first measure, the District Board of Gaya take the foremost place with an expenditure of Rs. 669 during the year in the training of midwives at the Gaya Pilgrim Hospital. The Burdwan Board granted Rs. 12 a month to the local municipality for the same purpose. The Cuttack District Board made a grant of Rs. 100 to the Lady Dufferin Fund for the furtherance of female medical education. Offers of scholarships to female students of obstetrics were made on very liberal terms, but without success, by the District Boards of Burdwan, Bankura, Rajshahi, Dinajpur, Pabna, and Champaran: in other districts greater success has been obtained. The Midnapore Board paid a scholarship of Rs. 10 to Miss Kadambini Mukerjea, a student of the Campbell Medical School, for six months of the year. The District Board of Saran awarded a scholarship of Rs. 10 a month to Mrs. Kadambini Banerji, a female student of the same School, who has guaranteed to serve under the Board for at least as many years as she has received the stipend: it was proposed to confer the scholarship on a Bihári, but no candidate came forward. In Birbhum and Tippera, the District Board, finding after prolonged trial that their invitations met with no response, have abandoned the provision of scholarships of this class.

37. *Medical.*—The total expenditure under this head increased from Rs. 58,519 to Rs. 76,323. The increase is noticeable under all the sub-heads. The following table shows the working of the dispensaries managed by District Boards during 1891-92:—

38. The smallness of these figures is due to the fact that these dispensaries are all at small outlying places. Wherever a considerable population is collected together in a town, there is sure to be a municipality, on which the maintenance of the dispensary mainly devolves. Of forty-one dispensaries, only fourteen receive indoor patients, and it is in that direction that expansion should be looked for. It is to be regretted that the District Boards of Hooghly and Murshidabad still fail to realize their obligation to contribute towards the cost of hospitals and dispensaries. It is true that in the latter district there are one or more dispensaries supported by the Kasimbazar Estate under the Court of Wards, but the liberality of individuals in particular localities cannot discharge the Board from their liability to provide medical assistance to other parts of the district. The District Boards of Rajshahi and Muzaffarpur also again did less than their duty in this respect, but the Lieutenant-Governor is glad to observe that they have now set apart funds for the maintenance of dispensaries and hospitals.

39. The figures in the above statement, however, do not show all that has been disbursed by the District Boards under the head "Medical." Besides maintaining dispensaries entirely at their own expense, they have contributed to dispensaries already established, and have made special grants for other purposes to so great an extent that, while the total sum expended by District Boards in the province on their own dispensaries has been only Rs. 26,782, they have disbursed under the general head of "Medical" as much as Rs. 76,323. Some of the objects on which their funds have been expended have already been mentioned under the head of Female medical education. Grants towards the support of midwives have been made by the District Boards of Pabna and Noakhali. To the Dufferin Fund a liberal contribution for a lady doctor was made by the District Board of Gaya (Rs. 1,200), together with a sum of Rs. 2,200 for a site for her residence, and the Chittagong District Board paid Rs. 130 a month for the same purpose. For aid in epidemics of cholera grants were voted in Rangpur, Backergunge, Pabna, Shahabad, and Saran. There was some expenditure on sanitation in Bankura and Saran. The Mymensingh District Board imitated the example of Tippera by advertising that wherever the people of any locality would provide Rs. 20 or Rs. 25 a month, the District Board would grant an equal amount for the establishment of an outdoor dispensary. The example is one which might well be followed elsewhere. Large grants have been made in aid of municipal and sub-divisional dispensaries by about half the districts in which the Local Self-Government Act is in force.

40. *Sanitation.*—Statement IV appended to this Resolution gives details of the works undertaken by District Boards for the improvement of sanitation during the year. The District Boards in the Patna Division expended the largest amount (Rs. 11,361-12-3), and those of the Chittagong Division the lowest (Rs. 916). The efforts of the District Boards in the matter of sanitation were directed chiefly to the construction and repairs of wells, and to the excavation of tanks, the total amount expended on these objects being Rs. 37,278.

41. Although the figures do not show that much progress has been made in the direction of sanitation, yet it is gratifying to notice that the subject has attracted the attention of District Boards, and the Lieutenant-Governor anticipates that greater progress will be made in future years, especially in the direction of supplying good drinking water, a matter of the first importance along the main arteries of traffic in each district. The remarks made by the Commissioner of Chittagong in this connection are worth mentioning:—

"Though the foregoing does not recount much progress, I found while on tour that this subject had received a great stimulus, which I attribute to some orders passed by Government regarding the clearing of tanks in Birbhum, and that it was everywhere under consideration, and that the clue or specific guidance from Government or the new Sanitary Board was no longer being waited for. The direction taken nearly everywhere was the improvement of the water-supply and then of the drainage, and a great number of projects in all three districts have been marked out, and on some tentative steps have been taken; while altogether much more has been done than the reports would lead to be supposed. A large number of tanks have been informally reserved. The Noakhali district, which expended more on sanitation in 1890-91 than any other in Bengal, nearly all in improving the water-supply, has had to economize; but its designs are still large and comprehensive, and the present Chairman, Mr. Nanda Krishna Bose, has drawn up and got passed a set of rules for reservoirs so reserved, to be enforced by the rural authorities or village heads, which are practical and simple, and will prove most useful."

42. *Sanitation at fairs.*—In the Burdwan Division, the Birbhum District Board made sanitary arrangements for the fairs at Joydebkendoli, Bakreswar, and Birchandpur. The District Board of the 24-Parganas, in the Presidency Division, expended Rs. 1,705 for the sanitary and conservancy arrangements of the fairs held at Sagar island in the Diamond Harbour sub-division, and at Harwa in the Basirhat sub-division. In Dacca the District Board incurred an expenditure of Rs. 631-3 and Rs. 48-9-10 for sanitary and conservancy improvements at the Kartik Baroni and Nangabund fairs respectively. The District Board of Saran, in the Patna Division, spent Rs. 4,060 on sanitary arrangements at the different fairs held in that district, the greater part of which was expended at Sonepore.

43. *Stationery and Printing.*—The expenditure under this head amounted to Rs. 48,527 against Rs. 46,446 in the previous year. The increase, which occurred in all the Divisions, with the exception of those of the Presidency and Patna, is attributed in some districts to the payment of bills during the year for supplies received in the previous year, and to the large purchase of prescribed forms in others. The Commissioner of Burdwan observes that most of the District Boards have a tendency to incur unnecessary expenditure under this head, and that he was obliged to curtail the provisions made in some of their budgets.

44. *Miscellaneous.*—The expenditure under this head decreased from Rs. 46,686 to Rs. 40,890. There was an increase of Rs. 400 under sub-head "Donations for charitable purposes," due to the contribution made by the Champaran District Board towards the cost of dispensaries and medical relief. This expenditure should have been shown under Medical. The expenditure under head "Miscellaneous refunds" declined from Rs. 14,980 to Rs. 4,261.

45. *Famine Relief.*—The only Divisions in which expenditure was incurred under this head were those of Rajshahi, Patna, and Bhagalpur. In the Rajshahi Division no regular relief operations were needed in any district except Dinajpur, where a sum of Rs. 10,000 was set apart for affording relief to landless labourers, who in ordinary years live by labour under jotdars on petty cultivation. Out of this amount Rs. 6,471 was spent during the year: the main portion of it was spent in improving roads on the piece-work system, and has been dealt with under the head "Civil works." Only Rs. 1,250 is shown under "Famine Relief," of which Rs. 11 was spent in Rangpur on test operations. In the Patna Division Rs. 2,529 were spent on famine relief in the districts of Muzaffarpur, Darbhanga, and Champaran. Of this amount Rs. 283 were spent in Muzaffarpur, Rs. 2,126 in Darbhanga, and Rs. 110 in Champaran. Over and above these sums advances of Rs. 20,000 and Rs. 10,000 were made in Muzaffarpur and Darbhanga at the close of the year, the adjustments of which will be made in the accounts of the current year. In the Bhagalpur Division the total expenditure incurred under this head amounted to Rs. 8,896, viz., Rs. 423 in Monghyr, Rs. 1,188 in Bhagalpur, and Rs. 7,285 in Purnea. In the Dacca Division no relief operations were called for in any district, but in Faridpur a sum of Rs. 150 was advanced in loans. This amount, together with the sum of Rs. 787 out of Rs. 1,400 advanced in 1890-91, was recovered during the year. In the Orissa Division a sum of Rs. 300 was advanced in the month of March to provide employment for the people of Astrang in the Puri district who suffered from the effects of the cyclone. Half of this amount was recovered from the zamindars of the distressed locality and from the owners of the tank on which the labourers were employed.

46. In the revised edition of the Bengal Famine Code, which was issued at the end of the year, the duties of District Boards in times of scarcity and famine were defined, and it is hoped that in future no doubt will be felt as to the nature and extent of their obligations in this respect.

47. *Civil Works.*—The following table shows the Public Works expenditure under the several heads as compared with that of 1890-91 :—

Year.	In charge of Civil Officers (ferry establishment, &c.)	Original works.	Repairs.	Establishment.	Tools and plant.	Water-supply and water-works.	Drainage works.	Total.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1890-91 ...	53,105	11,82,488	20,16,589	5,65,446	29,759	88,232	51,481	39,37,161
1891-92 ...	38,458	12,85,540	20,85,897	5,64,163	26,171	84,147	8,556	40,43,238

There was an increase in the total expenditure exceeding a lakh of rupees: it is shewn under the heads of "Original works" and "Repairs." The decrease under the head "Drainage" was due to the large payments made in the districts of Dinajpur (Rs. 1,042) and Rangpur (Rs. 49,898) for drainage works executed in the previous year. A large outlay on account of original works was incurred by the Dinajpur District Board in the year under review—43 permanent bridges and culverts, aggregating 524 feet, having been constructed at a cost of Rs. 40,000. In Chittagong several iron and timber bridges have been constructed or reconstructed, and three wooden jetties were erected on the bank of the Bagkhali river at the ferry ghats. The expenditure under the head "Original Works" decreased in every district in the Bhagalpur Division, owing to the several District Boards reserving large sums for famine works.

48. A most expensive work, taken up by the Burdwan District Board towards the close of the year, was the construction, at an estimated cost of Rs. 67,995, of the Victoria Bridge over the river Khenry at Karjona on the Burdwan to Katwa road. Messrs. Burn & Company have taken the contract for the work.

49. *District Roads.*—The table in Appendix A gives all necessary particulars as to the length and cost of the different kinds of roads maintained by the District Boards in Bengal in 1891-92. It will be seen that during the year 22,308 miles of roads of all kinds were maintained by them at a cost of Rs. 26,97,002. Of the total length 3,362 miles were embanked, bridged and metalled roads, 12,023 miles were embanked and bridged, but not metalled, and 6,923 miles not embanked or bridged. Of the total cost, Rs. 10,81,607 were expended in original works, and Rs. 16,15,395 in repairs. The expenditure on account of embanked, bridged and metalled roads was highest (Rs. 4,13,095) in the Patna Division, Burdwan coming next with Rs. 3,45,311, and Chittagong showing the lowest expenditure Rs. 12,148. The outlay on roads that are embanked and bridged, but not metalled, was highest in the Rajshahi Division (Rs. 3,06,818), and lowest in Orissa (Rs. 40,011). The outlay on roads that are not embanked or bridged was highest in the Patna Division (Rs. 55,277) and lowest in the Orissa Division (Rs. 8,097).

50. The following table shows the average cost of maintaining one mile of each class of road in the different districts:—

Districts.	Average cost per mile of embanked, bridged and metalled roads.	Average cost per mile of roads embanked and bridged but not metalled.	Average cost per mile of road not embanked or bridged.	Districts.	Average cost per mile of embanked, bridged and metalled roads.	Average cost per mile of roads embanked and bridged but not metalled.	Average cost per mile of roads not embanked or bridged.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.

There was an increase in the expenditure in the Burdwan, Presidency, Rajshahi, Dacca, and Orissa Divisions, and a decrease in Patna, Bhagalpur, and Chittagong. The increase was highest in the Presidency Division (Rs. 9,307), and the expenditure incurred in the various districts differed to an astonishing degree. While Jessore spent Rs. 20,798, Nadia expended only Rs. 162. It appears that Rs. 2,500 were provided in the Budget for village roads in the latter district, but that the allotment had to be withdrawn to meet a deficit of the preceding year: under any circumstances an allotment of Rs. 2,500 seems insufficient for so large a district, and the Lieutenant-Governor trusts that the District Board will take steps to see that this important branch of their duties is more carefully looked after in future. The Lieutenant-Governor again notices with satisfaction that in the Burdwan and Dacca Divisions grants for village roads were in some instances supplemented by private subscriptions, and hat in the latter Division free gifts were also made of lands required for the construction of these roads. In the Patna Division the expenditure on village roads was reduced from Rs. 69,876 to Rs. 61,472. The expenditure was highest in Saran (Rs. 25,624), where the roads are numerous and important, and lowest in Darbhanga, where it was said to have been only Rs. 432. There is, however, some confusion in the Darbhanga figures, which should be investigated without delay. The rate of expenditure per mile in the Division varies from Rs. 21 in Gaya to Rs. 5-14 in Shahabad.

52. *Water communications.*—The Telkupi khal in Pabna was kept in navigable condition during the year by the removal of silt at a cost of Rs 1,033. A sum of Rs. 289 was expended by the Mymensingh District Board in improving and deepening the Khatiakhali and Bhabadebkhali in the Netrokona sub-division. The side excavation of the road to Fenny from Sudharam in the district of Noakhali has been widened and is now navigable by small boats during the rains. The re-excavation of the Gokarna, Jagidara, and Kaitalla khals was taken up and completed by the Tippera District Board. The first of these is an old Mogul work, and shortens by 28 miles the approach to Brahmanbaria by water. The Malda District Board expended the sum of Rs. 173 in removing snags from navigable channels. A sum of Rs. 499 was expended by the Murshidabad District Board in clearing and repairing two drainage cuts, aggregating 8½ miles in length. The Dinajpur District Board kept in good order the Dinajpur-Gouripur channel, at a cost of Rs. 511, and drainage obstructions at four different places were removed at a cost of Rs. 383.

53. *Steam river service.*—The daily steamer service between Rampur Boalia and Damukdia, and between Pabna and Kushtea continued to be maintained by the District Boards of Rajshahi and Pabna through subsidies of Rs. 200 and Rs. 300 respectively. The District Board of Dacca continued to manage the steam ferry service between Narainganj and Munshiganj till the 1st November 1891, when it was leased out to a farmer. In Backergunge the steam ferry services (*a*) between Barisál and Khulna, (*b*) Barisál and Patuakhali, and (*c*) Barisál and Noakhali, *viá* Dakhin Shabazpur, continued throughout the year. Towards the end of the year a new steamer service was opened between Barisál and Chandpur, in the district of Tippera, with a branch

to Madaripur in Faridpur: this new line of steam communication connects Barisal with the districts of Dacca, Tippera, and Faridpur. The usual monthly subsidy of Rs. 500 and Rs. 100 for the Barisal and Khulna, and Barisál and Patuakhali lines, respectively, was paid. The total amount paid during the year for these two lines was Rs. 6,900-2-6. For the Barisál to Chandpur line, a subsidy of Rs. 1,000 has been promised, and will be paid in March next. In Noakhali the Board continued to pay a subsidy of Rs. 200 a month to the Flotilla Company for the steamer service from Barisál to Taktakhali. In Tippera a steamer belonging to the India General Steam Navigation Company plied daily between Chandpur and Hajiganj on the Dakaita, the District Board granting a monthly subsidy of Rs. 250 to this line. A steamer service opened experimentally between Narainganj and Daudkhandi was discontinued after a month's trial. The Malda District Board subsidised the steamer service between English Bazar and Rampur Boalia, the total amount paid during the year as subsidy being Rs. 2,020.

54. *Miscellaneous Public Improvements.*—A sum of Rs. 1,000 was expended in Faridpur on improving communications in khas mahals, and in Backergunge Rs. 202 were spent in repairing the jetty at Patuakhali. The expenditure under this head in other districts either has not been explained, or would more properly have fallen under other heads.

55. *Railway feeder roads.*—In the Burdwan Division the construction of the Haripal-Bhandarhati road was completed during the year, with the exception of a length of about one mile. Another project before the Burdwan District Board referred to the construction of a feeder road from the Debipur railway station to the village of Debipur, a distance of three miles. A zamindar of the village, Babu Kali Das Singha, offered to construct the road at his own cost, and the District Board have given him permission to begin the work. The road from Sripur station to Gosinga, in the Dacca Division, was continued up to Kapasia. Two other feeder roads, one from Mirzapur to Kapasia, and the other from Kudda to Simulia, were undertaken, of which the former has been completed. In Mymensingh the earthwork of two feeder roads from Balipara to Nandail and from Mymensingh to Parabari was completed during the year, and the feeder road to Iswarganj was metalled. In the Bhagalpur Division about 21 miles of feeder roads have been surveyed in the district of Purnea, from the Nagar station to Minpur on the main line of the Assam-Bihár State Railway, and from Soodam station on the Kishenganj branch to Minpur.

56. *Tramways.*—In the Burdwan Division permission was given by Government for the construction of a steam tramway between Tarkeswar and Magra. The land acquisition proceedings have commenced, and the construction of the line is said to have been taken in hand. An old scheme for the construction of a tramway from Burdwan to Katwa, a distance of 34 miles, was revived during the year, and the leading men of the district, interested in the scheme, were addressed by the Collector of Burdwan, in order to ascertain what money it would be possible to raise for the purpose. In the Presidency Division the question of constructing a light tramway from Baraset to Bassirhat was under the consideration of the District Board of the 24-Parganas and an establishment for the registration of traffic on the proposed line has been sanctioned since the close of the year. The District Board of Nadia proposed the construction of a steam tramway from Ranaghat to Krishnagar *viâ* Santipur, at an estimated cost of Rs. 14,50,000. The Board have given a guarantee of 4 per cent. on the capital: the scheme has received the Lieutenant-Governor's support, and the matter is now under the consideration of the Government of India. In the Patna Division, the Gaya District Board are collecting statistics of traffic with the object of ascertaining whether a tramway from Tikari to Gaya along the road from Gaya to Daudnagar would be likely to prove remunerative. The construction of a steam tramway on the Baktiarpur-Bihár road, at an estimated cost of Rs. 3,25,000, was under the consideration of the Patna District Board, and a formal application to construct the line has been made to Government since the close of the year.

57. *Public Works Establishment.*—The following table shows for each district the ratio per cent. which the cost of establishment bears to the total outlay on Civil Works during 1891-92 and in the year previous:—

DISTRICT.	1890-91. Total outlay on Civil Works (column 33 of Statement III).	1890-91. Establishment and contingencies appertaining to Public Works (column 30 of Statement III).	1890-91. Percentage of cost of establishment.	1891-92. Total outlay on Civil Works (column 33 of Statement III).	1891-92. Establishment and contingencies appertaining to Public Works (column 30 of Statement III).	1891-92. Percentage of cost of establishment.
	Rs.	Rs.		Rs.	Rs.

Bhagalpur	1,22,786	24,077	19·5	1,25,252	23,398	18·6
Purnea	1,14,993	17,858	15·6	1,19,403	18,135	15·1
Malda	36,427	6,064	16·6	31,283	7,137	22·8
Cuttack	51,404	10,440	20·3	71,012	10,450	14·7
Puri	30,469	6,084	19·9	45,705	6,164	13·4
Balasore	26,393	5,030	19·0	34,571	5,030	14·5
Total ...	30,37,161	5,65,446	14·3	40,43,238	5,64,463	13·9

The maximum limit of 20 per cent. prescribed in the second proviso of section 33 of the Act was exceeded in Saran, Nadia, Malda, Rajshahi, and Darbhanga. The excess has been satisfactorily explained in every case to be due to reduced expenditure, and not to undue increase of establishment. The ratio was highest in Saran (24·1) and lowest in Chittagong (7·1). The average of the province was 13·9 per cent.: this was exceeded in twenty-three districts, and seventeen districts spent less than the average on establishment.

58. *General remarks.*—The following are the observations recorded by the Commissioners in their reports on the working of District and Local Boards:—

Mr. Power, Commissioner of the Burdwan Division, writes:—

"I am glad to be in a position to report that District Boards continue to work harmoniously with their official Chairmen, and seem to be adopting more and more the character of deliberative and consultative assemblies, shaping policy without needlessly interfering in details; as such their utility is great. In Local Boards there is at present no real life, they supply no acutely felt want and satisfy no aspirations. I agree with Mr. Grant in holding that the people in general care nothing for Local Self-Government, and that whatever enthusiasm there may be on the subject is mostly fictitious."

Mr. Beames, Commissioner of the Presidency Division, observes:—

"The District Boards have on the whole worked well and intelligently, in some cases even with marked success. The Local Boards have so restricted a scope for their activity that they have been unable to display much energy. I have so frequently expressed my opinion on Local Self-Government in previous reports from other divisions, that it is hardly necessary for me to say much this year. I will only remark that if Local Self-Government means the administration of the affairs of a locality by the principal residents thereof, elected by the rate-payers and watched by them, then we can hardly be said to have got Local Self-Government at all yet. The principal, and certainly the most active, members of these Boards are, for the most part, pleaders who are not natives of the district, and are no better able to judge of local requirements than the Magistrates and Deputy Magistrates. Until the leading residents of a place come forward to take seats on the Board, the movement can only be said to have substituted one class of government by outsiders for another."

Mr. Nolan, Commissioner of the Rajshahi Division, remarks:—

"In my opinion the District Boards do not work so well as the former Education Committees for the special purposes of that Department, the members not being selected for their knowledge of the subject. In other matters they are on the same footing as the Road Cess Committees, by which they were preceded, acting generally with the District Magistrate, who is their Chairman, and giving him the benefit of their assistance."

Mr. Cooke, the Officiating Commissioner of the Dacca Division, makes the following observations:—

The District Boards collectively are perfectly amenable to the guidance of the official Chairman when that officer is possessed of ordinary tact and discretion. Factious opposition appears to be unknown, and if detected, I should regard it as *primâ facie* evidence of a defect in the system adopted by the president, rather than to wanton obstructiveness as is the case elsewhere. A few members of a District Board take part in the debates, the remainder silently acquiesce in the conclusions arrived at. The only Board whose policy is at all open to adverse criticism is that of Backergunge, which persistently declines to impose the cess at full rates, though the urgent necessity for additional funds for sanitary and other purposes has been clearly pointed out to it. This I do not regard as due to obstructiveness of a wanton description, but to parsimoniousness on the part of the members in their own interests and in that of their class.

A good deal of the fervor which Local Self-Government commanded has now disappeared, and the value of the assistance of an official as Chairman is recognized, and the public is disposed to view the question more from the utilitarian and less from the sentimental point of view than was the case when Local Self-Government was a novelty."

Mr. Oldham, the Commissioner of the Chittagong Division, states:—

"The official Chairmen all testify in an appreciative way to the good work done by their Boards. I, too, think that all the Boards have done very well. Their ways of working are different. The Tippera Board is led in almost all matters by its Chairman, Mr. Greer, who does for it far more than any other Chairman in the Division does for his Board, and one result is shown in its having held fewer meetings than any other, while other results appear in its excellent dispensaries, its artizan school, and its ambitious, perhaps over-ambitious, public works. The Chittagong Board again follows its very efficient District Engineer in the matter of the larger public works, and its Chairman in all general matters; while as regards minor public works and purely localized interests, nearly every member strenuously acts and works for the area which he represents in a very marked way. This is due to the presence of so many English planters on the Board. The Noakhali Board, on the other hand, seems to come nearer to the model of what the institution was intended to be, and under so strong a Chairman as Mr. Macpherson has shown more than once remarkable independence and solidarity. Mr. Macpherson's own remarks on it are worth reproducing: 'The District Board continued to do good work, most of the members taking very considerable interest in the proceedings. It showed itself amenable to the advice of professional men, and satisfactorily fulfilled its duty as a branch of the Government of the country.

Mr. Forbes, Commissioner of the Patna Division, remarks as follows:—

"The District Boards have, on the whole, worked successfully and well during the year. The members have taken interest in the various questions brought before them, although in executive matters and in those involving questions of an administrative nature they have had to depend mainly upon the Chairman and the executive sub-committees. Their value as consultative bodies is, however, unquestionable.

Mr. Quinn, the Commissioner of the Bhagalpur Division, writes:—

"It will be gathered from the remarks of the District Magistrates that, in the more advanced districts, where the administration does not altogether centre in the Chairman of the Board, the control is chiefly in the hands of the permanent Committees. Mr. Wace, late Magistrate of Bhagalpur, does not regard this as a defect peculiar to the working of the system in Bengal, though he would no doubt admit that it would be better if the general body were to take a more active part in the conduct of affairs. The objection, however, in my opinion to the monopoly of authority by the Committees is their tendency to interfere too much with the executive officers of the Board, the result being frequently delay and sometimes friction. The value of local bodies in one important department has been tested during the past year by the scarcity which prevailed to a greater or less degree in three out of the four districts of this division in which there are District Boards. As mentioned in the General Administration Report, the District Boards have all shown a praiseworthy readiness to apply the funds under their control to the relief of the sufferers, but there is no indication that these bodies have from their local knowledge rendered any material assistance to the responsible officials in gauging the actual condition of the people and the extent of the distress, or in determining the kind of works to be undertaken, or the places in which they should be opened. In all these matters in which it was anticipated that the local bodies would be most valuable auxiliaries, the district officers have, as far as I can judge, been in no better position than in the old days when the idea of Local Self-Government lay still undeveloped in the minds of reformers. Information and other aid were no doubt obtained from individual residents, including members of District and Local Boards, but I have not heard of any instance in which the action or advice of the local bodies, as such, contributed in any appreciable degree to the efficient administration of relief. In one respect, however, I think that their influence was useful. Being responsible for the fund out of which the chief cost of relief measures was met, they were disposed to discourage exaggerated statements of the extent of the distress. As an illustration of the inability of Local Boards presided over by non-officials to deal with such matters, I may mention the fact that, when the necessity of undertaking relief operations became evident in the Madhipura sub-division of the Bhagalpur district, the non-official

Chairman at once resigned his office in order that the sub-divisional officer might take his place."

Mr. Toynbee, the Commissioner of the Orissa Division, makes the following remarks:—

"I fear I must again record my opinion that Local Self-Government, properly so called, does not exist in this Division except in name. The absence of friction and the loyal support of the measures proposed by the Chairman and Vice-Chairman are not enough to constitute Self-Government. The small number of meetings, the low percentage of attendance at them, and their frequent adjournments for want of a quorum, the absence of any measure initiated by the mufassal members to supply local wants, the difficulty of getting sub-committees to check work, to audit accounts, and so on, all point to this conclusion. The seeds of Local Self-Government in Orissa have been sown on poor soil, and will take many years to germinate, but there is, perhaps, some hope of their doing so in the absence of party spirit and factions and opposition."

59. The Lieutenant-Governor is pleased to find that the experienced officers whose opinions have been quoted, record what is on the whole a favourable estimate of the working of Local Self-Government in Bengal. That institution has now been in operation over the greater part of the Lower Provinces for some six years, and from the mists and uncertainty of its inception there have emerged certain solid principles, which the Lieutenant-Governor cannot fail to recognize and accept. It has become abundantly clear that the true function of the District Boards is to supply advice and information: the executive duties of the administration, must as before, be left to the Chairman aided by his Vice-Chairman and his small group of experts, the District Engineer, the Civil Surgeon, the Deputy Inspector of Schools: the members of the District Board in a well regulated district are cordially admitted to the counsels of the Chairman on all important matters, and render him the greatest assistance by bringing to bear on the questions before them their special knowledge, their experience of the people, or their peculiar information on particular subjects or in regard to special localities. Any other system, especially one which would distribute executive duties among a number of non-professional men, must involve want of union, waste of power, and unsatisfactory results.

60. In respect of Local Boards it is less easy to define a policy. The Lieutenant-Governor is inclined to think that either too much or too little has been made of them: as at present constituted, they possess exiguous powers and evoke little interest, so that one phase of opinion counsels their abolition: on the other hand, it is urged that an increase of responsibility would be followed by a development of energy. Sir Charles Elliott is not prepared either to abolish Local Boards or to increase their powers so long as they are constituted as they generally are at present: the remedy, in his opinion, lies in the hands of the members themselves, and consists in the election of official Chairmen. Were this more generally done, he feels convinced that the work would be more efficiently carried through, not because the Chairman was in receipt of salary from Government, but because he would bring to bear upon his duties a certain prestige and a familiarity with public business, both of which, in most instances, are lacking in a non-official Chairman, while he would, in the great majority of cases, be of the same nationality as the Chairmen who now for the most part preside. If the work of the Local Boards proceeds upon these lines in future, the Lieutenant-Governor hopes that those bodies will, within a short time, merit the thanks of the public as much as the District Boards have done, and that the whole machinery may work smoothly and without hitch, presenting a spectacle of duties distributed to the best advantage, action falling to the lot of those who are most fitted to undertake it, and advice and assistance being asked of those from whom it would be most valuable.

61. Though this stage of perfection has not everywhere been reached, the Lieutenant-Governor is glad to put on record his cordial appreciation of the services rendered to the administration all over the country by the members of Boards of either class: he has, as in the previous year, conferred with these gentlemen in all the districts which he has visited, and has brought away with him the impression of much hearty co-operation by all classes and of a steady tendency towards progress, which cannot fail to be encouraging to the well-wishers of Self-Government in its broadest sense.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Govt. of Bengal.

APPENDIX A.

Statement showing the length and cost of roads constructed and maintained by District Boards in 1891-92.

SIR,

IN continuation of this Government's Circular No. 6, dated the 26th March 1891, I am directed to forward, for your information, the enclosed copy of a Resolution of the Government of India, in the Military Department, No. 3424B, dated the 20th October 1892, promulgating certain decisions arrived at with reference to the recommendations of the Committee of Volunteer Officers appointed to consider and report on various important questions connected with volunteering in India. I am to invite your special attention to the recommendations of the Committee respecting proposals Nos. 1, 2, 4 and 5 under Head "I—Constitution," and to the orders passed by the Government of India thereon, which the Lieutenant-Governor desires may be carefully observed in future.

2. With reference to proposal No. 4 (the preference to be given to Volunteers or sons of Volunteers, *cæteris paribus*, for first appointments to Government employment), I am to add that the Lieutenant-Governor understands that this applies only to cases where a choice has to be made between one European or Eurasian candidate and another. It cannot apply to cases where the selection lies between Europeans and Natives of India, since the latter are not allowed to establish Native Volunteer corps or Native Volunteer companies in existing corps.

3. As regards proposal No. 5, I am to say that the Lieutenant-Governor has ascertained from the Panjab Government the actual practice in that province, and in accordance therewith is pleased to authorize Heads of Departments and Offices, on the receipt of an annual application from Officers Commanding Volunteer corps, to grant six days' leave in each drill season, between the 15th October and the 15th March, to such of their subordinates as are Volunteers, in order to enable them to attend special practice drills and field days,

provided that such leave can conveniently be given without detriment to the disposal of public business. All Volunteers should also be allowed, when possible, one hour's leave each week during the drill season for attending parade, and, if application is made on their behalf by Commanding Officers, one hour's leave, morning and evening, during any period for which a camp of exercise is held.

Proposal No. 3.—"That the Agents of tea gardens be asked to allow Managers and their Assistants to become Volunteers and attend parades and class firing."

Recommendation of the Committee.—"That all employers of European and Eurasian labour be strongly urged by local Governments to encourage their Managers and Assistants to become Volunteers, and to give leave liberally in order to enable them to attend Volunteer duties."

Order of the Government of India.—"His Excellency in Council trusts that all non-official employers of European and Eurasian labour, such as Managers of tea gardens and other commercial undertakings, will heartily co-operate with Government officials in giving effect to the wishes of the Government of India in the above matters with regard to their employés, and will also support and encourage volunteering, as far as it may be in their power to do so."

4. I am further to invite your special attention to the order passed by the Government of India on the Committee's recommendation in respect to proposal No. 3 under the same Head, and to request that the wishes of His Excellency the Viceroy and Governor General in Council, as expressed in the concluding paragraph of the Resolution of the Government of India, may be communicated to all Managers of Factories, Mills, Tea Gardens, &c., and to all large employers of European and Eurasian labour in mercantile and commercial houses, and places where European and Eurasian labour is employed. Extracts from the official documents are given on the margin for facility of reference.

5. A copy of this letter has been published in the *Calcutta Gazette* for general information.

I have the honour to be,

SIR,

Your most obedient servant,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

A SCHEME FOR THE EXTENDED SALE OF QUININE IN BENGAL.

MUNICIPAL DEPARTMENT—MEDICAL.

Dated Calcutta, the 6th December 1892.

RESOLUTION No. 8263.

READ—

The Proceedings of the Government of Bengal on the subject of extending the sale of quinine in Bengal.

The Reports of the Sanitary Commissioner, Bengal, for 1890-91 and 1891-92.

The mortality from fever in the Lower Provinces of Bengal has been from the earliest times of the British occupation a matter of lamentable notoriety, and since the collection of vital statistics was commenced, rumour has solidified into knowledge, so that it is now possible, with more or less accuracy, to indicate in what places, and at what seasons, the ravages of fever have been most severe. To abate these ravages has long been an object of solicitude to successive Governments, and besides the general measures adopted from time to time for drainage, water-supply, and the improvement of sanitation in its broadest sense, more than one proposal has been made of late years for the general dissemination of quinine.

2. In 1869 the Sanitary Commissioner suggested that it would be a great boon to the sick in Bengal villages if they could obtain really good English medicines at a reasonable price. The opinions of District Officers on the subject were invited, and the sale of quinine and certain other medicines at ten per cent. above prime cost was sanctioned through the agency of medical officers at Sadar and sub divisional stations. Again in December 1871, at the instance of the Commissioner of the Presidency Division, instructions were issued to Civil Surgeons to send for sale, to those sub-divisions in which the District Magistrate might consider a supply of the medicine to be necessary, or likely to be useful, small sealed packets of quinine made up in proper doses with the price clearly marked in vernacular and with directions for use. In August 1878 the sale of quinine was stopped, partly because the privilege of purchasing it at low rates was believed to have been abused by persons who bought with the object of selling at a profit, and partly because the Government was then anxious to promote the sale of cinchona febrifuge. The following table illustrates the working of these orders during the period for which they were in force:—

Year.		Quinine sold.	Value.
		lbs.	Rs.
1870-71	...	67	3,729
1871-72	...	298	16,420
1872-73	...	272	15,454
1873-74	...	290	16,396
1874-75	...	196	11,209
1875-76	...	88	5,620
1876-77	...	89	6,383
1877-78	...	160	10,452
1878-79	...	32	2,156

3. These figures show that the amounts sold varied greatly from year to year, that in the later years of the period the sales tended on the whole to fall off, and that the system clearly did not succeed in establishing an effective demand for quinine among the poorer classes in the interior of Bengal. This comparative failure to attain the objects originally contemplated seems to have been due to the fact that the medicines were offered for sale only at district and sub-divisional head-quarters, and that no special arrangements were made to bring them within easy reach of the rural population.

4. The great reduction that has taken place of late years in the price of quinine generally, and the development of the Government cinchona plantation

near Darjeeling, have now rendered it possible to renew, with greater prospects of success, the attempt to popularise the use of quinine among the poorer classes of the province, and the Lieutenant-Governor has resolved to make that attempt. In order to attain the end in view, certain essential conditions must be complied with. In the first place, the quinine sold must be first-rate and uniform in quality, and must be guaranteed as such by being sold in packets bearing a Government stamp. Secondly, it must be sold in very small quantities procurable for the smallest coin in daily use among the people. Thirdly, it must be sold at a large number of centres and at places which people are likely to frequent in the ordinary course of business. Fourthly, the sellers must be given an interest in pushing the sales and in making it generally known that quinine can be bought in small quantities at certain places.

5. It has therefore been arranged that quinine should be supplied from the Government factory near Darjeeling, and that it should be made up by jail labour into packets containing five grains each, which will be sold at one pice the packet. When the system has been fully developed, it is intended that these packets should be for sale at all public offices in the interior of districts such as police stations and outposts, dispensaries, pounds and post offices, but as a first step, with the permission of the Government of India, it has been determined to commence the experiment with post offices only.

6. Under the arrangements which have now been completed, every postmaster in charge of a branch office or sub-post office will be supplied through the post by Mr. Hanlon, Superintendent of Jail Manufactures, Calcutta, with a parcel containing a certain number of these 5-grain packets, which will include, besides the packets for sale, a further number at the rate of one in sixteen, the price of which he will be allowed to retain as his commission. At present they are made up in parcels of 102 packets, worth at a pice apiece Re. 1-9-6, of which anna 1-6 are to be retained as commission by the vendor, and Re. 1-8 to be repaid to Government. Possibly larger parcels containing more packets may be found more suitable in future, but the system will be the same, and the rate of commission will be one anna in the rupee. The value of these parcels will be treated as a permanent advance, but when further supplies are required, they will have to be paid for by money-order, the cost of which will be borne by the Jail Department. As already stated, the packets will be for sale at one pice each, and the value of them will have to be accounted for by the postmasters.

7. At present only the offices of the Bengal postal circle have been supplied, comprising the districts named in the margin and the State of Kuch Bihar, and the quinine has been issued from two centres, viz., Calcutta and Hazaribagh; but orders have now been issued for the extension of the system to the Bihar and Eastern Bengal Circles, which embrace the remaining districts of the Lower Provinces, and the issues in future will be from Calcutta alone.

1.	Burdwan.	16.	Pabna.
2.	Bankura.	17.	Darjeeling.
3.	Birbhum.	18.	Jalpaiguri.
4.	Midnapore.	19.	Faridpur.
5.	Hooghly.	20.	Backergunge.
6.	Howrah.	21.	Malda.
7	24-Parganas.	22.	Cuttack.
8.	Khulna.	23.	Balasore.
9.	Nadia.	24.	Puri.

11.	Murshidabad.	26.	Lohardaga.
12.	Dinajpur.	27.	Manbhum.
13.	Rajshahi.	28.	Singhbhum.
14.	Rangpur.	29.	Palamau.
15.	Bogra.	30.	Kuch Bihar.

8. Instructions have been issued by the Postmaster-General, Bengal, directing all postmasters to apply in good time to the Superintendent of Jail Manufactures, Calcutta, for the replenishment of their supply. In large towns where head post-offices exist, to which these parcels are not sent, other measures will be adopted, and supplies will be sent to Civil Surgeons for distribution there on the same system through dispensaries or otherwise. Lastly, any private employers of labour, zamindars or indigo or tea planters, who may desire to utilise this method of distributing quinine, are invited to make application to the officer named above.

9. The Lieutenant-Governor, who has the success of this experiment much at heart, reckons on the hearty and energetic support of all mufassal officers in carrying it out. Much can be done, especially by District and Sub-divisional Officers, by District and Local Boards, and by Civil Surgeons. Notices and proclamations should be freely employed, and every means should be adopted

which experience may suggest to make known the intentions of Government, the efficacy of the medicine, and the facilities now provided for obtaining it, and Sir Charles Elliott hopes that during the present tour season officers of all kinds will use their best endeavours to further the scheme which should be specially mentioned in their annual reports. It is inevitable that objections will be raised and that difficulties now not to be foreseen will occur; these should be promptly reported through the usual channel in order that they may be overcome or removed. If the hearty co-operation of all officers and leading non-officials is accorded, His Honour is sanguine that the Government will be able to carry to a successful issue a measure whose far-reaching benefits will be felt in every household in Bengal.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Govt. of Bengal.

FORECASTS OF RICE CROPS OF 1892.

THE following is published for general information.

CALCUTTA; Agri., *The 5th December*, 1892.	C. E. BUCKLAND, *Secretary to the Govt. of Bengal.*

Second Note on the Winter Rice Crop of 1892 *based on District Officers' Reports received from* 1*st to* 15*th November.*

1. *Character of the season.*—The rainfall of the monsoon of 1892, month by month, has been as follows:—

In May, the rainfall was above the average in East and North Bengal, and less than the normal in the rest of these Provinces. In June, rain was deficient except in Orissa, Chota Nagpur and some districts of the Patna Division. In July, the rainfall was abnormally heavy in most districts of the Rajshahi Division, normal or slightly in excess of the normal in the districts of the Chota Nagpur, Bhagalpur and Patna Divisions, and in the 24-Parganas, Dacca and Chittagong, and deficient in the rest of these Provinces. In August, it was singularly deficient throughout the country, except in South Bhagalpur, and the districts of the Patna Division, in Dinajpur, Rangpur and Jalpaiguri, in which the fall was considerably above the normal. The deficiency was still greater in September, when, with the exception of Chittagong, Orissa, Palámau and Singhbhum, all the districts had much less than the normal fall, the greatest deficiency having occurred in North and South Bihár, and in the districts of the Rajshahi Division. The month of October was generally rainless up to the end of the third week, when rainy weather again set in throughout the greater part of these Provinces, and continued during the first three or four days of November. The only districts which did not receive any rain during this period were those of North Bihár. The fall in South Bihár was rather light and scattered. Everywhere else rain was general and plentiful for the season. The absence of rain during the first part of October is reported to have seriously affected the rice crop in Central Bengal, Bihár and Chota Nagpur.

2. *Area cultivated.*—The normal area cultivated with winter rice in these Provinces is shown in the attached returns as 31,963,063 acres. The total area shown to have been cultivated in 1892 is 30,172,678 acres as against 29,506,861 acres in 1891.

These figures must be taken as mere approximations to truth. It is not probable that the area cultivated with winter rice this year was short of the normal area. It was probably in excess of the cultivation of last year on account of the more favourable season; and may have exceeded the cultivation of last year by 665,817 acres or 2 per cent. as shown in the returns. It is impossible to speak with more precision with regard to cultivated areas in these Provinces.

The districts which show a decrease in area sown with winter rice, amounting to 10 per cent. and upwards on the normal, are Burdwan (26 per cent.), Midnapore (25%), Hooghly (39%), Jessore (13%), Jalpaiguri (21%), Mymensingh (10%), Shahabad (25%), Purnea (10%), Cuttack (13%), and Palámau (10%). Patna and Pabna are the only

two districts which show an increase in area amounting to over 10 per cent. on the normal; but the increase in these districts, being for Patna 64 per cent., and for Pabna 45 per cent. on the normal, if correct, are very remarkable.

3. *Character of the Crop.*—With regard to the character of the crop of 1892, it may be pointed out that in only 5 out of the 45 districts, viz., in Birbhum, Dinajpur, Rajshahi, Tippera and Noakhali, is the crop reported to be average or above the average. It is believed, however, that there is a great tendency to understate outturns, and that the orders of Government as to appraisement of crops (which are to the effect that 16 annas are to be taken to mean an average crop, and over 16 annas a bumper crop) are often forgotten. The character of the crop is probably more correctly compared with last year's crop. Thirty-four out of 45 districts report a better crop than that of 1891; five* districts report equal crops; and only five† report worse crops.

* 24-Parganas. Khulna. Chumparan. Balasore. Lohaidaga.

† Bankura. Midnapore. Hooghly. Manbhum. Singhbhum.

The whole crop of 1891 for these Provinces was estimated at 10 annas only. In the preliminary note on the crop of 1892 an estimate of 16 annas was made. As pointed out, however, above, the scanty rainfall of October marred the good prospects in many districts in Central Bengal, Bihár and Chota Nagpur, and the estimate for the whole Province must be somewhat reduced. It may, however, be safely estimated as not less than 14 annas.

In the following districts and sub-divisions the outturn is estimated at 8 annas or less, viz. Bankura (8 annas), Midnapore (8 (?) annas), Nadia (8¼ annas), Sadar and Raniganj sub-divisions of Burdwan (8 annas); Uluberia Sub-division (8 annas); Bongong sub-division (6 annas); Jangipur sub-division (6 annas); Sadar and Bhabhua and Buxar sub-divisions of Shahabad (8 annas), Gobindpur sub-division (8 annas).

4. The price of common rice in the return for the fortnight ending 31st October ranged from 7 seers the rupee in Mymensingh (dearest), and 9 seers in Dacca, to 16 in Champaran, and 18 in Balasore, (cheapest). It is dearer than at this time last year in every district except Dinajpur, Purnea and Malda. The price of other common food-grains is generally higher than last year.

W. C. MACPHERSON,

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

The 15th November 1892.

Second Forecast of Winter Rice Crop, 1892.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Burdwan	Sadar	794,880	635,500	424,800	416,600	256,000	7½	7	The low outturn this year is due to deficiency of rainfall throughout the season. The recent rainfall about the end of October has improved the prospects of the crop to a certain extent and caused the slight difference between this report and the preliminary forecast.	
	Kalna	276,480	224,000	128,000	128,000	128,000	10	11		
	Katwa	225,280	160,600	140,800	136,000	123,500	10	12		
	Raniganj	429,440	254,700	225,200	225,200	168,900	6	8		
	District Total *...	1,726,080	1,283,800	918,300	905,800	676,400	8⅗	9½		
Bankura...	Sadar	1,229,440	428,800	364,800	364,800	363,500	12	9	Scanty rainfall throughout the season has affected the outturn. The increase in estimate for the Sadar sub-division is due partially to sufficient rainfall during the latter part of October and partially to better knowledge of the state of the district. The decrease of annas two as compared with the preliminary forecast for the Krishnapur sub-division is due to want of rain during the months of August, September, and greater portion of October.	
	Vishnupur ...	448,000	214,000	185,600	185,600	148,000	10	6		
	District Total ...	1,677,440	642,800	550,400	550,400	511,500	11	8		

Second Forecast of Winter Rice Crop, 1892—continued.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
Birbhum...	Whole district ...	1,121,280	459,000	279,000	279,000	279,000	Annas. 14	Annas. 16	The total rainfall in September was not quite six inches. October had no rain at all up to the 23rd. This unexpected deficiency of rain has interfered with the previously splendid prospects. Up to mid-September the rainy season was agriculturally perfect. An almost complete cessation of rain thereafter, till 22nd October, made me fear that this year would be an exact repetition of last year, and that the outturn would be but 12 to 14 annas. But since 23rd October the Rampur Hât sub-division has had over two inches of rain, and the southern portion of the Sadar has had about two inches; rain has been general everywhere and the weather promises more, and therefore a full 16 annas crop is expected.	
Midnapur...	Sadar	2,081,280	1,229,100	809,900	787,500	539,400	12	8		
	Tamluk	373,120	279,600	264,300	262,400	236,800	15	10		
	Coutai	563,840	456,320	416,000	414,080	328,280	10	8		
	Ghatal	234,240	146,560	131,840	131,840	101,760	12	8		
	District Total ...	3,252,480	2,111,580	1,622,040	1,595,820	1,206,240	12	8		
Hooghly ...	Sadar ...	282,880	176,800	141,440	141,440	53,040	12	10	The estimate is the same as the preceding one. Want of rain affected the outturn last year. This year it has been counteracted a little by irrigation.	The Collector notes that the annas are annas on the crop actually planted, the estimate for Sadar, Serampur, Jahanabad and Uluberia sub-divisions shows only 58 per cent. of the normal area to have been planted this year and on
	Serampur ...	219,520	160,009	100,480	100,480	66,987	12	12	Rainfall was normal except in *thána* Haripal where the greater portion of the land, prepared for winter rice has not been cultivated. But for this the outturn would have been nearly 14 annas. The good crops in the other *thánas* have made up the deficiency in *thána* Haripal.	

	Jahánabad ...	290,320	167,680	83,340	88,960	60,000	8	10	The deficiency of rainfall both at the time of sowing and of ploughing has been the cause of the low outturn.	this 10 annas is expected. This would be only about 6 annas of an average crop on the normal area.
	Uluberia ...	193,920	128,000	108,300	89,600	74,000	16	8	Owing to the want of timely and sufficient rain at the time of ploughing, sowing and transplantation, the cultivation has been retarded and the crop damaged to a great extent. The state of the crop is not favourable.	The Collector makes no reference to the rainfall in the last week of October, which must have improved the prospect of the crops. More rain has fallen in the first week of November since the submission of this report. In the Crop Report for the week ending 5th November 1892, the prospects of the rice crop are reported to have been improved by the late rainfall.
	Howrah ...	100,440	69,760	60,800	46,720	44,260	16	12		
	District Total ...	1,086,080	702,240	495,360	487,200	298,287	13	10¼		
24-Parganas	Sadar ...	690.506	462,704	382,037	262,005	303,777	12	13	Want of rain at the time of transplantation has affected the estimated outturn. The estimated area under rice this year in the Sadar sub-division has now been revised after transplantation had been completed.	Abundant rainfall in the district in the last week of October and the first week of this month is likely to have improved the prospects of the *haimanti* crop.
	Baraset ...	250.880	155.520	117,120	115,200	96,000	11	12		
	Basirhat ...	339,200	280,960	213,120	213,120	213,120	16	13		
	Diamond Harbour	328,320	289,920	285.440	285,440	285.440	12	16		
	Barrackpur ...	26.880	10.880	8,320	7,680	7,360	14	12		
	Dum-Dum ...	35,840	23,040	21,760	19.200	16,000	12	12		
	District Total ...	1,671,626	1.223,024	1,027,797	902,645	921,697	13	13		
Khulna ...	Sadar ...	1,006,336	249,000	194,600	192,000	192,000	14	12	Transplantation was delayed for want of rain in due time, and in some places the plants were damaged by salt water.	
	Satkhira ...	814,643·2	287,000	193,900	192,000	192,000	11	10	The falling off in the outturn, compared with the preliminary forecast, was due to want of timely rainfall.	Ditto ditto.
	Bagerhat ...	965,523·2	334,000	197,100	192,000	192,000	12	14	The recent rainfall has considerably benefited the crop.	
	Area of boundary khals, rivers of the Sundarbans in this district.	317,440	......	......	......	......	......	......		
	District Total ...	3,103,942·4	870,000	585,600	576,000	576,000	12¼	12		

Second Forecast of Winter Rice Crop, 1892—continued.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn.	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							As.	As.		
Nadia ...	Sadar ..	497,920	382,825	65,200	65,200	42,000	9	7	Deficiency of rainfall throughout has affected the estimated outturn. The outturn would have fallen considerably had it not been for good rain throughout the district last week.	
	Kushtia ...	382,080	278,416	28,000	28,000	28,000	4	10		
	Meherpur ...	634,880	462,625	24,400	24,400	20,000	3	8		
	Ranaghat ...	273,280	199,134	12,800	12,800	10,000	6	8		
	District Total ...	1,788,160	1,303,000	130,400	130,400	100,000	6	8½		
Jessore ...	Sadar	568,960	304,000	166,400	166,400	160,000	16	12	Deficient rainfall affected the outturn ...	The rainfall in the Bangaon sub-division appears to have been deficient in June (6·59 inches against the normal fall of 10·37 inches), and particularly in August (6·48 inches against 12·98 inches). The total monsoon rainfall up to 15th October was deficient by over 10 inches. Similar deficiencies occurred in the other sub-divisions, but while these latter could be benefited by flood water, the lands of the Bangaon sub-division are too high to benefit. Hence probably the great differ-
	Jhenidah	304,000	204,800	64,000	64,000	64,000	8	12	Want of flood water affected the outturn.	
	Magura	272,000	171,520	89,600	89,600	89,600	10	18	Good rainfall in October is the cause of the increase over the previous estimate of outturn.	
	Narail	311,680	187,520	128,000	144,000	128,000	12	16	The rainfall was favourable in the Narail sub-division.	
	Bangaon	415,360	248,960	130,000	96,000	60,000	8	6	Deficiency in rainfall affected the outturn.	
	District Total ...	1,872,000	1,116,800	578,000	560,000	501,600	11	13		

										ence in the prospects of the crop in Bangaon and the other sub-divisions.
Murshidabad.	Sadar	586.240	395,136	82,048	82,048	82,048	8	10	Want of sufficient and timely rain affected the estimated outturn. The actual outturn at Jangipur may be even less than six annas owing to late transplantation and deficient rainfall in October.	The recent rains which amount to nearly 2¼ inches at Kandi, but generally much lighter in other parts of the district, may bring about a slight improvement.
	Kandi	405,760	279,795	189.910	169,430	188,000	8	10		
	Jangipur	380 160	310,617	40,320	40,320	40,320	8	6		
	District Total ...	1,372,160	985,548	312,278	291,798	310,368	8	9		
Dinajpur ...	Whole district ...	2,634,880	1,745,000	1,308,300	960,000	1,308,500	6	18	The want of sufficient rains in September and October affected the growth of the plants. Hence the difference in outturn between this and the preliminary forecast.	
Rajshahi ...	Sadar	631,152·4	386,700	199,334	199,334	199,870	6	18	The increase in area and outturn is due to timely rain and flood. The latter has materially benefited the *haimanti* crop.	
	Nator	522,880	402,100	249,333	249,333	249,760	10	18	Considering the good distribution of rainfall during the year, and the prosperous and thriving state of the plants, it is expected that a bumper yield will be obtained. The rainfall of the latter part of October has done much good to the crop.	
	Nowgong	385,920	297,100	224,333	224,333	224,970	10	20		
	District Total ...	1,539,952·4	1,085,900	673,000	673,000	674,600	8¼	18¾	Two annas of the expected outturn at the Sadar sub-division was destroyed for want of rainfall during October, and hence the difference between this report and the preliminary forecast.	
Rangpur ...	Sadar	730,240	486,800	365,100	243,400	365.100	8	16	Floods in July and August affected the young *haimanti* plants on low lands. The early cessation of rains from the latter part of September till the 20th October has affected the outturn to a certain extent. Hence the difference in outturn between this report and the former estimate. The recent rains on and after the 21st October have, however, improved the crop to some extent	
	Kurigram	599,680	468,900	234.500	120,300	234,500	4	10		
	Gaibanda	486,400	371,200	281,600	211,200	281.600	8	15		
	Nilphamari ...	414,720	275,800	92,800	92,800	104,400	8	14		
	District Total ...	2,231,040	1,602,700	974,000	667,700	985,600	7	13¾		
Bogra ...	Whole district ...	929,000	421,000	280,000	187,500	280,000	6	15	The estimate of outturn made in the preliminary forecast stands nearly good. Though there was little want of rain during the latter part of September and middle of October, the average rain in the first week and the last week of October has compensated in part. Rice in parts suffered lately from want of rain, and in some parts the loss is estimated at two annas of the crop.	
Pabna ..	Whole district ...	1,176,960	882.500	408,900	384,000	593,200	8	13	Rainfall and flood water have both been favourable to the crop.	The increase in area is, if correct, very reasonable. It is not explained why the outturn should be below average, considering that both rainfall and flood were favourable to the crop.
Darjeeling	Sadar, including Kalimpong.	464,640	61,400	10,200	10,200	11,500	10	13	There has been seasonable rainfall during the year.	
	Kurseong ..	118,400	13	No winter crop grows in this sub-division.						
	Siliguri ...	161,920	115,200	57,600	56,000	57,000	9	16		
	District Total ...	744,960	176,613	67,800	68,200	68,500	10	15

DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Jalpaiguri	Sadar	1,072,150	557,500	319,500	300,800	316,800	8	13	This year seasonable and sufficient rainfall has been favourable to the cultivation.	It does not appear why the outturn should be below average.
	Alipore	823,731	408,900	250,200	128,000	128,000	8	14		
	District Total ...	1,895,881	966,400	569,700	428,800	444,800	8	13		
Dacca ..	Sadar	810,240	445,100	270,100	270,100	270,100	12	14	Sudden rise of the river has damaged the crop partially.	
	Manickganj ...	312,960	234,200	170,400	175,400	170,400	8	16	The rainfall is sufficient.	
	Munshiganj ...	256,640	128,000	51,200	76,800	64,000	10	14	The outturn is more than that of last year owing to sufficient rain at the time of sowing and normal flood.	
	Narainganj ..	410,240	230,400	70,400	70,400	67,200	12	12	Sudden rise of the river has damaged some portion of the crop.	
	District Total...	1,790,080	997,700	562,100	592,700	571,700	10½	14		
Faridpur	Sadar	550,400	385,300	289,000	230,400	240,000	14	14	In the Sadar sub-division the outturn might have been better, had not the early *aman* or low land rice, which was fit for reaping, been partially damaged by the excessive rainfall in the beginning of this month. At the same time the same rainfall benefitted the late rice on high ground.	
	Madaripur ...	626,560	416,000	320,000	281,600	320,000	12	12	Want of rainfall at the sowing time retarded the progress of cultivation. The increase in the area under cultivation is due to the silting up of certain *bhils* and marshes.	
	Goalundo ...	273,920	205,400	137,000	137,000	137,000	10	16	The recent rain has done much good to the crops in this sub-division, as the lands are not so low as in the other two sub-divisions.	
	District Total ...	1,450,880	1,006,700	746,000	649,000	697,000	12	13½		

Backergunge.	Sadar	711,040	446,700	256,000	256,000	256,000	13	14	(a) The difference of one and a half anna between this and the former estimate is due chiefly to excessive rainfall lately, which has to some extent damaged the crop.
	Patuakhali ...	787,840	320,200	224,000	224,000	224,000	16	16	
	Pirojpur	442,880	320,200	236,800	236,800	236,800	16	16	
	Bhola	393,600	256,110	160,000	160,000	160,000	10	12	
	District Total ...	2,335,360	1,343,200	876,800	876,800	876,800	13¾	(a)14¼	
Mymensingh.	Sadar ...	1,183,360	696,960	282,240	237,160	207,360	12	14	Owing to excessive rain and to the sudden rise of water during the sowing season, some damage was done; otherwise the outturn would have been a bumper one.
	Netrokona ...	908,960	324,500	200,000	185,000	200,000	12	14	
	Kishorganj ...	476,160	224,600	115,200	105,800	112,000	12	14	
	Jamalpur	817,752	627,201	304,000	243,200	263,200	14	16	The recent rain has done much good and a better outturn is expected. Insects are reported to be doing some damage at present owing to cloudy weather during the last five or six days (4th November).
	Tangail	666,248	533,023	205,000	244,400	205,000	14	16	
	District Total ...	4,052,480	2,405,683	1,106,440	1,020,560	987,560	13	15	
Tippera	Sadar	730,880	547,800	383,300	383,300	383,300	14	16	Timely fall of rain during the year has been beneficial to the crop, and a better outturn is expected this year than last year.
	Brahmanbaria ...	492,160	353,960	229,700	240,000	236,000	12	16

Second Forecast of Winter Rice Crop, 1892—continued.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Patna ...	Sadar	394,880	993,500 (Sadar, Barh, Dinapore and Bihár together)	267,500 (Sadar, Barh, Dinapore and Bihár together)	112,000	109,600	4	12½	Failure of October rains has destroyed about 4 annas of the crop. Since submission of the first forecast, the rainfall has been very unfavourable.	No rain has been recorded at Dinapore since the 28th September. The total monsoon rainfall, has, however been pretty abundant at Dinapore.
	Barh	336,640			43,520	73,600	8	10	Deficiency of rainfall at the time of maturing of the crop and the failure of the *Hathia* and *Chitra* rains have caused the low outturn and reduced the previous estimate.	
	Dinapore	91,520			30,720	32,000	6	14	The rainfall was proportionate and favourable throughout the season.	
	Bihár	507,520			160,000	225,280	4	14	The same remark as against the Barh sub-division is applicable to the Bihár sub-division.	
	District Total ...	1,330,560	993,500	267,500	346,240	440,480	5¼	12		
Gaya ...	Sadar	1,176,960	917,900	496,000	310,400	493,000	6	12	Deficiency of rain in the latter part of September, and failure of the *Hathia* rains in October, have reduced the previous estimates of outturn. The rain of the 2nd fortnight of October in Nawada has been beneficial to the crop; but for it the outturn must have been affected.	
	Nawada	652,800	489,600	366,700	350,800	360,800	7	15		
	Jahanabad ...	358,480	321,900	208,000	208,000	218,000	6	14		
	Aurangabad ...	797,440	478,100	215,000	192,000	179,200	4	14		
	District Total ...	3,015,680	2,207,500	1,285,700	1,061,200	1,244,000	5	13		
Shahabad	Arrah	585,600	487,040	373,200	212,500	222,500	10	8	Want of rain affected the outturn of this crop. The difference is attributed to the want of rain in *Hathia* and afterwards.	
	Buxar	419,840	217,881	126,618	80,820	126,618	6	8	Complete cessation of rain has damaged the crop.	
	Sasaram	955,520	382,540	242,539	185,390	240,672	12 annas in the protected area and 3 to 4	11	Early cessation of rain has greatly retarded the transplantation of paddy. There being no rain in *Hathia*, the paddy withered largely.	

							annas in unprotected area.			
	Bhabua	832,640	624,640	312,320	192,000	200,000	5 annas	8	Want of *Hathia* rain affected the outturn of paddy.	
	District Total ...	2,793,600	1,712,101	1,664,677	670,710	790,090	6¼	9		
Darbhanga	Sadar	782,080	594,560	375,040	352,000	375,040	5	12	The deficiency of rainfall in *Hathia nachitra* has affected the outturn and reduced it to 12 annas.	This is too high as compared with the total area under rice of all kinds, which is 857,000 acres according to Agricultural Statistics of 1891.
	Samastipur ...	488,960	391,040	125,760	125,760	125,760	6	8	Owing to failure of rainfall in *Hathia nachitra* the outturn will not be more than 8 annas; hence also the difference between this report and the preliminary forecast.	
	Madhubani ...	863,360	834,454	651,685	352,000	608,415	6	12 to 14	The deficiency of the later rains has affected the outturn. The difference between this report and the preliminary forecast is owing to the failure of the rain in September and October.	
	District Total ...	2,134,400	1,820,054	1,152,485	829,760	1,109,215	5¼	12		
Muzaffarpur.	Sadar	779,520	613,600	323,100	358,400	323,100	6	12	The increase in outturn as compared with last year's crop is due to sufficient rainfall during the present year. The difference between this report and the preliminary forecast is due to the failur of the *Hathia* rains.	
	Hajipur	493,440	338,000	130,600	73,600	175,900	3	12		
	Sitamarhi	648,960	493,800	320,000	320,000	320,000	7	14		
	District Total ...	1,921,920	1,445,400	773,700	752,000	719,000	5	12½		
Saran ...	Sadar	638,720	561,500	144,000	128,000	138,800	6 to 10	13	The rainfall was favourable all along, except for the lightness of the *Hathia* rains in the Sewan sub-division, which has injuriously affected the outturn of the crop in that sub-division. In the Sadar sub-division, slight damage was caused by an insect called the *saptá* and in about 130 square miles the crops have been almost entirely destroyed by floods of the Gogra. It is yet too early to judge what damage will be caused by the drought in the Sewan sub-division.	
	Sewan	545,925	450,000	170,000	135,000	170,000	4	12		
	Gopalganj	493,440	371,000	117,600	115,200	115,200	10	14		
	District Total ...	1,678,085	1,382,500	431,600	378,200	424,000	8	13		

Second Forecast of Winter Rice Crop, 1892—continued.

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officer.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Champaran	Sadar	971,520	654,000	229,000	229,760	229,000	9	10	Absence of rain in *Hathia* has reduced the outturn from 16 annas, as estimated in the previous return, to 10 annas in the Sadar sub-division. In the Bettiah sub-division, deficiency of rainfall since the middle of September 1892 is the cause of the low outturn. Owing to the total failure of the *Hathia* rains, high-lying paddy fields will produce a low outturn in many places. In low lands, the crop was much damaged by excess of rainfall on the 26th to 28th August.	
	Bettiah	1,288,320	768,000	448,000	448,000	448,000	11	10		
	District Total ...	2,259,840	1,422,000	677,000	677,760	677,000	10	10		
Monghyr...	Sadar	997,760	698,200	279,000	279,000	279,000	3	12	The crop suffered much from the deficiency of rainfall at the time of transplantation.	
	Jamui	1,019,520	515,300	354,300	357,400	342,400	3	12	Total absence of rain in the latter part of September and in October has already damaged the crop to the extent of 2 annas, and it is likely that 2 annas more will be damaged, as there has been no rain except a little drizzling up to this time.	Since the submission of the report, plentiful rain (2·2 inches at Beguserai and ·95 inch at Monghyr) has been received in many parts of the district. It may improve the prospects of the rice crop to a slight extent.
	Beguserai	492,160	369,300	14,700	14,700	14,700	2	10		
	District Total ...	2,509,440	1,582,800	658,000	651,100	636,100	2⅓	11⅓	At the time the first forecast was prepared and submitted, the outturn was expected to be 16 annas, but owing to want of seasonable rain during the latter part of September and middle of October, the cultivators expect an average outturn of 10 annas only.	
Bhagulpur	Sadar	599,040	464,000	249,500	224,700	249,500	8	12	This year the rainfall was seasonable, though rather scanty. Early cessation of rains and a very scanty rainfall in October have necessitated a modification of the first estimate.	
	Banka	758,400	588,000	439,700	439,700	527,400	12	16	Rainfall this year has been sufficient and timely.	

	Madhipura	561,760	451,000	203,500	162,500	192,000	5	14	The same remarks as for the Sadar sub-division is applicable to the Madhipura and Supaul sub-divisions.	
	Supaul	766,720	594,000	268,800	241,900	268,800	4	12		
	District Total ...	2,705,920	2,097,000	1,161,500	1,068,800	1,237,700	7½	14		
Purnea ...	Sadar	1,646,060	950,000	290,000	256,000	282,000	6	14	There was sufficient rainfall till the middle of September, but the want of rainfall from the latter part of September up to date has affected the winter rice crops, especially on high lands. The preliminary forecast of the winter rice crop was reported to be 16 annas, as the rainfall had been very favourable up to that period. But the failure of rain in October has caused a probable loss of 2 annas.	
	Kishanganj ...	857,600	640,000	352,000	211,200	265,000	6	16	The rainfall and the weather were very favourable for this crop. A little rain is now needed for the high land paddy.	
	Araria	668,160	410,000	320,000	260,480	320,000	6	15	There was sufficient and timely rainfall up to September. The October fall was rather deficient, and hence the average outturn will not be more than 15 annas.	
	District Total ...	3,171,840	2,000,000	962,000	727,680	867,000	6	15	The difference of 1 anna is owing to the failure of rain during the month of October.	
Malda ...	Whole district ...	1,216,640	811,500	275,218	220,521	254,173	9	14	There was sufficient rain in time this year. The difference of 2 annas is due to floods in some places, which has caused much damage at the latter end of the season.	
Sonthal Parganas.	Dumka	914,560	422,200	181,800	181,800	181,800	10 to 12	14	Drougt when the crop was well advanced affected the outturn; hence the difference between this and the previous estimate.	
	Deoghur	610,560	165,120	69,120	65,920	66,560	8	14		
	Godda	618,880	432,900	288,000	252,100	288,000	8	12		
	Rajmahal	473,600	355,200	243,840	243,840	240,000	8	8		
	Jamtara	445,440	124,800	64,000	64,000	60,000	16	14		
	Pakour	437,120	327,040	262,400	196,480	229,760	10	14		
	District Total ...	3,500,160	1,827,260	[illegible]	1,004,140	1,066,120	12	12¼		
Cuttack ...	Sadar	632,960	494,080	369,92	369,920	244,210	12	12	Want of rain at the time of ploughing and sowing, then excessive rain and high floods when the plants were young, and after this an insufficient rainfall and scorching sun at the time of the second ploughing, and insects, damaged the crop. In the Kendrapara sub-division the damage caused by high floods was repaired by re-planting.	No return for Angul has been received.
	Banki	75,030	37,200	27,200	[illegible]	23,000	10	12		
	Kendrapara ...	911,360	410,240	327,680	318,720	[illegible]	11	11		
	Jajpur	706,560	320,000	288,000	288,000	258,000	12	13		
	District Total ...	2,325,910	1,261,520	1,012,800	999,640	873,900	11	12		

Second Forecast of Winter Rice Crop, 1892—concluded

1	2	3	4	5	6	7	8	9	10	11
DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Approximate normal area under winter rice in acres.	Approximate area under last year's winter rice in acres.	Estimated area under this year's winter rice in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn of last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Agricultural Department, Bengal.
							Annas.	Annas.		
Balasore ...	Sadar	741,120	448,000	409,600	409,600	386,700	13	11	Deficient rainfall has affected the outturn of the winter rice crop more or less throughout the whole of the district, but especially in the Sadar sub-division. The outturn has been reduced by one anna owing to deficiency of rain in September and in the first three weeks of October.	
	Bhadrak	581,284	389,100	300,800	300,800	300,800	11	13		
	District Total ...	1,322,404	837,100	710,400	710,400	687,500	12	12		
Puri ...	Whole district ...	1,612,929	727,600	484,940	481,100	481,100	9	11	There was deficiency of rainfall at the beginning of the agricultural year, which delayed sowing. In some parts of the district, the plants while still young were damaged by heavy floods, rendering sowing and transplanting a second time necessary rather late in the season. Rainfall was also deficient at the time of maturity. The crop in the Khurda sub-division was benefited by the late rain.	
Hazaribagh	Sadar	2,928,000	1,659,300	665,986	719,360	665,986	12¾	14¾	Complete cessation of rain throughout October prejudicially affected the outturn. Hence the difference between this and the preliminary forecast.	(a) This area is larger than the usual rice area given in the return of 1891 (1,074,525 acres). Besides, some 43,000 acres are said to be under *bhadoi* paddy.
	Giridih	1,565,440	819,200	448,640	447,360	448,640	10½	15½		
	District Total ...	4,493,440	2,478,500	(a)1,114,626	1,166,720	1,114,626	12¾	15		
Lohardaga	Whole district ...	4,568,960	2,888,300	1,491,500	1,856,000	1,491,500	12	12	Owing to the insufficient rainfall at sowing time in some parts of the district sowing was delayed; hence an average crop of 14 annas was estimated and shown in the preliminary forecast, but the excessive rainfall in the latter part of October has caused damage to the standing crop. The difference of outturn between this report and the first forecast is	

									due to excessive and abnormal rain during the latter part of October.	
Palámau ...	Whole district ..	3,139,200	768,000	330,000	204,800	288,000	8	11	The want of rain at the present stage of the crop has greatly affected it. The cessation of rains just at the time of development of the crop has decreased the estimated outturn from 16 to 11 annas. There has, however, been good rain in some parts during the last few days; this may slightly raise the outturn.	Since the date of the report (28th October), more and general rain has fallen in the district. The preliminary estimate may yet be realized.
Manbhum	Sadar ...	2,140,160	784,194	354,296	354,296	354,296	12	9		
	Gobindpur ...	51[illegible],920	171,306	114,204	114,204	114,204	10	8	The rainfall in September benefited the crops, but the cessation of rain after caused much damage. The heavy rainfall in the end of October has partially injured the low land paddy. Had there been timely rainfall the outturn would have been 12 annas; but for want of timely rainfall the outturn will be poor.	
	District Total ...	2,654,080	955,504	468,500	468,500	465,500	11	8½		
Singhbhum	Whole district ...	2,454,720	961,483	905,816	488,351	478,186	14	12	The outturn of the winter rice crop has been much affected owing to want of rain during September last.	
	Total for all Bengal	93,018,969·8	56,337.193	31,968,063	29,506,861	50,172,678	10	14

Final Note on the Bhadoi crops, 1892.

1. *Character of the season.*—The yield of the rain crops known as the *bhadoi* crop is, so far as the early rice is concerned, determined by the rainfall of April to September, and especially by the rainfall from the middle of May onwards. In April, showers heavier than the normal, except in Orissa and Chota Nagpur, fell throughout these Provinces. In May, the rainfall was above the average in East and North Bengal, and less than the normal in the rest of these Provinces. In June, rain was deficient except in Orissa, Chota Nagpur and some districts of the Patna Division. In July, the rainfall was abnormally heavy in most districts of the Rajshahi Division, normal or slightly in excess of the normal in the districts of the Chota Nagpur, Bhagalpur, and Patna Divisions, and in the 24-Parganas, Dacca, and Chittagong, and deficient in the rest of these Provinces. In August, it was singularly deficient throughout the country, except in South Bhagalpur and the districts of the Patna Division, and in Dinajpur, Rangpur, and Jalpaiguri, in which the fall was considerably above the normal. The deficiency was still greater in September, when, with the exception of Chittagong, Orissa, Balasore, and Singhbhum, all the districts had much less than the normal fall, the greatest deficiency having occurred in North and South Bihár and in the districts of the Rajshahi Division.

2. *Area cultivated.*—The normal area under *bhadoi* crops is only approximately known. The total of the district returns appended to this note comes to 15,836,442 acres. The total area cultivated last year was probably less than the normal, as the season was unfavourable, while in 1892 the season having been much more favourable, the area cultivated was probably equal to or in excess of the normal, although according to the figures returned by District Officers, it is shown to be somewhat less than the normal. The total area shown under *bhadoi* crops in 1892 is 15,805,498 acres. This estimate, so far as Bengal and Orissa are concerned, relates chiefly to the early rice crop, though other crops, especially jute, are included, and, so far as Bihár and Chota Nagpur are concerned, relates chiefly to the maize and millet crops, though other crops, especially *bhadoi* paddy, are included. Separate estimates of the jute crop were published at the beginning of July and at the end of August.

3. *Outturn.*—The tendency of the cultivators, and in a less degree of reporting officers, is to understate the crops; and it will be seen from the appended statement that in only 16 out of 45 districts from which returns have been received are the crops said to come up to or exceed a full average crop. But 27 out of the 45 districts report a better crop than that of last year, and 7 report equal crops.

The districts which report crops worse than last year are the 5 districts of the Burdwan Division and the 3 districts of Orissa, the 24-Parganas, Chittagong Hill Tracts, and Singhbhum. The crop does not seem to have quite fulfilled its promise in the Eastern Districts on account of excessive rain and flood. But North Bengal, Bihár, Chota Nagpur and the Chittagong district had generally excellent crops. The outturn of the *bhadoi* crops for the whole province in 1891 was estimated in the final report published on 5th December 1891 as 12 annas, or about ¾ths of an average crop. It is probable that the outturn of the present year for the whole province has been 16 annas or a full average crop.

W. C. MACPHERSON,

Offg. Director of Land Records and Agriculture, Bengal.

The 15*th November* 1892.

Final Report on Bhadoi Crops in Bengal, 1892.

* Mean of 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station
district, *i.e.*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 3rd of December 1892.

					DISTRICT OBSERVATIONS.										
					Of week.				Rainfall.						
									Since 1st of month.			Since 16th October 1892.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 6th December* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 3RD OF DECEMBER 1892.

AT the close of the previous week ordinary cold weather conditions obtained over the whole of Bengal, and fine settled weather was reported in all districts except in the hills, where conditions were becoming slightly disturbed. On the 27th, or the first day of the present week, pressure commenced to rise at the western and northern stations, but elsewhere there was a slight fall. Weather continued fine in all districts except in the hills and in the districts near them, where rain had fallen in the plains and snow in the hills, and thus general rain was reported from the districts of Jalpaiguri, Kuch Bihar, and Darjeeling on this day. On the 28th the increase of pressure had extended over the whole province, though pressure was still very slightly in defect of the normal. The disturbed weather had, however, practically disappeared from the hills, and except for slight showers at Kuch Bihar and Jalpaiguri, no rain was reported, and hence fine settled weather had again set in over the whole province. A further slight increase of pressure was reported on the morning of the 29th, and the pressure distribution became practically normal. On the 30th pressure commenced to fall by very small amounts, but there was a rapid rebound on the 1st of December, when pressure rose by about 0·06″ to 0·08,″ and hence became in excess of the normal. This increase continued on the 2nd and 3rd but by smaller amounts, and at the close of the week pressure was in excess of the normal by amounts ranging up to nearly a tenth of an inch in the south of the province. Throughout the whole week also a steady north-westerly and northerly wind has blown over the province, and the cold weather conditions have continued to be rather strongly developed. During the week also the changes of temperature have been generally small, though the tendency has been for the rather large defect which existed at the beginning of the week to become smaller, and while on November 27th the mean temperature was below the normal by amounts ranging up to about 4°, on the 3rd of December, or the last day of the week, the mean temperature was in defect by only about 1° to 3°. In all districts, except the three previously mentioned, there has been no rain during the week and even in these three districts the falls have only averaged about half an inch.

It will thus be seen that fine settled weather has continued to prevail in Bengal practically throughout the week; but, on the other hand, in the centre and south of the Bay conditions have been disturbed. A slight barometric depression accompanied by strong winds and squally weather formed in the south-east of the Bay, and after remaining stationary for some days, slowly drifted in a westerly direction towards the south Madras coast. It was approaching rather near that coast on Friday, the 2nd of December, where it gave a gale of wind and squally weather at some of the stations on the Madras coast; but on this day also it rapidly filled up, and on the 3rd it had almost ceased to exist. Probably, therefore, almost throughout the week squally unsettled weather has obtained in the south-east, south, and perhaps centre of the Bay.

Pressure.—The mean pressure for the week has been in excess of the normal by small amounts, but the usual excess is not larger than about 0·02″. This variation has been fairly equally distributed in all districts of the province.

Temperature.—The mean temperature of the province for the week has again been in distinct defect of the normal, the general defect equalling 1·7°, while in such districts as South-West Bengal, East Bengal, and Chota Nagpur the defect has exceeded 2°.

The distribution of temperature in the province for the week and its variation from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the same period. Again, it will be seen that the largest variations have taken place in the night or minimum temperatures :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 3rd December 1892.

	Normal mean maximum temperature for the week ending 3rd December.	Actual mean maximum temperature for the week ending 3rd December 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 3rd December.	Actual mean minimum temperature for the week ending 3rd December 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 3rd December.	Actual mean daily temperature for the week ending 3rd December 1892.	Variation of actual mean from the normal.

Rainfall.—The district of Kuch Bihar has received an average fall of 0·63 inch, Darjeeling one of 0·42 inch, and Jalpaiguri one of 0·35 inch. With these exceptions the whole province has been rainless during the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 3rd of December 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	65·19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

△, dew; ≡, fag.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;

* Includes 9,479 tons and 9,995 tons of coal during 1892—1891, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock, 10,089 tons and 7,974 tons for the years 1892—1891, respectively, for which no "Up" and "Down" register maintained.

Comparative Statement of principal commodities carried on the Eastern Bengal State Railway during the month of September 1892.

INCREASES.

	Tons.
Jute, screwed	1,794
Mymensingh, Postgolah, Saidpur and Sirajganj show the principal increases.	
Kerosine oil	2,613
Due to the prohibition of carriage by boat within certain limits of the port of Calcutta.	
Railway plant and rolling-stock	2,115
Due to construction of connected railways.	

DECREASES.

	Tons.
Coal	16,114
Sufficiency of stocks for railway and flotilla use.	
Cotton piece-goods, &c.	2,870
Due to Pujas falling about a month earlier this year than the last.	
Rice	2,825
The decrease was principally in despatches from Goalundo and stations on the Northern and Bihár sections, said to be due to falling of price in the Calcutta market and short crop.	
Jute, unscrewed	7,621
Haldibari, Kushtia and Sirajgunj show large decreases, due to dullness of Calcutta market. All available jute was bought by up-country traders.	
Oil-seeds	2,631
The decrease was principally in despatches from Goalundo, Kushtia and Pangsa, due to short crop.	
Salt	2,346
Ordinary fluctuation.	

HARRY STUART,
Examiner of Accounts.

* Includes 1,052 tons of coal for the year 1891 carried for Revenue, for which no "Up" and "Down" register maintained.
† Railway plant and rolling-stock 79 tons and 151 tons for the years 1892—1891, respectively, for which no "Up" and "Down" register maintained.

Comparative statement of principal commodities carried on the Bengal Central Railway during the month of September 1892.

INCREASES.

	Tons.
Sugar	111

The increase was exclusively in despatches from Jhikargacha, due to high prices in Calcutta market during Pujas.

DECREASES.

	Tons.
Coal	2,266

Ordinary fluctuation.

Betel-nuts	276

The decrease was principally from Khulna and the Flotilla stations, said to be due to the diversion of traffic by country-boats to Calcutta.

CALCUTTA, *the 30th November* 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 211.

[Second Publication.]

INDIA, WEST—BOMBAY COAST

Lights on North Channel beacon.

THE British Admiralty has given notice (No. 474 of 1892) that on 1st October 1892 a *fixed red* light above a *fixed green* light, 2 feet apart, would be shown from North Channel beacon while the dock gates are open, to assist vessels in navigating the dock channels. These lights are visible in all directions except where obscured by Cross island.

[Second Publication.]

TASMANIA, WEST COAST—MACQUARIE HARBOUR.

Entrance islet light-house—Sector of red light.

WITH reference to Notice to Mariners No. 115, dated 4th July 1892, issued by this office, the British Admiralty has given further notice (No. 475 of 1892) that on 1st October 1892, a sector of *red* light would be shown from Entrance Islet light-house, Macquarie harbour entrance, through an arc of 35°, or from the bearing of S. 16° E. to S. 51° E.

NOTE.—A wire hawser to facilitate communication has been stretched from Bushy (Cap and Bonnet) islet to the mainland ; there is therefore no channel for vessels south-west of it.

(*Variation 8° Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

[Second Publication.]

AUSTRALIA, EAST COAST—MORETON BAY.

Alterations in certain leading lights—Howe or North channel.

THE British Admiralty has given notice (No. 476 of 1892) that on 13th September 1892 Tangaluma light would be moved 466 yards N. ½ E. from its previous position, and would then be elevated 277 feet above high water.

Approximate position, lat. 27° 11′ 30″ S., long. 153° 23′ 20″ E.

The southern limit of the sector of *white* light shown from Yellow Patch light-house has been altered to bear E. by S instead of E. ¾ S., as formerly.

NOTE.—Vessels entering Howe or North channel should proceed as usual until Tangaluma and Cowan Cowan lights are in line bearing S. 17° E., and should keep them so, till the southern limit of the sector of *white* light shown from Yellow Patch light-house is reached, when the course should be altered to the eastward to bring Tangaluma light open eastward of Cowan Cowan light the difference in their heights, and then proceed with them in that position. By following this course, a depth of not less than 21 feet at low water spring-tides will be carried.

EASTERN ARCHIPELAGO—JAVA, NORTH COAST.

Sunken wreck north-west of Berebes point.

THE British Admiralty has given notice (No. 477 of 1892) that the Netherlands barque *Salimoerachman* lies sunk with Berebes point bearing S.-S.-E. ¾ E., distant about 8 miles. The wreck, head about south, has topgallant masts struck and topmasts showing above water at an angle of about 25.° The least depth found on the wreck was 3 fathoms.

Approximate position, lat. 6° 40½′ S., long. 108° 57′ E.

[Second Publication.]

CHINA SEA—STRAIT OF MAKASSAR.

Non-existence of Komba island and certain islets.

THE British Admiralty has given notice (No. 478 of 1892) that the Commander of the Netherlands steam-vessel *Sperwer* reports that Komba (Noesa Komba) island, charted as lying in approximately lat. 5° 15′ S., long. 117° 3½′ E., does not exist.

Information has also been received from the Government of Batavia that the three islets (Triangles) charted as lying in approximately lat. 3° 1′ to 3° 5′ S., long. 117° 50′ E., and the three islets (P.D.) in lat. 2° 41′ S., long. 117° 56′ E., do not exist.

Komba island and the above-mentioned islets have therefore been removed from the Admiralty Charts.

JAPAN, SOUTH COAST—GULF OF TOKYO OR YEDO.

Provisional light-vessel in Uraga channel.

THE British Admiralty has given notice (No. 479 of 1892) that a provisional light-vessel has been placed to mark the position of a fort in course of construction in the north entrance to Uraga channel pending the establishment of a light buoy.

The provisional light-vessel, from which is exhibited a *fixed red* light, elevated 25 feet above the sea, and visible in clear weather from a distance of 4 miles, has two masts, is painted black, and carries a red flag as a day mark. The vessel is moored with Kannon saki light-house bearing S. 10° E., distant 1$\frac{8}{10}$ miles.

Approximate position, lat. 35° 17′ 10″ N., long. 139° 43′ 40″ E.

[Second Publication.]

AUSTRALIA, EAST COAST—INNER ROUTE.

Amended positions of certain dangers recently surveyed.

NOTICE to Mariners No. 480 of 1892 issued by the British Admiralty is republished.

The undermentioned dangers having been recently surveyed, their amended positions are made known:—

(1) *Particulars of Heath rocks.*

Information has been received that Heath rocks which dry at low water extend about 100 yards north, 200 yards east, and 30 yards south, of the beacon erected on them in approximately lat. 13° 28′ 15″ S., long. 143° 39′ 50″ E.

(2) *Particulars of Khandalla shoal.*

Also, with reference to Notice to Mariners, No. 601 of 1891, (No. 10 of 1892 issued by this office) that Khandalla shoal, with 13 feet on it at low water, is of small extent, and cannot usually be seen, even from the masthead.

Approximate position, lat. 13° 26′ S., long. 143° 40′ 40″ E.

(3) *Ellis island—position of beacon.*

Also, that the square black beacon on Ellis island (No. VII) is situated on the centre of the Sand islet at its north-west end.

Approximate position, lat. 13° 22′ 15″ S., long. 143° 40′ 50″ E.

[Second Publication.]

SOUTH PACIFIC OCEAN—TONGA OR FRIENDLY ISLAND.

Falcon island decreasing in height.

THE British Admiralty has given notice (No. 481 of 1892) that Falcon island (volcanic), which in 1889 was 153 feet high, is now only 25 feet high.

In all probability this indicates that the island is also much reduced in size as it was rapidly washing away in 1889.

Approximate position, lat. 20° 19′ S., long. 175° 25′ W.

JAPAN, SOUTH COAST—OWARI BAY ENTRANCE.

Shoals in Toba entrance.

The British Admiralty has given notice (No. 485 of 1892) of the existence of the three undermentioned rocky shoals, each about one cable in extent and with 2¾ fathoms water on them, lying near the fairway of Toba anchorage, south-west side of Owari bay entrance:—

1. The north-eastern shoal lies with Cone (355 feet) on Tafushi (Momotori) sima, bearing N.-W. by N., distant 4¼ cables.
Approximate position, lat. 34° 30′ 50″ N., long. 136° 53′ 30″ E.
2. The southern shoal lies with Cone bearing N. by W. ½ W., distant 6¼ cables, and S.-S.-W. 2 cables from shoal 1.
3. The western shoal lies with Cone bearing N. ½ W., distant 4½ cables, and W. by S. ½ S. 2 cables from shoal 1.

RED SEA—WESTERN SHORE—MASSAWA HARBOUR ENTRANCE.

Alterations in lights.

THE British Admiralty has given notice (No. 470 of 1892) that in the month of October 1892, the light-vessel on the south side of entrance to Massawa harbour will be replaced by a light buoy, from which will be exhibited a *fixed red* light. The buoy will be moored with Mudur fort flagstaff, bearing approximately S.-S.-W., distant 2¾ cables.

Also that the *fixed white* light of the light-vessel will be exhibited on Ras Mudur.

Further notice concerning the abovementioned alterations will be given in due course.

„ W. Y. Reily ...	Do. ...	...	......	...	Assamese ...	Assamese.

* The subjects marked with an asterisk are optional subjects, *i.e.*, not necessary to the retention of the officer's substantive appointment.

NOTE.—The last two columns are not meant to embody an exhaustive list of all the subjects and standards in which officers are liable to pass, and do not relieve any officer liable to examination, whether mentioned in this notification or not, from the duty of ascertaining for himself the subjects and standards in which he is required to pass.

No. 11017*G.*—*The 1st December* 1892.—Mr. A. Porteous, I.C.S., Deputy Commissioner, on return from furlough, is appointed, with effect from the date on which he receives charge, to officiate as Political Agent in Manipur and Superintendent of the State, during the absence, on furlough, of Major H. St. P. Maxwell, I.S.C., C.S.I., or until further orders.

No. 11019*G.*—*The 1st December* 1892.—Mr. W. H. Lee, I.C.S., Assistant Commissioner, Habiganj, on being relieved by Babu Raj Mohan De, Extra Assistant Commissioner, is transferred to the Sadar sub-division of the Lakhimpur district.

No. 11032*G.*—*The 2nd December* 1892.—Under the provisions of section 12 of the Code of Criminal Procedure (Act X of 1882), the Chief Commissioner invests Mr. W. A. M. Duncan, I.C.S., Assistant Commissioner, with the powers of a Magistrate of the first class.

No. 5335*J.*—*The 2nd December* 1892.—In modification of Notification No. 3539J. dated the 6th August 1892, Babu Dwarka Nath Ghosh, Munsif of Karimganj, in the district of Sylhet, has obtained leave of absence for two months, viz., one month and twelve days under articles 307 and 309 of the Civil Service Regulations, and the remaining period under article 306 (*b*) of the same Regulations, with effect from the 3rd July 1892.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

EXAMINATION OF EUROPEAN AND EURASIAN CANDIDATES FOR ADMISSION INTO THE OPIUM DEPARTMENT.

Revenue Department Notification No. 433J-O., dated the 13th December 1892.

THE following revised Notification is published for general information in modification of Notification No. 4008-O., dated the 18th November, 1892, published in the *Calcutta Gazette* of the 23rd idem :—

In pursuance of the decision contained in this Government's Resolution, dated the 14th July, 1884, it is hereby declared that a competitive examination for two appointments in the Opium Department will be held in February, 1893. At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the North-Western Provinces, and the Opium Agents of Bihar and Benares, each of whom is authorised to make one nomination for each vacancy, subject to ultimate nomination by the Lieutenant-Governor of Bengal, will be permitted to present themselves. It must also be clearly understood by intending competitors that those who may be declared successful will not be entitled to obtain permanent appointments in the Probationary grade of Assistant Sub-Deputy Opium Agents till a permanent vacancy occurs in that grade, but it is the intention of Government to appoint them at once to duty in the Department.

2. A certificate of health and physical fitness, signed by a Covenanted Medical Officer in the form appended to this Notification, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. With reference to the orders of the Government of India, No. 4843, dated the 20th September, 1889, no one whose age on the 1st February, 1893, exceeds 22 years, or who is under 18 years, will be permitted to appear at the examination.

A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate, or by a Presidency Magistrate or Commissioner of Police in the case of applicants residing in Presidency towns, should also be submitted.

3. Applications, accompanied by the necessary certificates, must be sent on or before the 15th January next to the Under-Secretary to the Government of Bengal in the Revenue Department. Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs. 20 before they can appear at the examination. The fee is payable to the Under-Secretary aforesaid.

4. The examination will be held at Calcutta, and the date and place will be notified to such candidates as are allowed to present themselves at the competition.

5. The examination will be by written questions and answers, and the subjects will be as follow :—

FIRST DAY.

Morning.

A short essay on some easy every-day subject, to be selected by the Examiner and declared at the time of the examination.

Time allowed—2½ hours.

Afternoon.

English History and Literature and Elementary Indian History.

The text-books will be—

For English History—Green's Short History of the English People.
For Literature—Longman's Hand-book of English Literature, Parts III and IV.
For Indian History—Wheeler's Short History of India, Part III.

Time allowed—3 hours.

SECOND DAY.

Morning.

Hindustani (Urdu) in the Persian character, including reading at sight, with tolerable fluency, some easy printed book ; short translation from English into Hindustani ; and conversing intelligibly with a native of India.

Time allowed—2½ hours.

Afternoon.

Geography, Asia (especially India), and Europe.

Time allowed—2½ hours.

THIRD DAY.

Morning.

Arithmetic, including compound proportion, simple interest, and vulgar and decimal fractions.

Algebra, up to, and inclusive of, Quadratic Equations.

Time allowed—3 hours.

No books of any kind will be allowed at the time of examination.

The maximum number of marks for each subject will be as follows :—

English [Essay 100, English and Indian History and Literature 200]	300
Arithmetic and Algebra	300
Hindustani	150
Geography	150

6. The two candidates who obtain the highest aggregate number of marks will be appointed in the order in which they are declared to have passed.

7. The Native of India next to be admitted to the Opium Department will be appointed after the two successful candidates at this examination.

8. Candidates appointed to the Opium Department after examination will be considered as probationers for the first two years of their service. The confirmation of a candidate in the Department will depend on his passing the departmental examinations and on the periodical reports submitted by the Opium Agents showing the industry and intelligence with which he discharges his duties, and his aptitude for service in the Department as displayed during the period of his probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation.

Form of Medical Certificate.

I do hereby certify that I have examined Mr. , a candidate for employment in the Opium Department, and that he has no disease, affection, or bodily infirmity, and is in my opinion possessed of a robust constitution, well fitted for the performance of the duties appertaining to such an appointment. His age is, according to his own statement, years, and by appearance about years.

________________ Signature.

________________ Description.

CALCUTTA,
The 13th December, 1892.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4291L.R.

The 13th December 1892.—Under the powers conferred upon him by section 101(1) of the Bengal Tenancy Act, VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of tuppas Khadda and Patjirwa, in the district of Champaran.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each proprietor with the character and extent of his interest.

The situation, quantity and boundaries of proprietors' private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenancy.

The situation, quantity and boundaries of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a Court or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which it increases.

The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4292L.R.

The 13th December 1892.—Under the powers conferred upon him by section 101(1) of the Bengal Tenancy Act, VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of pargana Hajipur and of Chakla Girjaul in pargana Bisara, in the district of Muzaffarpur.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each proprietor with the character and extent of his interest.

The situation, quantity and boundaries of the proprietors' private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenancy.

The situation, quantity and boundaries of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a Court, or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4294L.R.

The 8th December 1892.—Under the provisions of section 108 of the Bengal Tenancy Act, VIII of 1885, and in continuation of the notification of the 7th June 1887, published at page 498, Part I of the *Calcutta Gazette* of the 8th idem, the Lieutenant-Governor is pleased to appoint the District Judge of Noakhali to be a Special Judge for the purpose of hearing appeals from the decisions of Revenue Officers employed under the aforesaid Act in the district of Noakhali.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 4340L.R.

The 13th December 1892.—Under section 4 of Act V (B.C.) of 1875, Mr. E. G. Colvin, C.S., is appointed to be an Assistant Superintendent of Survey for the purpose of carrying out the survey in the district of Champaran.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4341L.R.

The 13th December 1892.—Mr. E. G. Colvin, C.S., is appointed to be Settlement Officer under Rule I, Chapter VI of the rules under the Bengal Tenancy Act, in the district of Champaran.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4342L.R.

The 13th December 1892 —Mr. P. C. Lyon, C.S., is appointed to be Settlement Officer under Rule I, Chapter VI of the rules under the Bengal Tenancy Act, in the district of Muzaffarpur.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No 4354L.R.

The 13th December 1892.—Under the powers conferred upon him by section 3 of the Bengal Survey Act V (B.C) of 1875, and in supersession of Notification No. 4156L.R., dated the 29th November 1892, published at page 1060, Part I of the *Calcutta Gazette*, dated the 30th November 1892, it is hereby notified that the Lieutenant-Governor is pleased to order that a survey be made of all lands situated in the estates of His Highness the Maharaja of Hill Tippera in the central and southern divisions of Chakla Roshnabad, as defined below, in the districts of Tippera and Noakhali, and that the boundaries of mauzas, holdings and fields be demarcated:—

	Boundaries.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

ERRATUM.

The 13th December 1892.—In line 3 of the notification of this Government, No. 2963, dated the 24th October 1892, published on page 957, Part I, of the *Calcutta Gazette* of the 26th October 1892, for the word "Ghatál" read "Garhbeta."

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3606.

The 13th December 1892.—In exercise of the powers conferred on him by section 3 of Act V (B.C.) of 1881, the Lieutenant-Governor is pleased to appoint the Revd. C. Jordan to be a member of the Burial Board for the Town and Suburbs of Calcutta.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 10th December 1892.—The following rule, framed by the Board of Revenue, Lower Provinces, under section 9 of the Sea Customs Act, VIII of 1878, for the Port of Calcutta, having been approved by the Lieutenant-Governor, is hereby published for general information:—

On and after the 1st January 1893, no shipping-bills or bills-of-entry will be received at the Calcutta Custom House unless they bear on them a stamp or signature showing that the toll payable to the Commissioners for the Port of Calcutta under the notification of Government, No. 112Marine, dated 29th November 1892, published in the *Calcutta Gazette* of the 30th idem, Part I, page 1066, has been paid in full.

T. INGLIS,
Secretary.

NOTIFICATION.

THE following rules, framed by the Board of Revenue, Lower Provinces, under section 100 of the Sea Customs Act, VIII of 1878, with the approval of Government, are published for general information:—

1. Applications for permission to the blending of spirits or wines in bond in the same warehouse are to be presented to the Collector of Customs on a stamp of one anna.

2. Each application must contain a full description of the spirits or wines to be mixed, and must be accompanied by a fee at the rate of Rs. 7 per diem, to cover the pay of an officer of Customs, to be deputed by the Collector, in whose presence the blending must be effected. The Collector may at his discretion accept the fee for half a day at the above rate.

3. The amount of liquor drawn from each cask for the purpose of blending will be shown as cleared on the original bond. If any deficiency be found on emptying a cask, duty thereon will at once be levied under section 116, but allowance under section 117 for such deficiency or any portion of it may be subsequently made by the Chief Customs Authority if sufficient grounds exist.

4. The blend, when effected, will be retested and regauged, and a fresh bond will be made out for the duty found leviable thereon.

5. For the purpose of calculating the period of three years under section 103, and the allowances for ullage and wastage under section 116, the date of the new bond will be taken to be the date on which the earliest of the bonds relating to any of the spirits in the blend was executed.

6. The spirits or wines blended must be the produce and manufacture of the same country.

7. The word "blend" must be cut into or indelibly marked on the vat or cask containing the blended spirits or wines. Original marks and brands must be removed unless all the spirits or wines be of the same mark.

T. INGLIS,
Secretary.

Dated the 10th December 1892.

DECLARATION.

The 13th December 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for quarters of the officers of the Salt Department of the Machhgaon Circle, in the village of Nallio, pargana Benahar, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 acres, 1 pole of standard measurement, bounded on the north by the remaining portion of field No. 84 in mouza Nallio; on the south by the Pahi land of Lakshan Biswal and land appertaining to mouza Nallio; on the east by the land acquired for the Machhgaon canal; and on the west by lakhraj land of Banchhanidhi Das and Pahi land of Basoo Das, is required within the aforesaid village of Nallio.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 10*th December* 1892.

No. 345.—Mr. G. J. St.C. Sedgley, Assistant Engineer, 2nd Calcutta Division, is transferred to the Orissa Circle.

LOCAL COMMUNICATIONS.

The 13*th December* 1892.

No. 346.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken at the expense of the District Board, Patna, for a public purpose, viz., for opening a village road within the said District Board from village Azimabad Pachmahla to Sahnoura, pargana Gyaspore, sub-division Barh, zilla Patna, it is hereby declared that for the above purpose a piece of land measuring 12 cottahs 6 dhoors of standard measurement, bounded on the north by the raiyati holdings of Pitambar Singh, Darshan Singh and Quaze Hamid; on the east by a village road; on the south by the raiyati holdings of Shiboo Singh, Darshan Singh and Bansi Singh; and on the west by footpath, is required within the aforesaid village of Pachmahla.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 9*th December* 1892.

No. 343.—Mr. A. H. C. MacCarthy, Assistant Engineer, 1st grade, attached to the Office of the Superintending Engineer, South-Western Circle, is granted leave for six months on urgent private affairs, with effect from the 1st January 1893, or such subsequent date as he may avail himself of it.

No. 344.—Mr. G. A. G. Shawe, Executive Engineer, is, on return from the furlough granted in notifications Nos. 306 and 291, dated respectively the 27th August 1891 and the 22nd October 1892, posted to the Orissa Circle.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

[First Publication.]

The 10*th December* 1892.

No. 116*Marine.*—In exercise of the power vested in the Local Government under section 6 of Act X of 1889 (the Indian Ports Act), and in supersession of Rule LVI of the rules relating to the Port of Chittagong, sanctioned under notification No. 14Marine, dated the 2nd June 1890, and published in the Appendix to the *Calcutta Gazette* of the 4th idem, the Lieutenant-Governor intends to make the following rule with a view to prevent the occurrence of fire on boardships while being loaded with jute or other inflammable cargo. The rule will be taken into consideration on the expiry of one month after its first publication in the gazette, and the Local Government will receive and consider any suggestions or observations that may be made concerning it before the expiry of that period:—

"No person shall smoke or use naked lights of any description in the hold or between decks of any vessel lying in the port, nor shall smoking or the use of any naked lights be allowed on the upper deck, except within the compartments set apart for the Captain, officers and crew, or passengers of any vessel when in the act of loading or discharging jute, mineral oil or any other inflammable cargo. Closed lanterns, burning candles or vegetable oil, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between decks or into the hold."

The 13*th December* 1892.

No. 117*Marine.*—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Commissioners of the Port of Chittagong for a public purpose, viz., for the erection of warehouses and jetties for the landing, shipping and storage of goods in connection with the Assam-Bengal Railway, in the village of Halishahar, zilla Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 97 bighas 5 cottahs and 4 chittacks of standard measurement, and bounded on the north by paddy land belonging to Kailash Chandra Dutta, Magbul Sowdagar and others, on the south by the road leading to Ishan Mistry's hát, on the east by the river Kurnofully, and on the west by the Moheshkal road cutting, is required within the aforesaid village of Halishahar.

2. This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

3. The plan may be inspected at the office of the Commissioners of the Port of Chittagong.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction, Bengal.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 9th and 10th January 1893.

Candidates must apply in writing to the Principal not later than the 31st December 1892 for permission to appear at the examination, enclosing a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 15 and 17 years.

The subjects of examination are—

Arithmetic	The whole
Algebra	To Simple Equations.
Euclid	Books I and II.
English Grammar and composition.	

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted, and his examination fee will be returned.

There will be one vacancy on the free list for Christian apprentices in February next, and sixteen on the reduced* fee list.

For Natives there will be at least eighteen vacancies, possibly more, on the reduced† fee list. These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but Forms to be filled in for the consideration of the Board can be had on application to the Principal.

* Rs. 5 per mensem.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the 18th November* 1892.

SENATE HOUSE, *the 12th December* 1892.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

It is hereby notified, under the provisions of section 3, Act XI of 1859, that the Board of Revenue have determined that in the district of Jalpaiguri, excluding the permanently-settled estates, all arrears of revenue or rents and all demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue shall be paid up on the following dates:—

15th February. | 31st October.

All revenue or rents and demands as above specified falling due between the 1st November and the 15th February, inclusive, shall be paid on the 15th February, and all revenue or rents and demands falling due at any time between the 16th February and the 31st October, inclusive, will be payable on the 31st October.

This order will take effect from the 1st April 1893.

This notification does not apply to the permanently-settled estates within the district of Jalpaiguri, for which the existing latest days will remain in force.

C. W. BOLTON, *Secretary.*

BOARD OF REVENUE, L.P., *the 3rd December* 1892.

No. 1914B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 4th January 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.

Total ...	23,124	20,580	43,704

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1891-92, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary*.

FORT WILLIAM, *the 24th November* 1892.

REVISED NOTIFICATION.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3334*M.*—*The* 11*th December* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Madaripore Municipality for a public purpose, viz., for the erection of public latrines and trenching ground for nightsoil in the villages of Char Khagdi and Rupraia, parganas Toppe Birmohan and Rajnagore, zilla Faridpur, it is hereby declared that for the above purpose three plots of land specified below, measuring, more or less, 1 bigha 14 cottahs and 14 dhoors of standard measurement, are required:—

Plot No. I.—Situated in the village Char Khagdi, pargana Toppe Birmohan, appertaining to the estates No. 5798, taluq Amanullah, and No. 5548, taluk Sobanulla, is bounded on the

North and West by the land held by Har Chandro Saha; on the South by Faizuddin's land; and on the East by Ohar Khagdi Khal, area, more or less, 12 cottahs and 7 dhoors.

Plot No. II.—Situated in the village Rupraia, pargana Rajnagore, appertaining to estates No. 5549 and No. 5555, howla Petambar Sen, is bounded on the North by Akbar and Ibrahim's land; on the West by Sonaullah's land; on the South by Umar's land; and on the East by Umlai's land, measuring, more or less, 15 cottahs and 1 dhoor.

Plot No. III.—Situated in the mauza Rupraia, pargana Rajnagore, appertaining to estates No. 5549 and No. 5555, howla Petambar Sen, is bounded on the North by Sonaullah's land (deserted homestead); on the west by municipal tank and Umlai Hawladar's land; on the south by Osmon Harkara's land; and on the East by Govindo Chandra Saha's land, measuring, more or less, 7 cottahs and 6 dhoors.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3378*M.*—*The* 13*th December* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the extension of the bathing platform at Champatolla Lane, it is hereby declared that for the above purpose a piece of land, No. 61-1, Champatolla Lane, in the Town of Calcutta, district 24-Parganas, measuring, more or less, 13 chittacks and 30 square feet only, is required. The boundaries of the land are as follows:—On the North and East portion of No. 61-1, Champatolla Lane; on the South the public bathing platform; and on the West the public road.

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4887R.P.

The 10*th December* 1892.—It is hereby notified that the District Road Committee of Palamau have determined to levy road cess for the cess year, commencing from the 1st April 1892, at the maximum rate of six pies or two pice on each rupee of the annual value of lands and of the annual net profits from mines, &c., and the said rate having been approved by the Commissioner of the Division is hereby published for general information.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 4907R.P.

The 13*th December* 1892.—Mr. Augustine Cooke, Manager of the Palandu Tea Estate, is appointed to be a member of the Lohardaga District Road Committee, *vice* Mr. J. Binning.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

Mymensingh Collectorate, the 7th November 1892. KAILAS GOVINDA DAS, for Collector.

APPENDIX XXIV.

SEE CHAPTER II, PART 3, RULE 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of plots.	Boundary of lot.

Monghyr Collectorate, the 21st November 1892. DHANESH CHUNDER ROY, for Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.
					B. K. D.	A. R. P.	Reasons for exclusion.	A. R. P.

MUZAFFARPUR, the 25th November 1892. T. W FISCHER, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Balasore will be put up for sale at the Collector's Office of that district on the 30th December 1892 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

No. 68.

SEALED tenders for the supply to the Madras Commissariat of Indian-grown black tea for one year, from 1st April 1893 to 31st March 1894, at the stations and in the quantities noted in the memorandum at foot, will be received by the Commissariat Storekeeper-General at Madras up to 12 o'clock noon on the 20th December 1892, and then and there opened in the presence of all parties who may choose to attend.

2. No tenders will be received except on forms obtainable from the Commissariat Storekeeper-General at Madras, which, as well as any information required regarding the contract, will be given on application to the Commissariat Storekeeper-General at Madras up to 4 o'clock P.M. on the 19th December 1892. No addition or alteration must be made in the tender forms.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4. Covers to be superscribed "Tender for the supply of Indian-grown black tea."

5. The Commissary-General reserves to himself the right of accepting or refusing the supply required for Rangoon under clause B.

6. Each tender must be accompanied with earnest-money in Government promissory notes or Bank of Bengal, Madras or Treasury receipt* for an amount equal to 2½ per cent. of the value at the tendered rate of the quantity of tea tendered for, but the earnest-money of any one tender need not exceed Rs. 2,780. Tenders without earnest-money will not be attended to.

* The receipt may be for currency notes or cash.

7. Earnest-money will be confiscated if the tenderer withdraws from his tender.

8. Samples of the tea to be supplied can be inspected at the Commissariat Storekeeper-General's Office at Madras and the Chief Commissariat Office, Rangoon.

Memorandum of stations and quantities referred to in paragraph 1.

Calcutta, the 24th November 1892.

(825—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 " " 2-12 "
23 " " 2-14 "
24 " " 3 "

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 " 2-4 "
Under 7 feet " 2 "

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ " " " 8 " " " " 8-8.
¼ " " " 4 " " " " 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

SEALED tenders will be received by the undersigned in District Board Form No. 8 up to Saturday, the 17th December 1892, for the construction of the quadruple munsifi at Patuakhali according to the recent standard plan. The amount of the estimate is Rs. 29,525. All bricks, broken bricks and jhamas will be supplied from the Government stock. Rs. 600 must accompany each tender as earnest money.

Work to be completed within a year.

JOGENDRO NATH GHOSE, L.C.E., A.M.I.C.E.,
District Engineer, Backergunge.

Barisal, the 3rd December 1892.

HARA KUMAR MITTER intends to apply for enrolment as a Vakeel of the High Court.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1893 is received before the 31st December 1892, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1893.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. J. McINTOSH,
Under-Secy. to the Govt. of Bengal.

The 1st December 1892.

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G, Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

Jeypore Enamels. Super royal, 4to. Rs. 30 (9a.)

Waste Lands in India. Rules for the Lease or Sale of, 1892. Fcap., boards. Rs. 2 (8a.)

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PRESIDENCY DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS No. 3477.

Calcutta, the 6th December 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Presidency Division for the year 1891-92.

Tours.

THE report is submitted by Mr. Beames, who was appointed Commissioner in November in succession to Messrs. Smith and Westmacott. The Commissioners spent about three

months and a quarter on tour, to which Mr. Westmacott contributed 34 days, Mr. Beames 60 days, and Mr. Smith the remainder. The retirement of Mr. Smith has deprived the Lieutenant-Governor of the services of an officer of much industry, ability and experience, who had for some years before his appointment to the Board of Revenue been in charge of this important division. The district officers of the 24-Parganas, Nadia, and Khulna completed the period of tour prescribed for their respective districts by the orders of Government. In Jessore and Murshidabad the tours fell short, in the former case by 35 days, and in the latter by 12 days. In Jessore, Mr. Harris was out for 15 days between the 1st April and the 12th July, Mr. Stevenson-Moore for 44 days between the 13th July and the 22nd December, and Mr. Currie for only 26 days between the 23rd December and the 14th March. Mr. Earle, who was in charge for the remainder of the year, did no touring, being occupied with the inspection of the offices at head-quarters. The frequent change of officers partly accounts for the failure, but the Lieutenant-Governor cannot accept this as an adequate excuse for the great defect in the amount of touring done. In Murshidabad Mr. Manisty was out for 53 days between the 1st April and the 31st October, and Mr. Collier for 55 days during the remainder of the year. The Commissioner inspected all district offices and all sub-divisions except three. The Collectors inspected their own and the sub-divisional offices twice, with the solitary exception of the Basirhat sub-division, which was inspected only once. The Lieutenant-Governor is glad to observe that the rules regarding inspection of offices were so generally complied with.

Material condition of the people, health, and crops.

2. The climatic conditions of the year were unfavourable to agriculture, and the good outturn of the early rice harvest was more than counterbalanced by the failure of the late rice and winter crops. The deficiency was considerable in Nadia and extended generally to the rest of the Division, with the exception of some parts of the 24-Parganas, Murshidadad and Khulna. Summing up the situation, the Commissioner says:—

"Generally speaking, the year was therefore one of diminished prosperity for the agricultural classes, though the distress was nowhere so severe as to call for State intervention. Cultivators in the Murshidabad district make large profits by rearing silk-cocoons, though since the spread of disease among the silkworms this has come to be a somewhat precarious industry, and individuals occasionally lose by it. It is still, however, not uncommon for a single raiyat to raise cocoons to the value of Rs. 100, the greater portion of such sum being clear profit.

"The landless labouring classes were also not well off, because while the rates of wages, both for skilled and unskilled labour, remained stationary, they had to pay high prices for food. They, however, found ample work at the mills in the 24-Parganas, at the silk filatures in Murshidabad, and at the sugar manufactures in Jessore.

"The condition of the poorer middle class remains the same; they suffer from the difficulties which in all crowded civilised communities beset the poor gentleman who is compelled to incur expenses beyond his means to keep up his position. In India the difficulty is aggravated by the necessity of supporting a crowd of poor relations."

The absence of floods and the deficient amount and uneven distribution of the rainfall appear to have been important factors in determining the sanitary condition of the year, which was an extremely unhealthy one. In Nadia the death-rate reached 43·65 per mille, the highest ever recorded for that district. In Murshidabad the death-rate from fevers alone was 25·36 per mille, which the Commissioner says is the highest mortality for fever on record, and exceeds the total recorded mortality of several previous years. Besides fever, cholera proved very fatal during the year, showing itself in an epidemic form in nearly every district. The only district in which the death-rate is less than that of the previous year is Khulna, but here again the number of deaths is considerably higher than the average number in the two years preceding. The total death-rate of the division increased from 22·9 in 1889-90, and 25·8 in 1890-91 to 34·4 in 1891-92. The crying want of the division is good drinking water. The Commissioner writes:—

"The question of securing a good supply of drinking-water is undoubtedly a very serious one. The task is beyond the power of any Government to accomplish, but it is by no

means beyond the power of the people themselves. Unfortunately the people of India are very slow to help themselves; their only idea is to cry to Government to help them. Educated Bengalis profess great attachment to the principle of Local Self-Government, so long as it is confined to spending money supplied to them by Government. It is time that they should be taught that Local Self-Government means local efforts to help themselves. District Officers should direct their Engineers to impress upon the people how much they may effect by local subscriptions and personal exertions. If the owners of tanks would throw them open for public use, and the labouring classes, who sit idle for a large part of the year, would give a certain number of days of gratuitous labour, much might be done. But so long as zamindars will not allow their tanks to be touched, and the peasant, though suffering from want of water, will not dig, unless he is paid for it, progress must necessarily be slow. Both these difficulties might in time be overcome if Collectors and Sub-divisional Officers would devote themselves to the task of persuasion and organising local effort."

Manufactures, Trade, and Commerce.

3. The number of mills, presses, and factories in the 24-Parganas stood at 46, as in the previous year. A glass manufactory, with a capital of Rs. 3,00,000, was opened at Titaghar towards the end of the year. The jute mills are said to have had a profitable year, but the cotton mills which have to contend with American competition did not do so well. The outturn of the paper mill at Titaghar was 2,955 tons against 2,756 tons in the previous year, valued at Rs. 10,18,697 against Rs. 9,65,711. In Nadia and Jessore the outturn and value of indigo exceeded that of 1889-90 and were about three times as great as in 1890-91, which, however, was a very poor season. Messrs. Renwick and Co.'s sugar-cane mills appear to become more popular every year, and 1,400 of these mills were hired out to cultivators against 1,100 in the previous year. The number of sugar factories in Jessore increased from 160 to 167, and there was also a considerable increase in the outturn and value of manufactured sugar. In Khulna the only important industry is said to be the manufacture of sugar, the statistics of which show a decline in the amount produced as compared with the year preceding, but an increase in the value, the figures for sugar and molasses combined being in 1889-90 produce 78,911 maunds valued at Rs. 2,35,604, and in 1891-92 produce 68,769 maunds valued at Rs. 2,46,658. The Commissioner observes:—

"Both the decrease in quantity and increase in value were due to the fact that the yield of date trees was much smaller in the year under report than in the preceding year. The smaller supply, coupled with a larger demand, raised the prices, which had been very low during the preceding year."

In Murshidabad both silk and indigo show signs of decadence, and it would seem that the European demand for Indian silk is declining. The number of indigo factories has decreased from 27 in 1889-90, and 28 in the following year, to 25 in the year under report. The produce as compared with 1889-90 has decreased by about a half, and the value by more than a half.

The figures showing the export and import traffic registered along the eleven main road routes of the 24-Parganas given by the Commissioner in paragraph 80 of his Report do not include all articles of traffic registered by weight. The total weight of traffic into Calcutta actually increased by 438,000 maunds, and that of traffic from Calcutta by 313,000 maunds. The trade along the Nadia rivers shows a considerable decline both in imports and exports. As regards the rail-borne trade of Khulna, the Commissioner writes:—

"It will be seen that there was a decrease in the tonnage of imports of over 12 per cent. There was, however, no decrease in the amount of freight, which, on the other hand, increased by over 9 per cent. This is ascribed to the fact that the reduction in tonnage occurred in coal and coke only, which are carried at low rates, while there was an increase in most other articles paying higher rates of freight.

"As regards exports there was an increase both in tonnage and freight, the former of which increased by a little more, and the latter by a little less, than 4 per cent. The most marked increase was in seeds, rice, jute, and betelnuts, which is said to show that the railway is beginning to divert a small portion of the trade in these articles, which had hitherto been carried on entirely by boats. Up to the present time, however, the railway has by no means answered to the expectations formed concerning it, the cheapness and freedom from restrictions and regulations of the river traffic enabling it to hold its own."

Civil Justice.

4. The following statement shows the civil work of the division during the year: —

District.	Sub-division or chauki.	Description of Court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5A and 5B.			Number of witnesses attended.	Ratio of witnesses detained over two days per cent. of witnesses examined.	Ratio of cases pending at end of year per cent. of cases disposed of.	Number of unit cases disposed of per Munsif.

* Ranaghat Munsif. This number is not distributed in columns 6, 7, and 8.

The figures in column 12 are obtained by taking one title suit as equivalent to three rent or money suits, and one Small Cause Court suit as one-third of an ordinary suit. On this basis, the average number of unit cases disposed of

by each Munsif was 2,140. The highest proportion of cases was disposed of by the Munsif of Meherpur, who, however, only sat for three months of the year. Next come the Munsifs of Barasat, Jhenidah, Satkhira and Jessore who all exceeded 2,300 cases. The least amount of work was done by the Munsifs at the Sadar and Azimganj stations of Murshidabad, and the Munsif of Ranaghat.

The worst returns of detention of witnesses over two days are shown by the Munsifs of Azimganj and Basirhat, who so detained over 30 per cent. of their witnesses. The ratio exceeded 20 per cent. in the munsifis of Ranaghat, Murshidabad and Kandi, and 10 per cent. in those of Diamond Harbour, Nadia, Chuadanga, Meherpur, Kushtea, Magura, and Lalbagh. With the exceptions named, the Munsifs of the 24-Parganas, Jessore and Khulna show best in this respect. The ratio of cases pending at the close of the year to cases disposed of was highest in the munsifis of Sealdah, Chuadanga, Ranaghat, Narail, Magura, Azimganj and Bagerhat in all of which it exceeded 20 per cent. The lowest ratios are shown by the Munsifs of Jessore, Bangaon and Satkhira who, it will be observed, all disposed of over two thousand cases, and by the Munsif of Meherpur. The average ratio of decisions upheld in appeal was 57 per cent. The ratio was highest at Krishnagar, 68 per cent., and lowest in Khulna, 50 per cent.

As regards rent suits in the 24-Parganas, the Commissioner remarks:—

"The average duration of contested rent suits was 159 days, against 163 in 1890, and that of uncontested cases was 83 days against 88 in the year preceding. These figures, it is stated, relate to the proceedings prior to and including the decree, and not to execution proceedings subsequent to the decree. It is therefore observed that in uncontested cases (which in the case of rent suits are four-fifths of the whole) the Civil Courts take 83 days to reach the stage which, under the certificate procedure, is reached when a certificate becomes absolute. These proceedings occupy the certificate Courts about six weeks or 42 days. The Civil Courts are thus twice as slow in uncontested cases as the certificate Courts, and the Collector observes that, if under proper safeguards certificate Courts were thrown open to private suits for rents, the benefit to the zamindars would be considerable. I may also observe that the Collector and his Deputies would be overwhelmed with work."

Crime, Police, and Criminal Justice.

5. The number of cognizable offences reported rose from 14,689 to 15,099, the increase occurring chiefly under the head of burglaries, and attributed partly to an erroneous classification adopted in Murshidabad under the orders of Mr. Manisty, but since withdrawn, and partly to the better reporting of cases at stations. It is satisfactory to observe that the number of rioting cases in Jessore and Khulna has considerably diminished, owing to the cessation of the indigo disturbances in the former district, and to repressive measures under the Criminal Procedure Code in the latter. The number of non-cognizable cases decreased from 17,647 in 1890 to 16,574 in 1891, the diminution occurring in the 24-Parganas, Nadia and Murshidabad, while Jessore and Khulna show a slight increase. In Murshidabad the increase in class IV cases is attributed to the lack of discretion on the part of Magistrates in entertaining complaints, a point to which inspecting officers should devote their attention.

Police.

6. The Commissioner says that, on the whole, the conduct of the police was good during the year under report, but that this praise is only relative will appear from the following remarks of the Magistrate of the 24-Parganas and the Commissioner's commentary upon them:—

"The standard of intelligence reached by the bulk of the upper subordinates in the police is disappointingly low. In the metropolitan district the police have to deal with criminals of an exceptionally cunning and dangerous class, and the picked men of the force are needed to cope with them. The majority of the district staff, however, are not picked men by any means, and a few of them are more than usually stupid and inert. Efforts are being made to secure recruits of a higher stamp, but the service is unpopular, and without a material increase of pay I doubt whether much improvement can be effected."

The Commissioner adds:—

"The same remarks might be fairly applied to the other districts of this Division."

The chaukidars are reported to have worked well except in Jessore, where they are said to have failed to report the absence of bad characters from their

villages, but it may be that the system of questioning at the chaukidari parades is imperfectly carried out in that district.

Criminal Justice.

7. The following statement shows the work of the criminal courts in the division by districts :—

District.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio per cent. of persons convicted to disposed of.	Number of witnesses attended.	Ratio per cent. of witnesses detained over two days to total number attended.	Ratio per cent. of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average of cases disposed of per officer.	Average of witnesses attended per case disposed of.	Ratio per cent. of columns 12 to 11.

8. Taking Stipendiary Magistrates first, 55½ officers disposed of 21,737 cases. The average number of cases disposed of by each officer was 393, but this number was considerably exceeded in the Sadar and Sealdah Courts of the 24-Parganas, and at Meherpur and Lalbagh. At Sealdah one officer disposed of 5,218 cases, but a large number of these were trivial offences, and in many cases no witnesses were examined. The least work was done at Dum-Dum, and at the Sadar stations of Jessore, Murshidabad and Khulna. The average number of witnesses examined per case was 3, but in Jessore the average was nowhere below 6, and at Jhenidah and Magura it was 9 and 8 respectively. At Khulna, Sadar, it was 7. Over 10 per cent. of the witnesses were detained over two days in the courts at Jangipur and Bagerhat. The returns show that with these exceptions cases were disposed of with commendable promptitude in all the courts of the division.

Stipendiary Magistrates.

The number of police cases disposed of was 12,620, of which 387, or 3 per cent., were remanded six times and more. The figures for Sealdah (5,363) are very large, but they are almost all trivial cases of offences under the Municipal Act, and the cases disposed of by the Honorary Magistrates have been mixed up with those of the Joint Magistrate. The 2,845 cases disposed of in the Alipore Suburban Police Court were of the same character. The courts where more than 10 per cent. of such delays took place were those at the Sadar, Jhenidah, and Bangaon stations of Jessore, and all those in the Khulna district. At Bangaon, Bagerhat and Satkhira the ratio exceeded 20 per cent. Besides these, Maulvi Ikram Rasul at Krishnagar and Mr. J. C. Williamson at Murshidabad exceeded or nearly reached a ratio of 20 per cent. The percentages elsewhere are good. The percentage of persons convicted to persons disposed of was 70 for the whole division the highest percentage, occurring at Barrackpore and Sealdah, and the lowest at Bangaon, Jessore, Jhenidah, Khulna, and Magura. The percentage of cases modified or reversed on appeal to the number appealed was 31 for the whole division excluding Sealdah, and Barrackpore where no cases were successfully appealed against. It was as high as 45 for the Sadar station of the 24-Parganas, 41 for Jangipur, 40 for Bagerhat, and 38 for Narail and the Sadar station of Khulna. The ratio was lowest at Meherpur, Chuadanga, Magura and Kandi.

9. The number of cases decided by Benches and Honorary Magistrates sitting singly was 7,115 in 1891 against 7,647 in 1890. The Honorary Magistrates at the head-quarters, Sealdah, and Barrackpore stations of the 24-Parganas, and at the head-quarter station of Nadia, disposed of most cases with a good percentage of convictions. A fair amount of work was also done at Rajpur, Navadwip, Kushtia, Jessore and Murshidabad. Of the decisions appealed against 51 per cent were modified or reversed, and this ratio reaches 100 per cent. at Meherpur, Murshidabad, Jangipur, Kandi and Satkhira, but the number of appeals was small. At Krishnagar the ratio was 68 per cent., and at Khulna 62 per cent. The Lieutenant-Governor is glad to observe that the number of witnesses detained over two days is generally small, but at Bagerhat in Khulna 30 per cent., and at Joynagar in the 24-Parganas 12 per cent. of the witnesses were so detained. The Honorary Magistrates at Alipore disposed of 12 police cases, of which three, or 25 per cent., were remanded more than six times. The only police case made over to the Honorary Bench at Satkhira in Khulna was remanded more than six times. Mr. Baker specially mentions the excellent work done at the head-quarters of the 24-Parganas by Babus Manilal Banerjee and Preo Nath Mullick, who sat singly, and the Lieutenant-Governor desires to thank these gentlemen for the assistance they afforded to the Officers of Government. Of the Benches in his district, except those at Sealdah and Barrackpore, Mr. Baker was unable to report favourably, and, with the exception to which reference has been made, the degree of success attained elsewhere in the working of the system was very moderate. The usual complaint is made of want of regularity in the attendance of Honorary Magistrates, and the Commissioner recommends that a rule should be made under which six consecutive absences would disqualify an Honorary Magistrate from further acting in that capacity. The following table, showing the attendance of Honorary Magistrates, is a sufficient

Honorary Magistrates.

indication that some action is called for; but the Lieutenant-Governor considers it sufficient that Honorary Magistrates who persistently refuse to attend should be requested to resign:—

District.	Number of times asked to attend.	Number of times actually attended.	Absence with leave or notice.	Absence without leave or notice.	Total absence.
1	2	3	4	5	6
24-Parganas	2,857	1,752	366	739	1,105

Khulna	662	446	67	149	216

Sessions Courts.

10. The statement below shows by districts the work of the Sessions Courts during the year:—

	District.					
	24-Parganas.	Nadia.	Jessore.	Murshidabad.	Khulna.	Total.
1	2	3	4	5	6	7
Number of cases committed during the year.	101	35	37	23	49	245
Number disposed of ...	64	33	40	21	49	207
Do. in which conviction obtained.	33	28	29	13	34	137
Number of above in which sentence modified or reversed by High Court.	4	2	5	...	5	16
Number of cases acquitted by Sessions Judge.	31	5	11	8	15	70

The general ratio of success in commitments was 60 per cent.; it exceeded 80 per cent in Nadia and 70 per cent in Jessore and Khulna, but fell to below 50 per cent. in the 24-Parganas. The Commissioner's report gives no indication of the causes of these varying degrees of success.

Fines.

11. The following is a statement of the fines imposed, realized and collected during the year:—

	District.				
	24-Parganas.	Nadia.	Jessore.	Murshidabad.	Khulna.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Amount due at commencement of the year ...	18,171	2,275	3,064	2,908	2,319
Do. imposed during the year ...	69,742	23,423	13,470	16,183	14,485
Do. collected during the year ...	61,138	18,783	12,693	14,094	13,915
Do. remitted or written off	......	3,740	562	2,010	......
Do. pending at end of year	19,151	3,175	3,279	2,988	2,889

The balance of uncollected fines has increased in every district of the Division, and is inconveniently large in the 24-Parganas.

Registration.

12. The following statement shows the work done by the different Registration Offices:—

DISTRICT.	Class of Registration Office.	Number of offices.	Number of documents registered.	Average per office.
1	2	3	4	5
24 Parganas ...	Special ...	1	4,339	4,339
	Rural ...	17	60,172	3,539
Nadia ...	Special ...	1	2,784	2,784
	Rural ...	10	17,403	1,740
Jessore ...	Special ...	1	5,748	5,748
	Rural ...	18	66,136	3,674
Murshidabad ...	Ex-officio ...	1	9,579	1,596
	Rural ...	5		
Khulna ...	Special ...	1	6,495	6,495
	Rural ...	11	29,016	2,637
	Total ...	66	201,672	

Most registrations were effected in the districts of the 24-Parganas and Jessore. In those districts the pressure of work in the rural offices was heaviest, and the number of registration offices might probably be increased with advantage.

Collection of Government demands.

13. The following table shows the demand, collections, and balances of revenue and cesses during the year, district by district, the three classes of estates referred to in the statement being—

I.—Permanently-settled estates;
II.—Temporarily-settled estates;
III.—Estates held direct by Government.

DISTRICT.	Class of demand.	Class of estates.	Number of estates.	DEMAND. Current.	DEMAND. Arrear.	COLLECTIONS OF 1891-92. Current.	COLLECTIONS OF 1891-92. Arrear.	BALANCE ON 1ST APRIL 1892. Current.	BALANCE ON 1ST APRIL 1892. Arrea.

				61,47,619		58,73,099		2,59,054	

* Rs. 13,349 were remitted.
† Rs. 97 were remitted.
‡ Rs. 74 were remitted.
§ Rs. 638 were remitted.
‖ Rs. 85 were remitted.
¶ Rs. 1,223 were remitted.
** Total remission Rs. 15,452.

The arrears of land revenue, which amounted to Rs. 1,62,883 at the beginning of the year, were reduced to Rs. 1,04,339 at its close, the percentage of collections on the total demand being 97·6 against 96·8 in the previous year. This is so far satisfactory, especially in a year in which agricultural conditions were unfavourable; but the arrears increased in class III estates in the 24-Parganas and in Jessore. Taking all demands together, the arrears were brought down from Rs. 2,98,941 to Rs. 2,59,054.

Certificates.

14. The following statement shows the numbers of certificates filed during the year and how they were disposed of:—

District.	Department.	Number pending at beginning of year.	Number filed during year.	Total for disposal.	Amount of certificate.	Number disposed of during year.	Amount realised.	Number pending at close of year.
1	2	3	4	5	6	7	9	8

	Total ...	882	3,023	3,905	90,035	2,351	62,806	1,554
	GRAND TOTAL ...	11,039	18,219	29,258	5,06,747	10,541	2,60,116	12,717

The number of cases pending at the close of the year exceeded the number pending at its commencement in all districts except Murshidabad, where the balance was reduced from 1,204 to 874, and in no district except Murshidabad did the number of cases disposed of keep pace with the number filed during the year. In the result the balances in all districts exceed 1,000 cases except in Nadia and Murshidabad, and in the 24-Parganas the balance is 3,315 cases.

Land acquisition.

15. The following table indicates that an attempt was made in the 24-Parganas and Murshidabad to reduce the files of land acquisition cases, but the number of cases pending is still large in the 24-Parganas:—

District.	Pending from last year.	Instituted.	Total.	Disposed of.	Balance pending at close of year.
1	2	3	4	5	6
24-Parganas	104	63	167	72	95
Nadia	5	3	8	3	5
Jessore	4	1	5	3	2
Murshidabad	26	3	29	21	8
Khulna	6	4	10	4	6
Total ...	145	74	219	103	116

Wards' Estates.

16. There are several Wards' Estates in the Division which are under the management of the Court of Wards. The most important are those of the minor Baroda Prosad Rai Chaudhuri of Bhawanipur in the 24-Parganas, and of the minor Ashutosh Nath Roy of Kasimbazar in Murshidabad. In the former estate which was in a very disorganized condition when it came under the Court of Wards, the collections were unsatisfactory, though the Commissioner reports that the Manager has effected much improvement by clearing off the mass of arrears left by his predecessor and adjusting outstanding accounts. It is hoped that this will be a prelude to better collections in the future. The total collections on the estate of the Kasimbazar Ward amounted to Rs. 4,23,309, being 61·3 per cent. of the total demand, while the current collections were 57·8 per cent. of the current demand. Partly by the help of the remissions of Rs. 20,696, the arrears with which the year commenced, viz., Rs. 3,47,579 were reduced to Rs. 2,45,676 when the year closed: but the figures prove that more attention was paid to the realization of arrears than of the current demand. The collections in all the Wards estates were very indifferent and require much closer attention from the Collectors. The Commissioner observes that the financial position of the Kasimbazar Ward's estate continues to be very prosperous, and that it yields a large surplus annually after defraying all expenses. The orders of Government about expenditure on improvements should be particularly applied in this estate. Two important estates were released during the year—the Nashipur mal estate, and the Nashipur debutter estate. The former had been under the management of the Court of Wards for 26 years and 4 months, during which time the total collections amounted to Rs. 70,57,386, or 98 per cent. of the aggregate demand. Rupees 1,04,408 were written off, and the balance outstanding at the date of release was Rs. 36,045 reported to be recoverable. The Nashipur debutter estate was under the Court's management for 13 years and 4 months. The collections amounted to Rs. 15,45,258, out of an aggregate demand of Rs. 15,66,227. Rupees 691 were remitted, and the balance outstanding at the date of release was Rs. 20,278. These results must be considered eminently satisfactory and creditable to the management of the Court of Wards.

The Syedpur Trust Estate in Khulna is managed on a system analogous to that for the management of estates under the Court of Wards. The total demand amounted to Rs. 3,04,816, of which Rs. 1,99,566 were collected and Rs. 416 were remitted, the percentage of collection on the total demand being 65·2. The balance is unduly large and should be explained.

Excise.

17. The more important excise statistics are included in the following table:—

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.
1	2	3	4	5	6	7	8	9	10	11	12	13
		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
24-Parganas	93	49,392	19,919	1,31,376	111	33,566	177	77,937	104	19,746	110	1,11,606

Murshidabad	...	1,60,441	2 0
Khulna	...	74,014	1 0
Total	...	8,41,426	1 6

The consumption of exciseable articles is largest in the 24-Parganas.

18. The total number of schools has increased from 5,641 to 5,675, and the total number of pupils from 178,643 to 180,636, showing a net gain of 34 schools and 1,993 pupils.

Education.

The Lieutenant-Governor shares the satisfaction expressed by the Commissioner in recording the facts that the gain has occurred almost entirely in the lower primary and special schools, and that the contributions of District Boards and Municipalities to primary education are increasing in this division. His Honour has read with much pleasure the following remarks of the Commissioner:—

"The District Boards, which have now worked for about six years, continue to take a lively interest in all educational matters, and their relations with the Educational Department are perfectly cordial. In the 24-Parganas a revised scheme has been sanctioned during the year for the better inspection of primary schools under the District Board by the substitution of inspecting pundits for chief gurus, and it is proposed to introduce the system into the other districts during the current year."

But while recognizing that an improvement has occurred not only in the actual figures, but also in the attitude of local bodies towards the education of the masses, the Lieutenant-Governor still regards the proportionate expenditure by District Boards on high and middle schools, especially in the districts of Nadia, Jessore, and Khulna, as excessive, and considers that a considerable part of the sums so spent might, with advantage, be devoted to primary education. As regards municipalities, His Honour has constantly laid down the principle that it is one of their first duties to provide primary education for all the boys resident within their limits, and until this duty has been performed, no municipality should be allowed to give anything to secondary education. The following table brings together the main educational statistics, and the figures in column 14 will show that the proportion of boys at school to boys of school going age varies from 47 per cent. in the 24-Parganas to 21 per cent. in Nadia and Jessore, and that there is a large field for improvement:—

District.	Class of school.	Number of schools.	Number of pupils on rolls.	Cost. Provincial.	District Board.	Municipality.	Fees.	Other.	Total.	Cost per head of pupils.	Population.	Number of boys of school-going age from Director of Public Instruction's report.	Percentage of pupils on rolls to boys of school-going age.

	Primary	5,121	1,44,054	27,351	69,117	7,426	1,94,167	77,793	3,75,854	2 9 8			
	Miscellaneous ...	119	1,216	23,543	......	771	1,079	14,809	40,202	33 0 11			
	Grand Total	5,675	180,636	1,18,248	1,14,713	12,632	4,28,076	2,04,991	8,78,660	4 13 9	7,853,560	593,460	30

The cost of each primary pupil exceeds Rs. 2 in all districts and Rs. 3 in Nadia. The contribution of District Boards and Municipalities to primary education amounts to less than one rupee per pupil in all districts, and less than eight annas per pupil in the 24-Parganas and Khulna.

Dispensaries.

19. The following table gives statistics concerning the dispensaries in the division, except those in the district of Murshidabad, as to which no figures have been furnished:—

DISTRICTS.	Number of dispensaries.	INCOME FROM—					DAILY AVERAGE PATIENTS—		Ratio per cent. of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In-patients.	Out-patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
24-Parganas	19	1,246	524	10,270	21,207	33,247	67·40	771·24	5
Nadia	7	54	100	6,169	120	6,443	24·31	23[illegible]·68	1·8
Jessore	6	70	1,352	2,722	1,284	5,428	[illegible]	139·70	1·1
Murshidabad	Information not given.								
Khulna	5	438	283	3,044	963	4,728	4·23	209·42	1·6

The ratio of the out-door patients to the total population is very low in Nadia, Jessore and Khulna, but in this and the other districts for which figures have been given the number of out-patients is far in excess of the number of pupils at the schools.

Local Self-Government institutions.

20. The District Boards are well spoken of in all districts except Khulna, where the amount of interest taken by members in the details of the administration is said to have diminished. The Local Boards are, as a rule, inefficient and supine. It is said that the amount of work entrusted to Local Boards is small, and not of a character to encourage zeal, but, until this unimportant but necessary work is well and thoroughly done, members cannot hope to have extended powers.

As regards municipalities, the report can only be said to be moderately satisfactory. The Lieutenant-Governor fears that there is too much truth in the following observations of the Commissioner, which would have been more conclusive if concrete instances of good and bad work had been given:—

"The great object of all Municipal Commissioners is to win popularity by reducing the public taxation as much as possible, regardless of the requirements of the town. It must not, however, be supposed that all municipalities are alike in this or in other respects: some are honourably distinguished by intelligent and zealous devotion to public interest, while others, and some of them, too, in the most advanced districts in the country, waste their time in party feuds and neglect their duties."

Public opinion and the conduct of zamindars.

21. There is little to be said regarding the state of public opinion during the year under report. The Commissioner writes:—

"Very little interest is taken in such matters by any but the educated classes, and their opinions are not always well considered. This class can hardly as yet be taken as a fair representative of what is known in European countries as public opinion, because public opinion in that sense does not exist in India, and the efforts made to create it do not seem as yet to have met with success."

Public feeling was in no instance more strongly aroused than by the lamented death of His Royal Highness the Duke of Clarence and Avondale, which evoked the greatest sympathy from the people for the Queen-Empress and the Royal Family in their bereavement. Regarding the Native Press Mr. Beames writes:—

"As I was in India only during the last four months of the year, I have not had much opportunity of noticing the tone of the native press during the period under review. I have never found that anything the native papers may write has any appreciable effect upon the population at large. An editor must live like any one else, and the higher he spices his paper the better it sells. This consideration accounts for much that is objectionable. They do not mean any harm, and I do not think they do any. They only want to sell their papers. It is perhaps a pity that they cannot find some other employment, but it is hardly worth while to be seriously annoyed with them."

22. In respect to the conduct of zamindars, the Maharani Sarnomoyi, C.I., maintained her high reputation for public spirit and benevolence. Khurshed Kadr Syad Iskandur Ali Mirza (Sultan Saheb) and Sulaiman Kadr Syad Wahed Ali Mirza (Nawab Jan Saheb), brothers of the Nawab of Murshidabad, continued to render useful service to their native town, the former as Chairman of the Municipality, and the latter as an Honorary Magistrate. The Kandi zamindars and Rai Dhanput Singh Bahadur have also been conspicuous for their public conduct, and the district of Murshidabad is fortunate in the possession of leading citizens such as those who have been named. In Nadia Babu Nafar Chandra Pal Chaudhri, Vice Chairman of the District Board, and in Jessore Mr. Shireff and Babu Ram Mohan Roy of Lagimia in the Jhenida sub-division, are especially well spoken of.

Conclusion.

23. Sir Charles Elliott desires to acknowledge the efficient administration of Messrs. Smith and Beames during the year. His Honour has read with gratification the favourable reports of the conduct of District Officers, conspicuous among whom are Messrs. Baker and Collier. The confidential reports on all officers will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL DURING THE YEAR 1891-92.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 13th December 1892.

RESOLUTION.

READ—

The reports from the several Commissioners of Divisions on the working of the Municipalities in Bengal (except Calcutta) during the year 1891-92.

Read again—

The Resolution reviewing the Divisional Commissioners' reports on the working of Municipalities during the year 1890-91.

The following Resolution reviews the reports submitted by Commissioners of Divisions on the working of municipalities during the year 1891-92. The Lieutenant-Governor regrets to notice that these reports were again received late, which is due to the fact that in the majority of cases district reports did not reach the Commissioners till after the due date. His Honour is aware that some delay was caused by orders received locally after the close of the year prescribing changes in the form of the reports and the submission of additional information, and he is not insensible to the difficulty of obtaining complete reports from the smaller municipalities, but he requests that steps may be taken to prevent delay in future, and in particular that some time before the end of the year, the attention of all Chairmen may specially be drawn to the subject.

2. *Amendment of the Bengal Municipal Act III of* 1884.—Early in 1891-92, the attention of the Lieutenant-Governor was drawn to a judgment of the High Court, ruling that orders passed extending to particular municipalities certain provisions of the repealed Bengal Municipal Act V of 1876 did not apply to the corresponding provisions of Bengal Municipal Act III of 1884. It followed that these provisions dealing with important branches of conservancy, sanitation, and cognate subjects, were not legally in force in any municipality to which they had been extended under Bengal Act V of 1876. This state of things called for an immediate remedy. Two courses were open, either to amend the Act so as to validate orders of the kind referred to which were passed under the old Act, or to issue fresh orders under the new Act for each place affected by the judgment. While considering this point the Lieutenant-Governor was led to enter upon the general question, whether the time had not come to amend the Bengal Municipal Act III of 1884 on a variety of points which had from time to time been brought to notice as calling for amendment. The matter principally requiring reform is the system under which the assessment of municipal rates is framed, in which many irregularities are found to exist. Larger powers are also needed to enable the municipalities to enforce sanitary regulations, and provisions are required to facilitate the control of the Government over municipalities which neglect their duties, a control which can now only be exercised by the drastic process of suspending or abolishing the powers of the Commissioners. A draft Bill embodying such changes as appeared to be most urgently called for was accordingly prepared and submitted for approval to the Government of India. The question was still under discussion at the close of the year.

3. *Number of Municipalities.*—The total number of Municipalities in existence at the close of the year was 145, being the same as in the previous year. The statement in Appendix A shows the date of establishment of each municipality in the province, the population within municipal limits, and the actual number of rate-payers in each. The total population enjoying the benefits of municipal administration in the 145 municipalities in Bengal (outside Calcutta) is shown by the recent census as 2,721,405 souls. In 1881-82, when the previous census was taken, the number of municipalities including Unions and Stations was 185 and their population amounted to 3,005,029. The municipal population of Bengal was therefore 4·5 per cent. of the whole in 1881-82 and 3·8 per cent. in 1891-92. The decrease in the number of municipal institutions and of the population under municipal government is due to the operation of Act IV (B.C.) of 1884, which did away with a large number of unions which existed under Act V of 1876. These were small groups of villages which in reality were in no

sense urban, and the administration of which it seemed better to transfer to the District and Local Boards then about to be formed.

4. The percentage of rate-payers is highest in the Presidency Division, where it is 21·3, and lowest in the Orissa Division, where it is no more than 14·5. In some few municipalities the proportion per cent. considerably exceeds the provincial average, as for instance in the three municipalities in Nadia of Birnagar (34·3), Ranaghat (30·8), and Santipur (30·2). In Cuttack and Darbhanga, on the other hand, the ratio was as low as 8·8 per cent. The extremely low figures in these two important municipalities indicate either an extraordinary proportion of the very poorest classes or the need for a thorough revision of the assessment. The average proportion of rate-payers to the whole population within municipal limits was 17·4 per cent.

5. *Elective System.*—The system under which two-thirds of the total number of Commissioners fixed for each municipality are elected by the rate-payers was, as in the previous year, in force in all the municipalities except the twenty-eight named in the Resolution for 1890-91.

6. *Results of elections held during the year.*—General elections were held only in the Municipalities of Kharar in Midnapore and Hazaribagh. In both places the elections were contested, but not with much spirit. The average attendance of voters at Kharar and Hazaribagh was 27·6 and 42·7 per cent. respectively of the total number of electors qualified to vote. The results of the bye-elections, as also those of the general elections mentioned above, are shown in detail in Appendix B. These bye-elections were in many cases contested, the percentage of attendance of voters varying from 77·7 at Arrah to ·09 at Lalbagh. Two of the bye-elections held during the year failed, one at Uttarpara and the other at Cuttack, and the vacancies were filled by the appointment of Commissioners under section 16 of the Act. It is curious to notice that in one ward in the Meherpur Municipality there are only three persons registered as qualified to vote at an election, and it seems ridiculous to recognise it as a separate ward for electoral purposes. The general percentage of voters at the elections held during the year for which complete figures are given was only 37·5, a figure which indicates clearly enough that in spite of statements often made to the contrary the average voter sets but little store by the privilege of the franchise.

7. *Constitution of Committees.*—The following table shows, separately for each Division, the constitution of the Committees of the municipalities, together with the professions or occupations of their members:—

NAME OF DIVISION.	Nominated.	Elected.	Total.	Europeans.	Natives.	Government servants.	Zamindars or other land-holders.	Pleaders and mukhtears.	Planters.	Merchants, traders and money-lenders.	Medical practitioners.	School-masters (other than Government servants).	Government pensioners.	Unspecified.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

The proportion of members of the legal profession is highest in the Chittagong and Chota Nagpur Divisions, where it is 36·9 and 34·7 per cent. respectively. In the Presidency and Burdwan Divisions the percentage is only 13·5 and 20·7. The landholding class are best represented in the Patna Division (26·2 per cent.), the Presidency (22·1 per cent.), Dacca (21·8 per cent.), and Bhagalpur

(21·2 per cent.). In the Patna Division there is a considerable proportion of non-official Europeans, and in the Monghyr district three-fourths of the Commissioners are European employés of the East Indian Railway. The table in the margin which compares the percentage of officials and Europeans, respectively, on the total number of Commissioners during 1890-91, with the corresponding percentages of the previous five years, shows that the flucuations have been very small.

	Officials.	Europeans.
1886-87 ...	15·6	9·1
1887-88 ...	16·2	9·4
1888-89 ...	16·0	8·9
1889-90 ...	16·1	9·0
1890-91 ...	17·5	8·2
1891-92 ...	16.8	9·0

8. *Attendance at meetings.*—The table in Appendix C shows the number of meetings held in each municipality and the average percentage of attendance of Commissioners at each meeting. The largest number of meetings during the year in any municipality was 56, held by the Municipal Commissioners of Kumarkhali, a figure which implies either an extraordinary devotion to business or an unusual difficulty in securing a quorum. In each of the following thirty-seven municipalities the number of meetings held exceeded 20: during the previous year only twenty municipalities reached this standard :—

District.	Name of Municipality.	Number of meetings.	Average percentage of attendance.
Nadia ...	Kumarkhali ...	56	49·4
24-Parganas ...	Cossipore-Chitpur ...	40	70·3

Mymensingh ...	Kishoregunge ...	21	31·5

Under section 38 of the Municipal Act a meeting is to be held ordinarily once a month unless there is no business to transact, when a notice to that effect should be circulated to the Commissioners. As many as twenty-two municipalities held less than 12 meetings, the most prominent cases of default being those named in the margin. Both of the first

Jagdispur	6
Lalgunge	6
Jamalpur in Monghyr ...	8
Balasore	8

two municipalities are badly spoken of by the district officer, and seem to need stimulus or abolition. At the same time it is to be noted that frequent meetings do not necessarily imply successful administration, since the Commissioners of Puri met on 26 occasions.

9. In respect of percentage of attendance the results of the year are satisfactory. In five municipalities three-fourths of the Commissioners attended every meeting, and in ninety-seven others the attendance was more than 50 per cent., so that the minimum attendance of one-half suggested in the Resolution for 1890-91 was attained in one hundred and two municipalities out of one hundred and forty-five as against eighty-three in 1890-91. The Lieutenant-Governor has read these figures with satisfaction. The highest average percentage of attendance was attained in the North Barrackpore Municipality, where it is shown to be 87·5, and the lowest place is held by Ranchi, where at 12 meetings an average of only 30·7 per cent. of the Commissioners attended.

10. *Ward Committees.*—In consequence, probably, of the remarks made in last year's Resolution, considerable attention has been given in this year's Reports to the question of appointing Ward Committees, and the general opinion appears to be unfavourable to their creation. They exist in 19 Municipalities only. It is reported that in the Burdwan Division, endeavours are being made to appoint Ward Committees in the Municipalities of Kalna, Raniganj and Suri, and that the Commissioners of the Burdwan Municipality are averse from this measure as it had not been found to work well. The Chairman of the Howrah Municipality holds that it is not desirable to appoint Ward Committees in Howrah, as there is a strong "executive, quite distinct from the Commissioners, which recognizes only the orders of the Commissioners as a body, and not orders of single Commissioners. A Ward Committee is partly consultative and partly executive, and is thus peculiarly liable to exercise abuse of powers." The Commissioner agrees in this view. In Burdwan no Ward Committees have been formed, but the elected Commissioners are supposed to look after the interests of the wards for which they were severally elected. A counterfoil book is supplied to each Commissioner in the following form:—

Street.	Matters brought to notice.	Street.	Matters brought to notice.	Orders passed by Chairman.

The Commissioners keep the counterfoil and send the other part to the Chairman for action. This is a good idea, and the Lieutenant-Governor trusts that it will commend itself to the Commissioners of Municipalities in which no Ward Committees have been formed. The Magistrate of Nadia, however, thinks that it is a mistake to entrust these Committees with the duty of making assessments or collection of taxes, as being residents of the wards, the members are not strong enough to resist local influence or to risk odium. Their services could, he says, be better utilised in supervising conservancy arrangements, road-cleaning, and petty public works. The Commissioner of Rajshahi reports that the Ward Committees that existed formerly in the Rampur Boalia Municipality having proved of little use during the incumbency of the late Municipal Board, no such Committees were formed by the existing Board, and the duties hitherto delegated to the Ward Committees are now performed by the Ward Commissioners. The views of the Commissioner of Dacca on the subject are expressed in the following extract from his report:—"As the result of personal enquiries in another part of Bengal, I attribute the unwillingness of Commissioners to appoint Ward Committees to a want of confidence in such Committees observing a uniform mode of procedure in dealing with matters entrusted to them. Chairmen who take the greatest interest in their duties prefer to seek the

co-operation of individual Commissioners, whose views are in sympathy with their own, to constituting Ward Committees that might become the centres of organized opposition to their wishes." Referring to the Ward Committees in the Arrah Municipality, the Chairman observes:—"I am not sure myself that the institution of Ward Committees in Arrah is necessary at present. The Chairman and Vice-Chairman look after the sanitation of the town and give their directions to the Overseer. If the Ward Committees acted wisely and energetically, they would be no doubt of use, but from my experience of three months' work in this municipality, I think their supervision would give the Chairman more trouble and take up more time than the performance in person of their duties would demand." The Commissioner of Patna agrees with these remarks; and reports that Ward Committees are no doubt very good in theory, but in practice they merely tend to disintegrate the working and generally to dissipate the control of the central authority, and as a general rule they give more trouble than they are worth. As regards the Cuttack Municipality, the Commissioner of the Orissa Division reports that the crying want of this municipality is a thoroughly competent staff for supervising its public works. Complaints are made by the rate-payers, that no steps have yet been taken for the formation of such Ward Committees, and that the Chairman and Vice-Chairman do not periodically and constantly inspect every part of the town. These officers cannot always afford the necessary time, but if Ward Committees were formed the members of them could do so on behalf of the rate-payers.

11. *Municipal Benches.*—The Municipal Benches in the Province which were four less than in 1890-91 tried 20,090 cases of nuisance and breaches of conservancy rules in which 17,354 persons were convicted, against 19,668 cases and 17,689 persons convicted in the previous year. The amount of fines inflicted on each offender varied considerably, the general average being Re. 1-2-1. Some few of the benches appear to exist in little more than name, the work done at Goverdanga, Nator, and Daudnagar for instance being very small, while seventeen others tried less than 100 cases. Where Municipal Benches exist full use should be made of their powers for the punishment of petty offences against municipal and conservancy regulations, and for the relief of the stipendiary Magistracy. The Municipal Bench at Faridpur and three benches in the Saran district were abolished on the establishment of independent benches in those places. The Lieutenant-Governor is inclined to believe that some of these benches do not fulfil the conditions under which municipal benches were established by Sir George Campbell in 1873, and that some of them try cases other than those under the Municipal Act and the conservancy clauses of the Police Act. The point will be separately dealt with.

12. *Assessments.*—The statement in Appendix D shows the mode of assessment prevailing in each municipality in the province, the rate at which the tax was levied, *i.e.*, whether on holdings or on persons according to their circumstances and property within municipal limits, and the result of any revision of assessment made during the year. The tax on holdings was in force in thirty-six municipalities* as in the previous year, and was levied at rates below the legal maximum (which is, with two exceptions, 7½ per cent. per annum on the annual value of holdings) in twelve towns as in 1890-91. The names of these twelve towns and the rate at which the tax is levied in each are given below—

* Division		
Burdwan	Division	... 8

	Sahibganj ...	5	

13. As observed in last year's Resolution, seven out of these municipalities are the head-quarters stations of important districts, and it is not satisfactory to find that they should have again found places in the foregoing table, when want of funds is found to hamper municipal administration on all sides. The rate at Darjeeling was further reduced during the year from 7 to 5½ per cent., owing it is said to "the year having opened with a very large opening balance (Rs. 24,755), and because it was felt that the valuations of house property were specially high and the tax pressed heavily." Since the close of the year the rate is said to have been raised at Darjeeling to 6 per cent., and at Naraingauj to 6¾ per cent. The Lieutenant-Governor must repeat the observations he made last year, and say again that "as long as the Municipal Commissioners of thriving towns so far neglect the means ready to hand of raising the funds required for much-needed improvements, the Lieutenant-Governor cannot admit the plea of financial inability so often put forward as an excuse for inaction in the most important duties of a Municipal Committee."

14. The average incidence per head of municipal taxation of all kinds throughout Bengal (excluding Calcutta) was Re. 0-12-4, against Re. 0-11-11 in the previous year; and in sixty-seven municipalities (none in the Rajshahi Division) the incidence amounted to 8 annas or less per head against seventy-two in the preceding year. The figures for the several Divisions show great variations, which do not seem to be altogether commensurate either with the wealth or the wants of the towns in question:—

Average total for the Province ...	...	...	...	...	0 11 11	0 12 4	

The average rate in the thirty-six towns where the tax is levied on holdings,—which comprise the largest and wealthiest towns in the Province,—is 9 annas per head: in the remaining one hundred and nine Municipalities where it is levied on persons it is 6 annas per head.

15. The general or partial revisions of assessment undertaken and brought into force during the year resulted in an increase of income in fifty-two and a loss in twenty municipalities. In some cases the operations were not completed during the year, and in others it was proposed to enforce the new assessments with effect from 1st April 1892. The largest increase of income accrued to the Municipalities of Muzaffarpur (Rs. 3,000), Cossipore-Chitpur (Rs. 2,805), Jessore (Rs. 2,114), Barisal (Rs. 2,123), Balasore (Rs. 1,778), Burdwan (Rs. 1,442), Jalpaiguri (1,290), Dinajpur (Rs. 1,216), Nator (Rs. 1,171), Jajpur (Rs. 1,044), and Kendrapara (Rs. 1,000). It is reported, however, that through party feeling which ran high at Jessore, the revision was made inoperative on technical grounds. As the Chairman of this Municipality has lately been removed and the Vice-Chairman has resigned, it is hoped that obstruction will cease. With regard to the reduction of income in the municipalities in the Patna Division, the Commissioner of the Division remarks:—

"It is very evident that the assessments are not made on a regular system, and there is much room for improvement in this matter. The appointment of an independent assessor contemplated in the new Municipal Amendment Act is a much needed reform."

16. The subject of municipal assessment and its periodical revision is one of very great importance, and holds a prominent place in the Bill for municipal amendment now before the Bengal Council. For this reason the Lieutenant-Governor will not say much on the subject in this place, but will merely remind Municipal Commissioners that the most certain way of escaping the interference of Government and the appointment of an independent assessor—

measures which in some quarters are viewed with some mistrust and apprehension—is to make a fair and reasonable assessment up to the limits allowed by law. The wants of almost all municipalities in the direction of drainage, water-supply, conservancy, roads and lighting are still insufficiently met, and until these omissions, which all make for the best interests of the population, whether rich or poor, are made good, no considerations should be allowed to interfere with the clear duty of the Commissioners.

17. *Demands, collections, remissions, and outstandings on account of taxes.*—The statement in Appendix E shows for each municipality the demands, collections, remissions, and outstandings for all sorts of taxes taken together. The current demand was Rs. 19,59,240, and out of this Rs. 15,69,550, or 80·1 per cent., was collected. Of the arrear demand of Rs. 4,15,370 only Rs. 2,99,455 or 72 per cent., was collected, and Rs. 61,011, or 14·6 per cent., was remitted. The total demand (including arrears) amounted to Rs. 23,74,610, of which Rs. 18,69,005, or 78·7 per cent., were collected, and Rs. 1,10,528, or 4·6 per cent., remitted, leaving an outstanding balance of Rs. 3,95,077, being about 16·6 per cent. of the total demand. The closing balance is less by Rs. 20,293 than the opening balance was. The table below summarises the results obtained by the municipalities in the various Divisions in this branch of administration:—

Percentage of total collections on total demand.	Burdwan.	Presidency.	Rajshahi.	Dacca.	Chittagong.	Patna.	Bhagalpur.	Orissa.	Chota Nagpur.	Total.
	Number of Municipalities.									
From 90 to 99·9 per cent.	9	10	4	7	1	14	2	2	3	52
„ 80 to 89 „	6	10	4	4	3	7	6	1	3	44
„ 70 to 79 „	4	11	...	5	1	3	2	1	1	28
„ 60 to 69 „	1	5	3	...	...	1	1	1	2	14
„ 50 to 59 „	6	1	...	...	...	...	...	...	...	7
Total ...	26	37	11	16	5	25	11	5	9	145

It will be seen that the Dacca and Chittagong Divisions show the best results all round. In the Dacca Division seven out of its eleven municipalities are in the highest group,—and in neither division did any municipality collect less than 70 per cent. Patna has the largest proportion of its municipalities in the first class. The Burdwan and Presidency Divisions occupy the last places in the scale, and it is to be regretted that these Divisions, which are considered by many of their inhabitants to be in the fore-front of progress, should show so poor a result.

18. It appears from Appendix E that in eleven municipalities there was no demand outstanding at the close of the year, the highest remissions allowed in any one of these cases amounting to 5·1 per cent. of the total demand, and that in seven more municipalities the unrealized demand was only Rs. 10 or under. It is clear, therefore, that other municipalities could show better results, if greater interest were taken in the collection of their revenue by the Commissioners concerned. It is evident from the reports that Commissioners of Divisions are paying attention to this matter, and the Lieutenant-Governor will only express the hope that the returns for the next year will show better results. Large remissions were allowed in the municipalities named in the margin. The Commissioners of Divisions are requested to see that any tendency to grant large remissions of recoverable arrears with the object of clearing off outstanding balances is checked.

Barasat ...	13·1	Bazitpur ...	10·2
Jessore ...	12·1		

19. The Lieutenant-Governor must record his opinion that the figures do not constitute a satisfactory record. For Land Revenue the standard of collection has been laid down at 95 per cent. for current and 99 per cent. for the arrear demand, and the Lieutenant-Governor is not aware of any reason why the

realisation of Municipal demands should not attain to the same standard: that it can be done is patent from a glance at the foregoing paragraph, and Sir Charles Elliott must insist on continued attention being given to the subject during the current year, for the strict and punctual collection of the demand is essential to the well-being of a Municipality.

20. *Fresh imposts during the year.*—The Hackney Carriage Act was extended to the towns of Naihati and South Barrackpore in the 24-Parganas, and the Pilgrim Lodging-house Act was extended to the town of Nadia during the year. The Municipal Commissioners of Debhata in Khulna obtained sanction to levy tolls at a ferry over a khal within their jurisdiction, but there were no receipts from it in the year under report. The provisions of the Municipal Act regarding the levy of fees on the registration of carts kept or habitually used within the municipal area have been introduced into Lalganj, Sitamarhi, and Madhubani in the Patna Division and Chaibassa in the Chota Nagpur Division. A water-rate of 3 per cent. on the annual value of holdings was for the first time collected in the Bhagalpur Municipality. In the Municipalities of Burdwan, Bhadreswar, Kalna, and Balasore fees were for the first time levied under Part IX of the Act, although that part had been extended to those Municipalities some time ago.

21. *Extension of various provisions of the Municipal Act and Bye-laws sanctioned during the year.*—The conservancy and other provisions of Part VI of the Act were extended wholly or partially during the year to the municipalities of Burdwan, Howrah, Sonamukhi, Bally, South Suburbs, Baranagar, South Barrackpore, Meherpur, Satkhira, Santipur, Kushtia, Patna, Tikari, Cuttack, Jajpur, Puri, and Hazáribágh. Part VII, which relates to water-supply, was extended to part of the municipality of Bhagalpur. Part IX, which regulates the construction and cleansing of latrines, but which in the opinion of the Lieutenant-Governor is open to serious objection as imposing taxation on persons who receive no service in return, was extended to the municipalities of Howrah, Uttarpara, Kumarkhali, and Kishorganj, and to the portions of the municipalities of Bhadreswar, Hooghly and Chinsura, Baranagar, North Barrackpore, Krishnagar, Patna, Motihari, and Cuttack. The provisions of this Part, which had been extended to Motihari Municipality in December 1888, were withdrawn during the year on the recommendation of the Commissioners. Part X, which contains provisions for the regulation of markets, was extended to the municipalities of Burdwan, Howrah, South Barrackpore, Patna, Tikari, Monghyr, and Hazáribágh. Bye-laws framed under section 350 of the Act by the Commissioners of the following municipalities were confirmed by Government:—

Serampore.	Goverdanga.	Tikari.	Darbhanga.
Baranagar.	Dacca.	Daudnagar.	Cuttack.
Satkhira.	Nasirabad.	Siwán.	Jhalda.

22. *Income and Expenditure.*—The following table compares the opening balances, income, expenditure, and closing balances of the municipalities in each Division, for the year 1891-92 with those of the preceding year:—

Division.	Opening balance.		Income during the year.		Total funds available for expenditure.		Total expenditure.		Closing balance.	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.

There is a total discrepancy of only Rs. 90 between the opening balance of 1891-92 and the closing balance of the previous year. This is due mainly to the readjustment of the old accounts of the Revelganj Municipality. The other small discrepancies have been explained by the local officers.

23. The closing balances in some of the municipalities appear to have been again unnecessarily large, and it seems to have been forgotten in some places that endeavours should always be made to utilise the funds raised in any year during that year, unless it is proposed to accumulate funds for some expensive undertaking, such as drainage or water-works. The accumulation of a large closing balance usually implies inefficient handling and an inadequate control over works and expenditure. The following are some of the municipalities in which the accounts for 1891-92 have closed with unduly large balances as compared with the income during the year:—

Name of municipality.	Total income of year (excluding opening balance).	Closing balance.	Name of municipality.	Total income of year (excluding opening balance).	Closing balance.
	Rs.	Rs.		Rs.	Rs.
Serampore ...	77,001	29,714	Chanduria ...	2,192	1,161

			Jhalda ...	2,626	1,200

INCOME.

24. It will be seen from the table in the preceding paragraph that there was a total increase in the income of municipalities in Bengal (except Calcutta) of Rs. 80,028. The income under the debt and suspense heads, including loans, deposits, and advances, amounted to Rs. 2,51,057 against Rs. 2,88,144 of the previous year; and the real increase in the income may therefore correctly be taken at Rs. 80,028+Rs. 37,087 (the difference between the receipts under the debt heads), or a total of Rs. 1,17,115.

25. The following table shows the income from taxation proper during 1891-92 and the two previous years:—

Year.	Names of Divisions.									
	Burdwan.	Presidency.	Rajshahi.	Dacca.	Chittagong.	Patna.	Bhagalpur.	Orissa.	Chota Nagpur.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90	5,07,501	3,87,817	1,68,252	2,23,819	45,146	3,58,813	1,40,136	65,884	38,541	19,35,911
1890-91	5,43,474	4,19,602	1,76,072	2,10,760	49,737	3,56,439	1,29,983	67,704	38,180	19,91,960
1891-92	5,43,855	4,56,946	1,75,379	2,29,153	55,208	3,83,542	1,45,281	65,911	40,797	20,96,162

26. The nett increase or decrease of income under this head in each Division during each of the last three years, as compared with the next preceding year, is shown in the following table:—

Division.	Increase (+) or decrease (—).			Total.
	1889-90.	1890-91.	1891-92.	
Burdwan ...	+ 7,318	+35,973	+381	+43,672
Presidency ...	Not known*	+31,785	+37,344	+69,129
Rajshahi ...	+7,371	+7,820	—693	+14,498
Dacca ...	— 8,739	—13,059	+18,393	—3,405

Total ...	+57,504	+56,049	+1,04,202	+2,17,755

* Owing to the abolition of the Suburban Municipality on the 1st April 1889.

Bhagalpur Division	...	11·6
Chittagong „	... ...	11·2
Presidency „	... ...	8·9
Dacca „	... ...	8·7
Patna „	... ...	7·6
Chota Nagpur „	... ...	6·5

27. Thus the total income from taxation during 1891-92 shows an increase of Rs. 1,04,202 or 5·2 per cent. over that of the previous year, whilst in the case of the Divisions named in the margin the increase ranged between 11·6 and 6·5 per cent. of the previous year's income. Excluding the Darjeeling Muncipality, which shows a falling off of Rs. 7,929 in the income from taxation, the total income of the other municipalities in the Rajshahi Division shows an increase of 5·6 per cent. Although there was only a nominal increase in the Burdwan Division, the results must on the whole be considered satisfactory, seeing that there were large increases in the two previous years. In this Division Howrah shows a decrease of Rs. 15,881, and seven other municipalities also show a slight falling off of income. In Howrah the decrease is said to be due to defects in the system of collection. The rest of the municipalities show a total increase of Rs. 16,262. The results attained in the Chota Nagpur Division may also be considered satisfactory; but in the Orissa Division, what was gained in the previous year was lost during 1891-92. Taking the case of individual municipalities, the following show the largest fluctuations:—

Name of Municipality.	Amount of increase.	Name of Municipality.	Amount of decrease.
	Rs.		Rs.
Baidybati	... 5,219	Howrah	... 15,881
Burdwan	... 6,457	Serampore	... 4,282
Cossipore-Chitpur	... 11,781	Darjeeling	... 7,929
Santipur	... 7,176		
Dacca	... 4,259		
Chittagong	... 4,834		
Patna	... 6,769		
Gaya	... 4,793		
Sasarám	... 4,245		
Muzaffarpur	... 4,448		
Bhágalpur	... 4,895		

28. The statement in Appendix F shows the details of income under each head, separately for each Division, as compared with that of 1890-91. The total receipts from the municipalities show an increase under the following heads:—

Heads of Revenue.	Amount of increase.
	Rs.
Taxation—	
Tax on houses and lands	... 16,481
Tax on animals and vehicles	... 6,722
Tax on professions and trades	... 3,293
Water-rate	... 3,520
Conservancy rates	... 39,167
Tax on persons according to their circumstances and property	... 41,041
Total Taxation	... 1,10,224
Miscellaneous	... 12,913
Total increase	... 1,23,137

On the other hand there was a decrease under the following heads:—

Heads of Revenue.	Amount of decrease.
	Rs.
Tolls (on roads and at ferries)	... 4,174
Lighting rate	... 1,848
Extraordinary and debt	... 37,087
Total	... 43,109
Nett increase	... 80,028

29. *Tax on houses and lands.*—There was an increase under this head as compared with the previous year in five Divisions, *i.e.*, in all except Burdwan, Rajshahi, and Orissa which show a falling off of Rs. 8,564, Rs. 6,029, and Rs. 1,420, respectively; in the Chota Nagpur Division this form of taxation is not in force in any of the Municipalities. The Municipalities named in the margin show the largest amount of increase in the five Divisions referred to above. In the Chittagong Municipality the income has risen from Rs. 7,804 in 1889-90 to Rs. 20,000 during the year under review; and in Sahebganj the income has more than doubled during the year. Of the eight Municipalities in the Burdwan Division in which this tax is levied, four show a decrease, namely, Howrah (Rs. 8,988), Bally (Rs. 1,858), and Serampore (Rs. 2,722), and Utterpara (Rs. 720). The decrease in Howrah is due to defects in the system of collection, and in Bally to confusion caused by revision of assessment, and also to the continued illness of some of the collecting staff. In Serampore also the decrease was partly due to the negligence of the tax collectors, and partly to the fact that the work of collection was stopped for about a month during the Local Auditor's visit. In the Presidency Division there was a falling off of Rs. 1,408 in the South Suburban Municipality, owing to great delay in the completion of the assessment. In the Orissa Division, the Puri Municipality shows a falling off of Rs. 1,092, this decrease being attributed to the non-realization of taxes due from persons whose houses were damaged by the late cyclone.

Name of Municipality.	Receipts.		Increase.
	1890-91.	1891-92.	
	Rs.	Rs.	Rs.
Cossipore-Chitpur	48,671	55,244	6,573
Santipur ...	10,511	17,627	7,116
Jessore ...	7,559	8,725	1,166
Dacca ...	55,042	58,518	3,476
Naraingani ...	17,017	19,517	2,500
Chittagong ...	12,862	20,000	7,138
Patna ...	60,097	70,036	9,939
Gaya ...	34,504	38,439	3,935
Muzaffarpur ...	21,341	26,998	5,657
Purnea ...	8,895	11,407	2,512
Sahebganj ...	2,725	5,665	2,940

30. *Tax on animals and vehicles.*—The increase under this head was shared by all the Divisions except Chittagong and Patna, and it occurred mainly in the Municipalities of Midnapore (Rs. 3,258), South Suburban (Rs. 1,413), and Rangpur (Rs. 1,798). In the Patna Municipality there was a falling off of Rs. 5,127 chiefly due to decrease in receipts from the tramways, the Commissioners having remitted one-half of the rent due from the trustees up to March 1892. The increase in Midnapore is due to the realization of the arrears owed by the contractor to whom the cart registration fees were farmed out in previous years: this system has since been discontinued, since it was condemned by the Commissioner of the Division and the Legal Remembrancer. Although there was a slight increase in the Howrah Municipality, the Magistrate thinks that the revenue from this source admits of much improvement.

31. *Water-rate.*—This rate was for the first time levied in the Bhagalpur Municipality during the year 1891-92, where it produced Rs. 5,286. The only other municipalities where the tax is in force are Burdwan and Darjeeling. In the former there was a slight increase, whilst in the latter place there was a decrease of Rs. 2,009, due to a reduction in the rate at which the tax was levied.

32. *Conservancy (including scavenging and latrine rates).*—The increase under this head was distributed among all the Divisions except Burdwan, Orissa, and Chota Nagpur, which show a slight falling off of income. The total income of the remaining six Divisions shows an increase of about 20 per cent. over the income during the previous year. The following Municipalities show the largest fluctuations in the receipts as compared with the previous year:—

Name of Municipality.	Amount of increase.	Name of Municipality.	Amount of decrease.
	Rs.		Rs.
Burdwan	1,838	Howrah	6,308
Cossipore-Chitpur ...	4,540	Serampore	1,256
Manicktola	1,392		
Berhampore	1,290		
Rangpur	1,799		
Naraingani	1,031		
Patna	1,348		

33. The increase in Burdwan is attributed partly to the realization of arrears and partly to increase in the demand on account of the introduction of Part IX of the Municipal Act. The decrease in Howrah and Serampore was due to the ame causes which led to a falling off in income under "tax on houses and lands." In Patna this tax is levied only in a portion of the Municipality, but the Commissioners have, it is reported, recently resolved to levy the latrine-tax on all premises on which house-tax is levied, and it is expected that the receipts under this head will be nearly doubled. There was a decrease of Rs. 815 under this head in Motihari, due to Part IX of the Act having been withdrawn from the Municipality during the year. The increase in Rangpur was on account of the assessment of latrine-tax in two wards.

34. *Tax on persons according to their circumstances and property.*—It is satisfactory to notice that under this head there has been an increase on the totals of all the Divisions as compared with the previous year, the net increase amounting to about 8 per cent. on the previous year's income. Of the one hundred and nine municipalities in the Province in which this form of taxation is in force as an alternative to the tax on houses and lands, eighty municipalities show an increase, the remaining twenty-nine,* distributed among all the Divisions except Chittagong, showing a falling off of income. Appreciable increase of revenue from this source occurred in the municipalities of Baidyabati (Rs. 1,252), Ghatal (Rs. 1,010), Joynagar (Rs. 1,046), Khulna (Rs. 1,322), Lalbagh (Rs. 5,079), Barisál (Rs. 1,187), Muktagatcha (Rs. 1,406), Sasaram (Rs. 4,345), where it rose from Rs. 3,790 in 1890-91 to Rs. 8,135 in 1891-92, Darbhanga (Rs. 2,290), Colgong (Rs. 1,142), English Bazar (Rs. 1,234), and Kendrapara (Rs. 1,000). The increase was due to realization of arrears in many places and in some to revision of assessment.

35. *Lighting rate.*—This rate is levied only in the Howrah Municipality at the rate of $3\frac{1}{2}$ per cent. on the annual value of holdings in a portion of the town, and of 3 per cent. in the rest of the area lighted with gas. The decrease of Rs. 1,848 is attributed to laxity on the part of the collecting staff.

36. *Tolls on roads and at ferries.*—No tolls are levied on any roads, and the recepts under this head represent income from ferries alone. There was a slight falling off under this head. Whilst some municipalities show a small increase of income, noticeably Chapra (Rs. 1,244), Daudnagar (Rs. 947), and Barisal (Rs. 1,165), there was a large falling off of income in the municipalities of Chittagong (Rs. 2,247), Cuttack (Rs. 2,037), Bhagalpur (Rs. 1,613), and Muzaffarpur (Rs. 933). The increase in Barisal is stated to be mainly due to the khasa management of the ferry on the Barisal river. This ferry was in previous years farmed to private individuals; but as many complaints were brought against the farmers, who also combined to run down the price paid for the farm, the Municipality resolved to hold the ferry under direct management. In Chittagong the decrease was only apparent, as the ferries having been sold at auction by the end of March 1892 the amount received in deposit in the following April could not be shown in the accounts of 1891-92. At Cuttack and Bhagalpur also the decrease was only a matter of account. At Muzaffarpur there was a real falling off, due to the opening of the Sitamarhi extension of the Tirhut State Railway.

37. *Grants from Provincial or Local Funds.*—The table below shows the grants received by municipalities from Provincial or Local Funds :—

Names of Municipalities.	Amount of grant.	For what purpose sanctioned.
	Rs.	*From Provincial Funds.*
Burdwan	714	Contribution to schools and patsalas.
Suri	70	For the maintenance of primary schools.
Khulna	1,000	For the maintenance of certain Government roads within the municipality.
Darjeeling	6,483	

NAMES OF MUNICIPALITIES.	Amount of grant.	For what purpose sanctioned.
	Rs.	*From Provincial Funds*—concld.
Dacca	583	For re-excavating a tank, and for executing some petty works for the improvement of the Uri khas mahal.
Nasira bad	1,000	For the support of the charitable dispensary and school.
Dinapore Nizamut ...	1,850	For the repairs of that portion of the Bankipore-Dinapore road which lies within municipal limits.
Monghyr	300	For the support of the public garden.
Sahibganj	500	A special grant for constructing wells.
		From District Funds.
Burdwan	600	In support of the municipal dispensary.
	12	For the training of a midwife.
Bankura	1,000	In support of the local charitable dispensary.
Midnapore	240	
Chandrakona	30	
Khirpai	90	
Jessore	300	
Khulna	90	
Bogra	1,905	Towards the maintenance of the local charitable dispensary and construction of the buildings.
Faridpur	200	Towards the maintenance of the local charitable dispensary.
Barisal	1,200	
Nasirabad	900	In support of the charitable dispensary and school.
Gaya	1,500	For maintenance of the Pilgrim Hospital.
Sasaram	600	Towards the support of the respective municipal dispensaries.
Bhabua	300	
Motihari	400	
Bettiah	400	
Monghyr	1,560	
Bhagalpur	600	
Purnea	500	
		From Local Funds.
Midnapore	487	From the Mohsin Fund as part of schooling fees for Muhammadan boys of the collegiate school.
Lalbagh	3,600	From the Nizamut Fund for the conservancy of the town.
Darjeeling	1,050	From the Darjeeling Improvement Fund for the repayment of the Kuch Bihar loan of Rs. 50,000, and for the working of the Porters and Dandi-wallas Act.
Kurseong	3,222	From ditto towards the extension of the water-supply of the town.
Rampur Boalia	1,380	From the Prasanna Nath Roy Fund for the maintenance of the Boalia Charitable Dispensary.
Nator	1,380	Ditto ditto ditto of the Nator ditto.
Patna	6,531	Out of the Wahabi Fund, to meet the preliminary expenses in preparing a drainage scheme.
Gaya	6,500	From the Lodging-House Fund for the maintenance of the Pilgrim Hospital, and for improvement of drainage and repair of roads.
Sasaram	1,200	From the Sasaram endowment.
Deoghur	540	Rupees 300 from the Pilgrims' Lodging-house Fund for the improvement of street lighting, and Rs. 240 from the Nagore Raja's estate.
Puri	4,500	From the Lodging-house Fund for the conservancy of the town.
Purulia	1,204	From the Famine Orphan Fund for improvement of the water-supply.

38. The Lieutenant-Governor has read with satisfaction the record in the Commissioners' Reports of gifts of money or land made, and of works of public utility executed, by private individuals within municipal limits. His Honour notices the following instances of private munificence as specially deserving of acknowledgment:—Raja Mohendra Lal Khan of Narajal continued to contribute Rs. 25 a month to the Midnapore Municipality for the maintenance of the ward for contagious diseases. In Ghatal the masonry bathing ghat commenced by Babu Chintamoni Kumar in 1890-91 was completed during the year. Maharani Shurnomoyee, M.I.O.C.I., of Kasimbazar, gave a further sum of Rs. 500 for the construction of a road in Howrah, which has been called by her name. To the Bally Municipality Babu Akhoy Churn Guha, a rich gentleman of Calcutta, has made a gift of a strip of land, 15 feet wide and 490 yards long, for the construction of a road. Babu Srishtidhar Conch, another wealthy merchant of Goverdanga, has sunk a well at a cost of Rs. 5,000. Babu Girija Prosunno Mukerjee, zamindar of Goverdanga and the Chairman of the local municipality, has caused a large *jheel* to be excavated covering an area of nearly 15 bighas at a cost of Rs. 5,000. Srimati Monmohini Dasi of Naihati, widow of the late Babu Tarak Chundra Sarkar, of Kerr, Tarak and Company, has built an iron shed with ornamental pillars in the masonry ghat which she constructed last year at a cost of Rs. 6,000. At Jessore, Babu Umesh Chundra Ghose has excavated a new tank at Nilganj at his own expense. A substantial building, with ample and comfortable accommodation and spacious frontage, was erected in the heart of the town of Rampur Boalia, adjoining the college buildings, for the purposes of a hostel for the Hindu students of the college. The cost, which was about Rs. 10,000, was for the most part met by a contribution from the Dighaputtia Ward's estate. Babu Upendra Nath Sen, zamindar of Basanda, made a donation of Rs. 2,800 to the Barisal Municipality, for the construction of a cholera ward, attached to the Municipal Charitable Dispensary. Kazi Raizuddin Ahmed, a Municipal Commissioner of Dacca, constructed an embanked road in the Dacca Municipality at his own cost. Mr. Lucas, a zamindar, excavated a tank near the bazar in the Pirojpur Municipality. Nawab Ahsanulla, Khan Bahadur, C.I.E., of Dacca, contributed Rs. 3,000 to the Comilla Municipality for the erection of an additional ward in the municipal dispensary. The hospital for females at Comilla, which is being erected by the munificence of the Nawab Sahiba Faizunissa and her co-sharers, will be within the Comilla Municipality, where the site for it has also been given by these ladies. Messrs. Burrows, Thomson, and Mylne of Bihia contributed Rs. 652 towards the maintenance of the Jagdispur dispensary, and kept up a middle class English school at a cost of Rs. 1,354. Mr. J. Hennessy, a zamindar and indigo-planter of Mathurapur, made a gift of Rs. 1,000 for the improvement of the accommodation of the dispensary in the English Bazar Municipality. Raja Baikuntha Nath De, Bahadur, and Babu Satyendra Nath Dey re-excavated the Rani Sagar tank in the Balasore Municipality, at a cost of Rs. 3,764, and established a charitable dispensary for females, endowing it at the same time with an income of Rs. 600 per annum.

39. *Loans.*—Though considerable activity has been displayed during the year in preparing schemes for water-supply and drainage which will be found detailed in paragraphs 43 and 55 below and several loans have been applied for, the amount of loans actually brought to account during 1891-92 was only Rs. 63,000. Of this sum Rs. 30,000 were lent by Government to the Serampore Municipality for the improvement of the drainage, and Rs. 7,500 were paid over to the Rampur Boalia Commissioners in continuation of a loan for an equal amount in 1890-91. Of the balance, Rs. 25,000 at 4½ per cent. interest were raised in the open market by the Burdwan Municipality at a discount of a little more than three-fourths per cent., and Rs. 500 represents part of a sum advanced to the Chapra Commissioners by a private individual. The Lieutenant-Governor is glad to learn that borrowing for legitimate purposes is likely to be larger in the current year, and he agrees with the Commissioner of Orissa, who remarks as follows:—

"I have always considered that municipalities generally are far too cautious and unenterprising in the matter of borrowing. Their funds are only just enough to enable them to carry on what may be called the routine work of municipal administration. The Municipal

Commissioners hesitate to incur unpopularity by increasing taxation, and the consequence is that no great and lasting improvement is ever carried out. Posterity should pay for such measures, and the only way of raising funds for them is by loans."

EXPENDITURE.

40. The total municipal expenditure of the Province (excluding Calcutta) was Rs. 28,66,056, against Rs. 27,81,524 of the preceding year, showing an increase of Rs. 84,532. The year closed with a balance of Rs. 3,99,028, against Rs. 3,60,942 of the year 1890-91. The statement in Appendix G shows the percentage of total expenditure (excluding debt and suspense heads) incurred under the principal heads of expenditure in each of the Municipalities in the Province.

41. The statement in Appendix H shows the details of expenditure under each head, as compared with the previous year. The total expenditure of each division in 1890-91 is not exhibited in the table, as some items which appeared in that year's account form have been split up and others amalgamated with new heads prescribed in the revised form. The largest expenditure was as usual incurred on Conservancy (Rs. 8,00,365), Roads (Rs. 4,32,600), Hospitals and dispensaries (Rs. 2,58,544), Office establishment (Rs. 1,87,452), Collection charges (Rs. 1,38,896), Lighting (Rs. 1,39,511), and Public Instruction (Rs. 1,30,068). It will be seen that several new heads have been prescribed in the accounts for 1891-92, which overlap in many cases the heads of account previously in force, and a comparison of the accounts under all the new heads is therefore not feasible. The chief differences in expenditure as compared with that of the previous year (excluding the debt and suspense heads) are the following:—

Increase.

Heads of expenditure.	Amount of increase.
	Rs.
Office establishment and collection charges ...	31,012
Drainage	6,772
Conservancy	65,156
Hospitals and dispensaries	25,893
Public Instruction	14,780
Miscellaneous	69,194

Decrease.

Heads of expenditure.	Amount of decrease.
	Rs.
Survey of land	7,915
Lighting	3,828
Water-supply	48,725

42. *Office and Collection Establishments.*—The Lieutenant-Governor regrets to notice that an increase of expenditure under these heads occurred in every Division. The increase in the Burdwan Division was contributed to by all the municipalities except Howrah and Sonamukhi, the former showing a saving of Rs. 2,858 due to the employment of a Secretary on reduced pay. The large increase of Rs. 1,235 in Baidyabati is reported to have been due to a general revision of the establishments which was necessary owing to the state of chaos into which the office had drifted from internal dissensions. The present Chairman and Vice-Chairman are trying their best to bring matters into proper working order. The increase of expenditure throughout the province is variously attributed to the payment of larger sums as contributions on account of audit and banking charges, to grade increments allowed to officers according to the fixed scale of pay, to the employment of additional establishments in the Collection Department for the prompt realization of municipal dues, and to the purchase of furniture. The Commissioner of the Presidency Division, where most of the municipalities show an increase, observes that the tendency of many municipalities is to reduce taxation with one hand and with the other to spend as much public money as they can on official salaries. The Commissioner of the Rajshahi Division, where all the municipalities with the single exception of Pabna incurred increased expenditure under this head, also thinks that there is a "general disposition among the Commissioners to spend more each year on mere administration." The large increase of

Rs. 2,257 in Darjeeling was due to the payment of invalid allowances and a personal allowance granted to the Vice-Chairman. The Commissioner of Dacca reports that although greater economy of expenditure under this head is being enforced, some of the municipalities labour under the disadvantage of having already engaged a clerk or other officer on higher pay than is really necessary, which cannot be reduced without causing disappointment. Of the sixteen municipalities in this division, there was a decrease of expenditure in five, the savings in the Dacca Municipality amounting to Rs. 935. The large increase of Rs. 1,651 at Cuttack was due to the erection of a new office building. At Balasore and Lohardaga the pay of the establishment for the last two and three months, respectively, of the previous year was distributed during the current year, and this caused an increase of expenditure on this head. Had the demand been promptly collected, this dislocation of the accounts would not have occurred, and what is more important, the municipal employés would not have had to wait so long for their pay. Government has on previous occasions pointed out that a tendency to increase the official establishment and to raise the pay of employés is a frequent characteristic of municipal administration in Bengal, and the Lieutenant-Governor desires again to draw the attention of Commissioners and District Officers to the fact. When work is not being well done nothing is easier than to increase the establishment for doing it instead of replacing the inefficient officials by men of greater efficiency, and again there is a widespread belief that a few years' service gives an unanswerable claim to increase of pay. The development of these tendencies must be carefully watched, for both appeal to the charitable instincts of the Municipal Commissioners, which however can be indulged only at the expense of the rate-payers.

43. *Drainage.*—The five Divisions named in the margin show an increase of expenditure, which was almost stationary in the Rajshahi Division the three remaining Divisions showing a falling off. The decrease of expenditure was due not so much to the apathy of the Municipal Commissioners on this subject as to a general desire on their part to proceed on an approved plan, as in several places experience has shown that by taking up the improvement of the drainage of portions of municipalities before maturing a complete project, money had been wasted. Comparatively large expenditure was incurred in the Municipalities of Serampore (Rs. 9,421), Darjeeling (Rs. 5,608), and Rampur Boalia (Rs. 7,904). Projects for drainage were considered during the year by the municipalities of Burdwan and Howrah, and also by the municipalities on the east bank of the Hooghly, but no final conclusions were arrived at. The Serampore Municipality drew a sum of Rs. 30,000 which was sanctioned so long ago as 1889-90. In Puri and Rampur Boalia loans of Rs 25,000 and Rs. 15,000 were taken for the same purpose, and considerable progress has been made. In Patna the municipal area was carefully surveyed, and a comprehensive drainage scheme estimated to cost over three lakhs drawn up for the approval of Government: a similar scheme was undertaken in Arrah and in Muzaffarpur with the assistance of the District Engineer: a loan has been applied for in all three cases. For the drainage of several other towns the schemes are in various stages of progress. Thus in the municipalities of Raniganj, Midnapore, Santipur, Dinajpur, Jalpaiguri, Pabna, and Comilla drainage schemes were submitted to the Sanitary Board, while surveys are being carried on in Hooghly, Suri, Bally, Dainhat, Krishnaghur, Meherpur, Bogra, and Faridpur. The Lieutenant-Governor has perused this record of work with satisfaction.

Burdwan. | Chittagong.
Presidency. | Patna.
Orissa.

44. *Conservancy.*—The figures showing for the year under review the expenditure under this head include the totals of three heads in the previous year's accounts, viz., "conservancy," "road watering," and "road cleaning." It is satisfactory to notice that there has been an increase of expenditure in all the Divisions,* which was largest in the Presidency. In the Burdwan Division this was most marked in the Municipalities of Burdwan (Rs. 2,402), Hooghly and Chinsura (Rs. 1,102), Serampore (Rs. 1,412), and Baidyabati (Rs. 3,304), where the expenditure rose from Rs. 3,480 in 1890-91 to Rs. 6,784 in 1891-92. There was a decrease in Howrah of Rs. 1,811

		Increase. Rs.
*Burdwan	...	8,672
Presidency	...	27,223
Rajshahi	..	11,108
Dacca ...	...	4,5[illegible]9

Patna ...	...	6,464
Bhagalpur	...	1,868
Orissa ...	...	2,202
Chota Nagpur	...	187

attributed to savings effected by the use of the conservancy railway. The increase in Burdwan is due to the strengthening of the sweeper staff and repairs to latrines. Repairs of road-watering carts and purchase of some new ones mainly caused the increase in Hooghly-Chinsura. The increase in Serampore is attributed to the purchase of some new bullocks and some zinc buckets, as also to the adoption of preventive measures to check the progress of cholera which broke out in the town. Acquisition of land for the burial of night-soil and strengthening of the latrine-cleansing establishment caused the increase in Baidyabati. In the Presidency Division the largest increase of expenditure occurred in the Municipalities of Cossipore-Chitpur (Rs. 7,222), Manicktolla (Rs. 15,438), South Suburbs (Rs. 1,038), and Berhampore (Rs. 1,622). The increase in Cossipore-Chitpur and Manicktolla is due to the acquisition of land required for new trenching grounds. In the Rajshahi Division, the Municipality of Darjeeling shows a large increase of Rs. 9,786 which is ascribed to a thorough and general improvement in the sanitary arrangements of the place. In the Dacca Division there was an increase of Rs. 2,434 and Rs. 1,331, respectively, in the Municipalities of Barisál and Nasirabad, due in the former case chiefly to the erection of corrugated iron sheds for sweepers, and to the purchase of cattle and carts, and in the latter to the appointment of a conservancy overseer. In the Chittagong Municipality there was an increase of Rs. 3,376. In the Patna Division the Patna and Arrah Municipalities show an increase of Rs. 2,937 and Rs. 2,000, respectively. The increased expenditure in Patna is due to the purchase of new conservancy carts and to repair and construction of wells for watering the roads. In the Bhagalpur Division there was an increase in all the municipalities, except Bhagalpur and Purnea. The increase of Rs. 692 in Monghyr is reported to have been chiefly due to the more extensive watering of the roads in that town. In the Kendrapara Municipality the expenditure rose from Rs. 358 in 1890-91 to Rs. 1,038 on account of the enforcement of the provisions of Part IX of the Act relative to latrines. In the Puri Municipality a Conservancy Inspector was appointed during the year, paid partly from the Municipal fund and partly from the Lodging-house fund.

45. The statement contained in Appendix I shows the strength and cost of the conservancy establishment employed in each municipality during 1891-92, and these statistics read with the percentages in Appendix G display most remarkable variations. The average expenditure on conservancy throughout the province was 30·1 per cent. on the total municipal expenditure excluding debt and suspense heads. Manicktollah stands first for reasons already referred to with the high ratio of 62·4 per cent.; no other municipality approaches this figure, but seven others spent more than 40 per cent. On the other hand, the Municipalities of Chanduria and Cox's Bazar are returned as having spent absolutely nothing on conservancy, and in twenty-three others quoted in the margin the expenditure was less than 10 per cent. Such a small proportion is ridiculously inadequate when the importance of the object is borne in mind, and the Lieutenant-Governor trusts that greater attention may be given to the matter in these places in future. He also observes with satisfaction that not a single municipality in the Divisions of Rajshahi, Bhagalpur, and Orissa appears in this list, and that the Patna Division has only three representatives, viz., Lalganj, Sitamarhi and Jagdispur while about half the number are in the Presidency Division.

Bazitpur ...	1·6	Muktagacha ...	6·7	Ramjibanpur	8·0
Taki ...	2·7	Meherpur ...	7·02	Lalganj ...	8·6
Debhatta ...	3·4	Joynagar ...	7·1	Jahanabad ...	8·7
Khirpai ...	3·6	North Dum-Dum	7·2	Jagdispur ...	9·2
Sherpur ...	3·8	Chakdaha ...	7·3	Chandrakona	9·08
Sitamarhi ...	4·1	Goverdanga ...	7·5	Kishoreganj	9·5
Baruipur ...	4·8	Basirhat ...	7·8	Nalchitti ...	9·7
Kumarkhali	6·09	Moheshpur ...	7·9		

46. *Hospitals and dispensaries.*—The total expenditure under this head as shown in the annual accounts (Form III) rose from Rs. 2,32,651 in 1890-91 to Rs. 2,58,544. The increase is noticeable in all the Divisions* except those of the Presidency and Chota Nagpur, where there was a slight falling-off of Rs. 1,078 and Rs. 483, respectively. The table in Appendix J shows the working of dispensaries managed or aided by municipalities

	Increase. Rs.
*Burdwan	943
Rajshahi	7,021
Dacca	2,478
Chittagong	2,476
Patna	7,898
Bhagalpur	5,027
Orissa	1,616

during 1891-92. One hundred and nineteen municipalities maintained or supported 128 charitable dispensaries against 126 dispensaries maintained or aided in the previous year by one hundred and eighteen municipalities. A branch dispensary was opened during the year at Ichhapur in the North Barrackpore Municipality, and another was established in the Nadia Municipality consequent on the extension of the Pilgrims' Lodging-house Act to that town. Six municipalities* are relieved of charges on this account, owing to the existence of useful institutions in their midst maintained by private individuals or from endowments. The dispensary at Lohardaga, which received a grant of Rs. 20 a month from the Municipality, has been taken over by the Municipal Commissioners from 1st April 1892. Of the dispensaries maintained or supported by municipalities, 87 institutions afforded relief to both in-door and out-door patients, only out-door patients being treated in the remaining 41 dispensaries.

Name of Municipality.	By whom maintained.
*Kalna ...	Burdwan Raj.
Hooghly and Chinsura.	Imambara.
Baranagar ...	Sagore Dutt endowment.
Netrokona ...	Zamindar of Gourepur.
Tikari ...	Tikari Raj.
Dumraon ...	Dumraon Raj.

47. The daily average number of in-door patients in all the dispensaries taken together was 1,121·4, of whom 232·21 represented females. In the 127 dispensaries for which complete figures are given, 846,405 out-door patients were treated, of whom 560,500 were males, 208,423 females, and 77,482 were children. The figures showing males, females, and children treated, whether in the in-door or out-door wards, are not quite accurate, as in the form prescribed under Government orders of 5th May 1890, in which the divisional returns were submitted, there was no column for showing children, and the figures for children taken from the respective dispensary registers, in which all patients, male and female, under 12 years of age are shown as "children" irrespective of sex, were therefore in many cases included either in the column for "males" or "females."

48. The total medical expenditure (Rs. 2,37,877), as shown in column 20 of Appendix J, differs from the total expenditure (Rs. 2,58,544) as shown in the column headed "Hospitals and dispensaries" in Form III by Rs. 20,667. The difference occurs mainly in four Divisions, viz., Burdwan (Rs. 2,729), Presidency (Rs. 1,528), Dacca (Rs. 15,407), and Patna (Rs. 948). These discrepancies will be separately inquired into: the same amount should always be shown in both the statements in future years. The large increase of expenditure in the Rajshahi Division was contributed to by all the municipalities except Sherepur, Serajganj showing an appreciable increase of Rs. 1,272 In the Patna Division the increase was shared by all municipalities, Patna and Muzaffarpur showing a large increase of Rs. 1,338 and Rs. 1,125, respectively. Out of its total income of Rs. 13,803, the Bettiah Municipality contributed no less than Rs. 5,159 to the municipal dispensary. Taking the Province as a whole, the average municipal expenditure under the head Medical was 9·7 per cent (Appendix G) on the total expenditure As many as seventeen municipalities spent nothing at all under this head, while in some, on the other hand, the proportionate expenditure was very large, exceeding 25 per cent. in thirteen cases:—

Satkhira	37·1	Chandhuria ...	29·4
Jagdispur... ...	34·4	Khirpai	27·9
Bankura	34·1	Motihari	27·9
Sitamarhi	34·07	Raghunathpur ...	27·0
Madhubani ...	33·2	Basirhat	25·5
Bettiah	31·04	Barisal	25·06

Most of these are places with small incomes, so that the contributions to the pay of the native doctor, which cannot fall below certain fixed limits, becomes a disproportionately heavy item of their expenditure.

49. *Vaccination.*—The statement in Appendix K shows the result and cost of vaccine operations performed in the municipalities during the year under review. One hundred and forty-two municipalities (*i.e.*, all except Meherpur and Moheshpur in the Presidency Division and Lohardaga in Chota Nagpur) employed 210 vaccinators, at a cost of Rs. 17,818, who performed a total number of 88,871 vaccinations, including 85,071 primary operations and 3,800 re-vaccinations, each vaccinator performing on an average 423 operations. The average cost of a successful vaccination was less than one-third of a rupee. Of the total municipal population 3·1 per cent. received protection during the year in the shape of primary vaccination. Vaccination was not carried on in Meherpore on account of

the prevalence of malarious fever. There were two prosecutions under the Act in Noakhali, in both of which the offenders were convicted. The figures in column 15 of Appendix K and column 24 of Form III do not always tally, but as they are supplied from the same source, there is no reason why these discrepancies should occur, and the Lieutenant-Governor trusts that they will be avoided in all future returns.

50. *Public Instruction.*—The total expenditure incurred by municipalities on education was Rs. 1,30,068, against Rs. 1,15,288 in 1890-91 (Appendix H), showing an increase of Rs. 14,780. All the Divisions show an increase except Dacca, Chittagong, and Bhagalpur, where there was a slight falling off. The largest increase occurred in Rajshahi, where the expenditure increased from Rs. 8,755 in 1890-91 to Rs. 15,972 during 1891-92, due mainly to the increase of Rs. 2,536 in the expenditure on secondary education and of Rs. 4,339 under "Miscellaneous." The Municipalities of Bogra and Dinajpur took over charge of the local middle vernacular schools, and the latter Municipality incurred a special charge of Rs. 2,247 on a building for the location of the school. The increase of Rs. 5,230 in the Burdwan Division was contributed mainly by the Municipalities of Howrah (Rs. 2,920) and Midnapore (Rs. 2,234). The increase in Howrah is said to be due to the transfer of the zilla school to the management of the Municipal Commissioners, and in Midnapore to the construction of boundary walls round the college compound, and to the maintenance of the Hardinge Middle Vernacular School. The statements in Appendix L compare, for each Division, the number of schools of different classes maintained or aided by municipalities during 1890-91 and 1891-92, the number of pupils under instruction in them, the municipal expenditure on the schools, as also the number of unaided schools within municipal limits, and of the pupils on their rolls. The following table summarises the statistics contained in that Appendix:—

Class of School.	Schools maintained or aided by Municipalities.						Other Schools.			
	Number.		Number of pupils on the rolls at the close of the year.		Expenditure from Municipal funds.		Number.		Number of pupils on the rolls at the close of the year.

51. It will be seen from the foregoing table that the increase of expenditure occurred under all heads, secondary, primary, and special schools, as also under "buildings and furniture" and "miscellaneous," the small item of "inspection" alone showing a slight falling off. The number of schools supported by municipalities rose from 872 to 1,108, and the number of pupils attending these schools increased from 44,952 to 55,433. Although there was a large reduction of 246 in the number of unaided schools within municipal limits, the number of pupils attending them rose from 58,222 to 63,748. There is again a discrepancy between the figures showing the total outlay of municipalities on education as given (1) in the tables in Appendix L of this resolution, (2) in the annual municipal accounts

in Form III, column 36, and (3) in subsidiary table IV appended to the Report on Public Instruction during 1891-92, the three amounts being respectively Rs. 1,03,712, Rs. 1,30,068, and Rs. 82,335. Not only is there this discrepancy as to cost, but the statistics as to the number of schools of different classes and of the pupils under instruction in them as given in Appendix L differ widely from those given in Subsidiary Table IV of the Director's Report. The difference as to cost is largely due to a divergence in the system of recording the figures, viz., the net cost to the Municipality being shown in one set of statements, whilst the gross cost, including the charges met from schooling fees, &c., is shown in another. But there is no reason why the statistics as to schools and pupils should not agree, and in future their agreement must be secured. The Lieutenant-Governor has already passed orders on this matter in reviewing the Reports on District Boards, and similar measures will now be adopted to ensure a proper correspondence between the figures supplied by the Director of Public Instruction and by the Municipal authorities.

52. Taking, however, the figures in Appendix L as they stand, it appears that there was an increase of Rs. 4,136 spent on secondary schools, whilst the cost on account of primary schools increased by only Rs. 2,948. The Nator Municipality spent Rs 2,427 on buildings and furniture. The Commissioner remarks that the English high school maintained by it "swallows up a large portion of the municipal income year by year to the detriment of primary education and the sanitary needs of the town," and that he would "feel a difficulty in passing for the ensuing year a budget framed on this basis." Having regard to the fact that only Rs. 105 was spent on primary education, as also to the admittedly insanitary condition of the town, in which only Rs. 2,134 were spent on conservancy, the sum of Rs 5,111 spent on secondary education was quite unreasonable. The Commissioner of Burdwan remarks on this subject :—

"The contribution towards primary education is disproportionately low, with reference to the expenditure incurred on secondary education. This subject is already having my best attention, and in most of the municipal budgets for the current year the provision for primary education has been raised, with a corresponding decrease in the allotment for secondary schools. The Municipal Commissioners have been told that the municipal grants for secondary schools must gradually be reduced more and more."

53. The above remarks have the full concurrence of the Lieutenant-Governor, who further takes this opportunity of explaining the principles on which in his opinion the financial responsibility of municipalities in respect of primary education should be gauged. The figures supplied by the recent census show that the municipalities in Bengal (excluding Calcutta) contain 216,223 boys of a school-going age, at the usual calculation of 15 per cent. on the male population. But for obvious reasons it is not to be expected that all these should be at school. The provincial average as shewn in paragraph 17 of the Resolution on the Education Report, 1891-92, is 29·8 per cent, but it rises to 54·8 in the Chittagong Division, and to 60·6 in the Burdwan Division. Considering that municipalities ought to be much ahead of rural districts in respect of education, it does not seem unreasonable to expect that they should provide instruction for 50 per cent. of their boys. There ought therefore to be 108,112 boys in the primary schools of municipalities, and the average cost of this class of education is shown in the same paragraph of that resolution to be about 10 annas per head. The cost which municipalities ought to defray is therefore about Rs. 67,000, whereas the amount actually paid is only about Rs. 16,000. Rupees 67,000 bears to the total ordinary income of the municipalities (Rs. 20,39,000) the ratio of 3·2 per cent., and this seems a very moderate demand to make on municipal revenues as the minimum sum which should be provided for the primary education of the youth resident within their limits. When this amount has been contributed, any further sum which the Municipal Commissioners are desirous of expending on secondary education can be so devoted, but the primary schools should be held to have the first claim. The subject will be further worked out in detail, and where municipal revenues are already so deeply pledged to obligatory expenditure that this small contribution cannot be made to primary schools, some help will be afforded from Provincial revenues for a year or two till the necessary equilibrium is established. Commissioners of Divisions are requested to bear these instructions in mind in sanctioning, and Chairmen of Municipalities in preparing, the Municipal Budgets for 1893-94.

54. *Lighting.*—There was a slight falling off of expenditure under this head from Rs. 1,43,343 to Rs. 1,39,515. The decrease occurred in the five Divisions named in the margin, whilst the remaining four Divisions show an increase, the expenditure

Burdwan.
Presidency
Rajshahi.
Chittagong.
Patna.

having more than doubled in the Chota Nagpur Division, where it increased from Rs. 811 in 1890-91 to Rs. 1,796 during 1891-92, owing to the introduction of lighting for the first time into the towns of Purulia and Chaibassa. In the Burdwan Division there was a decrease of Rs. 4,356 in Howrah, as certain bills of the Gas Company were left unpaid, and no new lamp-posts were erected during the year. It is reported that the Commissioners of the Bally and Katwa Municipalities intend to introduce lighting into those towns. There was no expenditure on this item in forty-four municipalities,* against forty-seven in the previous year.

55. *Water-supply.*—Considerable attention was paid during the year to the important questions of water-supply. At Dacca the existing water-works, the gift of Nawab Sir Khwaja Abdul Ghani, Bahadur, K.C.S.I., and his son Nawab Khwaja Ahsanullah, Bahadur, C.I.E., were materially extended by means of a loan sanctioned by Government. The Burdwan Municipality matured a scheme for extending their supply of filtered water, and the question of providing an adequate supply of pure water for the town of Howrah was discussed by the Sanitary Board, but no final conclusion was arrived at. Projects for the water-supply of the group of municipalities on the east bank of the Hooghly in the 24-Parganas were brought forward and considered by the Sanitary Board. Rajpur and Jessore both propose to take a loan for this purpose. In Kurseong and Nasirabad the work has already made great progress. The artificial lake which supplies the town of Chaibassa with water was re-excavated and cleared out by the Commissioners during the year. The large decrease of Rs. 59,581 in capital outlay under this head was due to the extension of the water-works at Dacca in the previous year undertaken by means of a loan from Government. The expenditure of Rs 50,703 was incurred for the most part in Burdwan, Darjeeling, Kurseong, Dacca, Nasirabad, and Gaya. The cost of establishment, repairs, &c, advanced from Rs. 28,217 to Rs. 39,073, a result inseparable from larger operations.

56. *Roads.*—The total cost of maintaining roads is shown in Form III, (column 30), at Rs. 4,32,600. This item was not separately shown in the previous year's accounts, and the expenditure during the two years cannot therefore be compared. The total length of different kinds of roads maintained by municipalities (except Bhadreswar, for which no information has been furnished) during the year was 2,010 miles and 1,364 feet (Appendix M), including 587 miles and 634 feet of embanked, bridged, and metalled roads, 495 miles and 3,735 feet of embanked and bridged roads not metalled, and 927 miles and 2,225 feet of all other classes of roads. The total cost shown in this Appendix (Rs. 3,79,333) differs widely from the amount shown in the annual accounts as noticed above. The figures of the Chittagong Division alone agree, the largest discrepancies having occurred in the Presidency Division (Rs. 19,887,) Bhagalpur (Rs. 15,390), Dacca (Rs. 7,827), and Burdwan (Rs. 7,103). The Lieutenant-Governor desires that correct information may be furnished in future years; both the length of roads and the cost of their maintenance should be carefully verified before the reports are submitted.

57. *Savings on Police charges.*—It appears from the reports that in several cases the stipulation under which the charges on account of Police in Municipalities were taken over by Government, viz., that the savings shall be applied to works of general municipal utility, have not been complied with by Municipalities, and the following are noticeable among them:—

Name of Municipality.	Amount of savings not yet applied to useful works.	Name of Municipality.	Amount of savings not yet applied to useful works.
	Rs.		Rs.
Dinajpur ...	46,849	Hajipore ...	1,305
Patna ...	11,011	Lalganj ...	1,397
Bihar ...	4,857	Darbhanga ...	2,070
Dinapore Nizamut ...	1,525	Rosera ...	1,153
Gaya ...	34,886	Purnea ...	5,565

58. *Female Medical Education.*—In the matter of studentships, the only Municipalities which actually contributed towards the support of a female student at any Government Medical School were those of Burdwan, Serampore, and Rampur Boalia. The Municipality of Burdwan spent Rs. 91 during the year on this account, and the Serampore Municipality paid Rs. 4 a month to a student of the Campbell Hospital The Commissioners of the Rampur Boalia Municipality have awarded a scholarship of Rs. 10 a month tenable for three years, on the understanding that the holder shall practise in the Municipality on the completion of her studies. The Municipalities of Kalna, Katwa, and Revelganj offered stipends to female medical students, but no candidate came forward to avail herself of these contributions. As to female medical help, the Burdwan Municipality expended Rs. 116 on the pay of a female doctor at the Municipal Dispensary. The Municipal Commissioners of Hooghly and Chinsura resolved to employ a trained midwife on Rs. 20 a month, but no one could be found to serve on that pay. There is a midwife in service at Sirajganj. Of the other municipalities in the Rajshahi Division, some bring forward, as in previous years, the plea of want of funds, while others say that no female student came forward. There was a midwife attached to the Barisal Municipal Hospital for nearly nine months of the year on a salary of Rs. 30 per mensem. A trained nurse is employed in the lying-in hospital attached to the Bankipore dispensary, and another midwife has been entertained by the Muzaffarpur Municipality on a salary of Rs. 40 per mensem, on condition that half of the fees earned by her in private practice will go to the municipal fund. In Darbhanga there is a Lady Dufferin Hospital maintained by the Darbhanga Raj, where facilities exist for females to learn midwifery and the treatment of diseases peculiar to their sex. The Commissioners of the Monghyr Municipality employ a midwife in the Municipal Hospital, but at the suggestion of the Inspector-General of Civil Hospitals arrangements are now in progress for replacing her by a female Hospital Assistant. There is a dispensary for females at Cuttack, called the Lady Thompson Female Dispensary, which is not recognised by the Municipality, nor aided from its funds. Attempts are being made by the Municipal Commissioners of Khulna to raise subscriptions for building a zenana hospital, but they have not met with much success yet. The District Board of Champaran have promised to contribute Rs. 500 towards the cost of a ward for females at the Motihari dispensary, and an attempt will be made to raise the balance of the sum required for the work by private subscriptions.

59. *Vital statistics.*—As observed in paragraph 40 of the previous year's Resolution, municipalities have been relieved of the duty of registering vital statistics which has now been entrusted to the town police with effect from the 1st January 1892. The subject is noticed at length in the Sanitary Commissioner's Report, and calls for no further remarks here.

60. *Embezzlements.*—A dismissed collecting sarkar in the employ of the Bansbaria Municipality collected a few rupees on account of taxes: the Municipal Commissioners have resolved to prosecute him. A Conservancy Inspector of the Baranagar Municipality had to be removed for drawing the pay of one of his private servants from the municipal fund. The head-clerk of the same municipality was convicted of misappropriation of municipal money, and was sentenced to 18 months' rigorous imprisonment. The whole of the collecting staff of this municipality has been recommended for removal for irregular conduct. The head-clerk of the South Suburban Municipality was found to have embezzled a sum of Rs. 174-6: he has since absconded, and a warrant of arrest has been issued against him: no security having been taken from him, a part only of the above amount, viz., Rs. 35 and odd annas, has been recouped from his pay. The tax-daroga of the Baduria Municipality was convicted of misappropriation of municipal money, and was punished. The examination of the accounts of the Maniktola Municipality by the Local Auditor brought to light defalcations of Rs. 746, Rs. 422, and Rs. 14-10-9. The collecting sarkars paid the amounts, and were dismissed: the whole collecting staff had to be changed on this account. In Chittagong the misappropriation of some petty sums by some of the collecting sarkars was brought to light by the official auditor: the men were dismissed. The Commissioner of the Division makes the following remarks on the accounts

of the Municipality:—"The year has been a noteworthy one for this municipality, owing to a total change of local *règime*. The new Chairman and Vice-Chairman had to face a state of things which had become intolerable. There was almost no control over the levy and expenditure of the taxes, and they have worked most strenuously to get matters into order. Nevertheless, the result of the last official audit was that the state of the municipal accounts was reported to Government. An enquiry, the results of which have from time to time come before me, has been going on in consequence since April last. At the time of writing only one inconsiderable item remains unsettled, and I hope to be able to report in a few days that order has been completely restored. It will not have been attained without wholesale cancellations and remissions and the dismissal of the greater portion of the establishment." His Honor awaits the report promised by the Commissioner, but meanwhile gladly acknowledges the vigour and thoroughness with which the new officers seem to have introduced reform. The tax-daroga of the Tikari Municipality who was also cashier was convicted of embezzling a sum of Rs. 138 and odd annas and sentenced to 18 months' rigorous imprisonment, but was acquitted on appeal by the Judge. The Magistrate has pressed upon the Municipal Commissioners the advisability of suing the man in the civil court for the recovery of the amount embezzled. The municipal clerk of Hajipur was also convicted of misappropriation of dispensary subscriptions. He embezzled altogether Rs. 596, and the fraud was only discovered through several subscribers when written to for arrear subscriptions by the Chairman complaining that they had already paid. Steps are being taken to recover the money through the civil court, as the clerk did not furnish any security.

61. The Lieutenant-Governor fully agrees in the remarks of the Commissioner of Patna, that "these cases illustrate a degree of carelessness in the management of municipal affairs, and a general disregard of the rules and instructions. In the first place the same man should not have been made the tax-daroga and cashier, as was done in the Tikari Municipality; and secondly, if proper security had been taken from the men both by the Tikari and Hajipur Municipalities as enjoined by the rules, much of the subsequent troubles would have been avoided." Special attention was drawn to this subject in paragraph 44 of the last Resolution, and Sir Charles Elliott regrets to notice that the present reports should have again disclosed so many cases of embezzlement of public funds, while it is impossible to avoid the suspicion that many others have escaped detection. In all these cases the possibility of fraud has been due to breach or neglect of well-known account rules, and to the failure of superior officers to see that they are carried out. The Lieutenant-Governor is aware that in almost all Municipalities the Vice-Chairman, whose special duty it is to supervise the accounts and the office establishment, is largely occupied with other duties or his own private business, but it must be distinctly understood that the appointments of Chairman and Vice-Chairman carry important obligations as well as privileges, and the rate-payers have a right to demand that their interests should be thoroughly well guarded by those who have been elected or appointed for that purpose. The Lieutenant-Governor also observes that his orders in regard to the taking of security from Municipal officials entrusted with the handling of money have not been fully carried out, and further orders will issue on the subject

62. *Miscellaneous.*—On the occasion of the Moha Moha Baruni Yoga, a large concourse of people assembled at the Tribeni ghat in the Bansberia Municipality and at Naihati for the purpose of bathing in the Ganges. The Municipal Commissioners of Bansberia opened out two new roads, established a temporary hospital, lighted the streets and ghats, put up a bridge on Saraswati khal, erected many temporary latrines, and prohibited the sale of unwholesome food. In Naihati the Municipal Commissioners spent about Rs. 100 in improving roads, distributing medicines to the sick poor, and adopting necessary sanitary measures. In Naraingunj a new charitable dispensary, called the "Victoria Hospital," was established by public subscriptions to commemorate the Jubilee of Her Imperial Majesty.

63. *The Sanitary Board.*—The Sanitary Board have rendered effective service during the year as the official advisers both of Government and of the local authorities who have to deal with questions affecting sanitation. Both District Boards and Municipal Commissioners sought the advice of the Board freely in the early stages of schemes of sanitary improvement. Projects of drainage and water-supply were initiated at their instance and under their supervision, and their influence was usefully exerted to procure the execution of the preliminary surveys, without which it is often impossible to determine whether a particular scheme is feasible or not. Arrangements were made to place at the disposal of the Board a complete set of surveying instruments to be lent to local authorities, who are often deterred from undertaking surveys by the cost of the necessary appliances. In the later stages of these operations, when schemes recommended by local authorities come before Government for legal sanction or in connection with applications for loans, the Sanitary Board discharges a useful function in aiding Government with their professional advice, which is all the more valuable for being based upon local experience acquired in dealing with the initial stages of the projects under discussion. No change in the constitution and duties of the Board was introduced during the year, nor does any such change seem at present to be called for.

64. *Working of the Pilgrims' Lodging-House Act IV of* 1871.—The Act is in force in the municipal towns of Puri, Chandbally, Ulubaria, Garbetta, Deoghur, and Gaya, and was introduced during the year into Nadia and Danto The collections of the year including the opening balance were Rs. 31,1[illegible] against Rs. 30,156 in 1890-91. Out of this sum Rs. 23,333 were expended, leaving a balance of Rs 5,819 in hand.

65. *General working of the Bengal Municipal Act III of* 1884.—Mr. Power, the Commissioner of the Burdwan Division writes:—

Burdwan Division.

"The work of the municipalities generally is very uneven. The administration of Serampore, Raniganj, Vishnupur, Sonamukhi, Kotrang, Bhadreswar, and Bansberia was decidedly bad. The defects imputed to them are factious quarrels, inadequate taxation badly distributed among the tax-payers, bad collections with heavy outstandings, excessive support to higher education, insufficient to lower, a tendency to spend too much on establishment and to increase that expenditure, too little care in keeping the town and the latrines clean, and no disposition to make any sacrifice for improved sanitation. Serampore suffered from a severe outbreak of cholera in October last. The Chairman is practically an absentee. Neither he nor the Vice-Chairman, a private medical practitioner, who apparently has no leisure to attend properly to municipal affairs, took proper action to arrest its progress: the latter cannot afford or does not see fit to keep a conveyance, and is agitating for travelling allowance. The tax-payers are beginning to complain of the mal-administration. Baidyabati has a history of its own. At the end of the year under report, by dint of great exertions on the part of the official Chairman and the new Vice-Chairman, it was recovering from the effects of utter disorganisation. As I write, it is threatened with bankruptcy because of fatuous resolutions carried by the Commissioners in opposition to the Chairman and Vice-Chairman. What happened at Suri is instructive. A former Chairman was energetic in supervising the working staff, collecting outstanding arrears, introducing the latrine system, and revising assessments. The result of this honourable service was that he got himself detested, and was made to feel the weight of public odium in his professional and private life. Affairs began to relapse into the old state, but latterly the municipality has received a wakening up, and is now doing fairly well Of the smaller municipalities, Kalna, Tamluk, and Uttarpara deserve praise for good collections and general efficiency on established lines. Regarding these municipalities I have only to repeat the opinion I have already indicated. When all roads have been made, widened and metalled, when a drainage system has been perfected, when a pure supply of water has been provided, when a latrine system, public and private, has been put into working order, when, in short, a municipality is a going concern, then, and not till then, is the time to hand it over to a body of amateurs, who, however well meaning, must, in the very nature of things, fritter away the tax-payers' money in attempts to perform tasks quite beyond their strength."

Presidency Division.

66. The Commissioner, Presidency Division, Mr. Beames, observes:—As I have only been in charge of the Division for one-third of the year, I have hardly had sufficient time to form an opinion on the working of the municipalities generally. From the cases that have come to my notice, I am led to believe that here, as elsewhere, the work of out-door supervision is not efficiently performed in a majority of cases. The Municipal Commissioners leave this branch of their duties almost entirely to their subordinates, and confine their attention to the work that can be done at meetings. Sanitation is in a very backward state, collection of taxes is not properly attended to, and there have been several serious cases of embezzlement which could not have occurred had there been proper supervision. Even at meetings much time is wasted in party squabbles and mutual recriminations. In many cases assessments are not fairly made, and in the present state of the law there is practically no redress. There are, it is true, exceptions to this state of things. Some Chairmen and Vice-Chairmen have shown activity and intelligence in the discharge of their duties, and in some places the Municipal Commissioners have done really good work; but the defects mentioned above prevail to a greater or lesser degree everywhere, and I do not see any marked diminution in them as the years go on. They are perhaps inherent in the character of those on whom the administration of municipalities devolves.

Rajshahi Division.

67. Mr. P. Nolan, the Commissioner of the Division, is of opinion that the municipal administration is as efficient as it has been at any previous period, but that there is everywhere much room for improvement.

Dacca Division.

68. The Commissioner of the Dacca Division, Mr. Cooke, remarks:—Taking a general view of the municipal administration of the division for the year, the result cannot be said to be encouraging as evidence of the progress of local sef-government. Mr. Savage pays a high compliment to the administration of Barisal, but admits defects similar to those that exist in Faridpur and Mymensingh Municipalities in the matter of deficient funds standing in the way of efficient work. I think it probable that a disregard of the law in the matter of the proportion of non-agricultural population, the inclusion of large areas of thinly-populated country within municipal limits in order to increase municipal income, and an indiscreet extension of the municipal law to places to which it should not have been extended, may be accountable for the poor standard of efficiency attained in many small municipalities. More creditable results would probably be obtained from fewer and stronger municipalities; this is the same conclusion that I arrived at after considerable acquaintance with municipalities of various sizes, but in other respects similar, on the left bank of the Hooghly. A municipal income to make efficiency, as now understood, possible should not fall below Rs. 20,000; smaller incomes do not admit of the most ordinary requirements of municipal government in the present day and do not afford the necessary margin for incurring municipal debt, which is essential to all great undertakings in the way of drainage and water-works. The smaller municipalities must either be amalgamated, disappear, or be judged by a different standard. The most discouraging symptoms from a local self-government point of view is the state of things in Dacca, in which, if I am tightly informed, there exists a party desirous of surrendering the control of his municipality to an official Chairman.

Chittagong Division.

69. The Commissioner of the Chittagong Division, Mr. Oldham, remarks:—"I inspected all the municipalities, except Chittagong, between November and March last. With the out-door working of the Chittagong Municipality I am well acquainted, as also with the difficulties which its Chairman and Vice-Chairman have had in administration. I deferred the inspection of its office till they could report that the old disorder had been remedied. My inspection of the Brahmanbaria Municipality was minute and recorded in full detail. At Comilla, too, I made a full outdoor and office inspection, but as there was no defect of moment to notice, and I had nothing but praise to offer, I made no detailed record of it. The Cox's Bazar Municipality exists only in name, unless when the Commissioners are interested in some question of the distribution of funds to education; otherwise all is managed by

the Subdivisional Officer. At Noakhali my inspection of the office was stopped at the outset, because I found that the prescribed forms of account were not being kept, and the discovery seemed as great a surprise to the Vice Chairman, who was with me, and to the Chairman as to myself. At Comilla the connection of the Magistrate with the municipality has been very close, and at Chittagong more or less close. The Noakhali Municipality has held aloof for some time, though never in actual opposition. At Brahmanbaria the Subdivisional Officer was Chairman till last year. The municipality there now holds itself aloof to a certain extent from the local officer, but is very attentive to the opinions of superior authority. "On the whole the system of municipal Government cannot be looked on as successful in this Division. It is conspicuously successful in present circumstances at Comilla, with a minimum expenditure on establishment and a high rate of taxation, and every local want closely attended to. But Comilla is the only place in the Division which possesses residents with leisure as well as much capacity and experience, and the success of its municipality is due to the loyal support given by the Commissioners, to their experienced and able Chairman, Mr. H. M. Weatherall, as well as to the Magistrate. The Chittagong Municipality would fail altogether and give up its functions, but for the support it gives to its Chairman and Vice-Chairman, both busy men engrossed with other occupations, and yet about the only two competent residents willing to undertake the offices they hold. The state of Brahmanbaria is interesting and at present successful, but with its area composed as it is, and retained to gain a revenue, it cannot be called satisfactory, while as regards real municipal work it is still at the beginning. The Noakhali Municipality I look on as only existing to keep its administration from being resumed by Government."

Patna Division.

70. The Commissioner of Patna has not recorded his opinion on the working of municipalities in the Patna Division, but submits the following opinions of the District Officers on the subject.

71. The Magistrate of Patna, Mr. LeMesurier, observes:—"Since the powers of the Ward Committees of the Patna Municipality have been taken back and full and undivided authority restored to the chief executive officer, there has been a marked improvement in almost all the departments of the Municipality. Having succeeded to the charge of the district since the close of the year, I am unable to offer much comment on the working of the municipalities therein, but I have pleasure in again bringing to notice the good work done by Maulvi Syad Fazal Iman, Khan Bahadur, as Vice-Chairman in this as in other years."

72. The Magistrate of Shahabad, Mr. Skrine, is most unfavourably impressed with the management of the municipalities in the district. He inspected all except the Buxar Municipality. He writes:—"Dumraon, under the management of Rai Joy Prakash Lal Bahadur, C.I.E., the Dewan of the Maharaja, is the least ill-managed, but here, too, great improvements in the matter of drainage are necessary. Arrah is bankrupt, and things have arrived at such a crisis as to render it necessary that Government should appoint an official Chairman. Buxar is a disgrace to the district. Peculation and neglect are rife there. Jagdispur, though it has a European Chairman in the person of Mr. L. Mylne, is a nest of dirt and disease. Sasarám urgently requires drainage and water-supply; the latter would be easily obtained either by an artesian well or from a reservoir in the neighbouring hills."

73. As regards the Darbhanga Municipality the Magistrate, Mr. Dalton, reports:—"I am disposed to think that for several reasons Darbhanga would do far better if enrolled among the municipalities in the first schedule and deprived of the elective franchise until such time as the establishment of a Judge and Sub-Judge's Court here had brought in their train a large increment of the classes among whom we look for suitable candidates for the office of Municipal Commissioners. At present that class here is extremely restricted, and a glance at the assessment list will show the material position of the men who command the suffrages of the electors. * * * There is a long standing feud between the Muhammadans and Hindus, and while the former have gradually lost ground and have now hardly the strength for serious opposition, this fact itself does not tend towards reconciliation, and the evil results make themselves felt in many

ways. The Vice-Chairman is a gentleman who does not know English, and whose health does not permit of his frequent attendance in office. The result is that much of the work is left to the amla to carry on without sufficient supervision, and to this I attribute improper assessment and bad collections. The Chairman being the Magistrate-Collector, he has little time to devote to the details of the working of the Municipal Office. An able and energetic Vice-Chairman is a necessity, and this unfortunately Darbhanga does not possess. The Municipal Commissioners of Roserah are said to take little or no interest in the affairs of the Municipality. There is a strong party feeling among them. The appointment of Mr. Robertson, a neighbouring planter, as Chairman appears to have given satisfaction to both parties.

74. Speaking of the Chapra Municipality, the Magistrate-Chairman, Mr. Bourdillon, says:—"The year has been one of progress, municipal matters have worked smoothly, and some improvements have been made. The two markets, when complete, will be a great source of profit, it is hoped, and they have already cleared the roads of petty hawkers. Efficient sanitation is still the great demand of the town, and this will never be secured until (1) private latrines are brought under some regular system, (2) more public latrines are provided, and (3) drainage is brought under control. Part of the loan applied for from Government is intended to purchase better night-soil carts and more of them, and every pice that can be saved from luxuries should be spent on sanitation." The Revelganj and Siwán Municipalities appear to have worked fairly well. "These reports," the Magistrate adds, "all show that things are going on smoothly, but it need not be supposed that this state of things supplies any argument in favour of Local Self-Government. There has certainly been a change of name, but the municipalities in Saran are worked on exactly the same lines as they were 20 years ago. The Chairman, Vice-Chairman and staff, with here and there an energetic Commissioner, supply the motive power, but the remainder discharge their nominal duties with dignity and with a harmonious co-operation which has made, as I have said, the year's record one of smooth progress. More I neither expect nor desire."

Bhagalpur Division.

75. The Commissioner of Bhagulpur, Mr. Quinn, has recorded the following remarks on the subject.—"As regards the general working of the municipalities during the past year, there is nothing very special to note, the administration was as a rule carried on smoothly, and with a fair degree of efficiency on the same lines, and with the same defects, in regard to the supervision of executive work as hitherto. In Bhagalpur the necessity of improving the finances has been recognised, and the rate on holdings has been raised from 5 to 7 per cent. with effect from the commencement of the current year. The Magistrate of Malda, Mr. Samuells, reports as follows with regard to the two municipalities in the district:—

"The Commissioners of the English Bazar Municipality require to be more energetic. The state of their office is not good, and information cannot be speedily obtained, and there is no despatch in the transaction of their business. The work is carried on in a dreary, lethargic sort of way. No effort is made to increase their resources, and there is no sign of their taking an active interest in their work. Collections are often much in arrear. The state of the town has deteriorated under their management. The Commissioners of Old Malda seem to take more interest in their affairs. Their funds, however, are limited, and they have to fight against natural causes, which have affected the prosperity of their town Their collections are in a better condition, and information can be obtained more readily from them than from the Commissioners of English Bazar."

Orissa Division.

76. Mr. Toynbee, Commissioner of Orissa, writes:—"Having visited all the municipalities during the year, I am able in this report to give my impressions of their working. I regret to say that it is not generally favourable. Perhaps Kendrapara is the best, as Puri is the worst. There is a great want of out-door supervision and energy among the Municipal Commissioners, who are mostly content to leave everything to the Chairman and Vice-Chairman. They, in their turn, if they are hard-worked Government officials, pleaders or men with business of their own to attend to, leave the work too much in the hands of their subordinates. Matters jog along in old and deep grooves, and no attempt seems to be made to resort to loans as a means of carrying out extensive schemes of drainage or water-supply or of providing the municipality with some long-felt want. The Municipal

Commissioners are too timid in the matter of the increase of taxation, which remains pretty nearly stationary in spite of the general increase of wealth and prosperity, though discontented by a constant tendency to a rise in the prices of food-grains. There seems to be little life or energy in any of the municipal administrations."

Chota Nagpur Division.

77. The Officiating Commissioner of the Chota Nagpur Division, Mr. Wace, writes:—"I have not been long enough in the Division myself to offer a confident opinion on the working of Local Self-Government in its towns, but in the three towns which I have seen, the administration appears to me better than some of our more advanced districts. With better natural drainage and cheap labour, the towns of Chota Nagpur, which have grown under official care with due regard to ventilation and space, should certainly be easier to manage than the old native towns of Bengal and Bihár, where sanitation fights a weary battle against narrow streets, covered drains, slow drainage and ignorant obstructiveness in some classes." With regard to the working of the Ranchi Municipality, Colonel Evans-Gordon writes:—

"The administration of the Ranchi Municipality appears to be satisfactorily carried on. From a comparison of its income before 1886 with that now collected, a marked improvement in revenue is apparent, the credit of which is in a great measure due to the efforts of the Committee. Great attention was paid to sanitation. Dr. F. R. Swaine, Civil Surgeon, who is one of the Commissioners, rendered, as before, useful aid to the Municipality by his professional knowledge and advice. Babu Saroda Kumar Aikat, Vice-Chairman, who is most energetic, pays much attention to municipal affairs."

The Vice-Chairman of this Municipality, Babu Akhowrie Tarini Charan, is also reported to have taken great interest in its affairs. Nothing has been said with regard to the general working of the Municipal Act in the Daltonganj Municipality. Regarding Purulia Municipality Mr. Bedford says:—

"The Purulia Municipality has now been in existence some years, and may be said to be in a very satisfactory condition. The Commissioners have continued to fulfil their obligations, and have generally taken considerable interest in their work. Our late Vice-Chairman, Rai Ganganand Mukherjee Bahadur, whose death was so great a loss to our Municipality, was succeeded by Babu Ram Dayal Mazumdar. This gentleman is a pleader here, and we have to thank him much for the assistance he has rendered us. Having regard to the fact that he has onerous duties to perform connected with his own profession, his interest and energy in municipal matters are conspicuously great. The District Engineer, who is also one of the Commissioners, has rendered us much valuable assistance."

The Jhalda Municipality is said to be not popular, and the Commissioners as a body are reported to carry little weight. With regard to the Raghunathpur Municipality he says:—

"Raghunathpur Municipality, established in 1888, was extremely unpopular when first started, and I doubt if there is much improvement in this respect now. The Commissioners are a little inclined to go in for petty worries and unnecessary restrictions, which have the effect of irritating the people and do no practical good. The Commissioners, however, take considerable interest in municipal matters, and performed their duties fairly well during the year under review."

As to Chaibassa, considering the small income and the comparatively large area of the town, Mr. Renny, the Deputy Commissioner of Singhbhum, is of opinion that the state of things there is very satisfactory. He attributes this to the care and supervision exercised by the Chairman, Dr. Manuk, and the Vice-Chairman, Babu Makhan Lal Seal, both of whom are said to have been most unsparing in their efforts to do everything for the comfort and convenience of the people.

78. The number of municipalities in Bengal is so large, and the conditions of each vary so greatly, that the Lieutenant-Governor does not expect in them either uniformity of administration or a very high standard of excellence. Between the great cities of Howrah, Dacca and Patna, and the petty townships whose income does not exceed a few thousand of rupees, there are differences of needs, of capabilities and of material for administration which fully account for differences of treatment, and render any compendious formula of praise or blame impossible. Speaking generally, however, the Lieutenant-Governor is glad to recognise some advance in the municipal administration of the year: something has been done to raise larger funds and to improve sanitation in many towns where it was defective, and the discussion of the proposed amendment of the Municipal Act has shown that considerable attention is devoted to the

details of municipal business. But it would be idle to deny that much still remains to be done: the great cardinal principles of successful municipal administration are not yet sufficiently grasped. Assessments are still made with inequality, and when regard is had to the requirements of the people, with too great leniency: collections are not enforced with vigour and punctuality, and, owing to a mistaken gentleness, in many cases municipal servants are in arrears, and the whole administrative machinery is thrown out of gear: the great needs of rich and poor alike, thorough conservancy, good drainage and a pure water-supply are often neglected, and in some parts of the country there is a tendency to devote to secondary education for the benefit of a few the hard-earned contributions of the many. Many of these faults are common to municipal administration all the world over, and are not peculiar to India or Bengal. Sir Charles Elliott indicates them that they may be met and combated, and he hopes that when it becomes the duty of Government again to review the proceedings of the municipalities in these provinces, he may find an advance along all the paths of progress, more efficient administration, and more evidence of the capacity of the educated classes for Self-Government.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

DISTRICT ROAD FUND.

No. 6226R.C.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Road Cess.

Dated Calcutta, the 7th December 1892.

RESOLUTION.

READ—

Letter from the Accountant-General Bengal, No. 685L.F., dated 28th November 1892, submitting an abstract of receipts and expenditure of the several District Road Committees in Bengal, for the quarter ending 30th June 1892.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the several District Road Committees in Bengal, for the first quarter of the year 1892-93, be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the supplement to the *Calcutta Gazette.*

Ordered also that a copy of this Resolution, and of the abstract referred to, be forwarded to the Commissioners of the Rajshahi, Bhágalpur, Chittagong, and Chota Nagpur Divisions; to the Superintending Engineers of the Northern and Western Circles; to the Inspector of Works, Eastern Circle; and to the Financial Department of this Government, for information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,

The 5th December, 1892.

C. E. BUCKLAND,

Secy. to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of November 1892.

	Inches.	Date.	Hour.
The mean pressure of the month	29·920		
The average pressure of November from 24 years' registers ...	29·970		
The highest pressure in the month	30·060	12th	10
The lowest pressure in the month	29·697	1st	16
The range of pressure	0·363		
	Hours.		
The total number of hours of bright sunshine during the month	263·5		
The maximum possible number of hours of sunshine ...	330·8		
	°		
The mean temperature of the month	69·9		
The average temperature of November from 24 years' registers	74·8		
The highest temperature in the month	84·8	5th.	
The lowest temperature in the month	54·2	27th.	
The range of temperature during the month	30·6		
The mean daily range of temperature	18·8		
The greatest range of temperature in one day	24·2	23rd.	
	Per cent.		
The mean humidity of the month	77		
The average humidity of November from 24 years' registers ...	72		
	Inches.		
The mean vapour tension of the month	0·554		
The average vapour tension of November from 9 years' registers	0·616		
The mean cloud proportion of the month	1·17		
The average cloud proportion of November from 15 years' registers	2·51		
The total rainfall of the month	1·74		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	1·72		
The average fall of November from 48 years' registers ...	0·65		
The greatest fall in 24 hours	0·98	1st.	
	Days.		
The number of rainy days in the month	3		
The average number of rainy days in November from 24 years' registers	2		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	134·0		
The mean difference of sun and air temperatures	54·0		
The greatest sun temperature	144·7	5th.	
The greatest excess of sun over air temperature	62·4	2nd.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	54·8		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	6·6		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	10·1	26th.	
	Miles		
The mean movement of the wind per day	55·6		
The greatest movement of the wind in one day	105·0	1st.	
The greatest movement of the wind in one hour	10·0	25th, 1 to 2 P.M. 27th, 2 to 3 P.M.	

The number of hours with winds from each of the 8 points—

N. 338, N.E. 60, E. 5, S.E. 10, S. 10, S.W. 1, W. 21, N.W. 135, Calm 140.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1892.

THE main features in the meteorology of November have been :—

1. The mean pressure for the month has been in defect of the normal by amounts which range from 0·02 inch to 0 03 inch. The smallest defects, however, have been at the stations in the extreme south of the province, where they usually equal less than 0·02 inch.

2. The mean temperature for the month for the province has been in defect of the normal by more than a degree. The defects have been largest at the southern and south-western stations, where in many cases they exceed 2°. This defect has been mainly due to unusually low minimum temperatures, which at many of the southern and south-western stations have averaged from 3° to 4° below the normal. On the other hand, maximum temperatures for the month have been in excess of the normal by moderate amounts over a large part of Bihar.

3. Humidity has been in slight to moderate excess, especially at the northern stations and in Assam, while cloud proportion has been rather largely in defect, and, except during the first few days of the month, the sky has been almost cloudless

4. At the end of October a wave of humid winds, accompanied by decidedly disturbed weather, had advanced over the southern half of Bengal from the Bay in connection with a barometric depression. This gave very disturbed weather and heavy rain to some of the southern districts up to November 4th, but after this date fine settled weather of the ordinary cold season type set in and continued up to the close of the month, the cold season conditions indeed being rather more strongly developed than is usual so early in the season throughout the greater part of the month.

5. The weather in the Bay was comparatively free from disturbance, and only one barometric depression formed in the south-east of the Bay, which advanced in a westerly direction towards the South Madras coast, where it filled up before reaching the land. This disturbance was too far away to have any material influence in the weather in Bengal.

6. No storms originating in or coming from North-Western India have advanced towards Bengal, and the weather in November has hence been free from any disturbance due to this cause.

7. Owing to the conditions which obtained in the early part of the month, abnormally heavy rain was received in South-West and East Bengal, and rather heavy rain in Orissa and Chota Nagpur. Very light rain feil in North Bengal and South Bihar, but North Bihar was quite rainless throughout the month.

The changes in the meteorological conditions during November do not call for any very detailed comment, but the main interest lies in the changes which obtained within the first few days. At the close of October an influential barometric depression had formed to the east of the centre of the Bay, and advancing rather slowly in a westerly or west-north-westerly direction, it had crossed the Madras coast between Nellore and Masulipatam during the night of 28th October and the early morning of the 29th. The wave of humid winds and very disturbed weather accompanying the depression then advanced up the Bay and spread over Orissa and the southern half of Bengal, and at the end of October weather conditions over this area were more like those of the rains than the beginning of the north-east monsoon. Pressure had fallen moderately to rapidly over Bengal and had become unusually low; easterly and south-easterly winds were blowing over the whole province, while general heavy rain was reported in Orissa, South-West Bengal, East Bengal, and Chota Nagpur, and a few showers had fallen in North Bengal and Bihar. A further rather rapid fall of pressure again occurred on November 1st, the fall in Orissa equalling a tenth of an inch, and hence what practically amounted to a barometric depression was formed over Bengal, the defect ranging up to 0·217 inch at Chaibassa, and to 0·202 inch at Balasore. Winds on this day had changed slowly, the southerly element had to a great extent disappeared, and winds had become easterly and north-easterly. This probably pointed to the fact that the moist current had ceased to advance and was being influenced by an opposing northerly wind current. The rainfall on this day was again general and heavy in the southern districts, but was mainly confined to Orissa, South-West and East Bengal, and Chota Nagpur. On the 2nd a further moderate fall of pressure occurred at all except a few of the south-western stations, and the seat of minimum pressure was transferred to Jessore; and a very distinct barometric depression still existed over Bengal, for the defect ranged up to nearly a fifth of an inch at Calcutta and Jessore. Winds also had become much more northerly, showing that the moist air current was being driven further back, and there was also a very distinct tendency to cyclonic circulation over South and South-East Bengal and the Sundarbans. Conditions therefore had become very favourably for rainfall over South-East Bengal and the south of the province generally, and exceedingly heavy rain was reported on this day in the districts of Tippera, Dacca, Faridpur, Bankura, Jessore, Hooghly, 24-Parganas, and Midnapore, while heavy general rain was reported over the

whole of the south of the province. On the 3rd a very distinct reaction set in, pressure rose rather rapidly over the whole province, and the depression over Bengal to a considerable extent filled up. Winds became westerly at the western stations and northerly elsewhere, showing that the humid current from the Bay had to a great extent been driven back, and on this date the rainfall reported was confined to small parts of South-West Bengal and to the greater part of East Bengal, and the remaining divisions were practically rainless. On the 4th, again, a further rapid increase of pressure took place, the increase at the northern stations in several cases exceeding a tenth of an inch, and the distribution of pressure became fairly normal for the cold weather. On this day winds were north-westerly and northerly over the greater part of the province, and beyond a few light showers of rain in East Bengal, the whole province had become rainless. On the 5th a further moderate increase of pressure took place, and the pressure distribution became quite that of the north-east monsoon or cold weather season, and a steady north-westerly air current flowed over the whole province. The sky then cleared rapidly, humidity and temperature decreased, and rainfall became entirely absent, and the north-east monsoon conditions may be said to have established themselves in the province from this date, and to have continued uninterruptedly till the close of the month, during which period the only changes of meteorological conditions were of the small oscillatory nature characteristic of fine settled weather, and which hence require no detailed review.

The only other point in the meteorology of November requiring brief notice is the weather in the Bay at the close of the month. Fine and fairly settled weather of ordinary north-east monsoon conditions apparently prevailed over almost the whole of the Bay up till about the 26th, when conditions began to change, and from this date a slight barometric depression accompanied by strong winds and squally weather commenced to form in the south-east of the Bay. It remained stationary, perhaps concentrating slightly, for some days, and then slowly drifted in a westerly direction towards the South Madras coast. It had perhaps reached the middle of the south of the Bay on the last day of November, but it merely existed as a feeble diffused depression of little importance and with no very definite centre. It afterwards advanced towards the Madras coast, which it began to affect on the 1st and 2nd of December. The depression, however, was too feeble and too far distant from Bengal to affect the weather conditions, which hence remained quite settled and of normal cold weather character up to the close of the month.

Pressure.—The variations of pressure during the first few days of the month were large, but from about the 6th they were generally small and of little practical importance. For the first four or five days pressure was in defect of the normal by nearly a tenth of an inch. In the week ending November the 12th, pressure was almost normal; and in the following week pressure was again almost normal, but, if anything, very slightly in excess. In the week ending the 26th a slight defect had been established equalling about 0·03 inch to 0·04 inch, and during the last few days pressure was generally in excess of the normal. These variations have to a certain extent neutralized each other, and hence the general pressure for the month has not been very far removed from the normal, the average pressure being in defect by from 0·02″ to 0·03″. The defect is largest at the western and central stations, where it is from 0·03″ to 0·04″, and smallest in the extreme south-east and south-west of the province, where it equals from 0·01″ to 0·02″. In Assam the general defect has been decidedly larger, and it averages 0·039″, and it is actually largest at Sibsagar, where it equals 0·051″.

Temperature—Was decidedly above the normal at the commencement of the month, the mean excess for the period ending 4th November being 0·6°. In the second week the excess was replaced by a defect which continued practically till the close of the month. In the week ending the 11th the defect was 2·7°, in the next week 1·2°, and in the following week 0·8°. For the whole month the mean temperature of the province has been 1·1° in defect of the normal, but the defect is largest in Orissa and South-West Bengal, where it equals about 2°. As stated in the opening summary, the defect has been principally noticeable in the night or minimum temperatures, and in such cases as Calcutta, Bankura, Cuttack, False Point, and Gopalpur, they have been more than 3° in defect, while on the other hand at some of the Bihar stations, such as Bhagalpur, Darbhanga, Arrah and Dehri, the day temperatures have been about 2° and upwards in excess of the normal. In Assam the general temperature for the month has been 0·8° in defect of the normal.

Rainfall.—The whole of the rain fell during the first three or four days of November, except at a few of the stations in the hills, where showers were reported on the 27th instant. East Bengal received about three and-a-half inches and South-West Bengal two and-a-half inches. The falls in Orissa equalled one inch and in Chota Nagpur about half this amount. Elsewhere the falls have been unimportant. Hence the falls in East and South-West Bengal were largely in excess, and in Chota Nagpur slightly in excess of the normal; while in the other divisions the falls were in defect.

The following table gives in a condensed form the rainfall information for each of the seven large meteorological divisions of Bengal for the present year up to the close of November. The numbers there given, as in the case of the former months of the year, are the actual average rainfalls in each month in each division, expressed as a percentage of the

normal fall for the period, and the last column also gives the total rainfall up to the close of November expressed in the same way:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months of 1892 expressed as a percentage of the normal fall for the period.
Orissa	Nil	26	2	31	50	132	88	70	96	102	72	86
South-West Bengal	Nil	26	4	99	89	84	89	58	77	91	739	80
North Bengal ...	Nil	67	118	180	149	75	168	146	51	28	82	110
East Bengal ...	Nil	69	34	166	120	79	86	66	77	118	821	89
North Bihár ...	2	116	50	114	72	109	106	171	46	7	Nil	99
South Bihár ...	11	170	15	93	36	79	99	121	65	30	25	86
Chota Nagpur ...	Nil	194	2	23	53	111	96	66	96	116	144	88

It will be seen that for the whole year up to November, North Bengal has received a fall 10 per cent. in excess and North Bihar has received a normal fall, while all other divisions have been in defect, the usual defect equalling from 14 to 20 per cent., the largest defect having occurred in South-West Bengal.

Taking up the case of the smaller districts, in November an average rainfall of 6·15 inches was recorded in Noakhali, falls exceeding 5 inches in Midnapore and Dacca, exceeding 4 inches in Hooghly, Jessore, and Faridpur, exceeding 3 inches in 24-Parganas, Chittagong Hill Tracts, Tippera, and Singhbhum, exceeding 2 inches in Howrah, Chittagong, and Backergunge, and exceeding an inch in Puri, Nadia, Khulna, Burdwan, and Bankura.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the month of November 1892:—

Meteorological Divisions.	Temperature.						Rainfall.							
	Highest observed during month.	Lowest observed during month.	Averages for month.			Average mean of month above or below normal mean of month.	Of month.			Rainy days.			Since 16th Oct. 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in month.	Normal average number in month.	Variation.	Average.	Normal average.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station
district, *i.e.* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 10th of December 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. — RAINFALL. — OF WEEK. Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the* 13*th December* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 10TH OF DECEMBER 1892.

THE meteorological conditions for the week again call for few remarks, for weather has remained fine and settled and of the ordinary cold season character throughout the week in all districts except in and near the hills. At the beginning of the week pressure was in slight excess of the normal, but it fell by small to moderate amounts on the 4th and 5th, and on the latter day in particular a decidedly rapid fall took place in the hills, for at Darjeeling pressure decreased by nearly a tenth of an inch, and generally over the province pressure became in slight defect. The rapid fall at Darjeeling may have been in connection with the formation of a feeble low pressure area in the hills. A further fall of pressure took place on the 6th, which was again largest at Darjeeling, where pressure became in defect by a tenth of an inch. Disturbed weather had also appeared in the hills, for on this day fairly general rain was reported in the Darjeeling district and a few showers in the Jalpaiguri district. On the 7th a rapid rebound of pressure took place, and pressure rose moderately rapidly, the increase continuing on the 8th, and to a certain extent the 9th, but on the 10th pressure was again falling moderately. From the 7th to 9th, however, pressure was in excess of the normal, but on the 10th it was again slightly in defect.

The disturbed conditions noticed in the hills on the 6th gradually passed away with the increasing pressure, but a few light showers were also reported in and near the hills on the 7th, though after this date again conditions became fine and settled over practically the whole province. Hence except in the hills, where for two or three days weather was disturbed, fine settled weather has prevailed in the province throughout the week.

Pressure.—The mean pressure for the week has been in excess of the normal in all districts except Bihar and Chota Nagpur, where there has been a defect of a few thousandths of an inch. In other districts it has been in excess usually by one or two-hundredths of an inch, the excess being largest in Orissa, where it is almost 0·025″.

Temperature—At the beginning of the week was in slight excess of the normal at the western stations and in defect elsewhere, the defect equalling about 3° in South Bengal. Temperature generally then increased slightly for the next two or three days, but began to fall again from the 7th to the 8th, when the fall became decidedly rapid, so much so that on the 9th and 10th the mean temperature was from 3° to 6° in defect of the normal. The defects have again been more marked in the night than in the day temperatures. During the last two nights of the week indeed the minimum temperatures registered were about 5° below the normal at the majority of stations, and in some cases the defects rose to 7°, 8° and 9°. Thus on the 9th defects of about 7° were registered at Barisal and Jessore, of about 8° at Calcutta, Chittagong, and Krishnagar, and of about 9° at Bankura. On the 10th defects of 7° were reported at Dehri, of 8·2° at Krishnagar, and of 9·4° at Calcutta. Temperatures have therefore been exceptionally low, specially towards the close of the week.

The distribution of temperatures for the week in the province generally, and its variation from the normal value, are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the same period. It will be seen that the night temperatures at Calcutta for the week have been no less than 5·5° below the normal, while the day temperature has been nearly normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 10th December 1892.

	Normal mean maximum temperature for the week ending 10th December.	Actual mean maximum temperature for the week ending 10th December 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 10th December.	Actual mean minimum temperature for the week ending 10th December 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 10th December.	Actual mean daily temperature for the week ending 10th December 1892.	Variation of actual mean from the normal.
Cuttack	82·3	81·8	—0·5	58·3	57·5	—0·8	70·3	69·7	—0·6
Calcutta	77·0	76·5	—0·5	58·5	53·0	—5·5	67·8	64·8	—3 0
Dacca	79·9	77·6	—2 3	59·4	56 9	—2·5	69·7	67·3	—2·4
Burdwan	78·6	77·7	—0·9	57 7	55·7	—2·0	68·2	66·8	—1·4
Patna	75·9	75·0	—0·9	52·6	51·1	—1·5	64·3	63·1	—1·2
Gaya	77·0	77·3	+0·3	51·3	52·1	+0·8	64·2	64·7	+0·5
Purnea	78·0	74·5	—3·5	51·2	47·7	—3·5	64·6	61·2	—3·4
Hazaribagh	72·1	72·4	+0·3	51·3	49 0	—2·3	61·7	60·7	—1·0
Darjeeling	51·1	42·3	—8·8	38·3	36·0	—2·3	44·7	39·2	—5·5

For the whole province the mean temperature for the week has been in defect by about a degree, but the defect is largest in East and South-West Bengal, where it equals about 2°.

Rainfall.—Beyond the slight showers in and near the hills in the middle of the week, the whole province has been rainless during the week. The Darjeeling district only has received on the average about half an inch of rain, and the Jalpaiguri district 0·11 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 10th of December 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The total fall from 1st January to 10th December 1892	46·67
The average fall of the corresponding period for 24 years, S.-G.'s Office ...	65·19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌂, dew; ≡, fog.

C. Little,

For Meteorological Reporter to the Govt. of India.

Meteorological Office, Govt. of India;

Calcutta, the 12th December 1892.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

GENERAL.—*The 29th November* 1892.—[illegible] Lusen, Joint-Magistrate and Deputy Collector, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the afternoon of the 29th November 1892.

The 9th December 1892.—Mr. H. [illegible], is appointed to be a Joint-Magistrate and Deputy Collector of the second grade, with effect from the 11th October 1892, and to act in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the afternoon of the 30th November 1892.

The 12th December 1892.—Babu [illegible] Naik, Deputy Collector, is appointed to perform the functions of a Collector under section [illegible] of the Public Demands Recovery Act VII (B.C.) of 1880, in the district of [illegible].

The 16th December 1892.—Mr. [illegible] Mukerjee, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Burdwan Division, and is posted to the head-quarters station of the Burdwan district.

The 17th December 1892.—The services of Mr. E. G. Colvin, Joint-Magistrate and Deputy Collector, are placed at the disposal of the Revenue Department of this Government for employment as Settlement Officer in Champaran.

The 19th December 1892.—Mr. C. A. W. Fordyce, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Tippera, is allowed leave for three months, under article 278 (*a*) of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Mr. William Boyd Thomson, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Orissa Division, and is posted to the head-quarters station of the Cuttack district.

Babu Ashootosh Bhattacharjee, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Burdwan, is transferred to the head-quarters station of the Rangpur district.

Babu Hemendra Lal Khastagir, Officiating Deputy Magistrate and Deputy Collector, Chittagong, is transferred to the head-quarters station of the Tippera district.

The order of the 16th November 1892, transferring Babu Sarat Chunder Sen Gupta, Officiating Deputy Magistrate and Deputy Collector, Chittagong, to Tippera, is cancelled.

Babu Nobin Chunder Mitter, Second Personal Assistant to the Commissioner, Patna Division, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

LEGISLATIVE.—*The 17th December* 1892.—With the sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor re-appoints the Hon'ble T. T. Allen, under the provisions of the 29th, 30th, and 45th sections of the Indian Councils Act of 1861, to be a Member of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William.

With the sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor appoints Maulvi Syed Fazl Imam, Khan Bahadur, under the provisions of the 29th, 30th, and 45th sections of the Indian Councils Act of 1861, to be a Member of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William.

The 20th December 1892.—With the sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor re-appoints the Hon'ble A. H. Wallis, under the provisions of the 29th, 30th, and 45th sections of the Indian Councils Act of 1861, to be a Member of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations in the Bengal Division of the Presidency of Fort William.

REGISTRATION.—*The 19th December* 1892.—Maulvi Mirza Yusuf Ali is appointed to be Rural Sub-Registrar of Gobindganj, in the district of Rangpur.

Babu Jotendra Chandra Mitter is appointed to be Rural Sub-Registrar of Guskara, in the district of Burdwan.

The 20th December 1892.—Syed Hatif Ali-al-Husaini is appointed to be Rural Sub-Registrar of Baduria, in the district of the 24-Parganas.

EDUCATION.—*The 14th December* 1892.—In modification of the order of the 24th September last, Mr. W. B. Livingstone, Officiating Principal of the Rajshahi College, acted as Inspector of Schools, Rajshahi Circle, in addition to his own duties, from the 25th September to the 31st October 1892, *vice* Mr. G. Bellett, on leave.

The 20th December 1892.—The following promotions and officiating appointments in the Bengal Educational Service will have effect from the 26th December 1892, the date on which Mr. C. H. Tawney, C.I.E., Officiating Director of Public Instruction, retires from the service:—

Dr. C. A. Martin, Inspector of Schools, Bihar Circle, officiating in class I, is confirmed in that class, *vice* Mr. C. H. Tawney, C.I.E.

Dr. Martin is also appointed to officiate as Director of Public Instruction, during the absence, on furlough, of Sir Alfred Croft, K.C.I.E., or until further orders.

Mr. A. L. V. Ewbank, Principal of the Patna College, is appointed to officiate in class I, during the absence, on deputation, of Dr. C. A. Martin, or until further orders.

Mr. J. Willson, Director of Public Instruction, Assam, on furlough, is appointed to class II, *vice* Dr. C. A. Martin.

Mohamahopadhyaya Mahes Chandra Nyayaratna, C.I.E., Principal of the Sanskrit College, is appointed to officiate in class II, during the absence, on furlough, of Mr. J. Willson, or until further orders.

Mr. M. E. DuS. Prothero, Professor in the Hooghly College, and Officiating Director of Public Instruction, Assam (officiating in class III), is confirmed in that class, *vice* Mr. J. Willson.

Dr. A. F. R. Hœrnle, Principal of the Calcutta Madrasa, is appointed to officiate in class III, during the absence, on deputation, of Mohamahopadhyaya Mahes Chandra Nyayaratna, C.I.E., or until further orders.

Babu Hari Prasad Banerjea, Head Master of the Barisal School, is appointed to be Head Master of the Hooghly Collegiate School, *vice* Babu Nanda Lal Das, retired, with effect from the date on which he joins his appointment.

Babu Surendra Nath Bhattacharji is appointed to act as Assistant Lecturer in the Civil Engineering College, Sibpur, during the absence, on deputation, of Babu Dwarka Nath Dutt, or until further orders.

ECCLESIASTICAL.—*The 14th December* 1892.—The Reverend, T. D. Gray, Senior Chaplain, Bengal, has been granted by Her Majesty's Secretary of State for India an extension of leave on medical certificate for six months.

The 19th December 1892.—The Lieutenant-Governor accepts the resignation tendered by the Reverend S. J. Jones, a Minister of the Baptist Church at Dinapore, Patna, of his appointment as Registrar of Marriages, Births and Deaths.

H. J. S. COTTON,

Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th December 1892.—The following rules, which have been framed and issued by the Chief Commissioner of Assam for regulating the system of recruitment for the Provincial and Subordinate Services in Assam, are published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

The 18th November 1892.

No. 10610*G.*—The following Rules for the admission of candidates for appointments in the Provincial and Subordinate Services in Assam are published in supersession of all previous rules on the same subject:—

1. There are two classes of appointments in the Subordinate Service of Assam, viz., (1) Tahsildars and (2) Sub-Deputy Collectors. The Provincial Service will consist of Extra Assistant Commissioners only.

2. The list of Tahsildars will be ungraded, the pay of each officer being fixed with reference to the importance of, and degree of responsibility that attaches to, each charge.

3. The list of Sub-Deputy Collectors will be a graded list as follows, the number in each grade being from time to time determined by the Chief Commissioner:—

Grade.	Pay per mensem.
	Rs.
First grade	200
Second "	175
Third "	150
Fourth "	125
Fifth "	100

4. The number of Extra Assistant Commissioners sanctioned by the Government of India for district work is 29, with power given to the Chief Commissioner to make acting appointments in the lowest grade in place of officers temporarily removed from district work, and employed exclusively in settlement work or on special duty. The number of substantive appointments in each grade is fixed as follows:—

Grade.	No.	Pay per mensem.
		Rs.
First grade*	1	800
Second "*	1	700
Third "	2	600
Fourth "	5	500
Fifth "	10	400
Sixth "	6	300
Seventh "	4	250

Persons, not already in Government employ, who may be appointed to act in the seventh grade, will ordinarily draw a minimum salary of Rs. 200 a month.

(*a*) *Tahsildars.*

5. All appointments to the post of Tahsildar in the Assam Valley will be made by the Chief Commissioner on the nomination of the Commissioner, and in the Surma Valley and Hill districts on the nomination of the Deputy Commissioner. In dealing with applications for such appointments preference will be given to applicants already in Government employ who have rendered approved service, and *cæteris paribus* to natives of Assam.

6. Any native of India, as defined in section 6 of the Statute 33 Victoria, Chapter III, may be nominated for the post of Tahsildar, who can produce approved certificates of good character and physical fitness for active work, and who has passed the Middle English or Middle Vernacular School Examination in Assam, or any examination in India equivalent thereto, and who, unless he is already in Government service, is not over 25 years of age.

Provided that the subjects of Native States in alliance with Her Majesty the Queen-Empress of India shall also, if qualified in other respects, be eligible for appointment to Tahsildarships.

7. All persons appointed to the office of Tahsildar will be on probation for two years, during which they must, unless specially exempted by order of the Chief Commissioner, pass an examination by the Lower Standard in the following subjects, as laid down in the Departmental Examination Rules:—

(1) Civil Law.
(2) Criminal Codes.
(3) All questions relating to Revenue subjects in the General Law paper without books.

In addition to passing in the above subjects, all such persons are liable to be called upon to pass within the period of probation an examination by the Higher Standard in the vernacular language of the district in which they are employed if the Chief Commissioner should consider this necessary.

They must also, within the same period, obtain a certificate of knowledge of practical surveying from the Director, Department of Land Records and Agriculture, or from such other officer as the Chief Commissioner may from time to time appoint on this behalf. On

* Subject to the approval of the Secretary of State.

failure to pass the said examination, or to obtain the said certificate, they are liable to forfeit their appointments.

(4) *Sub-Deputy Collectors.*

8. All persons who are applicants for the appointment of Sub-Deputy Collector must first apply for admission to the roll of competitive candidates for such appointments. All such applications shall, as a rule, be made through the Deputy Commissioner of the district to which the applicant belongs, or in which he is serving or living at the time. If the applicant does not reside in Assam, he should forward his application through the Magistrate of the district in which he resides.

9. All applicants for the appointment of Sub-Deputy Collector must be natives of India, as defined in section 6 of the Statute 33 Victoria, Chapter III. Provided that the subjects of Native States in alliance with Her Majesty the Queen-Empress of India shall also, if qualified in other respects, be eligible for appointment to Sub-Deputy Collectorships.

10. Every applicant for the appointment of Sub-Deputy Collector will be required to produce the following certificates :—

(a) That he is in sound health and capable of bearing fatigue and exposure. This certificate must be signed either by the Civil Surgeon of the district in which the candidate resides, or, if he resides in Calcutta, by the Resident Physician or Resident Surgeon of the Calcutta Medical College Hospital.

(b) That he is of good moral character.

(c) That he belongs to a respectable family.

(d) That he is a good rider. This certificate must be signed by a district officer either in Bengal or Assam.

11. It will be in the discretion of the Deputy Commissioner to forward (in the Assam Valley districts) to the Commissioner, or (in the Surma Valley and Hill districts) to the Secretary to the Chief Commissioner, any application preferred to him under Rule 8. If the Deputy Commissioner refuse the application, the applicant may (in the Assam Valley districts) represent the matter to the Commissioner, or (in the Surma Valley and Hill districts) to the Chief Commissioner, whose decision shall be final.

12. If an application under Rule 8 is forwarded by the Deputy Commissioner, a nomination roll in Form A annexed to these rules shall be submitted. The Deputy Commissioner shall also record a distinct opinion regarding the applicant's qualifications for office.

13. The Commissioner, Assam Valley Districts, and Heads of Departments may, without any recommendation from the Deputy Commissioner, send to the Secretary to the Chief Commissioner nominations of applicants for the appointment of Sub-Deputy Collector already in Government employ, and who have served directly under their orders, or in respect to whose qualifications they may have had special opportunities of forming an opinion. All such nominations should be accompanied by the certificates and nomination roll required by Rules 10 and 12.

14. No applicant for the appointment of Sub-Deputy Collector shall ordinarily be nominated who is under 22 or over 25 years of age, unless he is already in the public service, or is a licensed pleader and is not over 30 years of age.

15. No person shall be nominated as a candidate for the appointment of Sub-Deputy Collector who has not passed an Indian University Examination, or other examination equivalent thereto.

Persons who have served Government for six years and have held for not less than two years a responsible permanent appointment above that of copyist with a salary of not less than Rs. 50 per mensem in one of the Civil Departments of the Government service are exempted from the operation of this rule.

16. In nominating applicants for the appointment of Sub-Deputy Collector, special weight should be given to the following points :—

Good character.
Education and knowledge of English.
Previous good service, if any.
Constitution and physical fitness for active work, and ability to ride.

17. If the Chief Commissioner approves a nomination for the post of Sub-Deputy Collector, the applicant's name will be entered in the roll of competitive candidates, and two copies of the entry will be forwarded to the Commissioner, Deputy Commissioner, or Head of Department who made the nomination; one to be filed in the office, and the other to be given to the candidate.

18. In the following rules "Candidate" means an applicant for appointment as Sub-Deputy Collector whose name has been entered in the roll of competitive candidates under Rule 17.

"Selected candidate" means a candidate who has been successful in the examination, as provided by these Rules, or who has been declared to be a selected candidate by the Chief Commissioner under Rule 25.

19. An examination of candidates for the appointment of Sub-Deputy Collector will be held at Gauhati and Sylhet on such dates as may from time to time be notified in the *Assam Gazette*. Such notification shall be three months in advance of the examination, and shall specify the number of vacant appointments which are open for competition. The Examination Committee will consist of the officers who form the Committee for the departmental examination of Assistant and Extra Assistant Commissioners.

2. Such a design would, *ipso facto*, have a great advantage, as would admit of the cart proposed being selected by the jury and without further reference being readily constructed by the ordinary agency of the Government of India. In other words, credit will *pro tanto* be given for a simple design, only requiring such material, plant, and workmanship as are available in a well fitted Government arsenal.

3. Where, however, the designer foregoes the above advantage, and proposes the use of materials, plant, and workmanship only to be obtained by special agency or in special localities, he must clearly indicate the arrangements under which the proposed cart could best be constructed. Whilst the necessity for special arrangements will in no way debar a design from a premium, any proposals tending to a monopoly will in themselves be considered a disadvantage.

4. The object sought is a design for a military transport cart for a mountainous country with absolutely no local resources in the way of skilled labour or constructive material. The few existing unmetalled roads are steep, narrow, and rough. Carts would further be largely employed on unbridged and unmetalled tracks newly opened along hill sides and stony river beds to meet the exigencies of military operations. The roughest handling is unavoidable. With abnormally dry air, scorching sun, freezing wind, and a temperature varying from 185° above to 15° below zero (of Fahrenheit), the consequent shrinking and warping of wood, however well it may be seasoned, absolutely debars the use of that material except, perhaps, in the poles or shafts, floor boards, and sides. Further, the use of wood, even in such secondary parts, is objectionable, as it is liable to be stolen and burnt as fuel. Teak is the best wood for sides or floor-boards. Poles or shafts, if of wood, might be well supported by iron plates and bolts.

5. The cart, therefore, with the possible but undesirable exceptions noted above, must be entirely made of metal or of combinations of metals. As the effects of rough handling and jolting on loose joints and fittings, and bad workmanship generally, combined with the difficulty of making efficient and timely repairs, are the main causes of carts breaking down, machine boring and turning with perfect fit and interchangeability of parts is absolutely indispensable, so that every broken part in any cart could be immediately replaced by a similar part, without shaping, fitting or skilled labour whatever. Every designer should specify the standard of accuracy, $\frac{1}{64}$, $\frac{1}{32}$, $\frac{1}{16}$, inch, &c., he could guarantee in interchangeable parts. The effect upon the prime cost due to guaranteeing such different classes of workmanship should be fully specified.

6. Whilst no restrictions are placed upon the use of any metals whatever, designers are warned that whereas mild steel wrought, cast, and malleable cast iron, copper and brass are familiar to native workmen, these materials are more suitable than special qualities of steel, phosphorous, and Uchatius bronze, &c., in such parts as tyres, forgings, boxes, &c., which it may require specially skilled labour to manipulate without injury from overheating or burning.

7. As the merits of a design will be largely judged from its prime cost, competitors will consider how far light and strong but possibly very expensive metals should be used in place of commoner material, having especial regard to the importance in the matter of durability, of the cart itself not being unduly light with reference to the load it has to carry. In this connection 656 English pounds as a maximum, and 492 lbs. as a minimum, are indicated as generally suitable limits of weight for an empty cart. This remark, however, in no sense need restrict designers' ingenuity in devising a lighter cart if of sufficient strength.

8. The cart to have only two wheels to be provided with a brake or drag and to be drawn by two mules. The standard load to be carried is fixed at 656 lbs. (six hundred and fifty-six English pounds). The pole system of harnessing suspended from a curricle bar, and adaptable to mules varying from 13·1 to 13·3 hands in height, or from 40 to 42 English inches at the withers, is preferred to the system of shafts and collar-bars, which is not, however, excluded. The mules to be led by a man on foot, a driving seat being inadmissible. No kind of overhead covering is necessary. Laden carts will practically never be driven faster on level ground than at four miles an hour.

9. Meshes are allowable in the floor and sides of the cart, which need not be closed throughout, whilst the sides may be left open at both ends or merely closed by a chain, the smallest size of package to be provided for in the mesh is 20″ by 7″ by 8″. The most convenient height of cart-floor for the loading of military stores is from 2′ 9″ to 3′ 3″, according to the size of wheel. For meshes in the floor and sides hoop-iron, diagonally bracing the cart, has been found suitable.

10. As a guide to dimensions convenient for army purposes, but which need not, however, be necessarily adhered to, an extreme width of 4′ 6″ over tyres of wheels, and outside diameter of wheel of from 4 to 5 feet and a width of tyre of from 2½ to 3 inches is suggested. For clear room for packing in the body of the cart the cubic space averaged by 5′ 6″ in length, 3′ 3″ in width, and 1′ 9″ in height would be generally suitable. Although the army cart now in use, which is chiefly made of wood, is a very unsatisfactory one, it may be useful to competitors to know that its average cost and its weight when empty is Rs. 190 (one hundred and ninety) and 615 (six hundred and fifteen) English lbs., respectively.

11. Although it is not debarred, the easing of the draught by springs and by bent axles providing for higher wheels is not, in the interests of simplicity, generally recommended. Where springs are proposed, the alternative cost of a similar cart without springs might with advantage be given. The solidity, which under rough handling is scarcely attainable without

sufficient weight and mass in the cart itself, should not be sacrificed to lightness and appearance. For similar reasons spider wheels, as being further too narrow in the tyre for sandy soil, are not recommended.

12. A grease box, spanner, hammer, and such small stores as may be necessary, have to be suitably provided for and carried on the cart. The proposed lubricant should be mentioned. Where washers, linch-pins, bolts, &c., are liable to shake out and be lost, they must be attached to the vehicle. As carts will often be loaded in railway trains by night, special importance attaches to ease and rapidity in dismantling and re-erecting of the carts, and to facilities for the compact railway packing of constituent parts. This would indicate the use of removable poles or shafts. Great stress will be laid upon facilities for tightening up parts on the march, and for replacing tyres, spokes, &c., with ease and rapidity and without skilled labour.

The models, the proper handling of which, if at all complicated should be duly explained, will be expected to most fully illustrate the facilities for interchangeability, and for repairing, tightening, and replacing different parts.

13. Each design and model, in addition to the fullest specification, description and estimate of cost, including that of two coats of best red lead as priming, and one of specified finishing paint should, besides giving the total weight, be accompanied by a measurement book showing by calculation the weight and cost of each constituent interchangeable part. This will enable the jury to check the estimate, and to decide upon relative merits with reference to the cost of providing certain numbers of spare interchangeable parts, such as wheels, axles, poles, &c., on different systems, to replace breakages with each organized unit of cart transport. Bolts, nuts and screws to be of standard English pattern, Whitworth or others.

14. Each designer will state in describing his cart whether he is willing to enter into a contract for its supply, and, if so, within what time and at what cost he is prepared to furnish a single specimen cart, 12 carts, 100 carts, or from 500 to 2,000 carts, free on board in London, or delivered in Calcutta, Bombay or Allahabad.

15. Each specification, drawing and model must be prominently marked by a motto or device, and be accompanied by a sealed cover to be opened after the award of the premia, and to contain the full name and address of the competitor. Successful competitors will be directly notified of their success by letter, and on the premia being awarded, the names and addresses of the successful competitors, and the devices or mottoes on all the unsuccessful designs received, will be duly notified in four successive weekly issues of the official *London Gazette* and *Gazette of India*. All designs and models will remain unconditionally the property of the Government of India, which will obtain the full right to manufacture carts wholly or partially after one or all of the patterns proposed.

16. All specifications, descriptions, letters, &c., must be written on foolscap paper. No drawing will be accepted except on sheets of strong tracing cloth, of a uniform size of 24 inches by 18 inches. General drawings to be on a scale of 1 (one) inch to the foot, and drawings of details on 2½ (two-and-a-half) inches to the foot. Models, which must be thoroughly working models, are to be made on the scale of 2½ (two-and-a-half) inches to the foot. All the letters, documents, tracings, drawings and models appertaining to any one design to be securely packed, and sent post paid by overland parcel post in a solid cover and in a box addressed to—

The Secretary to the Government of India,
Military Department,
Calcutta,
India.

Different letters and boxes belonging to the same competitor should be clearly marked "Cart competition," with the designer's distinctive motto or device on the upper left hand corner, so as to prevent confusion and mistakes.

17. The English language, although not obligatory, as German and French may be used, will necessarily have an advantage in the competition. English measures, weights and prices are alone admissible in the specifications, drawings and models.

18. The strictest adherence to the details laid down as above for the conditions of the competition is earnestly invited.

DECLARATION.

No. 4439*L.R.*—*The* 17*th December* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be acquired by Government at the public expense for a public purpose, viz., for improving the sanitary condition of the locality and conferring other public benefits in the village of Bally, pargana Boro, district Hooghly, it is hereby declared that for the above purpose two plots of land measuring, more or less, 19 bighas 11 cottahs and 2 chitaks and 15 cottahs respectively of standard measurement, bounded as below, are required within the aforesaid village of Bally:—

Plot No. 1 is bounded on the North by road to Bally Railway Station; on the East by land of Bally Paper Mills Company, Limited, and of Kali Kumar Ghose, Abinash Chandra Mukerjee, Radha Charan Ganguli, Surja Kumar Ganguli, Panchanan Chatterji and Krista [illegible] Chatterji; on the South by land of Kali Charan Chatterji, Chaitalpara Lane and lands [illegible]geswar Das, Dina Nath Mukerji and Aghore Nath Mukerji and Chaitalpara Lane; and

on the West by land of Kali Charan Chatterji and Dwarika Nath Chatterji and Hari Charan Ganguli.

Plot No. 2 is bounded on the North and East by lands of the Bally Paper Mills Company, Limited; on the South by road to Bally Railway Station; and on the West by land of the East Indian Railway.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3682.

The 20th December 1892.—In continuation of the Notification, dated the 7th February 1882, constituting a Burial Board for the Town and Suburbs of Calcutta, and in exercise of the powers conferred on him by section 3 of Act V (B.C.) of 1881, the Lieutenant-Governor is pleased to cancel the appointment of the Executive Engineer, 2nd Calcutta Division, to be *ex-officio* member of the Board, and to appoint Mr. W. B. Christie, Executive Engineer, 1st Calcutta Division, to be a member of the Board.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4948S.R.

The 16th December 1892.—The following rule is substituted for Rule 4, section X of the Rules for the guidance of officers engaged in the administration of the Salt Department in Bengal published under notification, dated the 29th June 1891, at pages 615—655 of the *Calcutta Gazette* of the 1st July 1891:—

"A rowana will be issued to cover one boat only, and application should be made accordingly, the amount of salt required to be put into the boat and consequently also shown in the rowana being calculated beforehand. Delivery of salt will then be given to each boat in the order in which the rowanas are received and registered on board a vessel, always provided the boat is present. If the boat appertaining to a rowana be not present, the Preventive Officer will put the rowana to the bottom of the list, and deliver salt on the rowana next in order which has a boat ready for receiving delivery of salt."

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5019S.R.

The 20th December 1892.—Babu Rakhal Dass Chatterjee, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Muzaffarpur, *vice* Babu Surendra Nath Mozumdur, transferred, and under section 40 of Act II of 1886, is vested with the powers of a Collector under the Act.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5046R.P.

The 20th December 1892.—In supersession of the notification of 30th July 1881, published at page 767, Part I of the *Calcutta Gazette* of 3rd August 1881, so far as it relates to the district of Midnapore, it is hereby notified that the Lieutenant-Governor has been pleased to extend to that district the provisions of section 46 of Act IX (B.C.) of 1880, which permit the opening of separate accounts of cesses payable by registered holders of revenue-free estates.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 202A.

The 14th December 1892.—Mr. B. G. Geidt, Joint-Magistrate and Deputy Collector, Rangpur, is vested, under section 407 of the Code of Criminal Procedure, with power to hear appeals from convictions by Magistrates of the second and third classes.

The 16th December 1892.—Babu Prayag Nath, Munsif of Banka, on deputation to Beguserai, in the district of Bhagalpur, is allowed leave for 57 days, viz., 30 days under article 309 of the Civil Service Regulations, and the remaining period under article 306(*b*) of the same Regulations, with effect from the 13th December 1892.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 6th December 1892.—The Lieutenant-Governor sanctions, with effect from the 1st January 1893, the transfer of the undermentioned villages from the jurisdiction of thanas Mirzapur and Suti to that of thana Raghunathganj, in the Jangipur sub-division of the district of Murshidabad :—

From thana Mirzapur to thana Raghunathganj.

Number.	NAME OF VILLAGE.	Thakbust No.	Name of pargana.
1	Dafferpur Char	125	Gaukar.
	Dhamangadpur or Dafferpur... ...	121	Do.
	Jogai Charka Bajaptha	120	Do.
	Charka	119	Do.
5	Sujapur	66	Do.
	Bashudapur	64	Do.
	Jote Joyramsing benam Raghunathganj ...	65	Do.
	Balighatta	50	Birhimpur.
	Sonatikri	51	Nowanagar.
10	Gujorpur	49	Birhimpur.
	Kidderpur	46	Gaukar.
	Shampur	48	Birhimpur.
	Aliethnagar	45	Gankar.
14	Kanupur	47	Birhimpur.

From thana Suti to thana Raghunathganj.

1	Monail	6	Joar Ibrahimpur.

NOTE.—In the above lists the names given are those of the villages as demarcated and surveyed by the Revenue Survey Department and as shown in their maps and records.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 17th December 1892.—The Lieutenant-Governor is pleased to sanction the removal of the head-quarters of the office of the Joint Sub-Registrar of Fenny, in the district of Noakhali, from Chaprasir Hât to Mutiganj.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th December 1892.—Under the provisions of section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the establishment of a Rural Sub-Registry Office with head-quarters at Gaskara, a village in thana Ausgram, having jurisdiction over thana Ausgram, in the Sadar sub-division of Burdwan. The registration sub-district of Mankar will henceforth be restricted to thana Bood-Bood only. This Notification will take effect on and from the 1st January 1893.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 19th December 1892.

No. 347.—Rai Bahadur Madhub Chunder Roy, Executive Engineer, 1st grade, and Inspector of Works, Eastern Circle, is granted furlough for one year, with effect from the 10th January 1893, or such subsequent date as he may avail himself of it.

ERRATUM.

No. 349.—In the last line of Bengal Government Notification No. 339, of the 5th December 1892, *for* "23rd" *read* "28th" October 1892.

LOCAL COMMUNICATIONS.

The 19*th December* 1892.

No. 351.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the improvement of the Salipore village road, in the village of Salipore, pargana Ballanda, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 19 cottahs and 1 chitak of standard measurement, bounded on the north by the lands of Chaudra Shekur and Kedar Nath Patuk, Haki Moollah and Asimuddy Mandul, and by the land of Titu Mullick; on the west by the Salipore road; on the south by the land of Asimuddy Mandul and Chandra Shekur Patuck; and on the west by the Salipore road, is required within the aforesaid village.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

COMMUNICATIONS.

The 19*th December* 1892.

No. 352.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the completion of the Howrah Foreshore Road, in the village of Sibpur, pargana Paikan, district Howrah, it is hereby declared that for the above purpose two plots of land, measuring, more or less, 3 cottahs and 4 chitaks of standard measurement, bounded as specified below, are required within the aforesaid village of Sibpur:—

Plot A.—Bounded on the north by the lands of Maharani Surnomoyee; on the east and south by Government land below the high water mark of the Hooghly river; and on the west by the workshop premises of the Sibpur Engineering College.

Plot B.—On the north by the land of Maharani Surnomoyee; on the east, south and west by Government land below high water mark of the Hooghly river.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

RAILWAY.

The 20*th December* 1892.

No. 355.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of Public Works gangmen's huts at miles 95 and 98 in the respective villages of Dondra in pargana Harawat and Chapin in pargana Dhaphor, and for the extension of the Khanwa Ghat station yard at mile 99 in the villages of Chapin and Chainpur in pargana Dhaphor, on the Khanwa Ghat extension of the Tirhut State Railway, in the district of Bhagalpur, it is hereby declared that for the above purpose three pieces of land, measuring, more or less, 104 bighas 14 cottahs 14 chitaks of standard measurement, equivalent to 34 acres 2 roods 20·10 poles, as per detail below, are required within the aforesaid villages of Dondra, Chapin and Chainpur:—

Mile.	VILLAGES.	Area. B. C. CH.	A. R. P.
95	Dondra	2 15 9	0 3 26·91
98	Chapin	4 0 12	1 1 13·54
99	Chapin and Chainpur	97 18 9	32 1 19·65
	Total ...	104 14 14	34 2 20·10

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 356.—*Notification.*—Whereas it appears to the Lieutenant-Governor of Bengal that land in the districts of Cuttack, Balasore, Midnapore, Hooghly, Howrah and the

24-Parganas is likely to be needed for a public purpose, viz., for the construction of a railway from Cuttack to Calcutta, notice is hereby given to all whom it may concern that in exercise of the power conferred by section 4 of the Land Acquisition Act, 1870, the Lieutenant-Governor of Bengal has authorised the Engineers for the time being engaged on this undertaking to enter upon and survey lands and do all other acts required for the proper execution of their work, as provided or specified in the said section.

The general route taken for the railway will probably be from Cuttack passing north of the Canal to Juffra, thence through Bundallo, Sohroh, Balasore, Jellasore, Midnapore, Panchkura, Kolaghat, Baooria and across the Hooghly at Budge-Budge, and also from Panchkura through Tamluk to Kukrahati (opposite Diamond Harbour), and from Hospital Point on the left bank of the Hooghly through Ganchalberriah to a junction with the Eastern Bengal State Railway near Doorganugger.

LOCAL COMMUNICATIONS.

The 20th December 1892.

No. 357.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the purpose of the Ghogha-Bausi road No. 17 on the District Board's list of roads in the village of Janidi, pargana Colgong, zilla Bhagalpur, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 1 bigha 13 cottahs and 7 chitaks of standard measurement, bounded as follows:—

Plot I—North, South, and West by road land and road; East by cultivated land of Shib Nath Dube in the zamindari of Braja Mohan Das, &c.,

Plot II—North, South and East by road lands and road; West by enclosure of Jhonti Mian's garden,

are required within the aforesaid village of Janidi, pargana Colgong.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 19th December 1892.

No 348.—Mr. F. A. Cowley, Assistant Engineer, 2nd grade, passed the colloquial examination in Hindustani prescribed in Public Works Code, Volume I, Chapter II, paragraph 17, on the 6th December 1892.

IRRIGATION.

The 19th December 1892.

No. 350.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a bungalow on the 21st mile of the Deb river embankment, in the village of Panchpa-Saidabad, pargana Kate, zilla Cuttack, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 acres 7 poles of standard measurement, bounded on the North and South by cultivated land of Gungadhor Mahanty Makodum; East by jagir land of Avin Mullik Chaukidar; and on the West by cultivated land of Navo Rout, is required within the aforesaid village of Panchpa-Saidabad.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The 20th December 1892.

No. 353.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for land occupied by Government bungalow, in the village of Surpai, pargana Narnamoota, sub-division Contai, zilla Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas of standard measurement, bounded on the North by the remaining portions of waste land of plot Nos. 6 and 87; South by the cocoanut garden of Poddabati Dasi in the remaining portion of plot Nos. 7, 6, and tanks of plot Nos. 90 and 91 respectively; East by the remaining portions of waste land of plot Nos. 87 and 89 and the tank of plot No. 90; West by Government waste land on the bank of coast canal, is required within the aforesaid village of Surpai.

This Declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 354.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a line of towing path from Bagerhat, 137th mile, to Tengrakhali, 144th mile, in the villages of Betpur, Bemarta, Jaygachi, Raghunathpur, Gaokhali, Hazrakhali, Gimtakati, Kachua, and Tengrakhali, parganas Habili, Charulia, Gobindpur and Salimabad, zilla Khulna, it is hereby declared that for the above purpose a piece of land measuring, more or less, 114 bighas 7 cottahs and 2 chitaks of standard measurement,

bounded on the north by the river Bhairab, on the south of and passing by the above-mentioned villages, on the east by the river Balesoar, and on the west by the river Daratana, along the banks of the eastern canals, is required within the aforesaid villages of Betpur, Bemarta, Jaygachi, Raghunathpur, Gaokhali, Hazrakhali, Gimtakati, Kachua, and Tengrakhali.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern, and cancels declaration No. 246, dated 9th August 1892, published at page 788, Part I of the *Calcutta Gazette* of the 10th idem.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 19*th December* 1892.

No. 118*Marine.*—Under section 7 of Act IV (B.C.) of 1887, the Lieutenant-Governor accepts the resignation tendered by Mr. R. T. Greer of his appointment as Commissioner and Chairman of the Chittagong Port Trust.

No. 119*Marine.*—Under the provisions of section 9 of Act IV (B.C.) of 1887, the Lieutenant-Governor is pleased to appoint Mr. W. B. Oldham to be a Commissioner of the Port of Chittagong, *vice* Mr. R. T. Greer, resigned.

Mr. Oldham is also appointed to be Chairman of the Commissioners.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

[Second Publication]

The 10*th December* 1892.

No. 116*Marine.*—In exercise of the power vested in the Local Government under section 6 of Act X of 1889 (the Indian Ports Act), and in supersession of Rule LVI of the rules relating to the Port of Chittagong, sanctioned under notification No. 144Marine, dated the 2nd June 1890, and published in the Appendix to the *Calcutta Gazette* of the 4th idem, the Lieutenant-Governor intends to make the following rule with a view to prevent the occurrence of fire on boardships while being loaded with jute or other inflammable cargo. The rule will be taken into consideration on the expiry of one month after its first publication in the gazette, and the Local Government will receive and consider any suggestions or observations that may be made concerning it before the expiry of that period:—

"No person shall smoke or use naked lights of any description in the hold or between decks of any vessel lying in the port, nor shall smoking or the use of any naked lights be allowed on the upper deck, except within the compartments set apart for the Captain, officers and crew, or passengers of any vessel when in the act of loading or discharging jute, mineral oil or any other inflammable cargo. Closed lanterns, burning candles or vegetable oil, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between decks or into the hold."

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

A. POWER, *Commissioner.*

COMMISSIONER'S OFFICE, BURDWAN DIVISION, *the* 16*th December* 1892.

EDUCATION DEPARTMENT, BENGAL.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 9th and 10th January 1893.

Candidates must apply in writing to the Principal not later than the 31st December 1892 for permission to appear at the examination, enclosing a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 15 and 17 years.

The subjects of examination are—

Arithmetic	The whole
Algebra	To Simple Equations.
Euclid	Books I and II.
English Grammar and composition.	

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted, and his examination fee will be returned.

There will be one vacancy on the free list for Christian apprentices in February next, and sixteen on the reduced* fee list.

For Natives there will be at least eighteen vacancies, possibly more, on the reduced† fee list. These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but Forms to be filled in for the consideration of the Board can be had on application to the Principal.

* Rs. 5 per mensem.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the* 18*th November* 1892.

List of Candidates who have passed the Primary Scholarship Examination for European Schools, held in November 1892.

A.—CANDIDATES FOR SCHOLARSHIPS, *i.e.*, EUROPEAN AND EURASIAN CANDIDATES UNDER 12 YEARS OF AGE.

Scholarships have been awarded to those candidates opposite whose names the word "Scholarship" appears in the margin, subject to satisfactory proof being given that such candidates were under 12 years of age on the 30th November 1892.

H. A. BAMFORD,
Inspector of European Schools, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

It is hereby notified, under the provisions of section 3, Act XI of 1859, that the Board of Revenue have determined that in the district of Jalpaiguri, excluding the permanently-settled estates, all arrears of revenue or rents and all demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue shall be paid up on the following dates:—

15th February. | 31st October.

All revenue or rents and demands as above specified falling due between the 1st November and the 15th February, inclusive, shall be paid on the 15th February, and all revenue or rents and demands falling due at any time between the 16th February and the 31st October, inclusive, will be payable on the 31st October.

This order will take effect from the 1st April 1893.

This notification does not apply to the permanently-settled estates within the district of Jalpaiguri, for which the existing latest days will remain in force.

C. W. BOLTON, *Secretary.*

BOARD OF REVENUE, L.P., *the 3rd December* 1892.

No. 1914B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 4th January 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.
Opium manufactured at the Patna Factory	... ...	1,927
Do. ditto at the Ghazeepore Factory	... ...	1,715
Total	...	3,642

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1892, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1893, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th January 1893, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 19th January 1893.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December 1893 about the dates specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

On or about Thursday 5th October " ...	1,927	1,715	3,642
On or about Wednesday 1st November " ...	1,927	1,715	3,642
On or about Friday 1st December " ...	1,927	1,715	3,642
Total ...	23,124	20,580	43,704

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1891-92, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary*.

FORT WILLIAM, *the 24th November* 1892.

NOTICE.

APPLICATION for tickets of admission to the Opium Sale-rooms for the year 1893 should be made at the office of the Board of Revenue, Lower Provinces, on or after the 21st instant.

Tickets for the year 1892, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L.P.,

T. INGLIS, *Secretary*.

CALCUTTA, *the 8th December* 1892.

No. 2056B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 1st February 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.

Dacca Collectorate, the 18th November 1892.

T. L. JENKINS, Collector.

APPENDIX XXIV.

SEE CHAPTER II, PART 3, RULE 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Monghyr Collectorate, the 21st November 1892. DHANESH CHUNDER ROY, for Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.

Chittagong Collectorate, the 10th November 1892. F. A. SLACK, Collector.

NOTICE is hereby given, under sections 6 and 18, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Muzaffarpur will be put up for sale at the Collector's Office of that district on 4th January 1893, corresponding 2nd Magh 1300F., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

Darbhanga Collectorate, the 3rd December 1892.

J. K. WEBSTER, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Shahabad will be put up to public and unreserved sale at the Collector's Office of that district on the 9th day of January 1893 for arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

IT is hereby notified for general information that the Office of the Commissioner of Revenue and Circuit, Presidency Division, has been removed from No. 14, Hare Street, to No. 24½, Dalhousie Square, West.

ANNODA PROSAD GHOSE, Persnl. Asst., for Commr.
Commr.'s Office, Presy. Divn., Calcutta, the 30th November 1892.

Notification.

BANKURA DISTRICT.

IT is hereby notified that, under section 46 of the Bengal Local Self-Government Act III (B.C.) of 1885, the District Board of Bankura have determined, at a special meeting held on the 28th November 1892, that for the ensuing year 1893-94 the road cess in the Bankura district shall be levied at the maximum rate, viz., one-half anna or six pies on each rupee of the annual value of lands, &c.

F. H. BARROW, Chairman.
The 29th November 1882.

Notification.

THE zamindari dák cess in the district of the 24-Parganas for the year 1893-94, is fixed at the rate of eight annas per cent. per annum on the sadar jama of estates paying revenue amounting to Rs. 50 and above.

The amount due for each estate is payable in two instalments, the first being due on the 1st June 1893, and the second on the 16th December 1893.

RAJENDRA NATH MITRA, for Magistrate, 24-Parganas
Alipore, the 30th November 1892.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.
Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

HARA KUMAR MITTER intends to apply for enrolment as a Vakeel of the High Court.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1*st* —Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th, orthereabouts. Price Rs 2-8 per mensem, including postage.

3*rd* —A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,

Meteorological Reporter to the Govt. of Bengal.

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a serious of progressive Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs 6 : postage, 3 annas.*

Copies are to be had at the Office of the Director of Public Instruction.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narain-gunge) Volumes I and II. Price Rs. 20 for 1891-92, Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO., Government Place, Calcutta.

Notice.

* Mean of 6 days.

Explanation.– Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, *i.e*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 17th of December 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Of week. Normal mean.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th October 1892. Mean for district.	Since 16th October 1892. Normal mean.	Since 16th October 1892. Variation.	DISTRICT.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when great[er]. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations ... for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in t[he] ... which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 17th of December 1892.

eteorological Division.	District.	Station.	Rainfall. Sunday, 11th.	Monday, 12th.	Tuesday, 13th.	Wednesday, 14th.	Thursday, 15th.	Friday, 16th.	Saturday, 17th.	Total number of rainy days.	Rainfal of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th October 1892.	Average rainfall from 16th October to date.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are …ntive, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least … inch of rain has fallen.

CALCUTTA, *the 20th December* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 17TH OF DECEMBER 1892.

THE week under review has again been one in which the meteorological changes have been small and rather unimportant, and the weather throughout the week in Bengal has been fine and settled, and of normal north-east monsoon character. On the 11th, or the first day of the week, pressure had risen moderately rapidly, and was in excess of the normal by small to moderate amounts. Temperature had again fallen slowly, and was very largely in defect of the normal, the defect in the day temperatures usually equalling from 2° to 5°, while in the night or minimum temperatures the defects ranged from 3° and 4° up to 8° and 9° at such stations as Jessore, Saugor Island, Calcutta, False Point, Burdwan, Darbhanga, &c. A steady and fairly strong northerly and north-westerly wind was blowing over the whole province, the sky was practically cloudless, rainfall was entirely absent, humidity was low, and the cold weather conditions were thus strongly pronounced over the whole province. On the 12th again a moderate increase of pressure took place, and pressure became rather largely in excess. The fall of temperature had however ceased, and a slight increase was recorded, but still temperature, and particularly minimum temperature, was largely below the normal, defects of 8° and upwards in the night temperatures being reported at such stations as Jessore, Saugor Island, Calcutta, &c. On the 13th a very slight fall of pressure was recorded, and again the mean temperature of the day rose generally, and the defect in the night temperatures diminished distinctly, though on the other hand the day temperatures were a little lower, and the mean temperature reported on the 13th was about 2° to 4° in defect of the normal. On the 14th pressure continued to fall by small amounts, while the temperature changes were small and variable. On the 15th the fall of pressure had ceased and an increase was recorded, while temperature had risen moderately and the defects had become small only. A further increase of pressure and a fall of temperature took place on the 16th, and the mean temperature reported on this day became almost normal, while on the 17th, pressure had commenced to full and temperature had risen, so that on this day the mean temperature had become in excess of the normal in the east, north and west of the province, though in the southern and south-western districts slight defects were still reported. Thus the largely defective temperature which characterised the commencement of the week had quite disappeared at its close. Throughout the whole of the week also a steady northerly wind current has flowed over the province, cloud proportion and humidity have been low, and rainfall has been quite absent in all districts.

Pressure.—The pressure registered throughout the week has been in excess of the normal. This excess has averaged generally about a twentieth of an inch, but in Chota Nagpur it has only equalled about 0·03″ to 0·04″, while at some of the northern and eastern stations it has equalled about 0·06″ to 0·07″.

Temperature.—The main features of the temperature changes have been already referred to. The mean temperature for the week has been in defect of the normal in all districts of the province, the defect ranging from 0·8° in North Bengal to 3·6° in Orissa and South-West Bengal. For the whole province the mean defect for the week has equalled 2·3°.

The distribution of temperature for the week in the province generally and its variation from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the same period. Again, it will be seen that the largest defects have been recorded in the night or minimum temperatures, which at such stations as Cuttack and Calcutta they have been nearly 5° below the normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 17th December 1892.

	Normal mean maximum temperature for the week ending 17th December.	Actual mean maximum temperature for the week ending 17th December 1892.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 17th December.	Actual mean minimum temperature for the week ending 17th December 1892.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 17th December.	Actual mean daily temperature for the week ending 17th December 1892.	Variation of actual mean from the normal

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew ; ≡ , fog.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 232.

[First Publication.]

INDIA EAST—MADRAS COAST.

Alteration of date of exhibition of the new light at Madras.

IN continuation of Notice to Mariners, No. 170, dated 17th September last, issued by this office, the following information has been received from the Presidency Port Officer, Madras, and further particulars have been asked for to complete the notice in all its details:—

With reference to Notice to Mariners (*Madras*) on this subject, dated 2nd September 1892, it is now notified that the new light referred to therein will not be exhibited before the 1st April 1893.

2. The light will be visible in all directions from seaward at a distance of not less than 20 miles in clear weather.

3. The height above high water of the centre of the lantern of the new apparatus will be about 166 feet.

4. The main tower of the New High Court Buildings bears N. 18° W. magnetic 278 feet of the old lighthouse.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,

[Second Publication.]

CHINA SEA—BORNEO, NORTH-WEST AND NORTH COASTS.

Existence of a shoal off the north-west coast.

NOTICE to Mariners No. 488 of 1892, issued by the British Admiralty, is republished :—

The following information concerning the existence of a shoal lying off the north-west coast of Borneo, and the buoyage, &c., of Mallawallé channel, has been received from Commander A. M. Field, H.M. Surveying ship *Egeria* :—

(1) *Shoal north-west of Acis shoals.*

A shoal (*James shoal*), with 12 fathoms water on it, and 22 to 31 fathoms around, lies about 25 miles north-west of Acis shoals, in approximately lat. 4° 0′ N., long. 112° 18′ E

(2) *Mallawallé channel—Buoys and beacons.*

a. BILLEAN ISLAND.—A *cylindrical* buoy, painted red and black in horizontal stripes, and surmounted by a black spherical cage (20 feet above the sea), is moored on the east extreme of the 2½ fathoms shoal lying N.-E. by N. from Billean island, with the north end of that island in line with the centre of Tagipil island bearing S. 36° W., in approximately lat. 6° 38′ 55″ N., long. 117° 47′ 50″ E.

CAUTION.—A shoal, with 3 fathoms water on it, lies about one mile N.-E. ¾ E. from Billean buoy, which does not therefore mark the edge of the danger line north-east of Billean.

b. LEONAN REEF.—A beacon consisting of a framework iron tripod surmounted by a black triangle has been erected on the south-east extreme of Leonan reef, with Kalangaan island bearing N. 74° W., distant 7¾ miles. Approximate position, lat. 6° 44′ 30″ N., long. 117° 37′ 40″ E.

A small red buoy, surmounted by a ball (6 feet above the sea), is moored with Leonan reef beacon bearing S. 61° W., distant 2¼ miles.

c. SANDY ISLAND.—A beacon, consisting of a framework tripod, painted red and black, and surmounted by a cage 35 feet high, has been erected on Sandy island, with Sipindung island bearing N. 59° W., distant 4½ miles. Approximate position, lat. 6° 49′ 30″ N., long. 117° 37′ 10″ E.

d. SIPINDUNG ISLAND.—A small red buoy, surmounted by a ball (6 feet above the sea), is moored with Sipindung island bearing N. 33° E., distant 1½ miles, or in approximately lat. 6° 50′ 45″ N., long. 117° 32′ 35″ E.

CAUTION.—A note has been placed on Admiralty chart No. 1650 to the effect that "The route marked has been followed with safety, but in such reef strewn waters other dangers not charted may exist."

(*Variation* 2° *Easterly in* 1892.)

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 221.

[Second Publication.]

CHINA SEA—BORNEO, NORTH AND EAST COASTS.

Newly discovered dangers.

NOTICE to Mariners No. 489 issued by the British Admiralty is republished.

The following information relating to the existence and particulars of the undermentioned dangers and banks lying off the north and east coasts of Borneo has been received from Commander A. M. Field, H.M. Surveying ship *Egeria* :—

1. BANGUEY SOUTH CHANNEL.—A coral head (*Ten foot rock*), 70 yards long in an E.-N.-E. and W.-S.-W. direction, and 30 yards broad, with a least depth of 10 feet at low water spring tides, and 17 fathoms close around, lies near the fairway of South Banguey channel, with Petrel rock bearing N.-N.-E. ¾ E., distant about 7 cables, or in approximately lat. 7° 3′ 50″ N., long. 117° 6′ 10″ E.

CAUTION.—As no less than three shoal patches have recently been discovered in the track usually followed in this part of Mallawallé channel, the utmost caution must be used in navigating this locality, as well as the whole channel to Sandakan, as it is more than probable that others exist as yet undetected.

2. LANKAYAN ISLAND.—A coral patch (*Kechil rock*), about 3 cables in extent, with 4½ fathoms water on it, and 19 to 21 fathoms around, lies with Lankayan island bearing about S.-W. ⅝ W., distant 7 miles. Approximate position, lat. 6° 34′ 40″ N., long. 118° 1′ E.

3. LANGAAN ISLAND.—A coral patch (*Johnston rock*), 4 cables long in a N.-N.-W. and S.-S.-E. direction, and 2 cables broad, with 13 feet on it at low water spring tides, and 18 fathoms around, lies with the south-east extreme of Langaan island bearing S.-W. ¾ W., distant 2$\frac{3}{10}$ miles. Approximate position, lat. 6° 13′ 20″ N., long. 118° 11′ 15″ E.

4. NYMPH REEF.—A coral shoal (*Royalist rock*), 4 cables long in a N.-N.-E. and S.-S.-W. direction, with a least depth of 6 feet at low water spring tides near its south-west end, and 18 fathoms around, lies with Nymph reef bearing N.-N.-E., distant about 1¾ miles. Approximate position, lat. 5° 42′ 50″ N., long. 118° 40′ E.

5. *Sunday bank*, previously known to exist, somewhat circular in shape and about 5 miles in extent, has depths of 9 to 47 fathoms on it, and deep water around. The shoalest part found (9 fathoms over coral) lies near its western edge in approximately lat. 5° 49′ 30″ N., long. 119° 9′ E.

6. A bank (*Normandy bank*), about 5 miles long in a N.-N.-E. and S.-S.-W. direction and 2½ miles broad, has depths of 6 to 50 fathoms on it, and deep water around. The shoalest part found (6 fathoms over coral) lies near its south-west end, in approximately lat. 5° 47′ N., long. 119° 13′ E. Soundings of 119 and 203 fathoms were obtained between this bank and Sunday bank.

7. A bank (*Sentry bank*), the north edge of which has not been defined, but probably about 7 miles in extent, has depths of 7 to 50 fathoms on it, and deep water around. The shoalest spot found (7 fathoms) lies about one mile within its western edge in approximately lat. 5° 40′ N., long. 109° 18′ E.

8. DENT HAVEN.—A narrow coral shoal (*Hardy patch*), 1½ cables long in a north and south direction, with a least depth of 18 feet at low water spring tides, lies in the approach to Dent haven, in approximately lat. 5° 15′ 20″ N., long. 119° 18′ 20″ E.

9. SIBUKO OR ST. LUCIA BAY.—A coral head (*Hand rock*), about 50 yards in extent, and a wash at low water spring tides, with 18 fathoms around, lies in the fairway of Sibuko bay, in approximately lat. 4° 8′ N., long. 118° 11′ E. This rock should be marked P.D.

A narrow coral patch, about 2½ cables long in an east and west direction, with a least depth of 14 feet at low water spring tides near its west end, lies with Batu Tinagat, north shore of Sibuko bay, bearing E. by N. ½ N., distant about 3 miles. Approximate position lat. 4° 12′ N., long. 117° 56′ E.

(*Variation 2° Easterly in* 1892.)

NOTICE TO MARINERS—No. 222.

[Second Publication.]

RED SEA—WESTERN SHORE.

Massawa harbour entrance. Alterations in lights.

WITH reference to Notice to Mariners No. 210 of 1892 issued by this office, the British Admiralty has given further notice (No. 490 of 1892) that telegraphic information has been received through the Board of Trade that the light-vessel on the south side of entrance to Massawa harbour is replaced by a light buoy, from which is exhibited a *fixed red* light. The buoy is moored with Mudar fort flagstaff bearing approximately S.-S.-W., distant 2¼ cables.

Also that the *fixed white* light of the light-vessel is now exhibited on Ras Mudur.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 223.

[Second Publication.]

INDIAN OCEAN.

Icebergs in about Lat. 50° *S., Long.* 104° *E.*

THE British Admiralty has given notice (No. 497 of 1892) that information has been received from Shaw, Savill, and Albion Company, London, that the Commander of the S.S. *Coptic* reports that between lat. 50° 9′ S., long. 99° 40′ E., and lat. 49° 35′ S., long. 108° 37′ E., thirteen icebergs were passed.

NOTE.—Ice in this locality in this quantity is not frequent at this time of the year, though the records show it has occurred before. Taken in conjunction with the mass of ice at present in the South Atlantic, it appears probable that there has been an unusual dislocation and spreading north of the southern ice, and caution should be used.

EATON W. PETLEY,
Port Officer of Calcutta.

NOTICE TO MARINERS—No. 224.

[Second Publication.]

AUSTRALIA—KEPPEL BAY.

The light-ship temporarily retained in her present position.

WITH reference to Notice to Mariners No. 195, dated 29th October last, issued by this Office, the Portmaster, Brisbane, has given further notice (No. 16 of 1892) that the Keppel bay light-ship will be retained in her present position and the light exhibited as heretofore until the 30th November next.

EATON W. PETLEY,

AUSTRALIA—KEPPEL BAY.

Elbow beacon and Red Perch buoy—entrance to Fitzroy river.

THE Portmaster, Brisbane, has given notice (No. 17 of 1892) that the Elbow beacon on Wagtail Sands (west banks) at the entrance to the Fitzroy river is down. It will be replaced as soon as practicable.

Also, that the cage or "perch" on the red buoy in Sea Reach, Fitzroy river, has been removed, and the buoy in future will not carry a top-mark.

AUSTRALIA—MORETON BAY.

The cruising ground of the pilot vessel.

The Portmaster, Brisbane, has given notice (No. 18 of 1892) that on and after the 2nd November, the cruising ground of the Moreton bay pilot vessel will be as follows, viz.—

"Inside an imaginary line drawn from the Yellow Patch to Flinders Reef, thence to the Fairway buoy (entrance to North Channel), thence along the eastern edge of the East and Venus banks to the entrance to Freemen channel, and thence back to the Yellow Patch."

Vessels requiring or discharging pilots must therefore approach the cruising ground comprised within the above limits.

THE STRAITS SETTLEMENTS.—SINGAPORE.

The port of Klang, Selangor, worked under the block system.

THE Colonial Secretary to the Government of the Straits Settlements has given notice, (Notification No. 636 of 1892) that on and after Thursday, 10th November, navigation of the river Klang between the Police station at Kuala Klang and the Railway wharves at the port of Klang will be worked under the block system.

A signal mast carrying a red ball will be erected near the Police station, Kuala Klang, and another at the wharves at Klang.

The normal condition of the river is to be considered closed, when the red ball on the signal mast will be at the yard arm.

When a steam-vessel desiring to enter the river comes within a mile of Kuala Klang, she must sound her steam-horn as a warning to the signalman at the Police station, and she may not enter the river until the signal ball is lowered from the yard arm.

No vessel may leave the wharves at Klang without the consent of the Station master Klang, and until the signal ball at Klang wharves has been lowered.

The ball signal will be worked between sunrise and sunset, and a red lamp will be shewn in the same way between sunset and sunrise.

This Regulation does not apply to sailing vessels.

PACIFIC OCEAN—SOLOMON ISLANDS.

Shoal south-east of Eyo islet.

THE British Admiralty has given notice (No. 501 of 1892) of the existence of a shoal, with an estimated depth of 6 to 10 feet on it, lying with Eyo islet bearing N.-N.-W., distant about one mile. With much swell or in heavy weather, the sea would probably break on this danger.

Approximate position, lat. 10° 24′ 10″ S., long. 161° 23′ 45″ E.

NOTE.—Near the coast, and N.-E. by E. ½ E. from the abovementioned shoal, is situated a village named *Bea.* From this village, and for about one mile to the south-eastward, a rocky ledge extends parallel to the beach, and about 5 cables from it, which dries at half tide.

GUADALCANAR ISLAND—MARAU SOUND.

(2) Shoal eastward of Square island.

Also, of the existence of a coral shoal, apparently small in extent, with about 5 fathoms water on it, lying off the Eastern entrances to Marau sound, with the north end of South-east island bearing S. by W. ¾ W. and Square island W. by S. ½ S., distant about one mile.

Approximate position, lat 9° 49′ S., long. 160° 54½′ E.

[Second Publication.]

PACIFIC OCEAN—SANDWICH ISLANDS.

Oahu-Honolulu harbour—Dredged channel at entrance.

WITH reference to Notice to Mariners, No. 166, dated 17th September 1892, issued by this office, the British Admiralty has given further notice (No. 512 of 1892) that a straight channel, 200 feet wide, has been dredged to a depth of 30 feet at low water, from the 30 feet line of soundings outside Honolulu harbour entrance, to the same depth within the harbour; and that ships not exceeding 28 feet draught may now safely enter.

As the dredged channel does not appear to have yet been closely examined, caution should, however, be observed.

NOTE.—Dredging operations will be continued in the harbour, in order to give depths of 30 feet and upwards alongside the wharves, and afterwards to increase the depths in the harbour generally.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 203A.

GENERAL.—*The 20th December 1892.*—Mr. E. G. Colvin, Settlement Officer, Champaran is appointed to act, until further orders, in the third grade of Magistrates and Collectors.

The 21st December 1892.—Dr. Robert Whitelaw, M.D., C.M., is appointed to be Honorary Surgeon of the Presidency Volunteer Rifle Battalion, *vice* Dr. V. Richards, deceased.

The 22nd December 1892.—Babu Jogesh Chandra Sen, Khas Tahsildar, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the Town Circle of the district of Chittagong.

Mr. Ambica Charan Sen, Joint-Magistrate and Deputy Collector on settlement work, Orissa, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the forenoon of the 10th December 1892.

Mr. Umesh Chunder Batabyal, Assistant Magistrate and Collector, on leave, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors with effect from the forenoon of the 28th November 1892. Mr. Batabyal was attached to the district of Malda from the forenoon of the 28th to the afternoon of the 30th November 1892.

The 24th December 1892.—Mr. T. F. Carter, substantive *pro tempore* Sub-Deputy Collector, Buxar, Shahabad, is allowed leave for two months and fifteen days, under article 291 of the Civil Service Regulations, with effect from the 13th August 1892.

Mr. A. Earle, Joint-Magistrate and Deputy Collector, is posted to the head-quarters station of the district of Saran on being relieved of his present appointment as Officiating Magistrate and Collector of that district.

The following Probationary Deputy Collectors are appointed to act, until further orders, as Deputy Magistrates and Deputy Collectors, and are posted to the districts mentioned against their names:—

Babu Girish Chunder Nag, Sonthal Parganas.
" Nagendra Chunder Sen, Jessore.
" Nagendra Nath Mukerjee, Hooghly.

The 27th December 1892.—Mr. E. F. Ainslie, Deputy Magistrate and Deputy Collector, Rampur Hát, Birbhum, is vested with the powers of a Collector under Act X of 1870 in that district.

Babu Khetter Mohun Mookerjee, Deputy Magistrate and Deputy Collector, Garhbeta, Midnapore, is vested with the powers of a Collector under Act X of 1870 in that subdivision.

Mr. L. P. Shirres, Joint-Magistrate and Deputy Collector, on furlough, is posted to the head-quarters station of the Burdwan district.

POLICE.—*The 22nd December* 1892.—The following promotions are sanctioned in the grades of Assistant Superintendents of Police with effect from the 27th October 1892, *vice* Mr. S. V. Tayler, deceased :—

Mr. W. B. Stuart, Assistant Superintendent of Police, third grade, is promoted to the second grade. Mr. Stuart will continue to act in the first grade until further orders.

Mr. J. R. Berington, Officiating Assistant Superintendent of Police, is appointed to be an Assistant Superintendent of Police of the third grade and to act in the first grade until further orders.

REGISTRATION.—*The 27th December* 1892.—Under section 7 of Act XV of 1865, the Hon'ble the Chief Justice appoints Mr. T. W. Richardson, substantive *pro tempore* Under-Secretary to Government, in the General, Revenue, and Statistical Departments, to act as Registrar of Parsee Marriages within the local limits of the Ordinary Original Civil Jurisdiction of the High Court, in addition to his own duties.

EDUCATION.—*The 22nd December* 1892.—Babu Prasanna Kumar Mozumdar, Officiating Deputy Inspector of Schools, Tippera, is appointed to act in class IV of the Subordinate Educational Service, during the absence, on privilege leave, of Babu Kumud Bundhu Bose, or until further orders.

Babu Lok Nath Chakravarti, Officiating Deputy Inspector of Schools, Rajshahi, is appointed to act in class IV of the Subordinate Educational Service, during the absence, on leave, of Babu Kali Nath Choudhuri, or until further orders.

ECCLESIASTICAL.—*The 21st December* 1892.—The Revd. John Vaughan, Baptist Missionary, Cuttack, is granted a license under section 6, Act XV of 1872, authorizing him to solemnize marriages between persons one or both of whom is a Christian or are Christians.

The Revd. John Vaughan is also appointed to be a Registrar of Births and Deaths under Act VI of 1886.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 20th December 1892.—The following rules, which have been framed and issued by the Chief Commissioner of Assam for regulating the system of recruitment for the Provincial and Subordinate Services in Assam, are published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

The 18th November 1892.

No. 10610*G*.—The following Rules for the admission of candidates for appointments in the Provincial and Subordinate Services in Assam are published in supersession of all previous rules on the same subject :—

1. There are two classes of appointments in the Subordinate Service of Assam, viz., (1) Tahsildars and (2) Sub-Deputy Collectors. The Provincial Service will consist of Extra Assistant Commissioners only.

2. The list of Tahsildars will be ungraded, the pay of each officer being fixed with reference to the importance of, and degree of responsibility that attaches to, each charge.

3. The list of Sub-Deputy Collectors will be a graded list as follows, the number in each grade being from time to time determined by the Chief Commissioner :—

Grade.	Pay per mensem.
	Rs.
First grade	200
Second „	175
Third „	150
Fourth „	125
Fifth „	100

4. The number of Extra Assistant Commissioners sanctioned by the Government of India for district work is 29, with power given to the Chief Commissioner to make acting appointments in the lowest grade in place of officers temporarily removed from district work,

and employed exclusively in settlement work or on special duty. The number of substantive appointments in each grade is fixed as follows:—

Grade.	No.	Pay per mensem.
		Rs.
First grade*	1	800
Second „*	1	700
Third „	2	600
Fourth „	5	500
Fifth „	10	400
Sixth „	6	300
Seventh „	4	250

Persons, not already in Government employ, who may be appointed to act in the seventh grade, will ordinarily draw a minimum salary of Rs. 200 a month.

(a) Tahsildars.

5. All appointments to the post of Tahsildar in the Assam Valley will be made by the Chief Commissioner on the nomination of the Commissioner, and in the Surma Valley and Hill districts on the nomination of the Deputy Commissioner. In dealing with applications for such appointments preference will be given to applicants already in Government employ who have rendered approved service, and *cæteris paribus* to natives of Assam.

6. Any native of India, as defined in section 6 of the Statute 33 Victoria, Chapter III, may be nominated for the post of Tahsildar, who can produce approved certificates of good character and physical fitness for active work, and who has passed the Middle English or Middle Vernacular School Examination in Assam, or any examination in India equivalent thereto, and who, unless he is already in Government service, is not over 25 years of age.

Provided that the subjects of Native States in alliance with Her Majesty the Queen-Empress of India shall also, if qualified in other respects, be eligible for appointment to Tahsildarships.

7. All persons appointed to the office of Tahsildar will be on probation for two years, during which they must, unless specially exempted by order of the Chief Commissioner, pass an examination by the Lower Standard in the following subjects, as laid down in the Departmental Examination Rules:—

(1) Civil Law.
(2) Criminal Codes.
(3) All questions relating to Revenue subjects in the General Law paper without books.

In addition to passing in the above subjects, all such persons are liable to be called upon to pass within the period of probation an examination by the Higher Standard in the vernacular language of the district in which they are employed if the Chief Commissioner should consider this necessary.

They must also, within the same period, obtain a certificate of knowledge of practical surveying from the Director, Department of Land Records and Agriculture, or from such other officer as the Chief Commissioner may from time to time appoint on this behalf. On failure to pass the said examination, or to obtain the said certificate, they are liable to forfeit their appointments.

(b) Sub-Deputy Collectors.

8. All persons who are applicants for the appointment of Sub-Deputy Collector must first apply for admission to the roll of competitive candidates for such appointments. All such applications shall, as a rule, be made through the Deputy Commissioner of the district to which the applicant belongs, or in which he is serving or living at the time. If the applicant does not reside in Assam, he should forward his application through the Magistrate of the district in which he resides.

9. All applicants for the appointment of Sub-Deputy Collector must be natives of India, as defined in section 6 of the Statute 33 Victoria, Chapter III. Provided that the subjects of Native States in alliance with Her Majesty the Queen-Empress of India shall also, if qualified in other respects, be eligible for appointment to Sub-Deputy Collectorships.

10. Every applicant for the appointment of Sub-Deputy Collector will be required to produce the following certificates:—

(a) That he is in sound health and capable of bearing fatigue and exposure. This certificate must be signed either by the Civil Surgeon of the district in which the candidate resides, or, if he resides in Calcutta, by the Resident Physician or Resident Surgeon of the Calcutta Medical College Hospital.
(b) That he is of good moral character.
(c) That he belongs to a respectable family.
(d) That he is a good rider. This certificate must be signed by a district officer either in Bengal or Assam.

11. It will be in the discretion of the Deputy Commissioner to forward (in the Assam Valley districts) to the Commissioner, or (in the Surma Valley and Hill districts) to the Secretary to the Chief Commissioner, any application preferred to him under Rule 8. If the Deputy Commissioner refuse the application, the applicant may (in the Assam Valley

* Subject to the approval of the Secretary of State.

districts) represent the matter to the Commissioner, or (in the Surma Valley and Hill districts) to the Chief Commissioner, whose decision shall be final.

12. If an application under Rule 8 is forwarded by the Deputy Commissioner, a nomination roll in Form A annexed to these rules shall be submitted. The Deputy Commissioner shall also record a distinct opinion regarding the applicant's qualifications for office.

13. The Commissioner, Assam Valley Districts, and Heads of Departments may, without any recommendation from the Deputy Commissioner, send to the Secretary to the Chief Commissioner nominations of applicants for the appointment of Sub-Deputy Collector already in Government employ, and who have served directly under their orders, or in respect to whose qualifications they may have had special opportunities of forming an opinion. All such nominations should be accompanied by the certificates and nomination roll required by Rules 10 and 12.

14. No applicant for the appointment of Sub-Deputy Collector shall ordinarily be nominated who is under 22 or over 25 years of age, unless he is already in the public service, or is a licensed pleader and is not over 30 years of age.

15. No person shall be nominated as a candidate for the appointment of Sub-Deputy Collector who has not passed an Indian University Examination, or other examination equivalent thereto.

Persons who have served Government for six years and have held for not less than two years a responsible permanent appointment above that of copyist with a salary of not less than Rs. 50 per mensem in one of the Civil Departments of the Government service are exempted from the operation of this rule.

16. In nominating applicants for the appointment of Sub-Deputy Collector, special weight should be given to the following points :—

Good character.
Education and knowledge of English.
Previous good service, if any.
Constitution and physical fitness for active work, and ability to ride.

17. If the Chief Commissioner approves a nomination for the post of Sub-Deputy Collector, the applicant's name will be entered in the roll of competitive candidates, and two copies of the entry will be forwarded to the Commissioner, Deputy Commissioner, or Head of Department who made the nomination; one to be filed in the office, and the other to be given to the candidate.

18. In the following rules "Candidate" means an applicant for appointment as Sub-Deputy Collector whose name has been entered in the roll of competitive candidates under Rule 17.

"Selected candidate" means a candidate who has been successful in the examination, as provided by these Rules, or who has been declared to be a selected candidate by the Chief Commissioner under Rule 25.

19. An examination of candidates for the appointment of Sub-Deputy Collector will be held at Gauhati and Sylhet on such dates as may from time to time be notified in the *Assam Gazette*. Such notification shall be three months in advance of the examination, and shall specify the number of vacant appointments which are open for competition. The Examination Committee will consist of the officers who form the Committee for the departmental examination of Assistant and Extra Assistant Commissioners.

The subjects of examination will be the following :—

I. Vernacular of the province (Assamese or Bengali at the option of the candidate)—
Reading, handwriting, composition and conversation ... 200 marks.

The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.
(2) Translation from English into the vernacular selected.

II. English—
Reading, handwriting, composition, conversation, and dictation ... 200 marks.

The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include précis-writing and letter-drafting. In awarding marks great weight will be attached to good and legible handwriting.

III. Arithmetic, Mensuration, and Theoretical Surveying ... ... 100 marks.

The standard in these subjects will be—

(1) Rule of three.
(2) Greatest Common Measure.
(3) Least Common Multiple.
(4) Vulgar Fractions as far as is necessary as a preparation for decimal fractions.
(5) Decimals (omitting repeating decimals).
(6) Tables of English Land Measurement.
(7) Reduction from *bighas*, *kathas*, and *lessas* to acres and decimals, and *vice versâ*.
(8) Construction of Diagonal Scales.
(9) Calculation of Areas of Polygons.
(10) Use of the Talc Square or Area Comb.

20. A candidate who proposes to appear for examination must submit his name through the Deputy Commissioner of the district in which he is serving or permanently residing, or through the Head of his Department, to the Secretary to the Chief Commissioner in the General Department not later than one month before the date fixed for the examination.

A candidate may compete at one or both of the two examinations immediately succeeding the date of his admission to the roll of candidates, and no more.

21. The aggregate number of the marks obtained by a candidate at the examination will, except as provided in Rule 25, determine his position on the list of selected candidates. Candidates who fail to obtain half marks in each subject of examination will be disqualified.

22. Instead of entering for the above examination, a candidate who has passed the F. A. Examination of the Calcutta University, or an examination equivalent thereto, may apply to the Director, Department of Land Records and Agriculture, the Commissioner, or the Secretary to the Chief Commissioner, to be taken as a probationer in his office.

23. One such probationer may be annually taken by each of the above officers with the previous consent of the Chief Commissioner.

24. The probationer will receive pay not exceeding Rs. 75 a month, as the Chief Commissioner may determine in each case, and will be under the orders of the head of the office to which he may be appointed. The period of probation will ordinarily be one year.

25. At the end of the period of probation, the head of the office will submit a confidential report to the Chief Commissioner regarding the probationer, and the Chief Commissioner will decide whether the probationer is to be recorded as a selected candidate or not, and, if so recorded, will determine his place on the list of selected candidates. It must, however, be distinctly understood that no probationer will be regarded as having any claim to an appointment merely by reason of his having been favourably reported on at the end of his term of probation.

26. The Chief Commissioner may extend the period of probation as he thinks fit.

27. Ordinarily the selected candidate highest on the list of selected candidates will be appointed to a vacancy in the office of Sub-Deputy Collector. If such vacancy be temporary only, and the selected candidate has to vacate the appointment, his name will be retained in its original place on the list.

28. The Chief Commissioner reserves to himself the right of appointing to the office of Sub-Deputy Collector any selected candidate, irrespective of his position on the list, or the date when he passed the examination prescribed in Rule 19, or any person other than a selected candidate, should the exigencies of the public service render such a course necessary. In selecting officers for the appointment of Sub-Deputy Collector, preference will be given *cæteris paribus* to natives of Assam.

29. All persons appointed to the office of Sub-Deputy Collector will be on probation for two years, during which they must pass an examination in the subjects and obtain the certificate prescribed for tahsildars in Rule 7, failing which they will be liable to forfeit their appointments.

30. Sub-Deputy Collectors will, after being confirmed in their appointments, be promoted, as vacancies occur, according to seniority, subject to fitness and approved conduct, but the Chief Commissioner reserves to himself the power to promote any particular officer out of turn without reference to seniority in cases of exceptional merit.

(c) *Extra Assistant Commissioners.*

31. Applications for the appointment of Extra Assistant Commissioner from persons who are residents of Assam may be made direct to the Secretary to the Chief Commissioner, but must be accompanied by the certificates referred to in Rule 10, unless the applicant holds the appointment of Sub-Deputy Collector and has already submitted such certificates before receiving such appointment.

32. Every application for the appointment of Extra Assistant Commissioner should give the particulars required to be entered in columns 3 to 22 of Form A annexed to these rules, and, if the applicant is not a resident of Assam, should give references which will enable the Chief Commissioner to ascertain by enquiry his qualifications for the office of Extra Assistant Commissioner.

33. Sub-Deputy Collectors who have been confirmed and who have passed under the Departmental Examination Rules by the Lower Standard in Accounts and by the Higher Standard in the vernacular of the district are eligible for promotion to the rank of Extra Assistant Commissioner, but are not entitled, as a matter of course, to such promotion. In making such promotions preference will be given to officers who have taken an Indian University degree, or who have rendered exceptionally good service.

34. Selections for the appointment of Extra Assistant Commissioner will ordinarily be made from amongst the following classes of persons :—

(a) Sub-Deputy Collectors eligible under Rule 33.

(b) Graduates of an Indian University or persons who have passed an examination equivalent to that for an Indian University degree.

Provided that candidates for admission under class (b) must not be over 25 years of age, unless they are barristers, advocates, or pleaders, in which case their age must not exceed 30 years.

Provided also that no candidate for admission under class (b) shall be eligible who has not a thorough knowledge of one of the vernaculars of the province, including ability to read and write the written character with facility.

In making such appointments, the Chief Commissioner will give preference *cæteris paribus* to natives of Assam.

The subjects of Native States in alliance with Her Majesty the Queen-Empress of India are eligible for appointment to Extra Assistant Commissionerships, provided that they are qualified in other respects.

35. Europeans who are not natives of India, if otherwise qualified, may be appointed to the office of Extra Assistant Commissioner with the previous sanction of the Government of India in each case.

36. First appointments to the office of Extra Assistant Commissioner will be on probation, and an Extra Assistant Commissioner will not ordinarily be confirmed until he has obtained the certificate prescribed in Rule 7, and until he has also passed under the Departmental Examination Rules by the Lower Standard in Law and Revenue and Accounts, and, unless specially exempted, by the Higher Standard in the vernacular of the district in which he is serving. First appointments will also ordinarily be in the seventh or lowest grade. The Chief Commissioner, however, reserves to himself the power in very special cases of making appointments to any grade in which there may be a vacancy.

37. An Extra Assistant Commissioner who fails to pass in the prescribed subjects or to obtain the necessary certificate within two years from the date of appointment will be liable to forfeit his appointment.

38. An Extra Assistant Commissioner will take rank in the grade to which he is appointed according to the date of his confirmation.

39. Extra Assistant Commissioners will after being confirmed in their appointments, be promoted up to and inclusive of the fifth grade, as vacancies occur, according to seniority, subject to fitness and approved conduct. Promotion to the fourth and higher grades will be given according to merit, and not necessarily according to seniority.

40. An Extra Assistant Commissioner, of whatever grade, will not ordinarily be promoted to a higher grade until he has passed under the Departmental Examination Rules by the Higher Standard in Law and Revenue, in Accounts, and in both languages.

41. No Extra Assistant Commissioner shall be dismissed from Government service otherwise than on the result of a judicial or formal departmental enquiry, if one is asked for.

FORM A.

Nomination Roll (*Rule* 12).

Date of nomination.	Name and designation of officer who nominates.	Name.	Father's name.	Date of birth, tribe, nationality, religion.	Native of what place and belonging to what family.	Where educated.	Examinations passed.	Acquainted with what languages and to what extent.	The several situations in which previously employed, Government, municipal, or private.	How employed now.	Relatives now in Government employment in Assam and their appointments.	Abstract of testimonials in consecutive order according to date.	Extract of description of character from service book, if already in Government employ.	Substance of medical certificate.	Examination for Government service, either in Assam or Bengal, at which he has appeared, and the result.	Statement of landed property held in Assam. District in which held.	Nature of property and extent of interest held.	Whether held in his own name or in the name of another or by his wife.	Whether acquired by inheritance or purchase.	Name and place of residence of superior landlord, if any.	Annual value.	Remarks.

NOTIFICATION—No. 4476L.R.

The 27th December, 1892.—In continuation of the notification, dated the 17th June, 1890, published at pages 603—614, Part I of the *Calcutta Gazette* of the 18th idem, the Lieutenant-Governor is pleased to direct that the following Rule shall be substituted for Rule 14 of the Revenue Money-Order Rules:—

"The amounts represented by these treasury vouchers are not charged against Letters of Credit. but by transfer, and may be paid to any amount quite independently of the balance of such Letters of Credit as the treasury holds in favour of the Post Office"

And that the following Rule shall be substituted for Rule 26 of the Revenue Money-Order Rules:—

"The Treasury officer will, on the same day, charge off the amount represented by the treasury voucher (A. C. 14) by transfer and credit the amounts of the several money-orders as shewn in the list and on the acknowledgments to the appropriate Departments."

If the estate or holding on account of which a remittance has been received is situated in another district, the remittance should be credited in the usual way, and the Collector to whom the money-order should have been addressed should be advised of the credit according to the procedure in Chapter IV, Section XIII, Rule 3 of the Board's Rule (Miscellaneous Volume, 1888). The remitter should also be advised of his error by a note on the money-order acknowledgment.

If it should be found that a revenue money-order has been erroneously issued for a remittance of some due other than Land Revenue, Road or Public Works cess or Zamindari Dâk cess, the Treasury officer should make a note to that effect against the entry of the money-order on the duplicate list, and forward the coupon and acknowledgment with an advice list (Form 4, G. M. O.) to the appropriate department for disposal under the Rules in Part III of the Rules for Government Money-Orders other than Revenue Money-Orders.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 3744.

The 26th December 1892.—The Lieutenant-Governor cannot allow Mr. C. H. Tawney, C.I.E., Officiating Director of Public Instruction, to retire from the service of Government, without recording his acknowledgment of that officer's great ability and his labours in the cause of education in Bengal. As a Sanskrit scholar Mr. Tawney has earned a European reputation; as a Professor, as Principal of the Presidency College, and as an influential member of the Calcutta University, he has held a conspicuous position, and has conduced greatly to the elevation of the standard of higher education in the departments with which he has been so long connected.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

The 27th December 1892.—The following prospectus of the Bihar Industrial School is published for general information.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

Bihar Industrial School, Patna.

Prospectus 1892-93.

1. The Bihar Industrial School was re-opened on the 25th of November 1892.

Terms and Vacations.

2. The year is divided into two terms as follows (all dates being inclusive):—First term commences on 16th June, and ends on the day preceding the Durga Puja holidays.

Second term commences on the day next succeeding the Durga Puja holidays, and ends on 30th April. On account of the date fixed for re-opening the second term of this year will be a broken one.

Examinations will take place between the 1st and 15th May of each year; the remaining parts of the year will be vacations. Gazetted and local holidays will be holidays in the school.

Admission of Students.

3. The school is open only to residents in Bihar. It is divided into two departments—

(*a*) Apprentice Department.
(*b*) Artisan Department.

During the year 1892-93 twenty-four boys, if possible two from each district in Bihar, will be admitted to the Apprentice Department and twelve boys to the Artisan Department under the following conditions.

4. For admission to the Apprentice Department candidates must possess a certificate from the Head Master of a school under public management stating that the candidate has been promoted at least to the second class in the school. They must be under sixteen years of age, must produce a certificate of good conduct, and be passed by a Civil Surgeon as physically fit for work in the shops.

5. On applying for admission candidates will be required to sign an engagement to the effect that they will conform to such regulations as have been or may be made for maintenance of order in the classes and in the workshops. The Committee has the sole and entire management of the school, and may refuse admission or expel students whenever, in the exercise of its discretion, it shall have concluded that the interests of the school require such a step to be taken.

Fees.

6. Candidates for the current year 1892-93 will receive instruction free.

Scholarships.

7. A certain number of scholarships of about Rs. 5 per mensem will, it is hoped, be given by the different District Boards to apprentices whilst pursuing their course of instructions at the school.

A certain number of scholarships of Rs. 10 a month tenable for three years, subject to the usual conditions of progress and good behaviour, will be awarded to the best students electing to undergo the further training at Sibpur.

8. *Course of Study.*

Subjects.	1st year.	2nd year.	3rd year.
Mathematics ...	Arithmetic, Algebra, Euclid.	Algebra, Euclid; Mensuration.	Mensuration, Trigonometry.
Drawing ...	Printing scales, Elementary Geometrical drawing.	Orthographic projection.	Plan-drawing.
Engineering ...	Nil	Building materials ...	Building materials, Estimating.
Surveying ...	Nil	Chain and compass surveying.	Levelling.
Workshops ...	Carpenter's shop ...	Blacksmiths's shop ...	Fitter's shop.

9. After a three years' course at the Bihar Industrial School in July of each year, those apprentices who wish to continue their course will be allowed to go to the Sibpur College to be examined. The examination will be both theoretical and practical; those who pass may be admitted to the 3rd year class of the Sibpur College, Apprentice Department, and become members of that Institution.

Artisan Department.

10. For admission to the Artisan Department, the lower primary standard will be required as a qualification. Candidates must be between the ages of 12 and 16 years and of good physique. They will be required to sign the engagement referred to in paragraph 5 and will be subject to all the conditions laid down in that paragraph.

Fees.

11. Candidates for the current year 1892-93 will receive instructions free.

Stipends.

12. Stipends at the rate of Rs. 3 per mensem will be given to the boys of this department whilst pursuing their studies in the school; and a limited number of stipends not exceeding Rs. 7 per mensem will be given to those who are subsequently admitted to the Sibpur College.

Course of Study.

13. The course of study in this Department will consist of three years' practical work supplemented by elementary instruction in laying out work full size and learning the elements of drawing and mensuration. It will be optional for the boys to adhere to one trade for three years or to adopt the course qualifying for Sibpur. At the end of the three years, those who elect the latter will be at liberty to apply for permission to go to the Sibpur College.

14. The Committee has power to alter any of the foregoing rules and to frame new rules as it may think desirable for the welfare of the institution.

General.

15. All enquiries and all correspondence generally are to be addressed to the Honorary Secretary to the Committee of the Bihar Industrial School.

A. FORBES, *Commissioner of Patna, and President to the Bihar Industrial School Committee.*

NOTIFICATION—No. 5058F.

The 21st December 1892.—It is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and upon the application and with the concurrence of the Honourable Sir Charles Elliott, K.C.S.I., in his private capacity, doth hereby order and direct that the Government Promissory Notes of the four per cent. loan of which the particulars are contained in the first schedule hereunder written, shall, as from the 1st January 1893, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council) upon trust for ever hereafter to receive the interest of the said securities when and as the same shall become due and payable and from time to time to apply the same in terms of the scheme for the creation of an endowment for the encouragement of original research in Physical Science in Bengal, of which particulars are contained in the second schedule hereunder written: *and it is* hereby further notified that the said scheme, of which the particulars are contained in the said second schedule, shall come into operation on the vesting of the said securities in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal.

The first schedule above referred to.

One-four per cent. Government Promissory Note No. 218995 of 1842-43 for Rs. 5,000 (five thousand).

The second schedule above referred to.

(*a*) The prize, *i.e.*, the annual sum received as interest, is to be awarded, whether in cash or partly in the form of a gold medal and partly in cash, for any original essay giving the results of original research or investigation in any branch of Physical, Chemical, Mathematical or Natural Science, composed and published during the calendar year on account of which the prize is given. It shall be called the "Elliott Prize for Scientific Research."

(*b*) Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

(*c*) The Trustees to be appointed under section 5 (1) of Act VI of 1890 to administer the property shall be—

The President of the Asiatic Society.
The Vice-Chancellor of the Calcutta University.
The Director of Public Instruction, Bengal.

(*d*) These Trustees shall have power to consult as experts—

The Superintendent, Botanical Gardens.
The Superintendent, Geological Survey.
The Meteorological Reporter to Government of India.
The Superintendent, Imperial Museum.
The Principal, Medical College, Calcutta.
The Professor of Physiology, Medical College.
The Director or Managing Secretary to the Indian Association for the advancement of Science.
The Professor of Physical Science, Presidency College, Calcutta.
The Professor of Chemistry, Presidency College, Calcutta.
The Professor of Mathematics, Presidency College, Calcutta.

(*e*) The endowment to have effect from 1st January 1893. The essays of competitors to be sent in to the President, Asiatic Society, by the end of December of each year. The prize to be adjudged to the best competitor and awarded publicly at the Annual General Meeting of the Asiatic Society in February.

(*f*) The Trustees to announce, in January of each year, to which of the four branches of Science named in (*a*) the competitors for the prize shall address themselves.

(*g*) Preference to be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize to be awarded, but the amount to be retained, so that in any future year two or more prizes may be given, or the prize enhanced in the case of an exceptionally good essay.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 204A.

The 22nd December 1892.—Maulvi Syed Mohamed Yusuf Ali, B.L., is appointed to act as a Munsif in the district of Saran, to be ordinarily stationed at Siwan, during the absence, on leave, of Babu Mahendra Nath Dass, or until further orders.

The 24th December 1892.—The following Officiating Deputy Magistrates and Deputy Collectors are vested with the powers of a Magistrate of the third class :—

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

RAILWAY.

The 23rd December 1892.

No. 359.—*Notification.*—Whereas it appears to the Lieutenant-Governor of Bengal that land in the Muzaffarpur, Monghyr, and Darbhanga districts is likely to be needed for a public purpose, viz., for the construction of a railway from Hajipur, late Anarpur station (Tirhut State Railway), on the east bank of the Gundak river to Begumserai station on the Tirhut Railway, notice is hereby given to all whom it may concern that, in exercise of the power conferred by section 4 of the Land Acquisition Act, 1870, the Lieutenant-Governor has authorized the Bengal and North-Western Railway Engineers for the time being engaged on this undertaking to enter upon and survey lands and do all other acts required for the proper execution of their work, as provided or specified in the said section.

The general route taken for the railway will probably be from Hajipur station, Tirhut State Railway, passing near Mohnar and Dhuneyspur to Begumserai station, Tirhut State Railway.

This notification is published in modification of notification No. 331, dated 28th November 1892, which was published at page 1064, Part I of the *Calcutta Gazette* of the 30th idem.

No. 360.—*Notification.*—The services of Babu Lachmi Narayan Singh, Deputy Collector employed in acquiring land for the Chapra Division of the Bengal and North-Western Railway in Saran, are replaced at the disposal of the Appointment Department of this Government, with effect from the 1st May 1892.

This cancels the notification No. 336, dated the 29th November 1892, of this Department.

ESTABLISHMENT.

The 27th December 1892.

No. 363.—The following extract from a notification issued by the Government of India, in the Public Works Department, is republished for information:—

No. 449, dated the 19th December 1892.—The following promotions and reversions are ordered in the Superior Accounts Branch:—

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 21st December 1892.

No. 358.—Mr. E. A. Smith, Assistant Engineer, 2nd grade, is posted to the Sone Circle.

The 27th December 1892.

No. 361.—With reference to the notification of this Department, No. 344, dated the 9th instant, Mr. G. A. G. Shawe, Executive Engineer, is temporarily posted to the office of the Superintending Engineer, Orissa Circle.

No 362.—Mr. P. G. Jacobs, Assistant Engineer, Eastern Sone Division, is transferred to the South-Western Circle.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

[Third Publication]

The 10th December 1892.

No. 110*Marine.*—In exercise of the power vested in the Local Government under section 6 of Act X of 1889 (the Indian Ports Act), and in supersession of Rule LVI of the rules relating to the Port of Chittagong, sanctioned under notification No. 144Marine, dated the 2nd June 1890, and published in the Appendix to the *Calcutta Gazette* of the 4th idem,

the Lieutenant-Governor intends to make the following rule with a view to prevent the occurrence of fire on boardships while being loaded with jute or other inflammable cargo. The rule will be taken into consideration on the expiry of one month after its first publication in the gazette, and the Local Government will receive and consider any suggestions or observations that may be made concerning it before the expiry of that period:—

"No person shall smoke or use naked lights of any description in the hold or between decks of any vessel lying in the port, nor shall smoking or the use of any naked lights be allowed on the upper deck, except within the compartments set apart for the Captain, officers and crew, or passengers of any vessel when in the act of loading or discharging jute, mineral oil or any other inflammable cargo. Closed lanterns, burning candles or vegetable oil, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between decks or into the hold."

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

JAIL DEPARTMENT.

No. 13097, *dated the 22nd December* 1892.—Mr. G. A. Davis, Deputy Superintendent, made over charge of the Buxar Central Jail to Mr. M. S. Emerson on the forenoon of the 18th December 1892.

A. D. LARYMORE,
For Inspr.-Genl. of Jails, Bengal.

CIVIL MEDICAL DEPARTMENT, BENGAL.

No. 11323, *dated 22nd December* 1892.—Assistant Surgeon Surut Lal Basu, in temporary medical charge of the Madhubani sub-division and dispensary, is appointed to do supernumerary duty at the Medical College Hospital Calcutta, until further orders.

No. 11326, *dated 22nd December* 1892.—In modification of Civil Medical Department notification No. 10453, dated the 30th November 1892, Assistant Surgeon Sris Chandra Sarkar is appointed to have medical charge of the Madhubani sub-division and dispensary in the Darbhanga district.

No. 11343, *dated 22nd December* 1892.—Assistant Surgeon Mothura Nath Sen is appointed to do supernumerary duty at the Medical College Hospital, Calcutta, until further orders.

No. 11354, *dated 22nd December* 1892.—Assistant Surgeon Khirode Chandra Chowdhuri, in medical charge of the Buxa Sub-division and Central Jail, is appointed to have medical charge of the Buxa Dispensary in addition to his other duties under Rule 11 of the Dispensary Manual.

J. G. PILCHER, *Surgeon-Colonel,*
Offg. Inspector-General of Civil Hospitals, Bengal.

W. GRIFFITHS, *Offg. Registrar.*

SENATE HOUSE, *the 26th December* 1892.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 9th and 10th January 1893.

Candidates must apply in writing to the Principal not later than the 31st December 1892 for permission to appear at the examination, enclosing a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 15 and 17 years.

The subjects of examination are—

Arithmetic	... The whole
Algebra	... To Simple Equations.
Euclid	... Books I and II.
English Grammar and composition.	

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted, and his examination fee will be returned.

There will be one vacancy on the free list for Christian apprentices in February next, and sixteen on the reduced* fee list.

For Natives there will be at least eighteen vacancies, possibly more, on the reduced† fee list. These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but Forms to be filled in for the consideration of the Board can be had on application to the Principal.

* Rs. 5 per mensem.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the 18th November* 1892.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1914B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1890-91 will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 4th January 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.
Opium manufactured at the Patna Factory	... ...	1,927
Do. ditto at the Ghazeepore Factory	... ...	1,715
Total	...	3,642

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1892, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1893, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th January 1893, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 19th January 1893.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December 1893 about the dates specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

Total ...	23,124	20,580	43,704

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand

render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1891-92, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,
T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1892.

NOTICE.

APPLICATION for tickets of admission to the Opium Sale-rooms for the year 1893 should be made at the office of the Board of Revenue, Lower Provinces, on or after the 21st instant.

Tickets for the year 1892, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L.P.,
T. INGLIS, *Secretary.*

CALCUTTA, *the 8th December* 1892.

No. 2056B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 1st February 1893, at 11 A.M., and will comprise 3,642 chests, viz.—

		Chests.

Backergunge Collectorate, the 4th November 1892.

F. S. HAMILTON, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Dacca will be put up for sale at the Collector's Office of that district on 5th January 1893 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Dacca Collectorate, the 18th November 1892.

T. L. JENKINS, Collector.

APPENDIX XXIV.

See Chapter II, Part 3, Rule 26.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the East Indian Railway, in the district of Hooghly, will be put up to sale at 12 o'clock on the 12th January 1893, corresponding with the 29th Pous 1299 B.S.

The purchasers of the several plots of land will be subject to the following conditions: -

1st.—The purchasers will have no power to make any excavations on the lands nearer than fifteen feet from the Railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

The 21st November 1892. W. MAXWELL, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Pabna will be put up for sale at the Collector's Office of that district on the 28th December 1892 for arrears of revenue and other demands for the kist of September 1892, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Monghyr Collectorate, the 21st November 1892.

DHANESH CHUNDER ROY, for Collector.

NOTICE is hereby given that the undermentioned plot of land no longer required by Government, situated along the Tirhut State Railway, in the district of Monghyr, will be put up to sale at 12 o'clock on Wednesday, the 18th January 1893, corresponding with the 16th Pous 1300 Fusli, at Begamsarai Station, Tirhut State Railway.

The purchaser of the plot of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land is situate.	Situated on which side of the railway.	Approximate area of lot in bighas and in acres.		Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.
					B. K. D.	A. R. P.	Reasons for exclusion.	A. R. P.

1	Monghyr ...	Pargana Naipur, mauza Dwarkapur.	5	East and west	8 poles or 1 cottah, 6¼ dhoors.		......		The land is situated on mile No. 5, but the area has been shown on the plan of mile No. 6.	

Monghyr Collectorate, the 24th November 1892.

DHANESH CHUNDER ROY, Deputy Collector, *for* Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Muzaffarpur will be put up for sale at the Collector's Office of that district on 4th January 1893, corresponding 2nd Magh 1300F., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

MUZAFFARPUR, the 25th November 1892. T. W. FISCHER, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Balasore will be put up for sale at the Collector's Office of that district on the 30th December 1892 for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

HARA KUMAR MITTER intends to apply for enrolment as a Vakeel of the High Court.

(814—4)

SURESH CHANDRA BASU, B.L., intends to apply for enrolment as Vakil of the High Court.

(860—4)

Caution.

Estate Raja Baroda Kanto Roy, late of Chanchra, in the district of Jessore, deceased.

THE public are hereby informed that the above-named Raja died indebted to Babu Ram Tarun Chutterjee, of No. 66, College Street, Calcutta, in the sum of Rupees fifteen thousand secured by a registered bond executed in his favour by the said Raja, and bearing interest at the rate of 12 per cent. per annum payable out of the zamindari of the said Raja, named pargana Shahosk, which sum still remains unpaid and is repayable out of the estate of the said Raja.

Any one purchasing or otherwise dealing with the said estate shall do so subject to this notice.

RAM TARUN CHUTTERJE, by his Attorney Akhoy Kumar Chutterjee.

66, College Street, Calcutta. (861—3)

(780—3)

Notice

IS hereby given that the District Board of Purnea has declared that during 1893-94 the road cess in this district be levied at six pies per rupee.

C J. S. FAULDER, Chairman, District Board.
Purnea, the 6th December 1892.

Notification.

THE public are hereby informed that the zamindari dák cess on estates paying revenue upwards Rs. 50 in the district of Khulna has been fixed at Re. 1 per cent. for the year 1893-94.

2. The cess is payable in two instalments, viz., within 15th April and 15th October.

ABDUL KHALIQUE, Deputy Magistrate in charge.
Khulna Magistrate's Office, the 19th December 1892.

Notification.

THE zamindari dák tax in the district of Saran for the year 1893-94 is fixed at the rate of 12 annas per cent. per annum on the sadar jama of estates paying a revenue amounting to Rs. 50 (fifty) and over.

The amount due for each estate is payable in two instalments, the first being due on the 28th March 1893 and the second on the 28th September 1893.

M. SERAJUL HUQ, for Offg. Magistrate.
Saran Magistracy, the 16th December 1892.

FALAKATA FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Falakata in the sub-division of Alipur, Western Duars, district Jalpaiguri. The Fair will commence on January 22nd, 1893 (A.D), corresponding with 10th Magh 1299 (B.S.), and will continue up to February 5th, 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey, wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Falakata is situated on the river Moojanai, very conveniently for river traffic from East Bengal, viz., Dacca, Goalundo, Serajganj, Manikganj, etc., and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exist all the way. Arrangements for good drinking water and for comfort of strangers, traders and shopkeepers, and special police arrangements for safety of property and goods, exist. Booths are also erected at Government expense for accommodating shops.

W. H. W. MACKENZIE, Sub-divisional Officer,
Alipore Duars.
Alipore Duars, the 7th December 1892.

ALIPORE FAIR.

Notice.

THE public are hereby informed that a "Fair" will be held at Alipore, in the sub-division of Alipore, Western Duars, district Jalpaiguri. The Fair will commence on 10th January 1893 (A.D.), corresponding with 27th Pous 1299 (B.S.), and will continue up to 24th January 1893. Tradesmen, dealers and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoseri horns, yak tails, musk, honey wax, lac, ponies, and various other articles from Bhutan and Thibet; and also tea, paddy, rice, tobacco, jute, mustard-seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Alipore is just 11 miles from Kuch Bihar, and within easy reach of Jalpaiguri and Kuch Bihar. A good cart and driving road exists all the way. Arrangements for good drinking water and for comfort of strangers will be made. The mêla will be held on high ground situate just on a good stream known as the Kaljani river. Houses, etc., will be suppli d at Government expense. Police and Government officers will see to the comfort and protection of all strangers attending the Fair.

W. H. W. MACKENZIE, Sub-divisional Officer, Alipore Duars.

Alipore Duars, the 5th December 1892.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

26	Jalpaiguri	„ 24, '92	0·25	Weather—cool. Harvesting of *haimanti* paddy going on; outturn fair Prospects of winter crops favourable. Prices stationary. No cattle disease. Fodder and water plentiful.

	No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR.					
Bhagalpur Divn.	27	Monghyr	Dec. 24, '92	Nil	Weather—cold and dry. Harvesting of winter rice and *kurthi* still continues. Prospects of *rabi* and poppy good. No cattle-disease. Prices of common rice:— Srs. Sadar ... ... 13 to 16 } per rupee. Begusarai ... ... 16 } Jamui ... ... 13½ }
		Begusarai	...	Nil	
		Jamui	...	Nil	
	28	Bhagalpur	,, 24, '92	Nil	Weather—seasonable. Prospects of crops favourable.
		Banka	...	Nil	
		Madhipura	...	Nil	
		Supaul	...	Nil	
	29	Purnea	,, 24, '92	Nil	Weather—cold; mornings foggy; west wind. *Aghani* harvesting going on briskly everywhere. *Rabi* prospects good. *Kurthi* being reaped in Araria. Tobacco doing well all over. The Subdivisional Officer of Araria reports that a light shower of rain would benefit the *rabi* crops generally. Fodder and water plentiful. No cattle-disease. Prices of coarse rice about the same as last week.
		Kishanganj	...	Nil	
		Araria	...	Nil	
	30	Malda	,, 24, '92	Nil	Weather—fair and cool. Winter rice still being harvested. Mustard in flower. Wheat and other *rabi* crops thriving. Price of coarse rice 12 to 17 seers per rupee. No want of fodder or drinking water.
	31	Sonthal Parganas	,, 24, 92	Nil	Weather—dry with north-west winds and some clouds. *Aghani* rice harvest well advanced; outturn estimated now about 14 annas. *Rabi* crops doing well. Fodder and water-supply sufficient. Price of rice still high owing to demand from outside.
		Deoghur	...	Nil	
		Rajmahal	...	Nil	
		Godda	...	Nil	
		Pakur	...	Nil	
		Jamtara	...	Nil	
Patna Division.	32	Patna	,, 24, '92	Nil	Weather—clear but cloudy at times. Harvesting and threshing of paddy in progress. Poppy and *rabi* crops doing well. A little rain wanted. The occasional clouds expected to do harm to poppy plants. Price of common rice varies from 13 seers per rupee at Dinapore to 17 seers at Bihar.
	33	Gaya	,, 24, '92	Nil	Weather—cold and clear. Prospects of *rabi* favourable. Reaping of paddy continues. Pressing of sugarcane in progress. Common rice selling at 14 seers per rupee at Gaya. Fodder and water for cattle sufficient.
		Nawada	...	Nil	
		Aurangabad	...	Nil	
		Jahanabad	...	Nil	
	34	Shahabad	,, 24, '92	Nil	Weather—bright and cold; occasionally slightly cloudy, with wind chiefly from west, and heavy dew. Paddy harvest continues. *Rabi* not doing well for want of moisture in the unprotected area of the Sasaram subdivision. It promises well in other parts of the subdivision. Sugarcane being pressed. Price of rice has risen by ½ seers in the rupee at Sasaram, otherwise stationary. Fodder sufficient.
	35	Darbhanga	,, 24, '92	Nil	Weather—cool with west winds. Harvesting of rice still going on. *Rabi* doing well, but rain is much wanted. Mustard, *rahar*, and peas are in flower. Poppy plants look healthy. Prices of common rice varying from 14 to 16 seers per rupee. Condition of cattle good.
	36	Muzaffarpur	,, 24, '92	Nil	Weather—cool and seasonable; occasionally cloudy. Harvesting of winter rice still going on. Prospects of *rabi* and poppy continue good. A shower of rain will be beneficial to the standing crops. Supply of fodder and water for cattle sufficient. Prices stationary.
		Hajipur	...	Nil	
		Sitamarhi	...	Nil	
	37	Saran	,, 24, '92	Nil	Weather—seasonable. *Rabi* crops doing well, but want rain. Condition of poppy good. Fodder and water for cattle sufficient. Prices of common rice:— Srs. c. Chapra ... ... 13 5 } per rupee. Siwan ... ... 13 2 } Gopalganj ... ... 15 12 }
		Siwan	...	Nil	
		Gopalganj	...	Nil	
	38	Champaran	,, 24, '92	Nil	Weather—bright and very cold. Harvesting of rice crop still in progress. Prospects of *rabi* crops and poppy favourable. A shower of rain will do good to standing crops. Cattle in good condition. Fodder and water ample. Prices steady.
ORISSA.					
Orissa Divn.	39	Cuttack	,, 24, '92	Nil	Weather—cold. *Sarad* harvest well advanced. Cold weather crops promising. Fodder and water sufficient. Prices of rice:— Srs. c. Srs. c. Sadar ... ... 10 8 to 20 0 } per rupee. Jajpur ... ... 15 12 to 20 0 } Kendrapara ... ... 14 7 to 21 8 } Banki ... ... 17 0 }
	40	Puri	,, 22, '92	Nil	Weather—seasonable. Reaping of *sarad* continues. *Dalua* being sown. Miscellaneous crops doing fairly well. Rice sells at from 15 to 17 seers per rupee.
		Khurda	...	Nil	
		Banpur	...	Nil	
	41	Balasore	,, 24, '92	Nil	Weather—normal. The harvesting of winter rice still continues. Prices stationary. Fodder and water-supply sufficient.

	No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAGPUR.					
South-West Frontier Agency.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period ... humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 ... e normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station ... e, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 24th of December 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Of week. Normal mean.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th October 1892. Mean for district.	Since 16th October 1892. Normal mean.	Since 16th October 1892. Variation.	DISTRICT.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 24th of December 1892.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 18th.	Monday, 19th.	Tuesday, 20th.	Wednesday, 21st.	Thursday, 22nd.	Friday, 23rd.	Saturday, 24th.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th October 1892.	Average rainfall from 16th October to date.

nation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are e corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least rain has fallen.

CALCUTTA, *the 27th December* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 24TH OF DECEMBER 1892.

The meteorological changes during the week under review have again been unimportant, and fine settled weather of ordinary north-east monsoon character has prevailed almost throughout the week. On the first day, or the 18th instant, pressure had fallen rapidly over the northern half of the province, and had become moderately in defect of the normal, while it had fallen slowly only at the southern stations, and was still in slight excess. The mean temperature over the greater part of the province was slightly above the normal, though defects were shown at some of the central and eastern stations. The variations from the normal of both day and night temperatures were about equal, the unusually large defect which had characterised the night temperatures for some time previous to this having disappeared. A light to moderate northerly and north-westerly wind was blowing over the whole province, humidity and cloud proportion were low, and rainfall was entirely absent. On the 19th, pressure rose over the northern half of the province, though it was still falling slowly at the southern stations, and on the 20th a rather brisk increase had extended over the whole province, so that pressure became generally in excess of the normal by about a twentieth of an inch. During these two days also temperature had generally fallen, and for the 20th the mean temperature was below the normal by amounts ranging usually from 1° to 3°, the defect being largest at the central stations. A further increase of pressure took place on the 21st instant, and pressure became in excess of the normal by amounts ranging up to nearly a tenth of an inch in Bihar, but, on the other hand, temperature had risen and had become fairly normal. A rapid fall of pressure took place on the 22nd, though pressure still remained in slight excess of the normal, while temperature was in excess of the normal by small amounts at the northern and in slight defect at the southern stations. On the 23rd instant the changes of pressure were small and rather irregular, and temperature rose very slowly and became in slight excess of the normal at the great majority of stations. Finally, on the 24th instant, or the last day of the week, pressure rose by small to moderate amounts over the whole province and became in excess of the normal by amounts ranging up to a twenteith of an inch, while temperature had again risen very slowly, and was in excess of the normal by about 1° to 2°.

Up to about the 22nd instant weather continued perfectly fine, and rain was absent from the whole province, but after this date, a slight disturbance occurred in the hills, and one or two light local showers, but of no practical importance, were reported from the districts in and near the Himalayas; but except in the Darjeeling and Kuch Bihar districts, the whole province was rainless for the whole week. Throughout the week, therefore, ordinary cold weather conditions have again prevailed. Light northerly winds have blown steadily in all districts, the sky has been almost cloudless in most districts, and humidity and temperature have been generally low.

Pressure—Has been in excess of the normal for the greater part of the week, and the mean of the seven days has shown an excess of about 0·02″ to 0·04″. This excess has been fairly equally distributed in all divisions.

Temperature.—The mean temperature for the week has been more nearly normaly than has been the case for a considerable period, and for the whole province the mean has been less than a fifth of an inch in defect of the normal. In the western districts, indeed such as Bihar and Chota Nagpur, temperature has been in slight excess, while the largest defects have been registered in East and South-West Bengal, where they have equalled nearly a degree.

The distribution of temperature for the week in the province generally, and its variation from the normal value are clearly seen in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are compared with their normal values for the same period. Again, it will be seen that the largest defects have been recorded in the night or minimum temperature, which at Calcutta has been about 2° below the normal:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 24th December 1892.

	Normal mean maximum temperature for the week ending 24th December.	Actual mean maximum temperature for the week ending 24th December 1892.	Variation of actual mean from the normal. Rainfall.—Except for light showers of less than a quarter of an inch in the districts in and near the hills, the whole province has been rainless throughout the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 24th of December 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

△, dew; ≡, fog.
